

Option Rights Retained Over Baga Gold Project, Côte d'Ivoire

Many Peaks Minerals Limited (ASX:MPK) (**Many Peaks** or the **Company**) is pleased to advise that it has elected to maintain its 24-month option on an exclusive right to acquire up to 100% of the Baga Gold Project (**Baga**) and will proceed with a 12 month option fee to maintain the option (refer to ASX announcement dated 27 June 2024).

Baga covers a strategic land position within the Birimian greenstone belts of West Africa, a region well-endowed with world-class gold deposits. Initial fieldwork completed by Many Peaks has identified encouraging structural and geological features warranting follow-up investigation. Systematic surface soil geochemistry survey programmes have been initiated, with all results pending. The Company will continue advancing exploration activities during its 24-month option period and further updates will be provided as results and progress milestones are achieved.

***Many Peaks Managing Director, Travis Schwertfeger, commented:** “The decision to maintain our option over the Baga Gold Project is aligned with our strategic focus on gold exploration in Côte d'Ivoire. Early work is progressing across the vast land holding and this payment allows us to continue building our geological understanding ahead of more advanced exploration efforts.”*

The Company has amended its option agreement with Atlantic Resources CI SARL (Atlantic) and the shareholders of Atlantic (Vendors) to restructure the 12-month option fee and the consideration payable upon exercise of the option. Under the revised terms, the original all-scrip-based payments have been replaced with a reduced number of shares to be issued, together with a fixed cash payment. The cash component may be settled in either cash or shares, at the election of Many Peaks.

Further details regarding the Amended Option Agreement, including the revised terms and conditions, are provided in the Summary set out in Appendix A to this announcement.

This announcement has been authorised for release by the Board of Directors.
