

UPDATE ON DRILLING

Astro Resources NL is an Australian-based mineral resources company focused on the commercial development and production of economically and environmentally sustainable mineral sands deposits, diamonds, gold and other minerals.

Astro Resources NL (**ARO** or the **Company**) is pleased to advise that its Governor Broome South East infill drilling programme has been completed.

171 air-core holes were drilled for a total of 2,863 m. Samples have been delivered to a mineral sands laboratory for heavy mineral separation. Splits of most samples have been retained for later use for bulk test-work.

The resource estimate will be updated as soon as all results have been received and this stage, the Board is anticipating for the announcement of those results the revised resource within the June Quarter.

Further updates will be provided as they become available.
