GPS GATING FEATURE LAUNCHED

Wangle Technologies Limited (Wangle or the Company) (ASX:WGL) is pleased to announce that the **Wangle Family Insites (WFI)** GPS Gating feature has launched.

WFI GPS Gating

The WFI GPS Gating feature allows parents to set an alert that activates when a child's device moves outside of a 20-metre radius from the chosen location. This new feature completes the Company's short-term development goals for WFI in 2017 in readiness for aggressive acquisition marketing activity.

ABOUT WANGLE FAMILY INSITES

Wangle Family Insites (**WFI**) offers parents a unique approach to ensuring the safe use of the internet by children and teenagers. By utilising Wangle's world class VPN network, backed by the research insights of childhood development research organization Telethon Kids Institute, WFI monitors mobile network patterns in real time and advises parents of potential threats as well as providing greater details and resources to parents on the threats identified.

ABOUT WANGLE TECHNOLOGIES

Wangle Technologies has developed patented algorithms that not only optimise, compress and secure the data flow to mobile devices, but facilitate real time analysis of network patterns and usage behaviours. Wangle's technology provides compelling value to consumers, service providers and enterprises looking for innovative low-cost solutions for managing network capacity and use.
