Transurban Launches 2015 Sustainability Report

Transurban today released its 2015 Sustainability Report which details progress and performance under our sustainability strategy.

The strategy comprises three focus areas:

1. Be good neighbours
2. Use less
3. Think long term

The principles inherent in these focus areas enhance Transurban's ability to deliver efficient and integrated transport networks that support productivity and community wellbeing.

Under these focus areas, ongoing business wide initiatives have continued and a range of new projects have been launched over the course of the year.

The 2015 Sustainability Report is available online at <http://www.transurban.com/sr15/>.
