Issue Date 3 December 2019

About this PDS

This Product Disclosure Statement ("PDS") has been prepared and issued by Equity Trustees Limited ("Equity Trustees", "we" or "Responsible Entity") and is a summary of the significant information relating to an investment in the Alexander Fixed Income Fund (the "Fund"). It contains a number of references to important information (including a glossary of terms) contained in the Alexander Fixed Income Fund Reference Guide ("Reference Guide"), which forms part of this PDS. You should carefully read and consider both the information in this PDS, and the information in the Reference Guide, before making a decision about investing in the Fund.

The information provided in this PDS is general information only and does not take account of your personal objectives, financial situation or needs. You should obtain financial and taxation advice tailored to your personal circumstances and consider whether investing in the Fund is appropriate for you in light of those circumstances.

The offer to which this PDS relates is only available to persons receiving this PDS (electronically or otherwise) in Australia.

This PDS does not constitute a direct or indirect offer of securities in the US or to any US Person as defined in Regulation S under the Securities Act of 1933 as amended ("US Securities Act"). Equity Trustees may vary this position and offers may be accepted on merit at Equity Trustees' discretion. The units in the Fund have not been, and will not be, registered under the US Securities Act unless otherwise approved by Equity Trustees and may not be offered or sold in the US to, or for, the account of any US Person (as defined in the Reference Guide) except in a transaction that is exempt from the registration requirements of the US Securities Act and applicable US state securities laws.

The Reference Guide

Throughout the PDS, there are references to additional information contained in the Reference Guide. You can obtain a copy of the PDS and the Reference Guide, free of charge, by calling Alexander Funds on +613 9039 5050 or visiting www.alexanderfunds.com.au or by calling the Responsible Entity.

The information contained in the Reference Guide may change between the day you receive this PDS and the day you acquire the product. You must therefore ensure that you have read the Reference Guide current as at the date of your application.

Updated information

Information in this PDS is subject to change. We will notify you of any changes that have a material adverse impact on you or other significant events that affect the information contained in this PDS. Any information that is not materially adverse information is subject to change from time to time and may be obtained by calling Alexander Funds on +613 9039 5050 or visiting www.alexanderfunds.com.au. A paper copy of the updated information will be provided free of charge on request.

1. About Equity Trustees Limited

The Responsible Entity

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Fund's responsible entity are governed by the Fund's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed Alexander Funds Management Pty Ltd ("Alexander Funds" or the "Investment Manager") as the investment manager of the Fund. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

The Investment Manager

Alexander Funds Management Pty Ltd

Alexander Funds is a boutique Australian fund manager that was established in 2009 and specialises in the fixed income credit markets. It aims to provide its clients with stable returns and consistent distributions through investing in portfolios of fixed income credit products.

Alexander Funds has a proven track record of providing its clients with access to opportunities in the fixed income credit markets that they are not able to access directly or through other funds. It invests alongside its clients in every fund that it manages which adds to the level of trust that it has developed with its clients.

The Alexander Funds investment team has decades of experience in the global fixed income credit markets and have experienced managing credit portfolios through a number of business and economic cycles. This gives it the capabilities and the confidence to be able to identify the best relative value credit products in all types of markets.

2. How the Alexander Fixed Income Fund works

The Fund is a registered managed investment scheme governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Direct investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however, it does not give investors an interest in any particular asset of the Fund.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become an investor in the Fund. The operator or custodian of the IDPS will be the investor entered in the Fund's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Fund through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

Applying for units

You can acquire units by completing the Application Form that accompanies this PDS or by making an application through the mFund settlement service ("mFund") by placing a buy order for units with your licensed broker. The minimum initial investment amount for the Fund is \$25,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

Alexander Fixed Income Fund
C/- One Registry Services
PO Box R1479
Royal Exchange NSW 1225

Please note that cash and cheques cannot be accepted.

If applying via mFund you will need to provide the application money directly to your licensed broker.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Fund's investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.10%.

The Buy Spread may change depending on the liquidity of the assets within the Fund's portfolio at that time. Any changes to the spreads after the date of this PDS will be published on Alexander Fund's website at www.alexanderfunds.com.au.

The Application Price will vary as the market value of assets in the Fund rises or falls.

Making additional investments

You can make additional investments into the Fund at any time by sending us your additional investment amount together with a completed Application Form. The minimum additional investment into the Fund is \$10,000.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income quarterly at the end of June, September, December and March, however, Equity Trustees may change the distribution frequency without notice. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their AUD Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

Access to your money

Investors in the Fund can generally withdraw their investment by completing a written request to withdraw from the Fund and mailing it to:

Alexander Fixed Income Fund
C/- One Registry Services
PO Box R1479
Royal Exchange NSW 1225

Or sending it by fax to (02) 8580 5790

Or by making a withdrawal request through mFund by placing a sell order for units with your licensed broker.

The minimum withdrawal amount is \$10,000. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s) or if the withdrawal is received via mFund.

Equity Trustees will generally allow an investor to access their investment within 5 days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investor's nominated bank account or, where the request is received via mFund, to the investor's licensed broker. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 21 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.10%.

The Sell Spread may change depending on the liquidity of the assets within the Fund's portfolio at that time. Any changes to the spreads after the date of this PDS will be published on Alexander Fund's website at www.alexanderfunds.com.au.

The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Fund falls below \$25,000 as a result of processing your withdrawal request. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Fund including due to one or more circumstances outside its control or where the Fund is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

Further reading

You should read the important information in the Reference Guide about:

- Application cut-off times;
- Application terms;
- mFund
- Authorised signatories;
- Reports;
- Withdrawal cut-off times;
- Withdrawal terms; and
- Withdrawal restrictions,

under the "Investing in the Alexander Fixed Income Fund", "Managing your investment" and "Withdrawing your investment" sections before making a decision. Go to the Reference Guide which is available at www.alexanderfunds.com.au. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

3. Benefits of investing in the Alexander Fixed Income Fund

The Fund is managed by experienced fixed income specialists who have extensive knowledge of the products that they invest in. The Investment Manager has access to opportunities in the fixed income credit markets that are not available to non-institutional investors.

The Fund aims to provide quarterly distributions with low volatility in its unit price.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and the Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

Concentration Risk

Concentration risk is the risk that the Fund is not diversified enough. The Fund targets an asset allocation range that aims to reduce concentration risk although this may not be achievable when the Fund is in its embryonic stage.

Credit Risk

Credit risk is the risk that a loss incurred when the borrower or an issuer of a security fails to pay their principal or interest obligations when they are due. This is the primary risk within the portfolio and it is analysed in many different ways by the Investment Manager.

Credit limits, which are set through risk management processes, provide a framework for the amount of credit risk that the Fund can take, and this risk can be supplemented or hedged through the use of tools such as credit derivatives.

Currency Risk

The Fund is denominated in Australian dollars, but the portfolio may include investments that are denominated in foreign currency and a move in the relevant foreign currency may impact the value of that investment.

Derivative Risk

The Fund may invest in derivatives for investment purposes as well as for hedging purposes. The use of derivatives can lead to losses because of adverse movements in the price or value of the asset, index, rate or instrument underlying a derivative, the failure of a counterparty (as a result of its bankruptcy, insolvency or default), the illiquidity of the instrument, or tax or regulatory constraints.

Economic Risk

Economic risk is the risk that certain events or circumstances may cause a downturn in economic conditions which may adversely impact the value and liquidity of the Fund's investments.

Inflation Risk

This is the risk that inflation will undermine the performance of the Fund. This is not a significant risk because the Fund primarily invests in assets that have floating rate coupons. If inflation rises the floating rate coupon on these assets generally also rises.

Interest Rate Risk

Interest rate risk is the risk that a loss is incurred by the Fund's investments due to a change in the level of interest rates.

Liquidity Risk

There is no guaranteed market for the credit products that the Fund invests in. Accordingly, the Fund may need to wait before it is able to liquidate various assets in its portfolio.

The Investment Manager attempts to mitigate the liquidity risk factor by aiming to have the Fund have sufficient cash or liquid assets to meet liquidity requirements. Note that we do not guarantee the liquidity of the Fund's investments.

Manager Risk and Key Person Risk

The Investment Manager's investment strategy may not be successful and may result in the underperformance of the Fund, the Investment Manager may fail to implement the investment strategy and key staff with extensive investment experience may leave.

Personnel within the Investment Manager's team may also change from time to time.

Manager risk and key person risk are mitigated to the extent that the portfolio managers have ownership in Alexander Funds.

5. How we invest your money

Warning: Before choosing to invest in the Fund you should consider the likely investment returns, the risks of investing and your investment time frame.

Investment objective

The Fund aims to provide clients with a consistent income stream and stable unit price by investing in a diversified portfolio of primarily, investment grade, Australasian fixed income credit assets.

Benchmark

The Ausbond Bank Bill Index plus 1%.

Minimum suggested time frame

3 to 5 years.

Risk level of the Fund

Low to medium.

Investor suitability

The Fund is suited to retail or wholesale investors seeking an investment that aims to provide quarterly distributions and a stable unit price.

Investment style and approach

The Investment Manager applies a Relative Value Trading approach to identifying opportunities in the fixed income credit markets and an overall hedging strategy that looks to protect against systemic shocks to the markets. The portfolio targets a Credit Duration range of positive five years to negative two years and an Interest Rate Duration range of positive two years to negative two years. This means that the portfolio can be short both credit risk and interest rate risk.

The Fund may use derivatives for both investment and hedging purposes. The derivatives used by the Fund may include exchange traded derivatives and over-the-counter derivatives such as credit default swaps, interest rate swaps and cross currency swaps.

Asset allocation

The Fund can invest in the full spectrum of fixed income credit assets including but not limited to: corporate bonds, corporate debt, bank bills, commercial paper, bank loans, hybrids, unit trusts, mortgage-backed securities, asset backed securities, credit and other derivatives and credit linked notes and convertible preference and ordinary shares.

The Fund targets the following asset allocation ranges. These ranges are measured on the face value of each asset. This may not be achievable when the Fund is in its embryonic stage. Further due to movements in the market or similar events, the guidelines set out below may not be adhered to from time to time. In these circumstances, the Manager will seek to bring the Fund's investments within the guidelines within a reasonable period of time.

Investment Grade Allocation Range

Investment Grade - 75% to 100%

Non-Investment Grade or Unrated - 0% to 25%

Asset Type Allocation Range

Cash - 0% to 100%

Corporate Bonds/Loans - 0% to 100%

Senior and Subordinated Bank Debt - 0% to 50%

Bank Tier 1 - 0% to 20%

Residential Mortgage-Backed Securities - 0% to 25%

Asset Backed Securities - 0% to 20%

Regional Asset Allocation Range

Australasia - 60% to 100%

North America - 0% to 20%

Europe - 0% to 20%

Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

Labour, environmental, social and ethical considerations

The Responsible Entity and the Investment Manager do not generally take into account labour standards or environmental, social or ethical considerations for the purposes of selecting, retaining or realising investments.

Fund performance

Investors can review the Fund's performance at www.alexanderfunds.com.au

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following template can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor’s account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

TYPE OF FEE OR COST	AMOUNT
Fees when your money moves in or out of the Fund	
Establishment fee	Nil
Contribution fee	Nil
Withdrawal fee	Nil
Termination fee	Nil
Management costs	
The fees and costs for managing your investment ¹	Management fees: 0.65% p.a. of the NAV of the Fund ²

¹All fees quoted above are inclusive of Goods and Services Tax (GST) and net of any Reduced Input Tax Credits (RITC). See below for more details as to how management costs are calculated.

²Management fees can be negotiated. See “Differential fees” below.

Additional Explanation of fees and costs

What do the management costs pay for?

Management costs comprise the additional fees or costs that an investor incurs by investing in the Fund rather than by investing directly in the underlying assets of the Fund.

Management costs include management fees. In addition, management costs do not include transactional and operational costs (i.e. costs associated with investing the underlying assets, some of which may be met by Buy/Sell Spreads).

Management fees

The management fees of 0.65% p.a. of the NAV of the Fund are payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees are accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, ordinary expenses such as investment management fees, custodian fees, administration and audit fees, and other ordinary expenses of operating the Fund are covered by the management fees at no additional charge to you.

The management fees shown above do not include extraordinary expenses (if they are incurred in future), such as litigation costs and the costs of convening investor meetings.

Transactional and operational costs

In managing the assets of the Fund, the Fund may incur transactional and operational costs such as brokerage, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold, and the costs of derivatives used for hedging purposes (if applicable). This generally happens when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread reflects the estimated transaction costs incurred in buying or selling assets of the Fund when investors invest in or withdraw from the Fund. The Buy/Sell Spread is an additional cost to the investor but is incorporated into the unit price and incurred when an investor invests in or withdraws from the Fund and is not separately charged to the investor. The Buy Spread is paid into the Fund as part of an application and the Sell Spread is left in the Fund as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.10% upon entry and 0.10% upon exit. The dollar value of these costs based on an application or a withdrawal of \$25,000 is \$25 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion.

Transactional costs which are incurred other than in connection with applications and withdrawals arise through the day-to-day trading of the Fund’s assets and are reflected in the Fund’s unit price. As these costs are factored into the NAV of the Fund and reflected in the unit price, they are an additional implicit cost to the investor and are not a fee paid to the Responsible Entity. These costs can arise as a result of bid-offer spreads (the difference between an asset’s bid/buy price and offer/ask price) being applied to securities traded by the Fund. Liquid securities generally have a lower bid-offer spread while less liquid assets have a higher bid-offer spread reflecting the compensation taken by market makers in providing liquidity for that asset.

During the financial year ended 30 June 2019, the total transaction costs for the Fund were estimated to be 0.38% of the NAV of the Fund, of which 60.65% of these transaction costs were recouped via the Buy/Sell Spread, resulting in a net transactional cost to the Fund of 0.15% p.a.

However, actual transactional and operational costs for future years may differ.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. Equity Trustees has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly. We will generally provide investors with at least 30 days’ notice of any proposed change to the management costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Expense recoveries may change without notice, for example, when it is necessary to protect the interests of existing members and if permitted by law.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor. If the payment of annual fees to IDPS Operators is limited or prohibited by the law, Equity Trustees will ensure the payment of such fees is reduced or ceased.

Differential fees

The Responsible Entity or Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients.

mFund

Warning: if you are transacting through mFund your stockbroker or accredited intermediary may charge you additional fees (see their Financial Services Guide).

Example of annual fees and costs for the Fund

This table gives an example of how the fees and costs for this managed investment product can affect your investment over a 1 year period. You should use this table to compare this product with other managed investment products.

EXAMPLE – Alexander Fixed Income Fund		
BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR		
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management costs	0.65% p.a.	And, for every \$50,000 you have in the Fund you will be charged \$325 each year
Equals Cost of Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees of: \$325* What it costs you will depend on the fees you negotiate.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore management costs are calculated using the \$50,000 balance only.

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust (“AMIT”) and the choice is effective for the income year, are attributed to them.

Further reading
You should read the important information about Taxation under the “Other important information” section before making a decision. Go to the Reference Guide which is available at www.alexanderfunds.com.au. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

8. How to apply

To invest please complete the Application Form accompanying this PDS, send funds (see details in the Application Form) and your completed Application Form to:

Alexander Fixed Income Fund
C/- One Registry Services
PO Box R1479
Royal Exchange NSW 1225

If applying via mFund you will need to provide the application money directly to your licensed broker.

Please note that cash and cheques cannot be accepted and all applications must be made in Australian dollars.

Who can invest?

Eligible persons (as detailed in the ‘About this PDS’ section) can invest, however individual investors must be 18 years of age or over.

Investors investing through an IDPS should use the application form provided by their IDPS Operator.

Cooling off period

If you are a Retail Client who has invested directly in the Fund, you may have a right to a ‘cooling off’ period in relation to your investment in the Fund for 14 days from the earlier of:

- confirmation of the investment being received; and
- the end of the fifth business day after the units are issued.

A Retail Client may exercise this right by notifying Equity Trustees in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.

The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as a unit holder in the Fund during the 14 day period. This could include selling part of your investment or switching it to another product.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Fund by the IDPS. The right to cool off in relation to the Fund is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unit holder in the Fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor’s investment in relation to the Fund and any rights an Indirect Investor may have in this regard.

Complaints resolution

Equity Trustees has an established complaints handling process and is committed to properly considering and resolving all complaints. If you have a complaint about your investment, please contact us on:

Phone: 1300 133 472
Post: Equity Trustees Limited
GPO Box 2307, Melbourne VIC 3001
Email: compliance@eqt.com.au

We will acknowledge receipt of the complaint as soon as possible and in any case within 3 days of receiving the complaint. We will seek to resolve your complaint as soon as practicable but not more than 45 days after receiving the complaint.

If you are not satisfied with our response to your complaint, you may be able to lodge a complaint with the Australian Financial Complaints Authority (“AFCA”).

Contact details are:

Online: www.afca.org.au

Phone: 1800 931 678

Email: info@afca.org.au

Post: GPO Box 3, Melbourne VIC 3001.

The external dispute resolution body is established to assist you in resolving your complaint where you have been unable to do so with us. However, it’s important that you contact us first.

9. Other information

Consent

The Investment Manager has given and, as at the date of this PDS, has not withdrawn:

- its written consent to be named in this PDS as the investment manager of the Fund; and
- its written consent to the inclusion of the statements made about it which are specifically attributed to it, in the form and context in which they appear.

The Investment Manager has not otherwise been involved in the preparation of this PDS or caused or otherwise authorised the issue of this PDS. None of the Investment Manager nor their employees or officers accept any responsibility arising in any way for errors or omissions, other than those statements for which they have provided their written consent to Equity Trustees for inclusion in this PDS.

mFund Settlement Service

You must use a mFund accredited and licensed broker to facilitate your transactions on mFund. Your chosen broker may charge you additional fees which are not outlined in Section 6 of this PDS.

Further reading

You should read the important information in the Reference Guide about:

- Your privacy;
- The Constitution;
- Anti-Money Laundering and Counter Terrorism Financing laws (“AML/CTF laws”);
- Indirect Investors;
- Information on underlying investments;
- Foreign Account Tax Compliance Act (“FATCA”);
- Common Reporting Standard (“CRS”); and
- NAV for the Fund,

under the “Other important information” section before making a decision. Go to the Reference Guide which is available at www.alexanderfunds.com.au. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.
