15 September 2014

Drilling Completed

Highlights:

- **Drilling Completed at Gidgee**

Gateway Mining Ltd ('Gateway' or 'the Company') is pleased to advise that the aircore program, details of which can be found in the Company's announcement of 18 August 2014, has been successfully completed. Approximately 3,200m were drilled.

Several prospects returned very interesting visual results. Assays are expected within a two to three week period.

Further updates will be provided in due course

The information in this report that relates to Exploration Results, Mineral Resources or Ore Reserves is based on information compiled by Mr Scott Jarvis, a full time employee & Head Geologist at Gateway Mining, a member of the Australian Institute of Geoscientists. Mr Scott Jarvis has a minimum of 5 years' experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the "Australian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Scott Jarvis consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.
