US Tariff Increase

Yowie Group Ltd (ASX: YOW) (the "Company" or "Yowie") provides an update on its earlier announcement on 7 April 2025 regarding the impact of US Tariffs, noting that overnight the US Government has further increased the tariffs on Chinese goods entering the US to 145%.

As previously advised, Yowie manufactures its US distributed product in the US, however, it sources inputs for that product from around the world. The two material inputs are chocolate and toys. The latter Yowie sources from China, at a budgeted cost of US\$2.5 million a year. The revised tariff rate has a likely incremental impact on Yowie's cost base of US\$3.6 million p.a. (A\$5.8 million p.a.), bringing the total cost of toys to US\$6.1 million p.a.

Yowie currently holds approximately US\$0.85 million in Chinese made toy inventory in China or en route to USA which would result in an unbudgeted incremental import cost of US\$1.2 million (A\$2.0 million) based on the increased tariff.

Keybridge Loan

Yowie previously announced on 10 February 2025 that it called in its loan facility with Keybridge Capital Limited (in Administration) ("Keybridge"). Further, Yowie recently advised that WAM Active Limited ("WAM") were proposing to fund Keybridge, via a related party loan arrangement, to enable the payment of Keybridge creditors. Yowie now understands that the purported funding proposal has not been approved by the WAM Active Limited board and, accordingly, is not available to Keybridge (or, as a result, Yowie) to rely upon.

Yowie will continue to monitor the situation and will update shareholders as further information becomes available.

This announcement has been authorised for release by the Managing Director.
