8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer: No. Operating cashflow in the second quarter of FY24 will be lower with less work being undertaken on the Company's tenements. Also, a large amount of funds used in the current quarter was to pay off outstanding creditors who had longer payment terms as funds were received from the capital raising. Trade creditors now sit at a low level for the business.

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: The business is currently looking at its short term cashflow needs but will need to raise funds within the next 3-6 months. Further announcements will be made in due course. The Board is also of the opinion that the Company will be able to raise additional funds to support ongoing operations based on previous fundraising experience.

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes. The company can meet its immediate requirements but will need to raise funds shortly to meet future needs.

*Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.*
