Corporate governance roles and responsibilities have been delegated to various committees and outlined in respective Charters at the Board level, senior executive and senior management level.

Given the ongoing expansion of the business in terms of both size and complexity, the General Counsel was assisted in this role by the Company's Risk & Compliance Manager.

Further, the committee provides oversight to the internal audit function, which also monitors and administers the current risk management framework. Refer also to Principle 7 below.

NEXTDC and the Board are committed to achieving and demonstrating the highest standards of corporate governance. The Board continues to review the Company's policies and practices to ensure they meet the interests of shareholders.

A description of the Company's main corporate governance practices is set out below. All these practices, unless otherwise stated, were in place for the entire period.

Principle 1

Lay solid foundations for management and oversight

Responsibility for the Company's proper corporate governance rests with the Board. The Board's guiding principle in meeting this responsibility is to act honestly, conscientiously and fairly, in accordance with the law, in the interests of NEXTDC's shareholders (with a view to building sustainable value for them) and those of employees and other stakeholders.

The Board's broad function is to:

- chart strategy and set financial targets for the Company;
- identify principal risks of the Company's business;
- monitor the implementation and execution of strategy and performance against financial and non-financial targets; and
- appoint and oversee the performance of executive management, and generally to take and fulfil an effective leadership role.

Power and authority in certain areas is specifically reserved to the Board – consistent with its function as outlined above. These areas include the:

- composition of the Board itself including the appointment and removal of Directors;
- oversight of the Company including its control and accountability system;
- appointment and removal of senior management including the Chief Executive Officer, Chief Financial Officer and Company Secretary;
- review and oversight systems of risk management and internal compliance and control, codes of ethics and conduct, and legal and statutory compliances;
- monitoring of Senior Executive performance and implementation of strategy; and
- approval and monitoring of financial and other reporting, and the operation of committees.

Day to day management of the Company's affairs and the implementation of the corporate strategy and policy initiatives are formally delegated by the Board to the CEO.

The Company Secretary

NEXTDC's Company Secretary plays an important role in supporting the effectiveness of the Board and its committees. The Company Secretary is responsible for the efficient administration of the Company, particularly with regards to ensuring compliance with statutory and regulatory requirements. The Company Secretary also seeks to ensure that decisions of the Board are implemented.

Terms of appointment

New Directors are provided with a letter of appointment setting out the Company's expectations, their rights and responsibilities, and the terms and conditions of their employment. All new Directors participate in an induction program which covers the operation of the Board and its committees, as well as issues of finance, strategy, operations and risk management.

Each member of the Senior Executive team signs a formal employment contract at the time of their appointment, covering a range of matters including their duties, rights, responsibilities and any entitlements on termination. The contract refers to a specific formal job description which is reviewed by the committee periodically and, where necessary, revised in consultation with the relevant employee.

Performance assessment

All Senior Executives are subject to an annual performance evaluation that includes a formal review of their performance during the year, setting of key performance indicators and, where relevant, personal development plans. The Board will continue to monitor ongoing performance of Senior Executives.

In relation to Senior Executives, performance assessment includes:

- Developing and implementing a plan for identifying, assessing and enhancing competencies of Senior Executives; and
- Ensuring that the performance of each Senior Executive are evaluated at least annually.

In terms of the Board, performance evaluation consists of:

- Considering and articulating the time needed to fulfil the role of Board Chair and Non-Executive Directors;
- Developing and implementing a plan for identifying, assessing and enhancing Director competencies;
- Regularly evaluating the performance of the Board and each Director on an annual basis, including an assessment of whether each Director has devoted sufficient time to their duties; and
- Ensuring the Board has access to continuing education to update and enhance their skills and knowledge.

Principle 2

Structure the Board to add value

The Board operates in accordance with the broad principles set out in its charter, which is available from the corporate governance information section of NEXTDC's website at www.nextdc.com. The Charter details the Board's composition and responsibilities.

The independent Non-Executive Director Mr Douglas Flynn was appointed Chairman of the Board in April 2014 and continues to hold that position.

As the Company matures the Board has considered its composition and the skills and experience that it feels can complement and add value to its current mix of directors and their skill sets.

The Board considers that its current Board composition is well suited to leading the Company into the next phase of its development and that the Board provides a suitable mix of experience in financing, technology and management that is well placed to provide leadership in the Company's future development. The Company will continue to review its Board composition from time to time as a matter of good governance, but considers that its current composition, including size and skills based on the below skill sets, contributes to an efficient and balanced Board.

Skill	Description
Finance	Those directors that carry professional qualifications in finance disciplines, exhibit a high level of financial acumen, and/or carry direct experience in equity capital markets.
Technology	Professional qualifications and experience in the research, development and implementation of technology services and infrastructure management software.
Management & Leadership Experience	Directors that have extensive experience in executive strategy positions, including previous managing director, chief executive and strategic senior manager roles.

Board composition

The Board Charter states:

1. the Board of Directors shall comprise of no less than three and no more than twelve directors at any one point in time. The Company and the Board will endeavour to have a majority of independent Directors and an independent Chairman.
2. Directors will be elected for a maximum three year term.
3. If no Director would otherwise be required to retire but the Listing Rules require that an election of Directors be held at an annual general meeting, the Director to retire at that meeting is:
 - a. the Director who has held office as Director the longest period of time since their last election or appointment to that office; or
 - b. if two or more Directors have held office for the same period of time, the Director determined by lot, unless those Directors agree otherwise.

The Board seeks to ensure that:

- at any point in time, its membership represents an appropriate balance between Directors with experience and knowledge of the Company and Directors with an external or fresh perspective; and
- the size of the Board is conducive to effective discussion and efficient decision-making.

Directors' independence

The Board has adopted specific principles in relation to Directors' independence. An independent Director is a Non-Executive Director (i.e. is not a member of management) and who:

1. is not a substantial shareholder of the Company (i.e. is not a person who in conjunction with an associate holds a relevant interest in 5% or more of the shares of the Company) or an officer of, or otherwise associated directly with, a substantial shareholder of the Company;
2. within the last three years has not been employed in an executive capacity by the Company or another group member, or been a Director after ceasing to hold any such employment;
3. within the last three years has not been a principal of a material professional adviser or a material consultant to the Company or another group member, or an employee materially associated with the service provided. A material professional adviser is the Company's auditor (regardless of the fees paid to the auditor) and any other advisor to whom fees in excess of \$100,000 have been paid in any financial year in the relevant three year period; or
4. has no material contractual relationship with the Company or another Group member other than as a Director of the Company, including as a supplier or customer of the Company or other Group member, or an officer of or otherwise associated directly or indirectly with a material supplier or customer.

From a Director's perspective, a Director has a material contractual relationship if the fees paid by the Company to the Director or an entity associated with the Director, exceed 5% of the fees received by the Director or their firm or 10% of all fees supervised by the Director (or for which the Director is otherwise given credit in a performance review) within the entity associated with the Director in any financial year in the relevant three year period.

From the Company's perspective, a Director has a material contractual relationship if goods or services supplied by the Director to the Company exceed 5% of the direct operating costs of the Company for any year in the relevant three year period; or

5. has not served on the Board for a period in excess of ten years; or
6. is free from any interest and any business or other relationship which could, or could reasonably be perceived to, materially interfere with the Director's ability to act in the best interests of the Company.

However, a Director may be considered independent notwithstanding that he or she does not meet one of the criteria set out above, subject to appropriate explanation by the Board.

The Board assesses independence each year. To enable this process, the Directors must provide all information that may be relevant to the assessment.

Board members

Details of the members of the Board, their experience, expertise, qualifications, term of office, relationships affecting their independence and their independent status are set out in the directors' report under the heading "Information on Directors". At the date of signing the Directors' Report, there was one Executive Director and four Non-Executive Directors on the Board. All of the four Non-Executive Directors are considered independent.

Non-Executive Directors

The Non-Executive Directors regularly met during the year to discuss the operation of the Board and a range of other matters. Relevant matters arising from these meetings were shared with the full Board.

Chair and Chief Executive Officer (CEO)

The Chair is responsible for leading the Board, ensuring Directors are properly briefed in all matters relevant to their role and responsibilities, facilitating Board discussions and managing the Board's relationship with the Company's Senior Executives. In accepting the position, the Chair has acknowledged that this position will require a significant time commitment and has confirmed that other positions will not hinder his or her effective performance in the role of Chair.

The CEO is responsible for implementing strategies and policies. The Board Charter specifies that these are separate roles to be undertaken by separate people.

Induction

The induction provided to new Directors and Senior Executives enables them to actively participate in Board decision-making as soon as possible. It ensures that they have a full understanding of the Company's financial position, operations, strategies, culture, values and risk management policies. It also explains the respective rights, duties, responsibilities, interaction and roles of the Board and Senior Executives and the Company's meeting arrangements.

Commitment

The Board held 25 Board meetings during FY18.

The number of meetings of the Company's Board and of each Board committee held during the year ended 30 June 2018, and the number of meetings attended by each Director is disclosed on page 19 of the FY18 Annual Report.

The commitments of Non-Executive Directors are considered by the Remuneration and Nomination Committee prior to the Directors' appointment to the Board of the Company and are reviewed each year as part of the annual performance assessment.

Prior to appointment or being submitted for re-election, each Non-Executive Director is required to specifically acknowledge that they have and will continue to have the time available to discharge their responsibilities to the Company.

It is the Company's practice to allow its Non-Executive Directors to accept appointments outside the Company with prior written approval of the Board.

Conflict of interests

Directors are required to keep the Board advised, on an ongoing basis, of any potential or actual conflicts of interest. Furthermore, the Board has adopted a specific policy for dealing with conflicts of interest relating to cross-directorships, in addition to already existing policies and Corporations Act requirements in terms of which conflicts of interest are managed.

Independent professional advice

Directors and Board committees have the right, in connection with their duties and responsibilities, to seek independent professional advice at the Company's expense. Prior written approval of the Chair is required, but this will not be unreasonably withheld.

Board committees

The Board has established the Audit and Risk Management Committee and the Remuneration and Nomination Committee to assist in the execution of its duties, and to allow detailed consideration of complex issues. Each is comprised entirely of Non-Executive Directors and a majority of independent Directors. The committees' structure and membership is reviewed on an annual basis.

Each committee has its own written Charter setting out its role and responsibilities, composition, structure, membership requirements and the manner in which the committee is to operate. All of these Charters are reviewed on an annual basis and are available on the Company's website. All matters determined by committees are submitted to the full Board as recommendations for Board decisions.

Minutes of committee meetings are tabled at the subsequent Board meeting. Additional requirements for specific reporting by the committees to the Board are addressed in the Charter of the individual committees.

Principle 3

Promote ethical and responsible decision making

Code of conduct

The Company has developed Codes of Conduct (the Codes) which have been fully endorsed by the Board and apply to all Directors and employees. The Codes are regularly reviewed and updated as necessary to ensure they reflect the highest standards of behaviour and professionalism and the practices necessary to maintain confidence in the Company's integrity and to take into account legal obligations and reasonable expectations of the Company's stakeholders.

In summary, the Codes require that, at all times, all Company personnel act with the utmost integrity, objectivity and in compliance with the letter and the spirit of the law and Company policies.

The purchase and sale of Company securities by Directors and employees is regulated by the Company's Securities Trading Policy. Further details on this can be found in the Remuneration Report. Any transactions undertaken must be notified to the Company Secretary or Chairman in advance.

The Codes and the Company's Securities Trading Policy are discussed with each new employee as part of their induction training, and employees receive regular refresher training.

The Directors are satisfied that the Company has complied with its policies on ethical standards, including trading in securities.

A copy of the Codes and the Securities Trading Policy are available on the Company's website.

Culture and ethical behaviour

Under the Code of Conduct, the Company is committed to acting as a good corporate citizen while it pursues its business objectives. The ethical standards which all Company employees are expected to uphold include 'Customer First', 'One Team', 'Bright Ideas', 'Pursuit of Excellence', 'Straight Talk' and 'Frugal Not Cheap'. NEXTDC strives to maintain a reputation as a good corporate citizen and acts with honesty and integrity in all dealings with the Company's customers, suppliers and competitors and colleagues.

The Company has a clear position on fraud, bribery and corruption to ensure no illegal, unethical or a breach of trust is committed.

Under the Whistleblowers Policy, NEXTDC is committed to promoting a culture of corporate compliance and ethical behaviour and aims to create an environment in which employees or contractors who have genuine suspicions about improper conduct, feel safe to report without fear of reprisal. The Chief People and Culture Officer has been appointed as the Whistleblower Protection Officer to ensure that reporters are not personally disadvantaged as a consequence of making a report.

Corporate social responsibility

NEXTDC is committed to ensuring it operates with social responsibility, ethical considerations, integrity and cultural sensitivity, while employing clear standards of corporate governance and complying with all relevant legislative requirements. The adoption of the Corporate Social Responsibility Policy compliments the core values of **excellence, one team, innovation, communication, efficiency** and **customer first**.

The NEXTDC Corporate Social Responsibility Policy supports the following objectives:

- provide and maintain a safe and healthy working environment for all workers, customers and visitors;
- proactively identify the actual and potential negative social, environmental and economic impacts of NEXTDC's decisions and activities, with the aim of avoiding and mitigating those impacts;
- respect fundamental human rights and the dignity of people by actively promoting equal opportunity, equality and diversity irrespective of race, ethnic or national origins, gender, sexuality, disability, marital status and religious belief;
- be accountable and transparent and, subject to privacy and other obligations, prepared to publicly disclose our performance and experiences in managing our impact on society and the environment; and
- build relationships with our stakeholders by providing an avenue for them to express their feedback and listening to their interests and concerns.

Diversity

The Company realises the benefits that can arise to the organisation from diversity in the workplace, covering gender, age, ethnicity and cultural background and various other areas. The Company's Diversity Policy seeks to capture these issues and sets measurable objectives.

Management report against diversity including gender and cultural origins, as well as measuring against the effectiveness of any employee programs and initiatives.

In FY18 the Company has continued the focus on the measurable objectives as set out in the Diversity Policy. The company promotes flexible working arrangements with many employees working from home and working flexible hours to suit their personal needs. The measurable objectives include a parental leave program, goals for female representation, a gender pay audit and a Company-wide diversity forum consisting of staff representation, Senior Executives and subject matter experts.

The Company continues to target an improvement in the overall gender diversity ratio. In FY18, the percentage of overall female representation in the Company was approximately 30%. NEXTDC ensures that during the recruitment processes, shortlisted candidates include female representation where possible. Currently, our female representation target is set at 50% of short-listed candidates. The Company also demonstrates gender diversity at the Board level, where 20% of Board members are female.

All employees, including new employees, are required to undergo formal anti-discrimination training, with refresher training conducted annually, which covers various forms of discrimination, including sexual orientation, gender and cultural diversity.

A gender pay audit, which was a measurable objective for FY18, was conducted during the period and the results presented to the Board. This will continue to be a key priority for NEXTDC. This is the third year that the Company was required to report to the Workplace Gender Equality Agency and this will be an ongoing requirement. The WGEA compliance report can be found on the Company's website at www.nextdc.com.

Maintaining a balance in pay across genders continues to be a focus during annual pay review session.

The Company promotes flexible working arrangements and works with people returning from parental leave to provide flexible working conditions that meet the needs of the employee. As discussed under Principle 2 above, diversity was a specific consideration in Board selection.

The Company does not discriminate on gender grounds for remuneration or appointments. All remuneration reviews and promotions are determined solely on merit. The Company recruits the most qualified person for any particular role

PwC was appointed as the external auditor in November 2010. As part of PwC's policy to rotate audit engagement partners on listed companies at least every five years, PwC has appointed a new audit engagement partner in FY18.

An analysis of fees paid to the external auditors, including a breakdown of fees for non-audit services, is provided in the Directors' Report. It is the policy of the external auditors to provide an annual declaration of their independence to the audit committee.

The external auditor will attend the annual general meeting and be available to answer shareholder questions about the conduct of the audit and the preparation and content of the audit report.

The Committee reviews the effectiveness of its risk management and internal control processes at least annually.

Principles 5 and 6

Make timely and balanced disclosures and respect the rights of shareholders

Continuous disclosure and shareholder communication

The Company has written policies and procedures on information disclosure that focus on the continuous disclosure of any information concerning the Company that a reasonable person would expect to have a material effect on the price of the Company's securities. These policies and procedures also include the arrangements the Company has in place to promote communication with shareholders and encourage effective participation at general meetings. A summary of these policies and procedures is available on the Company's website at www.nextdc.com.

The Company Secretary has been nominated as the person responsible for communications with the Australian Securities Exchange (ASX). This role includes responsibility for ensuring compliance with the continuous disclosure requirements in the ASX Listing Rules and overseeing and co-ordinating information disclosure to the ASX, shareholders and the public. The CFO is the person responsible for overseeing and coordinating information disclosure to analysts and brokers.

All information disclosed to the ASX is posted on the Company's website on the Investor Centre landing page as soon as it is disclosed to the ASX. When analysts are briefed on aspects of the Company's operations, the material used in the presentation is released to the ASX and posted on the Company's website, if such presentations contain information not already disclosed to the market. Procedures have also been established for reviewing whether any price sensitive information has been inadvertently disclosed and, if so, this information is also immediately released to the market.

The Company also regularly updates the news and social media posts linked to its website (www.nextdc.com/blognews and www.nextdc.com/blog) which details the latest company activity and provides information on data centre development and the release of new products and services.

All shareholders receive a copy of the Company's Annual Report. In addition, the Company seeks to provide opportunities for shareholders to participate through electronic means. This includes making all Company announcements, details of Company meetings, media releases and financial statements available on the Company's website. Shareholders may contact the Company directly, and a dedicated email address (investorrelations@nextdc.com) ensures that email queries are delivered directly to the CFO and CEO or otherwise as appropriate. This email address appears on all ASX announcements and on the Company website under the "Investor Centre" tab.

The Company promotes online voting for shareholder meetings and provides all shareholders with an opportunity to receive electronic communications via the registry.

Where possible, the Company arranges for advance notification of significant group briefings (including, but not limited to, results announcements) and makes them widely accessible.

Principle 7

Detailed work on this task is delegated to the Audit and Risk Management Committee and reviewed by the full Board.

The Audit and Risk Management Committee is responsible for ensuring there are adequate policies in relation to risk management, compliance and internal control systems. They monitor the Company's risk management by overseeing management's actions in the evaluation, management, monitoring and reporting of material operational, financial, compliance and strategic risks.

In providing this oversight, the committee:

- reviews the framework and methodology for risk identification, the degree of risk the Company is willing to accept, the management of risk and the processes for auditing and evaluating the Company's risk management system;

- reviews and, where necessary, approves guidelines and policies governing the identification, assessment and management of the Company's exposure to risk;
- reviews and approves the delegations of financial authorities and addresses any need to update these authorities on an annual basis; and
- reviews compliance with agreed treasury policy.

The committee recommends any actions it deems appropriate to the Board for its consideration.

The Internal Audit function assists the Company to accomplish its objectives by bringing a systematic, disciplined approach to evaluating and continually improving the effectiveness of the risk management framework, internal control and governance processes.

The Committee reviews the effectiveness of its risk management and internal control processes at least annually. The Company outlines a Risk Management Policy to ensure good corporate governance and that strategic and operational objectives as well as legislative, industry and client obligations are met.

Management is responsible for designing, implementing and reporting on the adequacy of the Company's risk management and internal control systems and reports to the committee on the effectiveness of:
