

ASX Release

31 January 2018

Babylon Amended Quarterly Update and Appendix 4C

Highlights

- **Successful ASX re-listing on 10 January 2018 after raising \$4.5m in new capital**
- **Strong growth in revenue and client contracts**
- **Outstanding pipeline of opportunities for early 2018**

The Board of specialist resources services provider Babylon Pump & Power Limited (Babylon), (ASX: BPP, BPPOA), is pleased to present its Quarterly Cash Flow Report for the quarter ended 31 December 2017. The Board is delighted with this early progress and continues to invest in the business and add to its inventory of specialised equipment to meet client needs.

Shareholders should note that, under the required accounting policies, Babylon's financial reports, including the Appendix 4C, only include revenues from 18 December 2017, being the date of completion of the acquisition of Babylon Operations Pty Ltd by Babylon Pump & Power Limited (formerly IM Medical Limited).

Accordingly, Appendix 4C set out below records only circa \$28,000 in cash receipts from customers for Q2 FY17. Babylon Operations Pty Ltd's cash receipts during the quarter prior to 18 December 2017 were approximately \$760,000. The Board of Babylon expect cash receipts in Q3 FY2018 to be materially higher than the combined cash receipts in the previous quarter.

Improving Industry Fundamentals

The Company is continuing to see strength in underlying industry fundamentals which is being reflected in client engagement and Babylon's opportunity pipeline. Completion of the capital raising and relisting in early January has positioned Babylon to aggressively pursue opportunities and has assisted with further engagement within industry network.

Operations Update

Babylon is currently in negotiation with domestic and overseas suppliers to secure additional assets for the specialty rental fleet. In this quarter Babylon has taken delivery of power and compressed air assets to fulfil existing client opportunities, and will continue to build on the fleet to meet client requirements.

Babylon continues to recruit experienced diesel mechanics and pumping specialists, with a progressive increase in headcount planned over the coming quarter to coincide with business growth.

Summary and Outlook

The Board and Management of Babylon are excited about the growth prospects for the Babylon business. Babylon has an outstanding pipeline of opportunities awaiting decision in early 2018, which

is spread across various commodities and clients. The opportunities cover long term rental of specialised pumping and power generation equipment as well as heavy diesel maintenance projects.

The Board is encouraged by the level of activity, the number of clients offering repeat business and the level of inbound inquiry from leading companies seeking specialist service providers. Babylon has a variety of tenders/proposals with key clients and potential clients and is confident of significant growth in the work/order book during the current quarter.

The strong industry fundamentals, combined with the response from clients to the Company's specialised equipment and service capabilities gives the Board of Directors confidence that our underlying business can continue its rapid early growth in 2018.

The Company's cash balance at 31 December 2017 was circa \$4.2 million.

The Company's December 2017 Appendix 4C follows.

Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
2. If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
