

Leading the World in Innovative
Satellite Communications

Investor Presentation
November 2020

DISCLAIMER

This document has been prepared by Beam Communications Holdings Limited and comprises written material/slides for a presentation concerning Beam Communications Holdings Limited and its subsidiaries.

The presentation is for information purposes only and does not constitute or form part of any offer or invitation to acquire, sell or otherwise dispose of, or issue, or any solicitation of any offer to sell or otherwise dispose of, purchase, or subscribe for, any securities, nor does it constitute investment advice, nor shall it or any part of it nor the fact of its distribution form the basis of, or be relied on in connection with, any contract or investment decision.

Certain statements in this presentation are forward looking statements. You can identify these statements by the fact that they use words such as “anticipate”, “estimate”, “expect”, “project”, “intend”, “plan”, “believe”, “target”, “may”, “assume” and words of similar import. These forward looking statements speak only as at the date of this presentation. These statements are based on current expectations and beliefs and, by their nature, are subject to a number of known and unknown risks and uncertainties that could cause the actual results, performances and achievements to differ materially from any expected future results, performance or achievements expressed or implied by such forward looking statements.

No representation, warranty or assurance (express or implied) is given or made by Beam Communications Holdings Limited that the forward looking statements contained in this presentation are accurate, complete, reliable or adequate or that they will be achieved or prove to be correct. Except for any statutory liability which cannot be excluded, Beam Communications Holdings Limited and its respective officers, employees and advisers expressly disclaim any responsibility for the accuracy or completeness of the forward looking statements and exclude all liability whatsoever (including negligence) for any direct or indirect loss of damage which may be suffered by any person as a consequence of any information in this presentation or any error or omission therefrom.

Subject to any continuing obligation under applicable law or any relevant listing rules of the ASX, Beam Communications Holdings Limited disclaims any obligation or undertaking to disseminate any updates or revisions to any forward looking statements in these materials to reflect any change in expectations in relation to any forward looking statements or any change of events, conditions, or circumstances on which any statement is based. Nothing in these materials shall under any circumstances create an implication that there has been no change in the affairs of Beam Communications Holdings Limited since the date of this presentation.

Safety, Reliability, and Trust

These are the reasons thousands of customers have been putting their remote communications needs in our hands

Vision

To be a world leader in product innovation, design and development of satellite and specialised LTE communication solutions

Mission

Saving lives, improving safety and enhancing communications worldwide through the design and development of advanced satellite communications

COMPANY OVERVIEW

Global Player

Only ASX-listed developer of mobile satellite equipment

Recurring Revenue

Subscriptions from ZOLEO to supplement equipment sales

Stable & Resilient

Positive underlying FY20 NPAT despite COVID-19

Strategic Partnerships

Aligned with three of the four largest Mobile Satellite Service Operators globally

Defensive Growth

Demand for Beam's solutions less impacted by economic cycles

Multiple Growth Options

Several new products including ZOLEO and Certus

Beam Communications is an Australian publicly listed company that specialises in the innovation, design, manufacture and global distribution of satellite, cellular and dual mode equipment and solutions

Beam's products and services are adopted by some of the world's largest satellite and telecommunications companies, such as Iridium, Telstra, KDDI, Inmarsat & Thuraya, to fill the global needs of Information Communication & Technology markets

Beam's extensive distribution network reaches all parts of the globe, with strategic partners located and actively selling in all regions globally

Beam is globally recognised for its R&D expertise developing many World's First products for the satellite industry, under the Beam brand and that as OEM products

The company is cash flow positive and generated a positive underlying net profit in FY19 and FY20

BOARD OF DIRECTORS

Simon Wallace

Chairman

Simon Wallace is a corporate lawyer and, based in Melbourne, having previously been an equity partner of the largest law firm in the world, he is now the founder & Managing Partner of his own boutique legal practice.

Simon has extensive legal and commercial proficiency, with particular expertise in the areas of project finance, fundraising and corporate governance. He also has substantial professional experience in the areas of investment banking, structured and direct equity investments, product formulation and sales. More recently, he was a director of ASX-listed Hastings Rare Metals Limited (now known as Hastings Technology Metals Limited) until November 2014.

Michael Capocchi

Managing Director

Michael Capocchi has over 20 years' experience in the ICT industry and has held several senior management positions. Michael is based in Chicago, USA, which places him closer to the important centres for satellite communications in the USA and UK/Europe. Michael joined Beam Communications Holdings Limited as the General Manager of the subsidiary, Beam Communications Pty Ltd, in 2003 and was appointed as Managing Director of World Reach Limited in March 2008. Prior to joining Beam, Michael was the Regional Sales Director for Iridium Satellite LLC, directly managing the sales, distribution and channel management strategies for the Asia-Pacific region.

David Stewart

Non-Executive Director

David Stewart is an experienced CEO and successful entrepreneur with more than 30 years in management and business leadership roles. David founded Banksia Technology Pty Limited in 1988 and successfully managed the company as a fast growing and highly profitable business. In 1996 he instigated the successful takeovers of a number of his competitors, including NetComm Limited, which was completed in November 1997. David assumed the role of CEO and Managing Director until retiring in December 2016. A year later David was appointed as a Non-Executive Director of NetComm Wireless and remains the single largest shareholder.

Carl Hung

Non-Executive Director

Carl Hung has a Bachelor of Commerce degree from the University of British Columbia and an Executive Masters of Business Administration from University of Western Ontario's (UWO) Richard Ivey School of Business. He is a Six Sigma Black Belt certified by SGS. He is also a Certified Management Accountant. Carl is President and CEO of Season Group International Inc, a global Electronic Manufacturing Services provider. He has helped grow the company from USD15 million in 2002 to USD161 million in 2016, expanding the company's footprint from China, Canada and Malaysia to include the USA, Mexico and the UK.

*Carl Hung is retiring from the board in the upcoming annual general meeting on 30/11/2020

OUR PARTNERS

Beam has an extensive network of Tier-1 satellite distribution partners that spans every country across the globe covering thousands of outlets and points of presence

Our distribution focuses on:

- **OEM Development:** Developing and manufacturing devices for leading satellite operators
- **Beam-Branded Equipment:** Wide range of satellite equipment from docks to terminals and antennas
- **SatPhone Shop:** Beam's wholly-owned subsidiary. Largest Telstra satellite equipment retailer

Designed & manufactured the Iridium GO! device. Longstanding Value-Added Developer of many Iridium products and airtime reseller for Voice and Data services. Will be developing new devices for the newest Iridium Certus satellite service. Designed many world's first products for Iridium

Designed and manufactured Inmarsat handheld SatPhone docking units along with development of dedicated products for Marine and Inbuilding applications.

Developed and manufactured Thuraya WE terminal, direct supply contract. Evaluating ways to develop further terminals based on the new technology developed for WE.

Preferred supplier to Telstra since 2002, developing satellite solutions for enterprise and government customers. Established the online SatPhone Shop business as a Telstra-approved dealer. Beam plans to utilise Telstra on new dual-band devices and IoT devices.

Japanese Telco Operator, Beam has been a preferred supplier for over 10 years for Iridium voice, data, IoT solutions

STRATEGIC PARTNERSHIP WITH IRIDIUM

- Iridium Communications Inc. (NASDAQ:IRDM) is a US\$3.6B market cap company headquartered in the United States
- Iridium offers voice and data connectivity through a constellation of 66 cross-linked LEO satellites. It is trusted by more than a million mariners, pilots, humanitarians, first responders, governments, and more around the world
- Beam was appointed a Value Added Manufacturer nearly twenty years ago, as one of Iridium's first partners. Since this time, it has developed a strategic range of Iridium based accessories and terminals for the Iridium satellite network
- The Iridium GO! project was one of the first Iridium product developments fully outsourced, utilising Beam's engineering expertise for product innovation and design . Iridium GO!, a Beam innovation that established the Worlds First Iridium global WiFi hotspot
- Iridium GO! has now generated more than 50,000 Orders and millions of dollars in revenue for Beam and the longevity of this product demonstrates Iridium's ongoing commitment to Beam

- ✓ Fast Check on Device
- ✓ 2-year warranty
- ✓ Dedicated SMS +61 4 number & email

**Iridium has recorded a meaningful
increase in activations of Personal
Communication Devices (PCD's)**

*"And it's also representing the fact that
there's just more and more devices out
there... and we see a number of new
partners that are showing some
success, particularly there's one called
ZOLEO."*

- Matt Desch, CEO, Iridium (20/10/2020)

ZOLEO'S DISTRIBUTION AND CHANNEL PARTNERS

Bass Pro Shops / Cabela's : World's largest outdoor equipment retailer with over 169 stores in North America

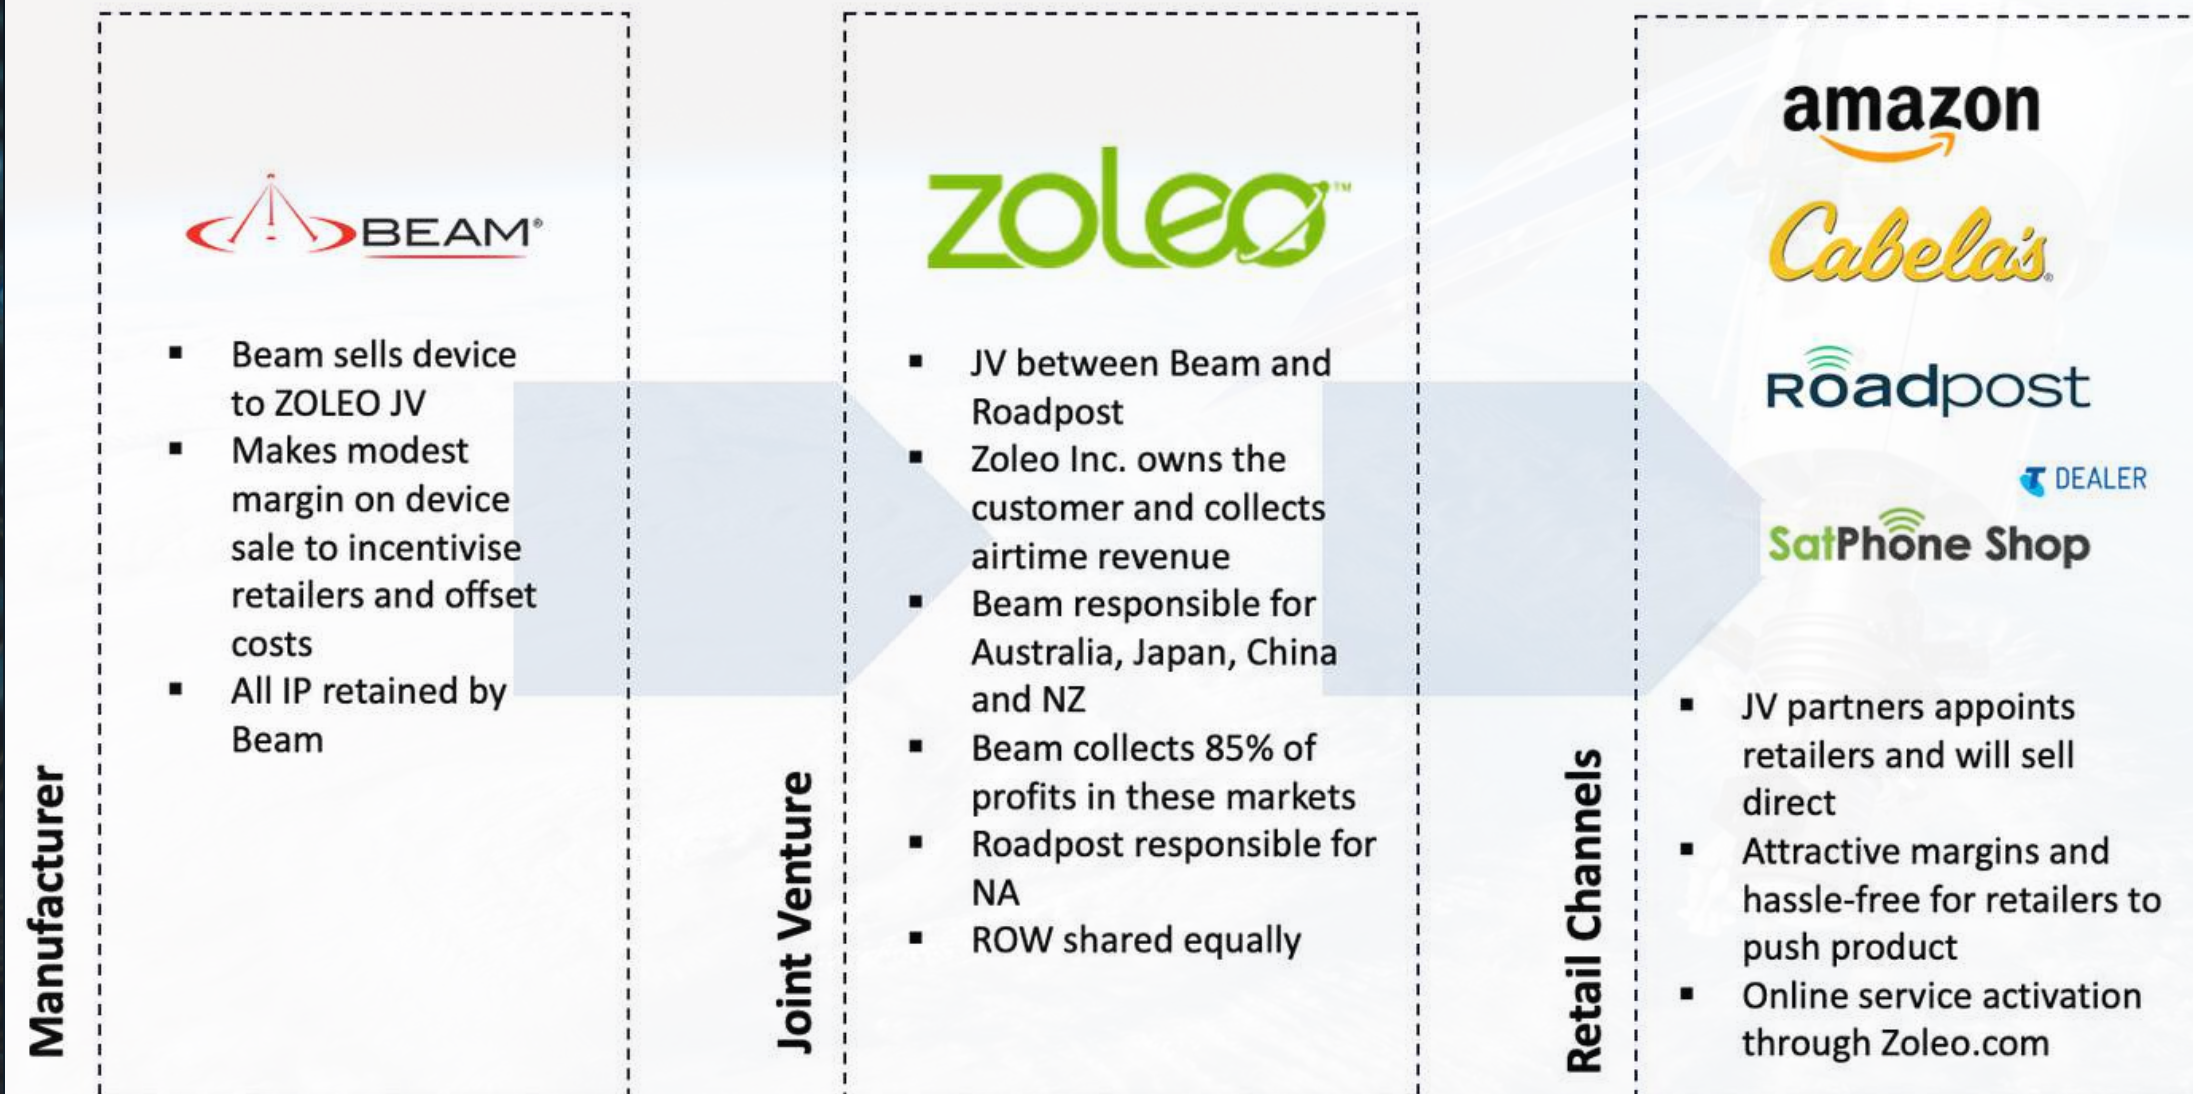

Amazon – Direct fulfilment established in North America / Australia

EBAY – Direct fulfilment established Australia

London Drugs - Major Canadian retail chain, >80 stores

Myer Marketplace – Online Australian retailer

Active discussions with other major outdoor & national retail chains

ZOLEO'S RECURRING REVENUE STREAM

ZOLEO's revenues are derived from hardware sales plus recurring monthly subscription fee

Affordable A\$345 (US\$199) device with monthly subscription plans from A\$32 to A\$80

Marketed B2B and B2C

ZOLEO will expand the available market for personal satellite communication devices through its:

- Ease of use
- App's multi network access
- Low retail price / Value for Money
- Iridium's one network globally

Wide-spread appeal: Adventure, Tourism, Rural Communities, Lone Worker, Government and Enterprise applications

Iridium believes that COVID-19 is one of the drivers for the growth of Personal Communication Devices (PCD's), with consumers seeking to socially distance and get off-grid during the pandemic, while still remaining contactable

-Iridium Quarterly Results 20/10/2020

All ZOLEO monthly plans include:			
• Your own ZOLEO (Australia-based) SMS number and email address	• Unlimited SOS messaging	• Flexibility to change, suspend or cancel if your needs change*

What's Next?

Next-Gen Devices in the Pipeline that build on our solid base

Proceeds from Beam's recent placement will be used to:

- **Expand** ZOLEO into new markets in Asia and Europe
- **Support** the appointment of new national retailers in Australia
- **Focus** on direct opportunities for the use of satellite-reliant devices and technology in disaster relief and emergency management
- **Develop** new Iridium Certus® devices with data speeds that are more than 35 times faster than the current generation of products

NEXT GENERATION OF IRIDIUM DEVICES

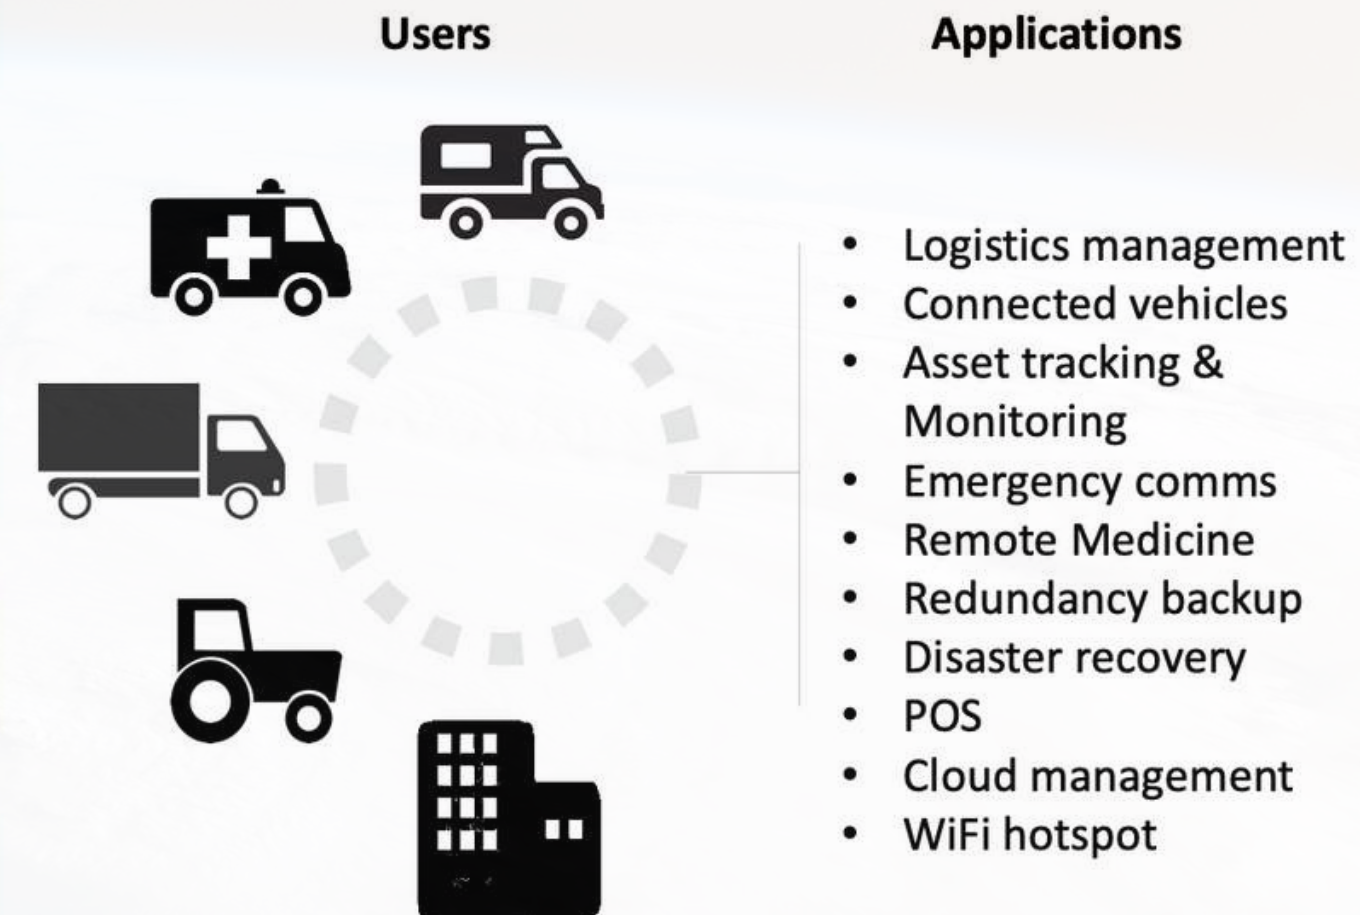

Iridium has invested over US\$3B in next-gen satellite constellation (Certus®)

Beam to build next-gen products based on historical success

New devices will have data speeds 35 times faster than current terminals

New products will focus IoT, Land Mobile and Maritime applications

New Devices will complement current Beam portfolio of product offerings

Beam is at the forefront
of innovation as it paves
the way for future
success
