

Echo IQ Raises \$7.1 million

Highlights:

- Echo IQ has received firm commitments to raise approximately A\$7.1 million via an institutional placement at \$0.15 per share
- The placement was strongly supported by both new and existing institutional investors with several new institutional investors introduced to the register
- Placement proceeds will be used to progress commercialisation activities, product development and to extend the Company's cash runway through the FDA approval process for its Heart Failure solution

Sydney: Artificial intelligence and Medical Technology company Echo IQ Limited ("the Company") (ASX: EIQ) today announces it has received binding commitments to raise approximately \$7.1 million (before costs) in a placement of new fully paid ordinary shares in the Company to institutional and sophisticated investors ("**Placement**").

Proceeds from the Placement will be used to fund the following activities and items:

- A\$4.65m – Commercialisation activities for the Company's Aortic Stenosis and Heart Failure AI solutions;
- A\$1.00m – Ongoing product development for the Company's Aortic Stenosis and Heart Failure AI solutions;
- A\$0.25m – Regulatory costs including FDA applications for Aortic Stenosis (ongoing) and Heart Failure (new);
- A\$0.20m – Costs associated with the Company's clinical trial program; and
- A\$1.00m – General working capital (operational costs delivering above) and Offer costs.

Commenting on the Placement, Echo IQ Executive Chair, Andrew Grover said: *"We are delighted with the support of our Placement from our existing shareholders and to welcome several new institutional shareholders to our register at such an exciting stage of the Company's phase. Proceeds from the Placement will see Echo IQ progress significant commercialisation activities for the Company's Aortic Stenosis and Heart Failure AI Solutions."*

"Following on from our groundbreaking results from the recently announced clinical studies, we continue to have very strong interest from a number of companies who operate in the sector and we anticipate that these results will help advance these discussions further. Further, the Company remains focused on fast tracking engagement with the FDA to fully unlock value for shareholders."
