CEO Presentation Annual General Meeting

November 2022

CODA
MINERALS

RARE INVESTMENT OPPORTUNITY

ASX COD

STRATEGIC FOCUS

- Discovering and proving up copper resources, an essential metal for a low carbon future
- Major source of ethical, Australian copper and cobalt
- On the hunt for Australia's next major IOCG deposit

TIER 1 LOCATIONS

- Elizabeth Creek; Olympic IOCG Copper Province, SA
 - 100% ownership of Elizabeth Creek
- Cameron River¹; Mount Isa Inlier, QLD

EXISTING JORC RESOURCES

- 1.1Mt of Contained CuEq Defined
 - 43Mt @ 1.84% CuEq (Emmie Bluff)
 - 18Mt @ 1.14% CuEq (Windabout)
 - 1.8Mt @ 1.67% CuEq (MG14)
- Scoping study well advanced

Three Distinct Value Drivers

- Emmie Bluff – advanced study stage Cu-Co
- Emmie IOCG – major scale potential Cu-Au
- Exploration Opportunities – VIC, NSW & QLD

CORPORATE STRUCTURE

CORPORATE STRUCTURE

COPPER SUPPLY CHASM

ASX COD

Copper Supply and Demand Forecast

Forecast supply deficit up to 9.9 Mt in 2035

Supply Constraints

- Existing mines are reaching their exhaustion point
- Low pipeline of upcoming high quality projects due to dwindling copper grades and rising input costs
- Downturn of copper prices disincentivise present exploration, exacerbating future supply issues

Demand Drivers

- Net-zero emission goals are driving the push for decarbonisation through renewable energy generation (wind & solar farms, battery storage) and electrification
- Electric vehicles expected to account for 1/5 of copper demand in 2035

Elizabeth Creek – South Australia

Sedimentary Copper-Cobalt and IOCG Copper-Gold
in a large, synergistic copper rich system.

OVERVIEW – ELIZABETH CREEK

ASX COD

ELIZABETH CREEK

Sedimentary: Cu-Co

- 1.1Mt of JORC 2012 Contained CuEq
- Scoping study targeting H2 2022
- Ongoing exploration

IOCG: Cu-Au

- Major IOCG mineralised system identified
- Extensive geophysics campaign planned
- High risk, high reward exploration

Cattlegrid South: Cu

- Copper breccia prospect
- Extensive historical drilling
- Resource estimate underway

Total Area: 701 km²

ADVANCED INDICATED RESOURCES

ASX COD

1,100,000t of Contained Copper Equivalent

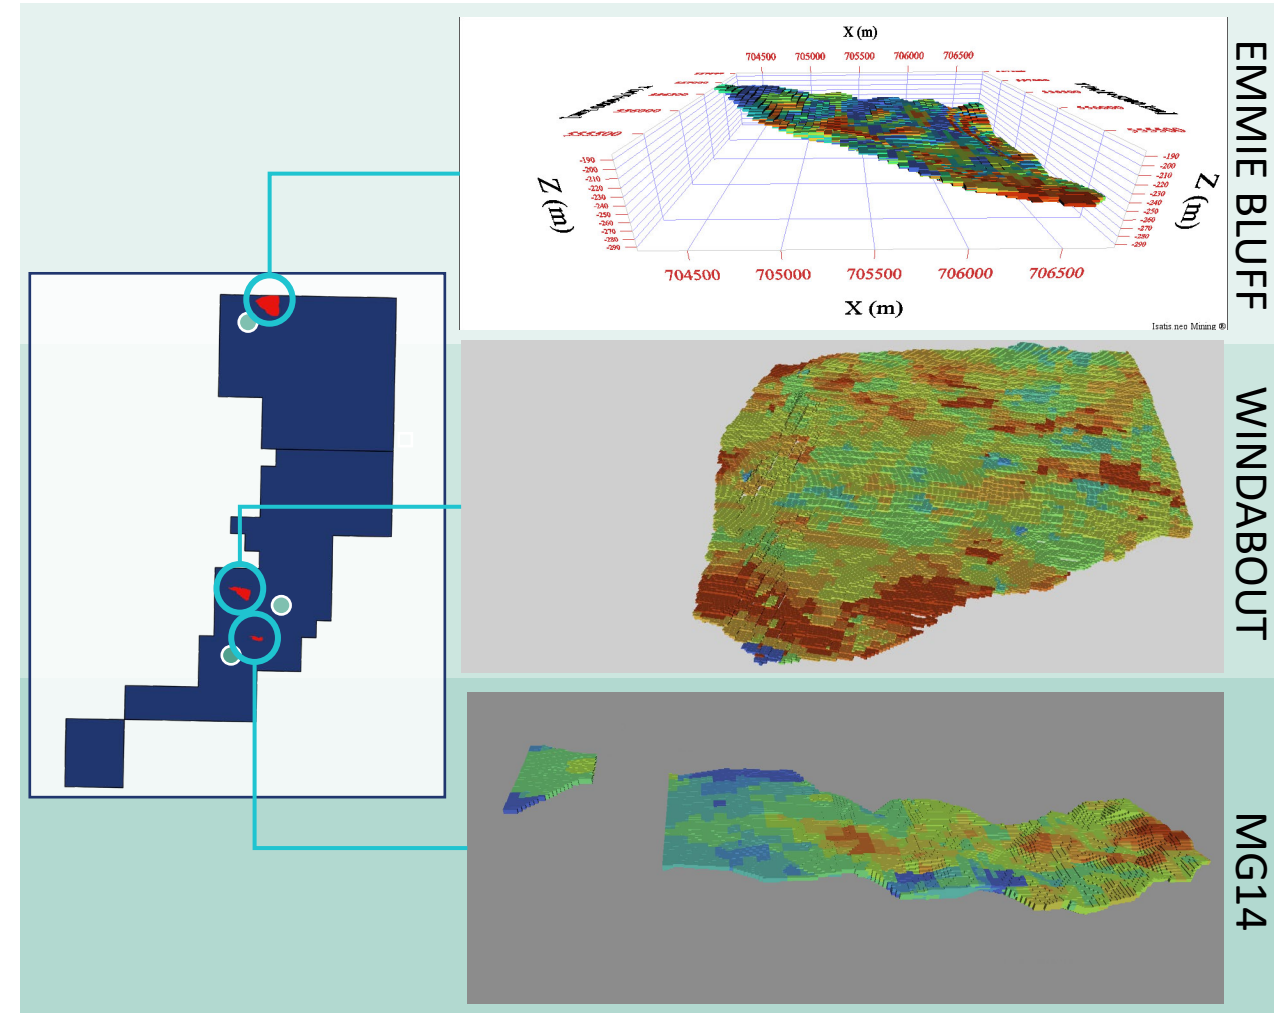

Across 3 JORC2012 deposits, 1 underground, 2 open pit.

- ✓ Mining Studies well **Advanced**
- ✓ Initial Flowsheet design **Complete**

Scoping Study advancing on time and budget

JORC 2012 Mineral Resources

EXISTING JORC 2012 MINERAL RESOURCES							
	Category	Mt	Cu%	Co%	CuEq% ⁶	Contained Cu (t)	Contained CuEq (t)
Windabout ^{1,2}	Indicated	17.67	0.77	0.05	1.41 ⁴	136,000	249,000
MG14 ^{1,2}	Indicated	1.83	1.24	0.03	1.67 ⁴	23,000	31,000
Emmie Bluff ^{1,3}		43.3	1.30	0.047	1.84 ⁵	562,000	797,000
Total						721,000	1,100,000¹

¹ Numbers have been rounded

² (JORC 2012 Indicated) 0.5% CuEq. cut-off. See Gindalbie Metals ASX announcement on 19 January 2018 for Competent Person's statement and full details

³ JORC 2012 Indicated) 1.0% CuEq. cut-off. See Coda Minerals ASX announcement on 20 December 2021 for Competent Person's statement and full details

⁴ Copper equivalent calculated using the following formula $CuEq\% = Cu\% + 0.0012 \times Co\ ppm$

⁵ Copper equivalent calculated using the following formula $CuEq\% = Cu\% + 0.00068 \times Co\ ppm + 0.337 \times Zn\ \% + 90.3 \times (Ag\ ppm)/10000$

⁶ Although CuEq calculation differs between the resources, the company believe it is reasonable to compare and combine the contained tonnes

EBD7	BORNITE DOMINATED	16m	812m	16m @	2.7% Cu, 37.5 g/t Ag

BEST DRILL RESULTS

¹ Figures been rounded to the closest meter for simplicity

² Copper grades have been rounded to tenth degree for simplicity

Please see ASX releases on [28 July 2021](#), [23 August 2021](#), [6 & 22 December 2021](#), [28 February 2022](#) and [20 June 2022](#) for full details of all mineralised holes and Table 1

NEAR-TERM GEOPHYSICAL EXPLORATION

Advanced passive seismic technique applicable to IOCG and shale hosted exploration at Emmie System

Acoustic Noise Tomography (ANT)

ANT is a technique that uses pervasive seismic noise to visualise a three-dimensional subsurface shear wave velocity model.

Precise Drill Targeting for IOCG

- Detailed 3D subsurface model will
 - Define the pre-Pandurra palaeosurface,
 - Gauge prospectivity of other local IOCG prospects; and
 - Allow for highly detailed 3D gravity modelling to precisely target deep drilling.

Broad Delineation of Copper-Cobalt Host Rocks

- Detailed 3D subsurface model will
 - Further define the Emmie Bluff basin, and
 - Identify any additional sub basins/extensions beyond known Mineral Resources within approx. 5km.

Detailed Imaging

Primary aims of the survey at Emmie Bluff will be the direct imaging of the palaeosurface to assist delineation of sub surface structures potentially associated with major mineralising conduits.

NB: Image for illustrative purposes only and does not relate to Coda's tenure. It is presented to reflect the broad nature of anticipated results from the application of technology to Emmie IOCG & Emmie Bluff

BROADER IOCG POTENTIAL

ASX COD

Priority Focus - Emmie IOCG

Ongoing drilling to extend and grow the Emmie IOCG mineralised footprint.

Additional Opportunities - Elaine

Enormous, significantly underexplored gravity anomaly with unexplained low grade copper. Further drilling required

Additional Opportunities - Other

Elizabeth Creek remains **prime IOCG real estate** with numerous untested and undertested anomalies, including:

Intercept Hill South: Unexplained IOCG mineralisation immediately north of the tenement boundary, Gravity anomaly extends into Coda ground:

- IHAD 2 (80m of anomalism, peak grades 1.3% Cu, 0.18 g/t Au)^{1,2}
- IHAD 5 (100m of anomalism, peak grades 10.5% Cu, 2.15 g/t Au)^{1,3}

AD8: Geophysically attractive anomaly likely structurally related to Emmie IOCG, extends into Coda ground. No drilling to basement depth.

Con Ryan: Underexplored coincident magnetic/gravity anomaly immediately east of Emmie IOCG.

¹ Numbers have been rounded

² Drilled by Argo Exploration, 2007. Data extracted from SARIG Envelope 10328, available <https://mer-env.s3.amazonaws.com/ENV10328.pdf>

³ Drilled by Argo Exploration, 2008. Data extracted from SARIG Envelope 10328, available <https://mer-env.s3.amazonaws.com/ENV10328.pdf>

Other exploration opportunities

OTHER EXPLORATION OPPORTUNITIES

ASX COD

Coda owns exploration tenure in Queensland, Victoria and New South Wales

★ CAMERON RIVER

Cameron River - (Cu-Au)

- Copper bearing system identified, with anomalous copper confirmed by pXRF
- Assays pending, anticipated late 2022/early 2023

Balmoral - (REE, HMS, Au)

- 369km² exploration tenure in prime Victorian rare-earth and mineral sands province
- HMS prospectivity confirmed by historical drilling, anomalous >1g/t Au grades at surface

★ BALMORAL

Club Terrace - (Au)

- 751km² exploration tenure across Victorian and southern NSW
- Numerous targets including historical workings for gold and base metals

★ CLUB TERRACE

Appendices

APPENDIX A: BOARD OF DIRECTORS & SENIOR MANAGEMENT

ASX COD

Keith Jones

NON-EXECUTIVE CHAIR

Chartered Accountant and senior mining industry leader with over 40 years of corporate advisory experience including former Chairman of Deloitte Australia and former Chairman of Cannings Purple. Currently Non-Executive Director of Ora Banda Mining.

Colin Moorhead

NON-EXECUTIVE DIRECTOR

Highly experienced exploration and mine geologist, past president of the AusIMM, former member JORC Committee. Senior roles including CEO PT Merdeka Copper Gold Tbk, EGM Minerals at Newcrest Mining Ltd, and Geology Manager at Gosowong Gold. Currently NED at Aeris Resources, Xanadu, and Sihayo Gold.

Robin Marshall

NON-EXECUTIVE DIRECTOR

Experienced mining executive previously involved in managing the successful delivery of some of the world's largest resource projects, including Chairman of the Gruyere Steering Committee, major iron ore projects for BHP Billiton Iron Ore and North Ltd.

Paul Hallam

NON-EXECUTIVE DIRECTOR

Accomplished resource industry leader who has been directly responsible for the delivery and operation of 11 gold, base metals, and iron ore projects over 40 years. Former executive at FMG, Newcrest and current NED of Sandfire Resources and Greatland Gold.

More information regarding these directors can be found in Appendix B.

Chris Stevens

CHIEF EXECUTIVE OFFICER, DIRECTOR

Mineral economist, feasibility and project valuation specialist. Former CEO of Gindalbie Metals, led the acquisition and demerger in 2019. Former Director of Mining Operations Consulting at PwC, senior commercial and consulting roles across mining, oil and gas. BA (Hons) Oxford University, MSc in Mineral Economics (WASM), FAusIMM.

Kudzai Mtsambiwa

CHIEF FINANCIAL OFFICER

Chartered Accountant with 14 years' experience in the international resources sector. Lengthy career with West African-focused, Perseus Mining – where he held the roles of Group Planning & Business Analyst and Group Financial Controller for seven years. MSc in Mineral Economics (WASM).

Susan Park

COMPANY SECRETARY

Over 25 years' experience in the corporate finance industry and extensive experience in Company Secretarial and Non-Executive Director roles with ASX, AIM and TSX listed companies. Susan is currently Company Secretary of several ASX listed companies.

Matt Weber

MANAGER - GEOLOGY

Exploration geologist and mineral economist with over a decade's exploration experience working with Rio Tinto and multiple exploration companies across Western Australia focussing on gold, iron ore and base metals. MSc in Mineral Economics (WASM).

APPENDIX B: STATEMENTS

Mineral Resources & Competent Person Statement

Mineral Resources and Exploration Targets

- MG14 Indicated Mineral Resource:** The information is extracted from the report entitled "Mt Gunson Copper-Cobalt Project Update" created on 19 January 2018 and is available to view on <https://www.asx.com.au/asxpdf/20180119/pdf/43qxphjd18l2x0.pdf>. The company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement and, in the case of estimates of Mineral Resources or Ore Reserves, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. The company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.
- Windabout Indicated Mineral Resource:** The information is extracted from the report entitled "Mt Gunson Copper-Cobalt Project Update" created on 19 January 2018 and is available to view on <https://www.asx.com.au/asxpdf/20180119/pdf/43qxphjd18l2x0.pdf>. The company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement and, in the case of estimates of Mineral Resources or Ore Reserves, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. The company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.
- Emmie Bluff Mineral Resource:** The information is extracted from the report entitled "Standout 43Mt Maiden Cu-Co Resource at Emmie Bluff" created on 20 December 2021 and is available to view on https://cdn-api.markitdigital.com/apiman-gateway/ASX/asx-research/1.0/file/2924-02469004-6A1069433?access_token=83ff96335c2d45a094df02a206a39ff4. The company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement and, in the case of estimates of Mineral Resources or Ore Reserves, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. The company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.

Competent Person Statement for JORC 2012 Mineral Resources

This report was prepared in accordance with the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves' ("JORC Code") by Tim Callaghan, who is a Member of the Australian Institute of Mining and Metallurgy ("AusIMM"), has a minimum of five years' experience in the estimation and assessment and evaluation of Mineral Resources of this style and is the competent Person as defined in the JORC Code. This announcement accurately summarises and fairly reports his estimations and he has consented to the resource report in the form and context it appears.

The MG14 and Windabout Mineral Resource at the Mount Gunson Copper-Cobalt Project has been estimated by Mr Tim Callaghan, an external consultant, and is reported under the 2012 Edition of the Australasian Code for reporting of Exploration Results, Mineral Resources and Ore Reserves (see Gindalbie Metals ASX announcement 19 January 2018 titled: Mt Gunson Copper-Cobalt Project Update).

Competent Person Statement for JORC 2012 Mineral Resources – Emmie Bluff

The information in this statement that relates to the Mineral Resource Estimates is based on work done by Dr Michael Cunningham of Sonny Consulting Services Pty Ltd. The information in this report which relates to exploration results is based on information compiled by Mr. Matthew Weber, who is an employee of the company.

Dr Cunningham and Mr Weber are Members of the Australasian Institute of Mining and Metallurgy and have sufficient relevant experience to the style of mineralisation and type of deposit under consideration and to the activities undertaken to qualify as a Competent Person as defined in the 2012 Edition of the Joint Ore Reserves Committee (JORC) Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves.

The Competent Persons consent to the inclusion in this report of the matters based on the information compiled by them, in the form and context in which it appears.
