IOOF Annual Financial Report 2019

Directors' report

The Directors present their report together with the financial report of IOOF Holdings Ltd (the "Company" or "Parent") and of the IOOF Group, being the Company and its subsidiaries and the consolidated Group's interest in associates for the financial year ended 30 June 2019 and the auditor's report thereon.

Directors

The Directors of the Company during or since the end of the financial year were:

Name, qualifications and independence status	Experience, special responsibilities, listed and other significant directorships
Mr Allan Griffiths B.Bus, DipLL. Independent Non-Executive Director Director since 2014 Acting Chairman effective 10 December 2018 Chairman effective 4 April 2019	More than 30 years' experience with a deep understanding of the financial services industry. Mr Griffiths has held a number of executive positions within the industry most notably as Chief Executive Officer Aviva Australia and later, Managing Director South Asia, Aviva Asia Pte Ltd based in Singapore. Prior to joining Aviva Mr Griffiths held executive positions with Colonial Ltd and Norwich Union. Mr Griffiths is Chairman of the Westpac/BT Insurance Boards and the Chairman of Metrics Credit Partners. Chair of the Group Nominations Committee and member of the Group Audit and Group Remuneration Committees.
Mr Renato Mota BComm(Hons), B.Bus Chief Executive Officer and Managing Director Chief Executive Officer effective 25 June 2019 Managing Director effective 25 June 2019 Acting Chief Executive Officer effective 10 December 2018	With more than 20 years' experience in financial services, prior to being appointed CEO, Mr Mota held a number of senior executive roles within IOOF. In December 2018, Mr Mota was appointed Acting CEO and prior to that was Group General Manager - Wealth Management since January 2016. During this time he was instrumental in leading IOOF through a series of forward-thinking, strategic initiatives including IOOF's advice-led strategy, the group's ClientFirst transformation and establishing the IOOF Advice Academy. Previously, he held numerous executive roles as General Manager of Distribution, Investor Solutions and Corporate Strategy and Communications. Before joining IOOF in 2003, Mr Mota worked for Rothschild and NAB in corporate finance roles with a focus on mergers and acquisitions where he was involved in wealth management transactions including the demerger of Henderson Group plc from AMP in 2003 and NAB's acquisition of MLC and Deutsche Financial Planning.
Mr George Venardos BComm, FCA, FGIA, FAICD, FCIS. Independent Non-Executive Director Director since 2009 Leave of absence commenced 10 December 2018 Chair from 2016 to 2018 Resigned as Chairman effective 4 April 2019	An experienced Director with broad listed company experience across a range of different industries, including financial services, affordable leisure, oil and gas services and technology development. Over 30 years' experience in executive roles in financial services, insurance and funds management including 10 years as CFO of Insurance Australia Group and Chairman of the Insurance Council of Australia Finance and Accounting Committee. Former Director of Buglass Ltd from 2008 to 2016 and Ardent Leisure Group from 2009 to 2017. Chair of the Nominations Committee and member of the Group Audit and Remuneration Committees until 10 December 2018.
Mr Christopher Kelaher B.Ec, LL.B, F Fin. Managing Director Director from 2009 to 2019 Leave of absence commenced 10 December 2018 Resigned from Board effective 4 April 2019 Resigned from Company effective 2 July 2019	In 2009, Mr Kelaher became the Managing Director of the IOOF Group after its merger with Australian Wealth Management Limited (AWM), a company he had led since 2006. Prior to AWM, Mr Kelaher was the CEO of Select Managed Funds Limited for nine years, a private company which was brought to market in 2005 and in turn ultimately merged with AWM in 2006. In the following periods, he has been instrumental in executing multiple mergers and acquisitions that have added materially to the IOOF Group and its antecedent businesses. Mr Kelaher has extensive capital markets experience from his time during the late 1980s with Citicorp where he oversaw the establishment of Citicorp Investment Management and Global Asset Management businesses in Australia and New Zealand.

IOOF Annual Financial Report 2019

Directors' report

Directors (continued)

Name, qualifications and independence status	Experience, special responsibilities, listed and other significant directorships
Ms Jane Harvey B.Com, MBA, FCAANZ, FAICD Independent Non-Executive Director Director since 2005	Ms Harvey has more than 30 years' experience in the financial and advisory services industry. Prior positions include as a Partner at PricewaterhouseCoopers, a Director of Dulux Group Limited from 2018 to 2019, a Director of UGL Limited from 2015 to 2017, and as a Director of DUET Finance Limited, a stapled entity within the ASX Listed DUET Group from 2013 to 2017. Ms Harvey is currently a Director of BUPA A&NZ entities. Ms Harvey is the Chair of the Group Audit and Remuneration Committees and member of the Group Nominations and Group Risk and Compliance Committees.
Ms Elizabeth Flynn LLB, Grad Dip App Corp Gov, FAICD, FFin, FGIA, FCIS. Independent Non-Executive Director Director since 2015	Ms Flynn has more than 30 years' experience in the financial services industry, including roles within law and corporate governance as well as executive responsibilities. From 1998 to 2010, Ms Flynn was the Chief Legal Counsel, Group Compliance Manager and Group Company Secretary of financial services group Aviva Australia, and a director of Aviva Australia's superannuation trustee company. Prior to her time at Aviva, Ms Flynn spent 18 years as a commercial lawyer with Minter Ellison, including eight years as a Partner, specialising in managed funds, banking and securitisation and superannuation. Ms Flynn was a non-executive director of Bennelong Funds Management from 2010 to 2015 and is a non-executive director of AIA Australia Limited. Ms Flynn is Chair of the Group, I.O.O.F. Investment Management Limited (IIML) and Australian Executor Trustees Limited (AET) Risk and Compliance Committees, member of the IOOF Ltd Risk and Compliance Committee, and member of the APRA Regulated Entity (ARE) Audit Committee until 28 November 2018. Member of the Group Remuneration and ARE Remuneration and Nominations Committees.
Mr John Selak Dip Acc, FCA, FAICD Independent Non-Executive Director Director since 2016	Mr Selak has over 40 years' experience in the financial and advisory services industry. From 2000 to 2016 Mr Selak was a Partner in the Corporate Finance Practice of Ernst & Young serving on their Global Corporate Finance Executive. From 2014 to 2017 Mr Selak was an advisory board member of Quest Apartment Hotels. Mr Selak is currently Chairman of Corsair Capital, a non-executive director of National Tiles, Turosi Food Solutions, and the IOOF Foundation. Chair of the ARE Audit Committee until 28 November 2018, and member of the IIML and AET Audit Committees thereafter. Member of the Group Audit, Group Risk and Compliance, and IOOF Ltd Audit Committees. Member of the Group Nominations Committee.

All Directors held office during and since the end of the financial year, unless otherwise noted.

The Group Remuneration and Nominations Committees review the balance of skills, experience, independence, knowledge and diversity of Directors. This involves the creation of a board skills matrix setting out the mix of skills and diversity that the Board currently has or is looking to achieve in its membership.

During the year each Board member completed a skills matrix. The Board was satisfied that the skills matrix results demonstrate that the Board has the appropriate skills and experience necessary to oversee the operations and governance of the IOOF Group. The Board Skills Matrix is available as part of our Corporate Governance Statement which is available on the IOOF website.

Principal activities

The principal continuing activities of the IOOF Group during the financial year consisted of:

- financial advice and distribution;
- portfolio and estate administration;
- investment management; and
- ex-ANZ wealth management.

IOOF Annual Financial Report 2019

Directors' report

Operating and financial review

In accordance with current Australian Accounting Standards, the audited financial results of the benefit funds of IOOF Ltd are included in the consolidated results of the IOOF Group. The inclusion of the benefit funds has no impact on the profit after tax for the year (2018: \$nil), but results in offsetting pre-tax profit and income tax amounts not available to shareholders.

The following table, which has not been audited, provides a reconciliation between the reported results of the IOOF Group and underlying net profit after tax pre-amortisation (UNPAT), with the results of the benefit funds excluded. In calculating its UNPAT, the IOOF Group reverses the impact on profit of certain, predominantly non-cash, items to enable a better understanding of its operational result. It is the UNPAT result which will be analysed in detail in this section of the Directors' Report. The items reversed, and the rationale for that reversal, is also addressed in detail.

Shareholders can review the more detailed results presentation by visiting the Company website at www.ioof.com.au

	Note	2019 \$'000	2018 \$'000
Profit attributable to Owners of the Company		28,560	88,301
(Profit)/Loss from discontinued operations	2-2	(70,682)	17,106
Profit/(Loss) from continuing operations attributable to Owners of the Company		(42,122)	105,407
Underlying net profit after tax pre-amortisation (UNPAT) adjustments:			
<u>Reverse the impact of:</u>			
Amortisation of intangible assets	2-4	37,651	37,378
Acquisition costs - Acquisition advisory	2-4	2,488	5,367
Acquisition costs - Integration preparation	2-4	20,766	4,973
Acquisition costs - Finance costs	2-4	416	6,725
Onerous contracts	2-4	-	2,345
Termination payments	2-4	2,043	2,033
Profit on divestment of assets	2-3	(368)	(2,786)
Non-recurring professional fees (recovered)/paid	2-4	2,027	(902)
Impairment of goodwill and related investment	2-4	13,920	28,339
Unwind of deferred tax liability recorded on intangible assets		(10,200)	(10,195)
IOOF ADG remediation costs	2-4	235,278	-
Other	2-4	875	1,244
Income tax attributable		(77,829)	(4,181)
UNPAT from continuing operations		184,944	175,747
UNPAT from discontinued operations		13,045	15,670
UNPAT		197,989	191,417

UNPAT Adjustments:

Amortisation of intangible assets: Non-cash entry reflective of declining intangible asset values over their useful lives. Intangible assets are continuously generated within the IOOF Group, but are only able to be recognised when acquired. The absence of a corresponding entry for intangible asset creation results in a conservative one sided decrement to profit only. It is reversed to ensure the operational result is not impacted. The reversal of amortisation of intangibles is routinely employed when performing company valuations. However, the amortisation of software development costs is not reversed in this manner.

Acquisition costs - Acquisition advisory: Payments to external advisers for corporate transactions, such as the acquisition of the ANZ Aligned Dealer Groups (ANZ ADGs) (prior comparative period (pcp): AET Services (AETS)) and planned acquisition of the ANZ OnePath Pensions and Investments (ANZ P&I) business, which were not reflective of conventional recurring operations.

Acquisition costs - Integration preparation: Staff and specialist contractor costs related to integration preparation for the planned acquisition of the ANZ ADGs and planned acquisition of the ANZ P&I business.

Acquisition costs - Finance costs: Costs of securing finance for the acquisition of the ANZ ADGs and substantial economic completion of the ANZ P&I business.

IOOF Annual Financial Report 2019

Directors' report

Operating and financial review (continued)

UNPAT Adjustments (continued):

Onerous contracts: A pcip non cash entry to record the estimated present value of expected costs of meeting the obligations under contracts where the costs exceed the economic benefits expected to be received pursuant to the contracts.

Termination payments: Facilitation of restructuring to ensure long term efficiency gains which are not reflective of conventional recurring operations.

Profit on divestment of assets: Divestments of non-core businesses, client lists and associates.

Non-recurring professional fees (recovered)/paid: Payment of certain legal costs that are not reflective of conventional recurring operations.

Impairment of goodwill and related investment: A non-cash impairment of \$9.5m has been recognised in relation to goodwill allocated to Perennial Investment Partners Limited (pcip: \$28.4m). Additionally, an impairment of \$4.4m has been recognised in relation to the Group's equity accounted investment in Perennial Value Management Limited. Reduced profitability from lower revenue led to its expected fair value less costs to sell declining to below the carrying value of the aggregate goodwill and investment balances. Revenue decline has arisen due to institutional outflows. These outflows reflect below benchmark performance in certain core products and changing market dynamics, where larger institutions now weight a greater proportion of funds to indexed products.

Unwind of deferred tax liability recorded on intangible assets: Acquired intangible asset valuations for AASB 3 Business Combinations accounting are higher than the required cost base as set under tax consolidation rules implemented during 2012. A deferred tax liability (DTL) is required to be recognised as there is an embedded capital gain should the assets be divested at their accounting values. This DTL reduces in future years at 30% of the amortisation applicable to those assets which have different accounting values and tax cost bases. The recognition of DTL and subsequent reductions are not reflective of conventional recurring operations and are regarded as highly unlikely to be realised due to the IOOF Group's intention to hold these assets long term.

IOOF ADG remediation costs: Remediation costs identified as significant due to being large and one-off in nature, largely longstanding historic structural issues identified in the current year.

Other: Deferred consideration devaluation relating to prior periods' divestment of Perennial and other businesses.

Income tax attributable: This represents the income tax applicable to certain adjustment items outlined above.

Review of Strategy

The IOOF Group has developed an advice-led strategy as a means of creating and delivering differentiated and competitive services to meet the need of its clients and the community at large. This is delivered through a range of different, complementary offerings, operated through a series of licensed and regulated entities. These include, financial advice through Australian Financial Services licenses, superannuation services, through Registrable Superannuation Entity and investment services through Responsible Entity and trustee related entities.

IOOF's strategy is centred around the value of financial advice in helping empower Australians by improving their financial decision making. IOOF believes this has direct benefits in terms of people's financial wellbeing and indirect benefits in terms of minimising other forms of mental and physical distress.

IOOF is one of Australia's largest providers of financial advice, through its 12 licenses, which account for 1,495 advisers nationally. In exchange for these licensing services, IOOF generates revenue from self employed advisers for the provision of licensing, governance and broader business support. IOOF also operated financial advice businesses through salaried financial advisers.

Through relationships associated with Financial advice, or employer sponsored superannuation plans, IOOF attracts investable funds from clients (or intermediaries) from which it then charges fees in exchange for administration or management services. The pool of investable funds emanates predominantly from superannuation which has been supported by Australia's mandatory contributions regime since the early 1990s. Competition for service offerings to superannuants and investors (fund members) in the Australian market place is currently drawn from five main fund types with the following differentiating features:

Retail - privately operated trusts and other schemes. The majority of funds are channelled to administration services and investment management products through financial advisers. However, technological development is enabling an increasing range of offerings direct to fund members.

Operating and financial review (continued)

Review of Strategy (continued)

Industry Funds - superannuation entities which historically have provided for employees working in the same union, industry or group of related industries. Many industry funds now offer membership to members of the public. Industry funds generally administer these funds, but may outsource the management of investments.

Self-Managed - the fund member acts as Trustee for his or her pool of funds, which may include funds from a limited number of other family members and associates. These funds are predominantly utilised where the Trustee perceives they have the requisite time and expertise to manage their own investment strategy and a sufficient scale of funds to make the fixed administration costs economically justifiable.

Corporate - funds established for the benefit of employees of a particular entity or a group of related entities, with joint member and employer control.

Public Sector - funds which provide benefits largely for government employees or employees of statutory authorities, or are schemes established by a Commonwealth, State or Territory law.

Self Managed Funds are regulated by the Australian Taxation Office (ATO) whereas all others above are regulated by the Australian Prudential Regulation Authority (APRA).

The IOOF Group administers and manages Retail funds. Australian Superannuation assets totalled \$2.8 trillion as at 31 March 2019. Over the 12 months to March 2019 there was a 6.7% increase in total superannuation assets and retail providers had a market share of approximately 22%. The IOOF Group's market share of that sub-set was just under 5% when measured by platform management and administration (platform) segment Funds Under Administration (FUAdmin). There is a high degree of competition between the five fund types and fragmentation and competition among the participants within each fund type.

As published in APRA's March 2019 Quarterly Superannuation Performance Statistics, the following were the asset allocation metrics for funds with greater than four members: 50.5% of investments were invested in equities; with 22.1% in Australian listed equities, 24.4% in international listed equities and 4.0% in unlisted equities; Fixed income and cash investments accounted for 31.4% of investments; 21.2% in fixed income and 10.1% in cash; Property and infrastructure accounted for 14.2% of investments and 3.9% were invested in other assets, including hedge funds and commodities.

IOOF's strategy has been designed to deliver growth, through servicing and meeting a range of needs of investors, supported by the expected continued growth in the Australian savings pool. The attraction of the sector is further enhanced by high regulatory and technological barriers to entry from new competitors. As an incumbent participant, we seek to grow our Funds Under Management, Administration, Advice and Supervision (FUMAS) faster than our competitors. In doing so, the portion of our revenue net of direct costs (gross margin) which is levied on asset balances may reasonably be expected to rise proportionately with FUMAS. This proportionate rise may be affected by the impact of differentiated product pricing and competitive pressure on management fee rates. In conjunction, we seek to leverage a cost base which is largely fixed relative to the scale of our FUMAS.

The IOOF Group's future FUMAS growth will be underpinned by asset revaluation, flows of funds from new and existing clients and acquisition initiatives. Funds flow will be advanced through:

- ensuring that our culture, governance and people initiatives underpin and promote an organisational capability that builds and protects a highly regarded and trusted reputation;
- responding to market dynamics, including client and adviser feedback, to ensure products and services are priced appropriately for the service and functionality offered;
- enhancing the adviser and fund client experience through continued technology development and experienced knowledgeable support staff;
- operating an open architecture environment which allows our advisers and clients to utilise the administration service which best meets their objectives irrespective of whether it is an IOOF Group proprietary service or a competitor's service. All options, however, generate a favourable economic return for the IOOF Group;
- enhanced training initiatives and leading minimum qualification standards to give our staff and advisers every opportunity to optimise the experience of our clients;
- establishing skilled teams and robust analytical processes to enhance the prospect of achieving above benchmark performance in investment management; and
- continuous improvement in process efficiency to minimise operating costs.

IOOF Annual Financial Report 2019

Directors' report

Operating and financial review (continued)

Governance uplift

On 7 December 2018 APRA gave notice of additional licence conditions on IOOF's APRA regulated entities. These conditions require, inter-alia:

- separation of responsible entity and registrable superannuation entity duties to separate independent corporate entities;
- the implementation and effective operation of an independent member outcomes driven function (the Office of the Superannuation Trustee or OST); and
- monitoring and reporting on progress via an independent expert.

On 20 August 2019, IOOF announced that it had met all its 30 June 2019 requirements to the satisfaction of the independent expert and was on track to meet all remaining requirements by the relevant deadlines.

In addition to the licence conditions discussed above, APRA commenced Federal Court proceedings against two IOOF entities, two directors and three employees on 7 December 2018. The proceedings seek declarations that the corporate entities breached trustee duties and contravened the Superannuation Industry (Supervision) Act 1993 (Cth) and disqualification orders against the five individuals from acting as trustees or a responsible officer of a trustee. At that time, IOOF announced that the allegations were misconceived and that it would vigorously defend the entities and individuals concerned. The matter was heard before the Honourable Justice Jayne Jagot from 1 to 17 July 2019. As the matter has been adjourned pending judgment by her honour, IOOF will not comment further.

The Final Report of the Royal Commission into Misconduct in the Banking, Superannuation and Financial Services Industry was presented to the Governor-General on Friday 1 February 2019. On Monday 4 February 2019 the Hon Josh Frydenberg released the Government's Response to the Royal Commission. The report itself runs to 496 pages, not including case studies and appendices. Findings and matters specific to IOOF were before the Federal Court, as noted above, hence the report was limited to republishing APRA's original allegations. Some of these allegations were amended in subsequent amendments to the Statement of Claim by APRA filed in the Federal Court.

The Federal Government has committed to adopting all recommendations of the Royal Commission. IOOF is highly supportive of these changes. The most financially significant is the cessation of grandfathering conflicted remuneration to financial advisers effective from 1 January 2021. Remuneration under these arrangements represented \$7.2m revenue to IOOF in the year to 30 June 2019.

Lastly, the Royal Commission outcome in respect of vertical integration, IOOF's business model, was favourable. The Commissioner concluded he was not persuaded that it was necessary to mandate structural separation between product and advice. The final report at p196 stated, "Enforced separation of product and advice would be a very large step to take. It would be both costly and disruptive. I cannot say that the benefits of requiring separation would outweigh the costs", and the Productivity Commission concluded that 'forced structural separation is not likely to prove an effective regulatory response to competition concerns in the financial system'.

Subsequent to these events, the Treasurer announced an "implementation road map" for the 54 recommendations from the Royal Commission which called for Government action. The implementation road map will see 50 recommendations implemented or before Parliament by mid-2020, with the remaining four recommendations needing legislation introduced to Parliament by the end of 2020. IOOF will assess the impact of this legislation when it is released for public scrutiny and inform stakeholders of that assessment as required.

Acquisitions and divestments

The IOOF Group has a long-term strategy of pursuing growth through acquisitions and has completed several acquisitions in previous years. The IOOF Group will continue to pursue acquisitions within the Wealth Management sector on an opportunistic basis. However acquisitions will only be considered where they present a logical strategic fit with existing operations and are priced reasonably for the expected value accretion to shareholders. The funding of acquisitions will be considered on a case by case basis taking into account the relative cost of available funding sources and the impact on balance sheet structure overall.

On 2 July 2018, IOOF completed the acquisition of 100% of the shares of Ability One (WA/SA) Pty Ltd, a specialist financial and life planning advisory business, based in Western Australia and South Australia.

IOOF Annual Financial Report 2019

Directors' report

Operating and financial review (continued)

Acquisitions and divestments (continued)

On 2 October 2018, IOOF and Australia and New Zealand Banking Group Limited (ANZ) finalised legally binding arrangements to give effect to the following:

- Full legal ownership of the ANZ ADGs transferred to IOOF effective 1 October 2018.
- Substantial 'economic' completion of the ANZ P&I business effective 2 October 2018 through:
 - an initial payment by IOOF of \$800m to ANZ to subscribe for a debt note;
 - payment by ANZ to IOOF of a coupon rate of 14.4%, which is broadly equivalent to 82% of the economic interests in the ANZ P&I business, from 2 October 2018 until 11 May 2019. From this date, the rate reduced to 2.0% until the debt note is redeemed (expected to be at completion of the acquisition of the ANZ P&I business).

Final completion of the P&I Acquisition remains conditional on the receipt of notices from OnePath Custodians (OPC) and ANZ that each have no objection to the P&I Acquisition proceeding. IOOF continues to work co-operatively with OPC and ANZ to provide the information and resources necessary to facilitate those notices being given. From 5 July 2019, recent amendments to the Superannuation Industry (Supervision) Act 1993 (Cth) came into force, giving APRA an approval power in respect of the acquisition of controlling stakes in Registrable Superannuation Entity licensees (such as OPC). As such, receipt of such an approval from APRA is now also a condition to completion of the P&I Acquisition. IOOF is well advanced in preparation and submission of material to APRA for due consideration of the matter.

Assuming stable economic conditions more generally, the accelerated completion date for the ADGs and the substantial 'economic' completion is expected to deliver Earnings Per Share accretion as per the forecasts previously disclosed in the initial announcement of the transaction. The accelerated completion date for the ADGs and the substantial 'economic' completion of the ANZ P&I business have contributed an additional \$26.6m UNPAT net of related financing costs.

On 1 November 2018, IOOF completed the divestment of the AET Corporate Trust business to Sargon Capital Pty Ltd (Sargon) for a total purchase consideration of \$51.6m. AET Corporate Trust's post-tax contribution to IOOF's underlying net profit after tax for the year to 30 June 2018 was \$1.1m.

\$41.3m, or 80% of the purchase price, was received upon completion, however the full consideration amount was used to determine an overall pre-tax gain on sale of discontinued operation of \$49.0m. \$10.3m in deferred consideration has since been deemed as unlikely to be received, and therefore written back in the current financial year. The write back arises from an inability to novate certain residual contract revenue to the business entities being acquired by Sargon. The results of the AET Corporate Trust business have been disclosed as discontinued operations in the financial statements.

IOOF has retained its AET Private Trust business; a core part of IOOF's diversified business model which focuses on private client trustee services, estate planning and compensation trusts.

On 27 June 2019, IOOF announced the divestment of its 70% holding in Ord Minnett Holdings Pty Ltd (Ord Minnett) to a consortium of private investors led by current Ord Minnett management (Consortium). Concurrently, the Consortium will also acquire JP Morgan's 30% stake in Ord Minnett, enabling it to take full ownership. Completion of the sale is expected to occur on or around 24 September 2019. The sale consideration for IOOF's 70% stake is \$115.0m, which is expected to result in a post-tax profit of approximately \$83m.

Analysis of financial results - IOOF Group

On a continuing operations basis, the IOOF Group's UNPAT of \$184.9m represented a \$9.2m (5.2%) increase on prior year. Inclusive of discontinued operations - Ord Minnett and AET Corporate Trust - UNPAT increased \$6.6m (3%) to \$198.0m. The variances below compare only the continuing operations of the IOOF Group.

IOOF Annual Financial Report 2019

Directors' report

Operating and financial review (continued)

Gross margin increased by \$2.7m

Excluding the \$12.5m gross margin contribution from the ex-ANZ ADGs, gross margin declined by \$9.8m. The following analysis discusses gross margin ex-ANZ ADGs.

During the current year, average Funds Under Management, Administration and Advice (FUMA) were \$115.4b, an increase of 3.6% on prior year. This increase was derived largely from equity market performance in the current year augmented by organic growth in advice and platform funds. Platform flows of \$1.4b were broadly equivalent to \$1.6b in the prior year. This segment benefited from enhanced capture of funds from other IOOF Group segments, principally trustee and Shadforth, and better penetration of the IOOF Group's existing client base. Financial advice flows of \$0.5b were down significantly on prior year. IOOF has a significant third party administration arrangement with BT. BT reduced its fees on an equivalent offering which left IOOF out of market on price, and therefore exposed to outflow to BT, temporarily. There was also an outsize low-margin inflow from a single client in the prior year. Investment management outflows of \$0.6b were largely derived from pension payment based redemptions.

The higher level of average funds boosted gross margin by \$18.4m, but was partly offset by the more rapid growth in products with lower earning rates or margins (impact of -\$28.1m on prior year). Within platform, the lower rates for the current year principally reflected the continuing trend for a higher proportion of funds to be directed towards more contemporary platforms with lower fees, but commensurately lower attributable overheads. In addition, contributions from relatively high balance clients in compensation trust and Shadforth relationships generally attract much lower fees per dollar of FUA. Investment management margins were relatively stable which is reflective of the steady state maturity and complementary nature of that segment. In financial advice, price competition from BT and the need to re-set fees in response, was dilutive on segment margin overall.

Other revenue increased by \$5.8m

There was no significant uplift absent the ANZ ADG contribution.

Operating expenditure increased by \$44.1m

ANZ ADGs contributed an additional \$41.7m in operating expenditure. Outside the ANZ ADG impact, operating expenditure increased \$2.4m or 1% on prior year. Labour costs are the IOOF group's most material at 68% of operating expenditure overall. These costs, ex-ANZ ADG, have declined by \$0.6m chiefly due to lower numbers of staff employed on underlying recurring activity given significant diversion of effort to preparing for the integration of ANZ and on one-off APRA licence condition related activity. Administration costs increased \$2.5m principally due to increased non-recoverable debts and professional indemnity insurance premiums. Computer related expenditure increased \$1.9m due largely to an increased number of efficiency enhancing collaboration applications being deployed. Occupancy related expenses decreased \$1.5m in the wake of significant prior year reconfiguration of the property footprint which resulted in certain one-off service fees and short term duplication in that period.

Net interest income increased by \$57.7m

For the first four months of the year, financing costs were eliminated by applying approximately \$557m of newly issued capital and surplus cash to extinguish \$207m in borrowings. The residual was initially applied to certificates of deposit. On 2 October 2018, the Group entered into the substantial economic completion arrangements described in acquisitions and divestments above. This resulted in significant interest income partly offset by financing costs on borrowings drawn to ensure \$800m in funds were available to ANZ.

Other impacts decreased UNPAT by \$5.1m

Share of associates' profits declined \$1.5m relative to prior year as a result of mandate outflows within the Perennial Value Management Group (PVM). Share-based payments expense was \$2.0m higher due to a new opt-in plan allowing employees to receive performance rights in lieu of cash for short-term incentives. Depreciation and amortisation increased in line with additional, largely ANZ integration and new office fit-out related, capital expenditure.

Income tax expense increased by \$7.9m

Income tax expense relative to prior year principally reflected the IOOF Group's improved profitability and decreased research and development (R&D) tax offsets. This was partly offset by a \$5m higher spend on treasury shares to fulfil employee share plans (\$3.5m positive tax impact), most particularly a new opt-in plan allowing employees to receive performance rights in lieu of cash for short-term incentives.

IOOF Annual Financial Report 2019

Directors' report

Operating and financial review (continued)

Analysis of financial results - Segments (excl Ex-ANZ wealth management and discontinued operations)

	2019 \$'000	2018 \$'000	Movement \$'000 %	
Financial advice and distribution				
Net operating revenue	191,898	199,607	(7,709)	(3.9%)
Other revenue (incl share of profits of associates)	4,007	3,847	160	4.2%
Operating expenditure	(108,185)	(109,175)	990	0.9%
Net financing	128	108	20	18.5%
Net non-cash items	(4,363)	(3,570)	(793)	(22.2%)
Income tax expense and non-controlling interest	(25,343)	(27,311)	1,968	7.2%
Underlying Profit after Tax	58,149	63,499	(5,350)	(8.4%)

- Average funds' growth through the addition of advisers has been more than offset by the impact of repricing downwards on third party administered advice funds. The repricing was a necessary response to halt fund outflows to an equivalent service with the same administrator.
- Operating expenditure has decreased slightly in line with labour expenditure constraint.
- Net non-cash items increased in line with group share based payment and depreciation impacts noted above.

Analysis of financial results - Segments (excl Ex-ANZ wealth management and discontinued operations) (continued)

	2019 \$'000	2018 \$'000	Movement \$'000 %	
Portfolio and estate administration				
Net operating revenue	233,991	237,177	(3,186)	(1.3%)
Other revenue (incl share of profits of associates)	-	75	(75)	(100.0%)
Operating expenditure	(108,932)	(104,935)	(3,997)	(3.8%)
Net financing	5	3	2	66.7%
Net non-cash items	(7,702)	(5,079)	(2,623)	(51.6%)
Income tax expense and non-controlling interest	(35,885)	(38,450)	2,565	6.7%
Underlying Profit after Tax	81,479	88,791	(7,312)	(8.2%)

- Net operating revenue decreased as a result of net funds diminution in high priced legacy and transition platforms, partly offset by high growth in platforms priced at contemporary competitive fee scales.
- Increased operating expenditure resulted primarily from technology support enhancements and higher corporate recharges given efficiencies realised in other segments.
- Net non-cash items increased in line with group share based payment and depreciation impacts noted above.

	2019 \$'000	2018 \$'000	Movement \$'000 %	
Investment management				
Net operating revenue	63,144	61,881	1,263	2.0%
Other revenue (incl share of profits of associates)	956	1,811	(855)	(47.2%)
Operating expenditure	(10,698)	(11,376)	678	6.0%
Net financing	-	-	-	n/a
Net non-cash items	(1,799)	(621)	(1,178)	(189.7%)
Income tax expense and non-controlling interest	(15,538)	(14,993)	(545)	(3.6%)
Underlying Profit after Tax	36,065	36,702	(637)	(1.7%)

- Net operating revenue improved in line with market based growth in average funds flowing largely from improved platform FUAdmin. Other revenue was affected by PVM performance.
- Decreased operating expenditure resulted from lower IT investment given deployment to platform segment.
- Net non-cash items increased in line with group share based payment and depreciation impacts noted above.

IOOF Annual Financial Report 2019

Directors' report

Operating and financial review (continued)

Financial Position

The IOOF Group held cash and cash equivalents of \$97.4m at 30 June 2019 (30 June 2018: \$125.6m). Cash is held to satisfy regulatory net asset requirements and also to ensure adequate liquidity given management fee receipts are less frequent than payroll and service fee cash outflows. This includes \$5.8m cash held by the Group's statutory benefit funds at 30 June 2019 (30 June 2018: \$4.2m) which is not available to shareholders.

The overall debt to equity ratio stood at 21% at 30 June 2019 (30 June 2018: 0%) following the issue of a debt note to ANZ, partly debt funded, as described in detail above.

Cash flow forecasting and monitoring of lending covenants is conducted monthly. This is principally to ensure sufficient liquidity for future needs and to monitor adherence to licence conditions.

Risks

The IOOF Group manages a number of risks in conducting its operations and implementing its strategy. An in depth discussion of risks and sensitivities is outlined in Section 1 of the financial statements. Material risks faced by the IOOF Group include, but may not be limited to, the following:

(i) Changes in investment markets

The IOOF Group derives a significant proportion of its earnings from fees and charges based on the level of FUMAS. The level of FUMAS will reflect (in addition to other factors such as the funds flowing into and out of FUMAS) the investment performance of those funds. Therefore, changes in domestic and/or global investment market conditions could lead to a decline in FUMAS, adversely impacting the amount the IOOF Group earn in fees and charges. Deterioration in investment market conditions could also lead to reduced consumer interest in the IOOF Group's financial products and services. The principal response to this risk has been to establish comprehensive investment governance committees, policies and procedures which are subject to continuous monitoring and oversight.

(ii) Competition

There is substantial competition for the provision of financial services in the markets in which the IOOF Group operates. A variety of market participants in specialised investment fund management, wealth advice and corporate trustee services compete vigorously for customer investments and the provision of wealth management services. These competitive market conditions may adversely impact earnings and assets. The IOOF Group manages this risk by continuously investing in product design, stakeholder relationships and continuous improvement initiatives.

(iii) Information technology

The IOOF Group relies heavily on information technology. Therefore, any significant or sustained failure in the IOOF Group's core technology systems could have a materially adverse effect on operations in the short term, which in turn could undermine longer term confidence and impact the future profitability and financial position of the IOOF Group. The IOOF Group has implemented a next-generation firewall, pursues continuous improvements to protect user devices and imposes segregation of duties between technology environments. More broadly, the IOOF Group uses policies and procedures which are subject to continuous monitoring and oversight, maintains a significant complement of experienced staff and employs specialist advisers. Information technology controls are highly complementary to those employed to minimise cyber security risks.

(iv) Cyber security

There is a risk of significant failure in the IOOF Group's operations and/or material financial loss as a result of cyber attacks. To manage this risk, the IOOF Group has followed the recommendation of ASIC and adopted the United States government's National Institute of Standards and Technology cybersecurity framework. In doing so, the IOOF Group has implemented measures and controls that cover identification, detection, monitoring and response in relation to cyber threats. More broadly, the IOOF Group has developed and tested its disaster recovery capability and procedures, implemented high availability infrastructure and architectures, conducted mandatory staff training which is focused on cyber risk and continually monitor systems for signs of poor performance, intrusion or interruption. Cyber security controls are highly complementary to those employed to minimise information technology risks.

(v) Brands and reputation

The IOOF Group's capacity to attract and retain financial advisers, employees, clients and FUMAS depends to a certain extent upon the brands and reputation of its businesses. A significant and prolonged decline in key brand value or IOOF Group reputation could contribute to lower new business sales, reduced inflows of investment funds and assets, damage to client strategies and may impact adversely upon the IOOF Group's future profitability and financial position. The IOOF Group actively monitors media and other public domain commentary on its affairs as well as proactively promoting the value of its services, products and community initiatives and building a customer centric culture.

Operating and financial review (continued)

Risks (continued)

(vi) Provision of investment advice

The IOOF Group's financial advisers and authorised representatives provide advice to clients and may be exposed to litigation if this advice is judged to be incorrect or if the authorised representative otherwise becomes liable for client losses. This risk is managed by having high educational, compliance and training standards for the IOOF Group's advisers whilst its potential financial impact is generally mitigated by taking out appropriate insurance cover.

(vii) Operational risks

Operational risk is the risk arising from the daily functioning of the IOOF Group's businesses. The IOOF Group has specific operational exposures relevant to the industry in which we operate including exposures in connection with product disclosure statements, investment management, tax and financial advice, legal and regulatory compliance, product commitments, process error, fraud, system failure, failure of security and physical protection systems and unit pricing errors. This risk is minimised via policies and procedures which are subject to continuous monitoring and oversight. The IOOF Group maintains a significant complement of experienced staff, builds a positive culture and utilises specialist advisers to carry out such monitoring.

(viii) Conduct risk

Conduct risk is the risk of failure of the IOOF Group's frameworks, product design or practices to prevent inappropriate, unethical or unlawful conduct (either by negligence or deliberate actions) on the part of the IOOF Group's management, employees, contractors or representatives. The IOOF Group's culture of honest and ethical behaviour is supported by the IOOF Code of Conduct and its Compliance Manual for Authorised Representatives, which set out the tenets of professional and personal conduct with which directors, employees, contractors, Authorised Representatives, agents and consultants are required to comply. These include promoting a healthy and safe environment, protecting private and confidential information, acting at all times within the law and acting in the best interests of the IOOF Group, its shareholders, clients and investors. As an additional safeguard, the IOOF Group's Whistleblower Policy protects employees from detrimental action where employees disclose, in good faith and with reasonable grounds, any unethical, illegal, fraudulent or undesirable conduct.

(ix) Credit risk

Credit risk refers to the risk that a counterparty will fail to meet its contractual obligations resulting in financial loss that arises from receivables, loans and other receivables. The IOOF Group's counterparties generally do not have an independent credit rating. The IOOF Group assesses the credit quality of the debtor taking into account its financial position, past experience with the debtor, and other available credit risk information.

(x) Cash flow and interest rate risk

Interest rate risk is the risk to the IOOF Group's earnings and capital arising from changes in market interest rates. The financial instruments held that will be impacted by interest rate risk consist of cash and cash equivalents, certificates of deposit, loans, and borrowings. Short and long-term investment mixes and loans to related entities are influenced by liquidity policy requirements. Interest rates (both charged and received) are based on market rates, and are closely monitored by management. They are primarily at variable rates of interest, and will expose the IOOF Group to cash flow interest rate risk. The IOOF Group intends to apply partial hedge cover to manage its interest rate risk exposure arising from its expected future borrowings to fund the ANZ Wealth Management acquisition.

(xi) Liquidity risk

Liquidity risk relates to the IOOF Group having insufficient liquid assets to cover current liabilities and unforeseen expenses. The IOOF Group manages liquidity risk exposure by maintaining sufficient liquid assets and an ability to access a committed line of credit. The liquidity requirements for licensed entities in the IOOF Group are also regularly reviewed and carefully monitored in accordance with those licence requirements.

(xii) Reliance on Australian Financial Services Licence, Registrable Superannuation Entity and other licences

In order to provide the majority of its services in Australia, a number of the IOOF Group's controlled entities are required to hold a number of licences, most notably Australian Financial Services (AFS) or Registrable Superannuation Entity (RSE) licences. If any of those entities fails to comply with the general obligations and conditions of its licence, this could result in the suspension or cancellation of the licence. A breach or loss of licences could have a material adverse effect on business and financial performance. AFS and RSE licences also require the licence holder to maintain certain levels of capital. These capital requirements may change from time to time. Earnings dilution may occur where a higher capital base is required to be held.

Operating and financial review (continued)

Risks (continued)

(xiii) Insurance

The IOOF Group holds insurance policies, including errors and omissions (professional indemnity) and directors' and officers' insurance, which are commensurate with industry standards, and adequate having regard to our business activities. These policies provide a degree of protection for the IOOF Group's assets, liabilities, officers and employees. However, no assurance can be given that any insurance that the IOOF Group currently maintains will:

- be available in the future on a commercially reasonable basis; or
- provide adequate cover against claims made against or by the IOOF Group, noting that there are some risks that are uninsurable (e.g. nuclear, chemical or biological incidents) or risks where the insurance coverage is reduced (e.g. cyclone, earthquake, flood, fire).

The IOOF Group also faces risks associated with the financial strength of its insurers to meet indemnity obligations when called upon which could have an adverse effect on earnings. If the IOOF Group incurs uninsured losses or liabilities, its assets, profits and prospects may be adversely affected.

(xiv) Unit pricing errors

Systems failures or errors in unit pricing of investments are issues affecting the broader funds management industry that may result in significant financial losses and brand damage to a number of financial services organisations. A unit pricing error made by the IOOF Group or its service providers could cause financial or reputation loss. This risk is minimised via policies, procedures and contractual enforcement which are subject to continuous monitoring and oversight. The IOOF Group maintains a significant complement of experienced staff and utilises specialist service providers to maintain robust systems and accurate inputs.

(xv) Dependence on key personnel

The IOOF Group's performance is dependent on the talents and efforts of key personnel. The IOOF Group's continued ability to compete effectively depends on our capacity to retain and motivate existing employees as well as attract new employees. The loss of key executives or advisers could cause material disruption to operations in the short to medium term. While equity incentives of key personnel align their interests with the IOOF Group's future performance, they do not provide a guarantee of their continued employment. The IOOF Group utilises succession planning to manage this risk.

(xvi) Dependence on financial advisers

The success of the IOOF Group's advice and platform business is highly dependent on the quality of the relationships with its financial advisers and the quality of their relationships with their clients. The IOOF Group's ability to retain productive advisers is managed by monitoring and, where necessary, improving service levels, technological capability, suitability of product offerings and the quality and relevance of professional training.

(xvii) Acquisitions

Acquisition transactions involve inherent risks, including:

- accurately assessing the value, strengths, weaknesses, contingent and other liabilities and potential profitability of acquired businesses;
- integration risks including the risk that integration could take longer or cost more than expected or that the anticipated benefits and synergies of the integration may be less than estimated;
- diversion of management attention from existing business;
- potential loss of key personnel and key clients;
- unanticipated changes in the industry or general economic conditions that affect the assumptions underlying the acquisition;
- decline in the value of, and unanticipated costs, problems or liabilities associated with, the acquired business; and
- potential for regulators to deny approval of acquisitions.

Any of these risks could result in a failure to realise the benefits anticipated to result from any acquisition of new business and could have a material adverse impact on the IOOF Group's financial position. The IOOF Group maintains a significant complement of experienced staff and holds relationships with specialist advisers to assess acquisition opportunities. This is designed to ensure the Board is fully informed of the risks and opportunities associated with any potential individual acquisition.

(xviii) Dilution

The IOOF Group's need to raise additional capital in the future in order to meet its operating or financing requirements, including by way of additional borrowings or increases in the equity of any of the consolidated entity's companies, may change over time. Future capital raisings or equity funded acquisitions may dilute the holdings of particular shareholders to the extent that such shareholders do not subscribe to additional equity, or are otherwise not invited to subscribe in additional equity. This risk will be managed by examination of relevant factors and circumstances prevailing at that time.

Operating and financial review (continued)

Risks (continued)

(xix) Regulatory and legislative risk and reform

The financial services sectors in which the IOOF Group operates are subject to extensive legislation, regulation and supervision by a number of regulatory bodies in multiple jurisdictions. The regulatory regimes governing the IOOF Group's business activities are complex and subject to change. The impact of future regulatory and legislative change upon the IOOF Group cannot be predicted. In addition, if the amount and complexity of new regulation increases, so too may the cost of compliance and the risk of non-compliance. The IOOF Group maintains an appropriately skilled and experienced staff and holds relationships with specialist advisers to minimise this risk.

(xx) Sustainability risk

A sustainability risk is an uncertain environmental or social event or condition that, if it occurs, can cause a significant negative impact on the IOOF Group. The IOOF Group focuses on the environmental effects of its premises, investment manager policies and business processes in order to implement ways to minimise those effects. The IOOF Group also maintains a number of policies dedicated to diversity, inclusion and engagement to ensure that its interactions with clients, staff and other key external parties are conducted in a compliant manner which also meets community expectations.

(xxi) Financing risk

Financing risk refers to the IOOF Group's inability to refinance debt facilities or to secure new financing on satisfactory terms which could adversely affect the IOOF Group's financial performance and prospects. To the extent that additional equity or debt funding is not available from time to time on acceptable terms, or at all, the IOOF Group may not be able to take advantage of acquisition and other growth opportunities, develop new ideas or respond to competitive pressures. If at any time the IOOF Group requires an extension to a facility but is unable to obtain it and is unable to repay the relevant facility, this will constitute a default under the other existing facilities and enable the financiers to demand immediate repayment and cancel the facilities. Cancellation of the debt financing arrangements would have an adverse impact on the IOOF Group's financial position and performance. This risk is minimised via a dedicated Treasury function with established policies and procedures which are subject to continuous monitoring and oversight.

Shareholder returns

The IOOF Group dividend is calibrated to provide shareholders with a benefit which reflects performance and offers an attractive yield when assessed against a range of other external economic factors and investment options. The Board also understands that dividend payments should not hinder future organisational plans. The Board has therefore determined that a pay-out ratio range of 60% - 90% of UNPAT is generally appropriate, but not binding. The Board has determined that a dividend of 12.0 cents per share, and an additional special dividend of 7.0 cents; totalling 19.0 cents per share and resulting in a total payout ratio of 68%, is appropriate. Current year profits and additional funding capacity from divestment profits support the payout, more than offsetting cash outflow on one-off ANZ integration and governance uplift costs. Also, advice remediation costs are expected to have a multiple future years cash outflow profile. This will be factored into payout capacity in each of those years.

Total Shareholder Return (TSR) measures the change in share value over a specified period together with the return by way of dividends received. The IOOF Group's TSR for the 12 months to 30 June 2019 was -38.3% with a dividend yield of 5.7% (based on the financial year volume weighted average price) more than offset by share price decline of 42.4%. The market valuation of the IOOF Group remains reflective of uncertainty over the long term effects of adoption of Royal Commission recommendations on wealth management, the acceleration of margin compression in administration and the yet to be realised potential for institutions to unlock a profitable business model in non-salaried advice businesses. TSR in the 5 year period from 1 July 2014 was -1.8% on a compounding annualised basis. The IOOF Group is in a strong financial position with borrowings within covenants, a low interest rate environment which reduces borrowing costs and significant free cash. All TSR figures quoted above include the final 2019 dividend but no other dividends that have been declared to be paid.

IOOF Annual Financial Report 2019

Directors' report

Operating and financial review (continued)

Shareholder returns (continued)

	2019	2018	2017	2016	2015
Profit attributable to owners of the Company (\$'000s) ⁽¹⁾	28,560	88,301	115,990	196,846	138,371

Closing share price at 30 June	\$ 5.17	\$ 8.99	\$ 9.80	\$ 7.83	\$ 8.99
Return on equity (non-statutory measure) ⁽²⁾	10.9%	11.3%	12.1%	12.3%	13.4%

⁽¹⁾ Profit attributable to owners of the Company has been calculated in accordance with Australian Accounting Standards.

⁽²⁾ Return on equity is calculated by dividing UNPAT by average equity during the year.

Returns to shareholders increase/decrease through both dividends and capital growth/decline. Dividends for 2019 and prior years were fully franked.

Dividends

In respect of the financial year ended 30 June 2019, the Directors declared the payment of a final dividend of 12.0 cents per share franked to 100% at 30% corporate income tax rate to the holders of fully paid ordinary shares to be paid on 27 September 2019. This dividend will be paid to all shareholders recorded on the Register of Members on 13 September 2019.

In respect of the financial year ending 30 June 2020, the Directors declared the payment of a special dividend of 7.0 cents per share franked to 100% at 30% corporate income tax rate to the holders of fully paid ordinary shares to be paid on 27 September 2019. This dividend will be paid to all shareholders recorded on the Register of Members on 13 September 2019.

The Directors declared the payment of an interim dividend of 25.5 cents per share franked to 100% at 30% corporate income tax rate to the holders of fully paid ordinary shares paid on 15 March 2019.

In respect of the financial year ended 30 June 2018, a final dividend of 27.0 cents per share franked to 100% at 30% corporate income tax rate was paid to the holders of fully paid ordinary shares on 4 September 2018.

Environmental regulation

The IOOF Group is not subject to significant environmental regulation.

Events occurring after balance date

The Directors have declared the payment of a final dividend of 12.0 cents per ordinary share franked to 100% based on tax paid at 30%, to be paid on 27 September 2019.

The Directors have declared the payment of a special 2020 dividend of 7.0 cents per ordinary share franked to 100% based on tax paid at 30%, to be paid on 27 September 2019.

The Directors are not aware of any other matter or circumstance not otherwise dealt with in this report, or the accompanying financial statements and notes thereto, that has arisen since 30 June 2019 that has significantly affected, or may significantly affect:

- the IOOF Group's operations in future financial years; or
- the results of those operations in future financial years; or
- the IOOF Group's state of affairs in future financial years.

Lead auditor's independence declaration

The lead auditor's independence declaration is included on page 39 of the annual financial report and forms part of the Directors' Report for the year ended 30 June 2019.

IOOF Annual Financial Report 2019

Directors' report

Company secretary

The Company Secretary is Mr A Paul M Vine LLB FGIA FCIS GAICD. Mr Vine was appointed to the position in December 2015, with over 25 years' experience in legal and governance roles in public companies and leading law firms.

Directors' meetings

The number of Directors' meetings (including meetings of committees of Directors) and number of meetings attended by each of the Directors of the Company during the financial year are:

(1) Leave of absence commenced 10 December 2018.

(2) Leave of absence commenced 10 December 2018. Resigned as of 4 April 2019.

(3) Appointed Managing Director effective 25 June 2019.

(4) Committee included, for a period, additional members who are not Directors of IOOF Holdings Ltd but are Directors of APRA regulated subsidiaries.

Meetings held represents the number of meetings held during the time the Director held office.

The Directors meetings are those held for IOOF Holdings Ltd. This does not include the meetings held and attended by Directors for the various subsidiary companies. Major subsidiaries averaged a further 8 meetings each during the year.

In addition to the meetings attended during the year, a number of matters were considered and addressed separately via circular resolution.

Shares issued on exercise of options

During the financial year, the IOOF Group did not issue any ordinary shares of the Company as a result of the exercise of options. All plans were satisfied from the purchase of shares.

Unexercised options over shares, performance rights and deferred shares

At the date of this report, performance rights on issue are:

Performance rights	
Vesting date	Number of rights
31 Dec 19	30,000
30 Jun 20	170,891
30 Jun 21	458,461
	659,352

Deferred shares	
Vesting date	Number of shares
31 Jul 18	35,420
31 Jul 19	93,746
31 Jul 20	93,746
	222,912

Upon his resignation on 4 April 2019, 383,285 performance rights granted to Christopher Kelaher lapsed.

The 'look back' relating to deferred shares that were due to vest on 31 Jul 18 has been postponed. Refer to the Remuneration Report for further details.

Shares allocated on vesting will rank equally with all other ordinary shares on issue.

These performance rights do not entitle the holder to participate in any share issue or receive dividends of the Company.

IOOF Annual Financial Report 2019

Directors' report

Indemnification and insurance

Rule 84 of the IOOF Holdings Ltd Constitution requires the Company to indemnify to the extent permitted by law, each Director and Secretary against liability incurred in, or arising out of the conduct of the business of the Company or the discharge of the duties of the Director or Secretary. The Directors and Secretary named in this Directors' Report have the benefit of this requirement, as do individuals who formerly held one of those positions.

In accordance with this requirement the Company has entered into Deeds of Access, Indemnity and Insurance (Deeds of Indemnity) with each Director and Secretary. During the financial year, the IOOF Group paid insurance premiums to insure against amounts that the IOOF Group may be liable to pay the Directors and Secretary pursuant to Rule 84. The insurance policy also insures the Directors and Secretary of the Company and its controlled entities, and the general officers of each of the companies in the IOOF Group. Details of the amount of the premium paid in respect of the insurance contract have not been disclosed as such disclosure is prohibited under the terms of the contract.

The liabilities insured are legal costs that may be incurred in defending civil or criminal proceedings that may be brought against the officers in their capacity as officers of entities in the IOOF Group and any other payments arising from liabilities incurred by the officers in connection with such proceedings, other than where such liabilities arise out of conduct involving a wilful breach of duty by the officers or the improper use by the officers of their position or of information to gain advantage to themselves or someone else or to cause detriment to the Company.

Rounding off of amounts

The Company is a company of the kind referred to in ASIC Corporations Instrument 2016/191, dated 24 March 2016, and in accordance with that Instrument amounts in the financial report are rounded off to the nearest thousand dollars, narrative disclosures are expressed in whole dollars or as otherwise indicated.

Non-audit services

The Directors are satisfied that the provision of non-audit services during the year of \$678,780 by the auditor is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001. Non-audit services are managed as follows:

- fees earned from non-audit work undertaken by KPMG are capped at 1.0 times the total audit fee;
- services have been reviewed and approved to ensure that they do not impact the integrity and objectivity of the auditor; and
- services do not undermine the general principles relating to auditor independence as set out in the Code of Conduct APES 110 Code of Ethics for Professional Accountants issued by the Accounting Professional & Ethical Standards Board, including reviewing or auditing the auditor's own work, acting in a management or decision-making capacity for the IOOF Group, acting as advocate for the IOOF Group or jointly sharing economic risks and rewards.

Proceedings on behalf of the Company

No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party, for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

No proceedings have been brought or intervened in on behalf of the Company with leave of the Court under section 237 of the Corporations Act 2001.

Remuneration Report

Letter from the Remuneration Committee Chair

Dear Shareholder

I am pleased to present our Remuneration Report for 2019.

The IOOF Group's aim is to continue to ensure that our remuneration framework and outcomes drive the right behaviours whilst motivating, rewarding and retaining our key people across the business.

Our remuneration philosophy remained consistent with the approach described in last year's Remuneration Report, which provides consistency, transparency and comparability in the presentation of remuneration outcomes for the year to 30 June 2019.

2019 was a year of significant change at the KMP level for IOOF.

On 4 April 2019, the Company announced that Christopher Kelaher, Managing Director would leave by mutual agreement. A termination payment was made during the year, in accordance with the terms of his employment contract. All of Christopher's unvested long-term incentive performance rights lapsed as a result of his cessation of employment. His short-term incentive deferred shares remain subject to 'look-back'.

On 25 June 2019, the Company announced the appointment of Renato Mota as the Group's Chief Executive Officer, and that Renato also joined the Board as Managing Director. Renato was Acting Chief Executive Officer from December 2018, and prior to that was the Group's General Manager Wealth Management. His remuneration arrangements are described in detail in this report. A key feature of the remuneration arrangements of his CEO role is the removal of a discretionary short-term incentive component.

On 10 December 2018, George Venardos took a leave of absence from the IOOF Board. As he stepped aside as Chairman, Allan Griffiths was appointed Acting Chairman on this date and was appointed Chairman on 4 April 2019.

In addition, on 10 December 2018, Frank Lombardo, Group General Manager, Client & Process was appointed KMP.

Outcomes for the year ended 30 June 2019

As described in our Directors' Report, 2019 was a year of solid financial performance from an UNPAT perspective for the Group. However, our shareholders were adversely affected by share price underperformance experienced at IOOF and across the financial services sector during the year. As a result, there have been no discretionary short term incentives awarded to any KMP or certain other senior management personnel for the 2019 year.

The share price underperformance is also reflected in the long term incentives which were tested during the year, with the outcome of the Total Shareholder Return (TSR) hurdles being well below target performance levels. Accordingly, the executive performance rights subject to a TSR performance hurdle did not vest.

Looking ahead to 2020

Following a review of the current remuneration framework by the Group Remuneration Committee, with independent input provided by KPMG 3dc (executive remuneration and performance advisory), there will be significant changes to remuneration framework, policies and practices in future years. 2020 will be a transitional year in which we will finalise our longer term remuneration framework, reflecting both regulatory and market expectations from 2021.

The Group Remuneration Committee is currently considering removing short term incentives for all KMP. Long term incentives are also expected to change to a minimum four year vesting period with a range of financial and non-financial performance measures to be included in vesting conditions when awarding these. However, we intend to increase the focus on non-financial performance metrics. This is to encourage long-term decision making in the interest of the Group's clients, shareholders and other stakeholders.

We will continue to review our remuneration framework to ensure that it supports our direction, culture, behaviours and expectations of our various internal and external stakeholders.

Yours sincerely

Jane Harvey
Remuneration Committee Chair
26 August 2019

Remuneration Report

1. Year to 30 June 2019 remuneration key features

Changes In Key Management Personnel (KMP)

New Chief Executive Officer and Managing Director

R Mota	Chief Executive Officer and Managing Director (CEO) 25 Jun 2019 - present
--------	--

Renato Mota was appointed CEO on 25 June 2019. Key features of Renato's remuneration package as CEO are \$1.2 million total fixed remuneration (TFR), no short-term incentive component and a maximum long-term incentive from the 2020 financial year of 100% of TFR to vest after four years.

Full details of R Mota's remuneration arrangements are included in section 3 of this report.

Former Managing Director

C Kelaher	Employment ceased 2 Jul 2019
-----------	---------------------------------

As Christopher Kelaher ceased employment effective 2 July 2019, his remuneration arrangements are included in this report for the full year.

Christopher received a termination payment of \$1,273,379 in lieu of his contractual notice period, along with accrued leave entitlements. He was not awarded any STI or LTI for the 2019 financial year.

All of his unvested LTI performance rights lapsed as a result of his cessation of employment. His deferred STIs granted in the 2017 and 2018 financial years remain subject to 'look-back' provisions.

Full details of C Kelaher's remuneration arrangements are included in section 9 of this report.

Additions to KMP during 2019

There has been 1 addition to KMP during the year;

F Lombardo	Group General Manager Client & Process	Appointed as KMP 10 Dec 2018
------------	--	------------------------------

Full details of KMP remuneration arrangements are included in section 4 of this report.

Key features of the year to 30 June 2019 KMP remuneration

Short term incentive (STI)

As noted in the Committee Chair's introduction to the Remuneration Report on page 18, it was determined that no discretionary STIs were to be awarded to KMP or certain other senior management personnel for the 2019 financial year due to share price underperformance during the year.

Full details of STIs are included in section 4 of this report.

Long term incentive (LTI)

The 2017 LTI performance rights hurdles were tested during the year. 50% did not vest and lapsed for all KMP due to the TSR hurdle relative to the ASX 200 not being met. 50% vested based on the three year tenure hurdle being met for all KMP.

Full details of LTIs vested during the year are included in section 4 of this report.

Remuneration Report

1. Year to 30 June 2019 remuneration key features (continued)

Non-Executive Director (NED) remuneration

For the second year in a row, the Board has determined that no increases in NED fees would be applied for the 2020 year.

Full details of NED remuneration arrangements are included in section 8 of this report.

Changes to remuneration framework

Following a review of the current remuneration framework by the Group Remuneration Committee, with independent input provided by KPMG 3dc (executive remuneration and performance advisory), there will be significant changes to remuneration framework, policies and practices in future years. 2020 will be a transitional year in which we will finalise our longer term remuneration framework, reflecting both regulatory and market expectations from 2021.

The Group Remuneration Committee is currently considering removing short term incentives for all KMP. Long term incentives are also expected to change to a minimum four year vesting period with a range of financial and non-financial performance measures to be included in vesting conditions when awarding these. This is to encourage long-term decision making in the interest of the Group's clients, shareholders and other stakeholders.

Further details of remuneration framework changes are included in section 7 of this report.

Summary of KMP remuneration received in 2019

Taking into account the above changes to KMP and remuneration arrangements, this table shows a summarised year-on-year comparison of the value of remuneration received by KMP.

Name	Financial year	Fixed	Variable		Total value of remuneration received
		TFR	STI ⁽¹⁾	LTI ⁽²⁾	
R Mota	2019	788,644	-	68,475	857,119
	2018	525,363	225,000	222,025	972,388
D Coulter	2019	474,868	-	68,475	543,343
	2018	467,249	225,000	222,025	914,274
G Riordan	2019	485,958	-	68,475	554,433
	2018	475,960	142,841	222,025	840,826
D Farmer ⁽³⁾	2019	341,668	142,713	-	484,381
	2018	335,526	116,025	-	451,551
KMP appointed during 2019					
F Lombardo ⁽⁴⁾	2019	295,192	-	-	295,192
Former KMP					
C Kelaher	2019	1,330,403	-	-	1,330,403
	2018	1,275,480	628,604	977,927	2,882,011

(1) Cash STI awarded during the year.

(2) Tenure-based LTI value calculated using closing share price at date of issue of shares. 08/08/2017 - \$10.70. 01/08/2018 - \$9.13.

(3) 50% of D Farmer's STI is determined based on investment performance relative to relevant composite benchmark. 50% is discretionary and as with other KMP, it has been determined that no discretionary STIs are to be awarded.

(4) Appointed as KMP from 10 December 2018.

This table supplements, and is different to, the Statutory Remuneration table which presents the accounting expense for both vested and unvested awards in accordance with the Australian Accounting Standards.

Remuneration Report

2. Key Management Personnel covered by this report

The KMP whose remuneration is disclosed in this year's report are:

Name	Role	Term as KMP
R Mota	Group General Manager - Wealth Management 1 July 2018 - 9 December 2018 Acting Chief Executive Officer 10 Dec 2018 - 24 June 2019 Chief Executive Officer and Managing Director (CEO) 25 Jun 2019 - present	Full year
D Coulter	Chief Financial Officer	Full year
G Riordan	Group General Counsel	Full year
D Farmer	Chief Investment Officer	Full year
F Lombardo	Group General Manager Client & Process	Appointed as KMP 10 Dec 2018
NEDs		
A Griffiths	Independent Non-Executive Director 1 July 2018 - 9 December 2018 Acting Chairman 10 Dec 2018 - 3 April 2019 Chairman 4 April 2019 - present	Full year
J Harvey	Independent Non-Executive Director	Full year
E Flynn	Independent Non-Executive Director	Full year
J Selak	Independent Non-Executive Director	Full year
G Venardos	Independent Non-Executive Director & Chairman 1 July 2018 - 9 December 2018 Leave of absence 10 December 2018 - present Resigned as Chairman 4 April 2019	Full year

Andrew Bloore will be appointed a Non-Executive Director (NED) from 2 September 2019 as disclosed to the ASX on 25 June 2019. Michelle Somerville will be appointed a NED from 1 October 2019 as disclosed to the ASX on 20 August 2019.

Former KMP

Managing Director		
C Kelaher	Managing Director 1 July 2018 - 9 December 2018 Leave of absence 10 December 2018 - 2 July 2019 Resigned as Managing Director 4 Apr 2019 Employment ceased 2 Jul 2019	Full year

The Remuneration Report is prepared, and audited, in accordance with the requirements of the Corporations Act 2001. It forms part of the Directors Report.

The Remuneration Report is designed to provide shareholders with an understanding of the Group's remuneration principles, policies, and programs, and their link with the Group's strategy and financial performance.

Remuneration Report

3. New CEO remuneration

Renato Mota was appointed as the CEO of the Group effective 25 June 2019.

CEO remuneration arrangements

R Mota is on a contract with no fixed term. His remuneration package includes a fixed remuneration element, with an LTI including financial and non-financial hurdles, with no STI.

Component of remuneration	Value
Fixed remuneration	
Salary (including superannuation)	\$1.2 million
Variable remuneration	
STI	\$nil
LTI	100% of total fixed remuneration maximum

Subject to approval at the 2019 AGM, the Board has approved a grant of 75,000 LTI performance rights to Mr Mota based on his previous roles as described in section 2, and on the terms set out in section 4.

Termination

Either IOOF or Renato may terminate the contract on 12 months' notice.

The Group may immediately terminate the contract for cause in a number of specified circumstances, including material breach of contract, serious or persistent misconduct or willful neglect of duty.

Entitlements to any LTI on cessation of employment will be determined in accordance with the relevant plan rules.

Restraint

For 12 months from the date of termination of employment, Renato must not work for a competitor or solicit clients, prospective clients, suppliers, staff or contractors.

Remuneration Report

4. Year to 30 June 2019 Key Management Personnel remuneration summary

2019 remuneration comprises both "fixed" and "variable" components. The remuneration arrangements for KMP comprise three key components:

Component	Performance Conditions	Remuneration Principle
Fixed		
TFR		
Base salary, employer superannuation contributions and other fringe benefits.	TFR is determined by taking into consideration expertise, responsibility, knowledge, experience and market competitiveness.	Attract, motivate and retain ambitious and motivated executives. Reflect employee's contribution, skills and qualifications. Reflect market benchmarks and remuneration environment.
Variable		
STI		
50% cash.	STIs are discretionary and determined for each individual KMP based on a balanced scorecard which includes: Customer: Net Promoter Score, Wealth Insights rankings Financial: Total Shareholder Return (TSR), Return on Equity (RoE), underlying profitability Business Excellence: Balance sheet and liquidity initiatives, expense management Strategy: Regulatory adherence, acquisitions, divestment of non-core assets Governance: Risk management, regulatory compliance People and Culture: Action plans from employee Engagement and Alignment survey.	Support the financial and strategic direction of the Group, and in turn, translate to shareholder return. Targets for each measure are set by the Board to provide a challenging but purposeful incentive.
50% deferred shares, vesting over 2 years, subject to 'look back'.		Individual performance measures are specific to the KMP's role.
Maximum is 100% of TFR.	Chief Investment Officer - D Farmer only 50% determined based on investment performance relative to relevant composite benchmarks 50% discretionary based on balanced scorecard	
LTI		
100% share-based arrangements.	50% performance rights - relative TSR against ASX 200 - 3 year vesting period subject to retesting if some or all of the rights do not vest	TSR focuses on the delivery of shareholder value. The tenure based LTI element assists the Group to attract and retain quality people and aligns future performance with shareholders' expectations.
Maximum is 100% of TFR.	50% tenure-based - 3 year vesting period subject to an additional 1 year holding lock	Incentives to remain with the Group to enhance sustainable performance over the long term.

As noted in the Committee Chair's letter on page 18, 2020 will be a transitional year in which the above arrangements will be considered as part of our overall remuneration framework review with significant changes expected from 2021 onwards.

Remuneration Report

4. Year to 30 June 2019 Key Management Personnel remuneration summary (continued)

Year to 30 June 2019 remuneration framework performance periods

Remuneration Report

5. Year to 30 June 2019 Key Management Personnel variable remuneration targets and outcomes

Remuneration of KMP (excluding the CEO) is determined by the CEO, recommended by the Committee and approved by the Board.

STIs

STI: targets and outcomes

At the end of the year, STIs were considered and assessed by the Board. As discussed in the Committee Chair's letter on page 18, it was determined that no discretionary STIs were to be awarded to any KMP or certain other senior management personnel.

'Look back' events

In 2018, the Board implemented a two year 'look back' on a portion of STIs to ensure events that are found to have occurred after determination of incentives are appropriately factored into the allocation of those awards.

'Look back' events:

- the KMP engages or has engaged in fraud, dishonesty or gross misconduct;
- the financial results that led to the KMP's reward being provided are subsequently shown to be materially misstated;
- the KMP behaves or has behaved in a manner which brings the IOOF Group into disrepute; or
- the Board determines, in its absolute discretion, that the KMP's reward is an inappropriate benefit.

The 'look back' on STI deferred shares granted in 2018 was performed, and a summary of deferred shares allocated to KMP is included in section 12 of this report. Consideration of 'look back' events in relation to the two current KMP involved in the current APRA litigation was postponed until after judgement in that case is known.

LTIs

LTI: targets and outcomes

The Board considers a long-term performance-related incentive component to be an important element of the KMP reward framework.

Year ended 30 June 2019

Vesting of 50% of performance rights is subject to serving a three year employment period commencing on the date of grant.

50% of the grant is then subject to a TSR progressive vesting scale over three years. TSR was chosen as the most appropriate comparative measure as it focuses on the delivery of shareholder value. TSR represents the change in the value of a share plus the value of dividends paid.

The tenure based element for KMP assists the IOOF Group to attract and retain quality people and aligns future performance with shareholders' expectations.

Early vesting may occur in certain circumstances, subject to the performance hurdle being achieved and Board approval:

- on a person/entity acquiring more than 20% of the voting shares in the Company pursuant to a takeover bid that has become unconditional;
- on the termination of employment due to death or permanent disability; or
- in other exceptional circumstances where the Board determines appropriate.

The Committee engaged the services of an independent external organisation (Deloitte) to calculate the IOOF Group's performance against the TSR performance hurdles.

Subject to further Board consideration, the above terms will apply to any LTI grants for the year ended 30 June 2020.

Remuneration Report

5. Year to 30 June 2019 Key Management Personnel variable remuneration targets and outcomes (continued)

The below LTI performance rights are in place at the date of this report:

Year	Performance period	Grant date	IOOF TSR for the period %	Ranking relative to ASX200	Vesting status at 30 Jun 2019	Vesting date
2019 LTI performance rights	2019-2021	17 Aug 18	Performance period not complete			30 Jun 21
2018 LTI performance rights	2018-2020	21 Aug 17	Performance period not complete			30 Jun 20
2017 LTI performance rights - D Farmer	2018-2020	01 Mar 17	Performance period not complete			31 Dec 19
2017 LTI performance rights	2017-2019	9 Sep 16	-21.64%	149th	0% vested	30 Jun 19

Refer to section 7 for discussion on 2020 LTI performance rights

The performance period for the 2017 LTI performance rights was completed in 2019. With a TSR ranking of 149th relative to the ASX 200, no performance rights vested under the TSR performance hurdle for any KMP. All KMP remained employed during the three year period.

Accordingly, the following shares vested for KMP under the 2017 LTI performance rights:

Name	Type of instrument	Employment condition - 50%	TSR performance hurdle - 50%	% vested in year	% forfeited in year
		Number of shares vested			
R Mota	2017 LTI performance rights	15,000	-	50.0%	50.0%
D Coulter	2017 LTI performance rights	15,000	-	50.0%	50.0%
G Riordan	2017 LTI performance rights	15,000	-	50.0%	50.0%

Change of control and cessation of employment

The Board has determined that, if there is a change of control, any unvested LTIs may vest subject to the approval of the Board. If the Board so determines, any unvested performance rights may become exercisable. On cessation of employment, unvested LTIs will be dealt with as follows:

Reason for termination	Treatment of unvested LTIs
Termination of employment by IOOF by notice	The Board has discretion to waive the performance hurdles or determine that the proportion (if any) of unvested LTIs that will vest
Termination of employment by IOOF for cause	Unvested performance rights and share options are forfeited
Dismissal for serious misconduct (eg fraud)	Unvested performance rights and share options are forfeited

Hedging of unvested securities

The IOOF Group Policy - Personal Trading in IOOF Holdings Limited Securities contains a restriction on KMP and other employees entering into a hedging transaction to remove the 'at risk' aspect of securities that have been granted to them as part of their remuneration package and which have not vested subject to performance conditions and/or which are still subject to forfeiture conditions. Employees are provided with a copy of this policy and are required to provide annual certification that they have complied with the policy. Failure to comply with the policy may result in disciplinary action, including forfeiture of the securities, suspension or termination of employment.

Remuneration Report

6. Remuneration governance

Remuneration Framework

The Board oversees the IOOF Group's remuneration policies on recommendation from the Committee. The Committee reviews the remuneration policies of the IOOF Group annually to ensure that they support the IOOF Group's objectives.

The IOOF Group's Remuneration Framework, established by the Committee, considers the adequacy of remuneration policies and practices within the IOOF Group on an annual basis, including:

- ensuring remuneration practices enable realisation of IOOF's purpose;
- determination of CEO and other KMP remuneration arrangements;
- ensuring that succession planning and development plans are in place for KMP and their potential successors;
- on-going review and monitoring of STI and LTI schemes;
- setting key performance indicators and assessment of the CEO and the IOOF Group's performance against those key performance indicators;
- overall compensation arrangements of the IOOF Group;
- ensuring remuneration policies are appropriate for NEDs;
- ongoing review of the composition, skill base and performance of NEDs; and
- compliance with regulatory requirements including the ASX Listing Rules and the associated ASX Corporate Governance Principles and meeting both ASIC and APRA requirements.
- ensuring remuneration practices support the sound management of financial as well as non-financial risk.

The Group Remuneration Committee

The Committee reviews and makes recommendations to the Board on the remuneration structure and policies applicable to the KMP and NEDs of the IOOF Group, as well as the wider IOOF employee population.

The Committee's charter is available on the Corporate Governance page of the Company's website at www.ioof.com.au

The Committee is comprised solely of NEDs, all of whom are independent. The members of the Committee for the year ended 30 June 2019 were A Griffiths (Chair) from 1 July 2018 to 10 December 2018 and member from 11 December to present, J Harvey (Chair) from 10 December 2018 to present, G Venardos (leave of absence commenced 10 December 2018) and E Flynn (full year).

The Board considers that the members of the Committee provide an appropriate mix of skills to undertake its terms of reference, having regard to their qualifications, knowledge of the financial services industry and experience in business management.

Remuneration Report

6. Remuneration governance (continued)

IOOF Holdings Ltd Board

Group Remuneration Committee

Reviews and makes recommendations to the Board on remuneration policies, to ensure that they support the Group's objectives and comply with regulatory requirements.	Establishment and maintenance of the IOOF Group's Remuneration Framework, including determination of KMP remuneration arrangements, ongoing review of STI and LTI schemes, and assessment of performance against key performance indicators.	Ensuring remuneration policies are appropriate for NEDs, and the ongoing review of the composition, skill base and performance of NEDs.
--	--	---

In order to ensure that it is fully informed when making remuneration decisions, the Committee receives regular reports and updates from the Company Secretary, Chief Risk Officer, and Group General Manager, People and Culture and other members of management invited by the Committee to attend meetings when appropriate. The Committee can also draw on services from a range of external sources, including access to benchmarking material and remuneration consultants. This enables the IOOF Group to remain competitive with relevant competitors in the financial services sector and the broader spectrum of public companies of similar size, revenue and profitability.

The Committee seeks and considers advice from independent, external remuneration consultants where appropriate. KPMG 3dc was engaged during the year to provide remuneration-related advice in respect of senior executives. The advice did not constitute a remuneration recommendation for the purposes of the Corporations Act 2001.

The Committee's charter is available on the Corporate Governance page of the Company's website at www.ioof.com.au

Remuneration Report

7. Year to June 2020 remuneration arrangements

Key objectives for the 2020 KMP reward framework are:

Attraction and retention of the best talent	Attract, motivate and retain world-class talent to drive the performance of the Company for our shareholders
Strategy-led	Support our advice-led approach to delivering customer outcomes Emphasis on delivering quality advice rather than selling financial products Support IOOF's ClientFirst philosophy to deliver a sustainable competitive advantage
Promote a sound risk management culture	Sound management of non-financial and financial risk and individual and collective accountability Meet the expectations of stakeholders in a post Royal Commission world
Shareholder alignment	Align outcomes with the shareholder experience through allocation of equity and delivery of shareholder returns Facilitate an 'ownership mindset' and long-term focus among participants
Anticipate regulatory developments and impacts on remuneration	Consider potential BEAR requirements and changes to APRA standards and their impact on remuneration

Performance rights - 2020 LTI performance rights

The Board will consider 2020 LTI rights later in 2019 following the Senior Management review which was announced to the ASX on 25 June 2019.

As 2020 is a transitional year, the 2020 LTI performance rights performance hurdle will be 50% tenure based and 50% relate to the IOOF Group's TSR over a three year period from 1 July 2019 to 30 June 2022 measured against the TSR of a group of companies comprising the S&P ASX 200 as at 1 July 2019. The performance rights will be subject to a TSR hurdle whereby the IOOF Group's TSR must be greater than the median TSR of S&P/ASX200.

The TSR hurdle has progressive vesting on a straight line basis, such that 2% of LTI awards vest for each 1% ranking increase from 50th percentile. All vest if 75th percentile is achieved.

Remuneration Report

8. Non Executive Director remuneration

NEDs receive a fixed fee including superannuation for being a Director of the Board, with an additional fee for the Chairman of the Board. No additional fees are paid for service on Board Committees or subsidiary company Boards.

In setting fees, the Board considers general industry practice; best principles of corporate governance; the responsibilities and risks attached to the NED role; the time commitment expected of NEDs on Group and Company matters; and fees paid to NEDs of comparable companies.

In order to ensure NED independence and impartiality, fees are not linked to Company performance and NEDs are not eligible to participate in any of the Group's incentive arrangements

The Board has reviewed NED fees for 2020 and, for the second year, has determined not to increase their fees.

NED fees	
Elements	Details
NED fees	2018/19 Fees per annum were:
(no change to 2018)	IOOF Holdings Board Chair fee \$285,000
	IOOF Holdings Board NED fee \$170,000
Post-employment benefits	Superannuation contributions are made at a rate of 9.5% (up to the Government's prescribed maximum contributions limit) and are included in the NED fee.

The current aggregate fee pool for NEDs of \$1.25 million was approved by shareholders at the 2013 Annual General Meeting. The annual total of NEDs' fees, including superannuation contributions, is within this agreed limit.

Andrew Bloore will be appointed a NED from 2 September 2019 as disclosed to the ASX on 25 June 2019. Michelle Somerville will be appointed a NED from 1 October 2019 as disclosed to the ASX on 20 August 2019.

2019 Statutory Remuneration - NEDs				
NED		Short-term benefits	Post-employment	Total
		Directors' fees ⁽²⁾	Superannuation	
		\$	\$	\$
A Griffiths ⁽¹⁾	2019	216,272	17,863	234,135

	2018	885,955	79,045	965,000

⁽¹⁾ A Griffiths was appointed Acting Chairman on 10 December 2018 and Chairman on 4 April 2019. G Venardos has been on leave from the Board since 10 December. He resigned as Chairman effective 4 April 2019 and remains a Non-Executive Director. The variation in fees year-on-year reflects these changes.

⁽²⁾ Directors' fees includes any fees sacrificed into superannuation funds.

Remuneration Report

8. Non Executive Director remuneration (continued)

Equity holdings of NEDs

The relevant interest of each NED in the shares issued by the Company is as follows:

Name	Balance as at 1 Jul 2018	Changes during the year	Balance as at 30 Jun 2019 ⁽¹⁾	Balance as at report sign-off date
A Griffiths	41,428	-	41,428	41,428
G Venardos	74,244	17,185	91,429	91,429
J Harvey	29,856	5,400	35,256	35,256
E Flynn	26,428	-	26,428	26,428
J Selak	55,000	-	55,000	55,000

Terms of appointment

All NEDs have letters of appointment detailing the terms under which they are engaged. The term of appointment for each is open-ended, subject to the provisions of the Corporations Act and the Company's Constitution. Under the Constitution, one-third of Directors must retire from office each year and may seek re-election by shareholders at the Annual General Meeting of the Company.

Remuneration Report

9. Former Managing Director remuneration arrangements

C Kelaher's resignation was announced on 4 April 2019. The resignation was effective 2 July 2019. C Kelaher received a termination payment of \$1,273,379 in lieu of his contractual notice period, along with accrued leave entitlements. C Kelaher's unvested LTI performance rights lapsed as a result of his cessation of employment. His STI deferred shares remain subject to 'look-back'.

LTI performance rights lapsed

A summary of the LTI performance rights that lapsed is as follows:

Year	Performance Hurdle	Grant date	Performance period	Rights lapsed	Lapse date
2019	TSR greater than median TSR of the S&P/ASX200	28 Nov 18	2019-2021	140,785	4 Apr 19
2018	TSR greater than median TSR of the S&P/ASX200	23 Nov 17	2018-2020	122,500	4 Apr 19
2017	TSR greater than median TSR of the S&P/ASX200	24 Nov 16	2017-2019	120,000	4 Apr 19

STI deferred shares subject to 'look back'

A summary of the STI deferred shares which remain subject to 'look back' is as follows:

Instrument	Grant date	Number granted ⁽¹⁾	Balance at 1 Jul 18	Granted as compensation	Exercised/Vested	Forfeited/Lapsed	Balance at 30 Jun 19	Financial year of vesting
2018 deferred shares	30-Jun-18	18,316	18,316	-	-	-	18,316	2021
2018 deferred shares	30-Jun-18	18,316	18,316	-	-	-	18,316	2020
2017 deferred shares	30-Jun-17	35,420	35,420	-	-	-	35,420	2019
			72,052	-	-	-	72,052	

As was the case in the prior year, the 'look back' relating to deferred shares of C Kelaher, that were due to vest in July 2019 has been postponed. The Board took into account the external events that have been ongoing throughout the 2019 financial year and the share price performance and determined it appropriate to reserve its decision in connection with the 'look back'.

Equity holdings

The relevant interest of C Kelaher in the shares issued by the Company, is as follows:

Ordinary shares		Balance at 1 July No.	Received on vesting of performance rights No.	Net other change No.	Balance at 30 June ⁽¹⁾ No.
Former KMP					
C Kelaher	2019	3,566,381	-	-	3,566,381
	2018	3,443,449	91,395	31,537	3,566,381

⁽¹⁾ The equity holding for the above individuals is inclusive of both direct and indirect shareholdings.

C Kelaher's final Directors interest notice was lodged with the ASX on 4 April 2019 with 3,566,381 shares.

Remuneration Report

10. Company performance and remuneration impacts

In considering the IOOF Group's financial performance and impacts on shareholder wealth for STI and LTI determination, the Committee has regard to the following metrics in respect of the current financial year and the previous four financial years.

5 year Group performance

Profitability measures

Profit attributable to owners of the Company (\$'000s)

UNPAT (\$'000s)⁽¹⁾

UNPAT EPS (cents per share)

Share information

Basic EPS (cents per share)

Basic EPS (continuing operations) (cents per share)

Share price at start of year

Share price at end of year

Change in share price

Dividends per share (cents per share)

Ratios

Return on equity (non-statutory measure)⁽²⁾

Total shareholder return

Total shareholder return - three year cumulative

STIs paid to KMP

Total STIs paid to KMP (\$'000s)

	2019	2018	2017	2016	2015
Profit attributable to owners of the Company (\$'000s)	28,560	88,301	115,990	196,846	138,371
UNPAT (\$'000s) ⁽¹⁾	197,989	191,417	169,357	173,367	173,758
UNPAT EPS (cents per share)	56.5	57.3	56.5	57.8	59.9
Basic EPS (cents per share)	8.1	26.4	38.7	65.7	47.7
Basic EPS (continuing operations) (cents per share)	(12.0)	31.6	38.7	46.0	45.8
Share price at start of year	8.99	9.80	7.83	8.99	8.40
Share price at end of year	5.17	8.99	9.80	7.83	8.99
Change in share price	(3.82)	(0.81)	1.97	(1.16)	0.59
Dividends per share (cents per share)	37.5	54.0	53.0	54.5	53.0
Return on equity (non-statutory measure) ⁽²⁾	10.9%	11.3%	12.1%	12.3%	13.4%
Total shareholder return	(36.8)%	(2.8)%	31.9%	(6.8)%	20.6%
Total shareholder return - three year cumulative	(21.6)%	11.8%	36.9%	29.3%	85.3%
Total STIs paid to KMP (\$'000s)	143	2,046	1,900	1,813	1,573

(1) UNPAT is reconciled to profit attributable to owners of the Company in the Operating and Financial Review at page 3 of the Directors' Report.

(2) RoE is calculated by dividing UNPAT by average capital on issue during the year.

UNPAT vs STI vs TSR (cumulative)

Impact of Group performance on STIs

As discussed in section 4, no discretionary STIs were paid to KMP in 2019.

Impact of Group performance on LTIs

As discussed in section 5, TSR performance over the three years to 30 June 2019 was -21.6%, placing it at the 148th relative to the ASX 200. As a result, none of the TSR hurdle based 2017 performance rights vested in July 2019.

Remuneration Report

11. Key Management Personnel remuneration - Additional statutory disclosure

Additional statutory disclosure

The following table sets out the remuneration received by KMP for the year ended 30 June 2019. The share-based payments shown below are not amounts actually received by KMP during the year, as they include accounting values for unvested share awards. Actual share-based payment amounts received are shown as cash remuneration.

Element of Remuneration		Short-term benefits			Post-employment	Share-based payments ⁽³⁾		Termination benefits	Total	Component as a % of total remuneration	
		Salary	Bonus - cash ⁽¹⁾	Non-monetary ⁽²⁾	Superannuation	Performance rights	Bonus - deferred shares			Fixed	Variable ⁽⁴⁾

	2018	311,451	116,025	4,026	20,049	29,584	116,025	-	597,160	56	44
F Lombardo⁽¹⁾⁽⁵⁾	2019	283,347	-	-	11,845	104,331	-	-	399,523	74	26
Former Managing Director											
C Kelaher⁽⁶⁾	2019	1,303,163	-	3,467	23,774	(204,460)	-	1,268,129	2,394,073	109	(9)
	2018	1,236,286	314,302	19,145	20,049	893,487	314,302	-	2,797,571	46	54
Total	2019	3,583,039	142,713	15,951	117,743	1,279,181	-	1,268,129	6,406,756		
	2018	2,943,550	1,023,168	35,783	100,245	1,405,859	1,023,168	-	6,531,773		

(1) The 2018 bonus reflects amounts provided under the STI program in relation to the 2018 financial year. One half of the bonuses awarded to KMP is paid in cash and one half is deferred into shares, of which 50% will vest in July 2019 and 50% in July 2020 subject to a 'look back'. The deferred shares component of the STI are included as a share-based payment in this table. The expected payment value of the bonuses is the amount shown and includes any amounts that may be sacrificed into superannuation.

(2) Non-monetary benefits include company funded benefits and fringe benefits tax payable on those benefits, typically car parking.

(3) Share-based payments include accruals in relation to the Executive Performance Share Plan and accruals in relation to other grants of performance rights over shares in the Company. The value of the number of shares and options expected to vest has been apportioned over the term from grant date to vesting date. STIs awarded in deferred shares are also shown here.

(4) As payment of the variable component is at the discretion of the Board, the minimum value is nil and the maximum is the total amount paid.

(5) Amounts represent payments relating to the period during which the individuals were identified as KMP.

(6) Total termination payment of \$1,273,379 as disclosed to the ASX includes \$5,250 of annual leave and long service leave entitlements which are included in salary for accounting purposes. The remaining termination payment as disclosed above being \$1,268,129.

Remuneration Report

12. Other information

Equity holdings

The table below sets out details of deferred shares and rights that were granted to KMP;

- during the 2019 financial year; or
- in prior years and that then vested, were exercised/sold or which lapsed/were forfeited during the 2019 financial year.

F Lombardo was appointed KMP after the grant of 2019 LTI performance rights. Therefore, he is not included in the below table.

Name	Type of instrument	Grant date	Number granted ⁽¹⁾	Balance at 1 Jul 18	Granted as compensation	Exercised/ Vested	Forfeited/ Lapsed	Balance at 30 Jun 19	Financial year of vesting

F Lombardo ⁽²⁾	2019	-	-	-	-

⁽¹⁾ The equity holding for the above individuals is inclusive of both direct and indirect shareholdings.

⁽²⁾ Opening balance is number of shares held at the time of appointment as KMP.

Contract terms

The term of each KMP's contract is ongoing. Either IOOF or the individual KMP (excluding the CEO) can terminate their contract on 6 months notice.

In the case of termination of employment, the IOOF Group may elect to make a payment in lieu of part or all of the notice periods, incorporating unpaid leave entitlements and pro-rated entitlement to STI (if applicable). The Board has discretion regarding treatment of unvested short and long-term incentives.

Payments to persons before taking office

No Director or member of senior management appointed during the year received a payment as part of his or her consideration for agreeing to hold the position.

This Directors' report is signed in accordance with a resolution of the Directors made pursuant to s.298(2) of the Corporations Act 2001.

Jane Harvey

Remuneration Committee Chair

26 August 2019

IOOF Annual Financial Report 2019

Directors' declaration

1. In the opinion of the Directors of the Company:

- (a) the consolidated financial statements and notes set out on pages 44 to 95, and the Remuneration Report, set out on pages 18 to 37 in the Directors' Report, are in accordance with the Corporations Act 2001 including:
 - (i) giving a true and fair view of the IOOF Group's financial position as at 30 June 2019 and its performance for the financial year ended on that date; and
 - (ii) complying with Australian Accounting Standards and the Corporations Regulations 2001; and
 - (b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.
2. The Directors have been given the declarations required by Section 295A of the Corporations Act 2001 from the Managing Director and Chief Financial Officer for the financial year ended 30 June 2019.
3. The Directors draw attention to section 7-2 to the consolidated financial statements, which includes a statement of compliance with International Financial Reporting Standards.

Signed in accordance with a resolution of the Directors:

Mr Allan Griffiths

Chairman

Melbourne

26 August 2019

Lead Auditor's Independence Declaration under Section 307C of the Corporations Act 2001

To the Directors of IOOF Holdings Ltd

I declare that, to the best of my knowledge and belief, in relation to the audit of IOOF Holdings Ltd for the financial year ended 30 June 2019 there have been:

- i. no contraventions of the auditor independence requirements as set out in the *Corporations Act 2001* in relation to the audit; and
- ii. no contraventions of any applicable code of professional conduct in relation to the audit.

Independent Auditor's Report

To the shareholders of IOOF Holdings Ltd

Report on the audit of the Financial Report

Opinion

We have audited the **Financial Report** of IOOF Holdings Ltd (the Company).

In our opinion, the accompanying Financial Report of the Company is in accordance with the *Corporations Act 2001*, including:

- giving a true and fair view of the **Group's** financial position as at 30 June 2019 and of its financial performance for the year ended on that date; and
- complying with *Australian Accounting Standards* and the *Corporations Regulations 2001*.

The **Financial Report** comprises:

- Consolidated statement of financial position as at 30 June 2019;
- Consolidated statement of comprehensive income, Consolidated statement of changes in equity, and Consolidated statement of cash flows for the year then ended;
- Notes including a summary of significant accounting policies; and
- Directors' Declaration.

The **Group** consists of the Company and the entities it controlled at the year-end or from time to time during the financial year.

Basis for opinion

We conducted our audit in accordance with *Australian Auditing Standards*. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the Financial Report* section of our report.

We are independent of the Group in accordance with the *Corporations Act 2001* and the ethical requirements of the *Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the Financial Report in Australia. We have fulfilled our other ethical responsibilities in accordance with the Code.

Key Audit Matters

The **Key Audit Matters** we identified are:

- Valuation of Goodwill and Intangible Assets.
- Provisions for client remediation and related costs.
- Information technology related controls.

Key Audit Matters are those matters that, in our professional judgement, were of most significance in our audit of the Financial Report of the current period.

These matters were addressed in the context of our audit of the Financial Report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Valuation of Goodwill and Intangible Assets - \$936.9m and \$364.7m

Refer to Note 4-3 Goodwill and 4-2 Intangible Assets to the Financial Report

The key audit matter	How the matter was addressed in our audit
<p>A key audit matter was whether the Group's recoverable amount for goodwill and intangible assets, including key assumptions were appropriate having regard to accounting standards.</p> <p>Specific intangible assets we focused on related to customer relationships and brand names.</p> <p>The size of the goodwill and intangible assets relative to the total assets of the Group (being 25% and 10% of total assets respectively) and the level of judgment required by the Group, contributed to this being a key audit matter.</p> <p>The models and forecast assumptions incorporated significant judgment in respect of key factors such as: discount rates, revenue growth, and forecast funds under management, as well as economic assumptions such as inflation rates. Changes in the underlying assumptions can significantly impact the recoverable amount of the relevant assets and can therefore give rise to impairment. The Group recorded an impairment charge of \$9.5m against goodwill. This related to the Perennial Cash Generating Unit ("CGU") as a result of reduced profitability from lower revenues. Revenue decline for this CGU has arisen due to institutional outflows. We involved valuation specialists to supplement our senior audit team members in assessing this key audit matter.</p>	<p>Working with our valuation specialists, our procedures included:</p> <ul style="list-style-type: none"> • Testing of key controls, such as the assessment and approval of internal forecasts, to evaluate the Group's process for assessing the recoverable amount of goodwill and intangible assets. • We considered the appropriateness of the value in use method applied by the Group to perform the annual test of goodwill and intangibles for impairment against the requirements of the accounting standards. • For goodwill, we challenged the Group's key assumptions, in particular those relating to discount rates, revenue growth and forecast funds under management by analysing historical data and taking into consideration expected future events, and verifying the key market related assumptions to external data, through the following procedures: <ul style="list-style-type: none"> ○ We compared relevant data in the models to the latest Board approved forecasts. ○ We assessed the accuracy of previous Group forecasts to inform our evaluation of forecasts incorporated in the models. ○ We independently developed a discount rate range using publicly available data for comparable entities, adjusted by risk factors specific to the Group's CGUs and the industry they operate in. ○ We assessed the integrity of the value in use models used, including the accuracy of the underlying formulas in the calculations. ○ We considered the sensitivity of the models by varying key assumptions such as revenue growth and discount rates, within a reasonably possible range, to identify those CGUs at higher risk of impairment and to further focus our procedures. ○ We assessed the key assumptions for consistent application across the Group. • We recalculated the impairment charge from the Perennial CGU against the recoverable amount and reconciled it to the amount disclosed. • We assessed the disclosures in the financial report using our understanding of the issue obtained from our testing and against the requirements of the accounting standards.
Provisions for client remediation and related costs - \$392.0m	
Refer to Note 4-4 Provisions and 3-4 Capital Commitments and Contingencies to the Financial Report	
The key audit matter	How the matter was addressed in our audit
<p>The Group has assessed the need to recognise provisions in relation to certain client remediation activities arising from both internal and external reviews.</p> <p>The provisions for client remediation activities is a Key Audit Matter due to the judgments required by us in assessing the Group's determination of:</p> <ul style="list-style-type: none"> • The existence of a present legal or constructive obligation arising from a past event using the conditions of the event against the criteria in the accounting standards. 	<p>Working with our Regulatory Specialists, our procedures included:</p> <ul style="list-style-type: none"> • Obtaining an understanding of the Group's process for identifying and assessing the potential impact of the review into client remediation activities. • Enquiring with the Group regarding ongoing reviews into other remediation activities. • Reading the minutes and other relevant documentation of the Company's Board of Directors, Board Committees, various management committees, and attending the Company's Audit and Risk Committee meetings. • Inspecting any correspondence with regulatory bodies and reading reports provided to the Group. • Challenging reports provided and management's basis for recognition of a provision and associated costs against the requirements of the accounting standards. We did this by understanding and challenging the provisioning methodologies and underlying assumptions.

<ul style="list-style-type: none"> • Reliable estimates of amounts which may be paid arising from the present obligation, including estimates of related costs. • The potential for legal proceedings and reviews leading to a wider range of estimation outcomes for us to consider. <p>We involved Regulatory Specialists to supplement our senior audit team members in assessing this key audit matter.</p>	<ul style="list-style-type: none"> • Testing completeness by evaluating where exposures may have arisen based upon our knowledge and experience of broader industry matters, the Group's documentation and the current regulatory environment. We also checked these features against the criteria defining a provision or a contingency in the accounting standards • Assessing the appropriateness of the Group's conclusions against the requirements of the accounting standards where estimates were unable to be reliably made for a provision to be recognised. • Assessing the disclosures in the financial report using our understanding of the issue obtained from our testing and against the requirements of the accounting standards.
Information Technology related controls	
The key audit matter	How the matter was addressed in our audit
<p>The Group's key financial accounting and reporting processes are highly dependent on the automated controls over the Group's IT systems. There is a risk that gaps in the change management, segregation of duties or user access management controls (in relation to key financial accounting and reporting systems) may undermine our ability to place some reliance thereon in our audit.</p> <p>We involved IT specialists to supplement our senior audit team members in assessing this key audit matter.</p>	<p>Working with our IT specialists, our procedures included:</p> <ul style="list-style-type: none"> • <i>General IT controls design, observations and operation:</i> Sample testing of key controls operating over the information (in relation to financial accounting and reporting systems), including change management, segregation of duties and user access management controls. • <i>Change management control operation:</i> Obtained and inspected the change management policies and, for a sample of system changes during the year (in relation to financial accounting and reporting systems), checked that changes had been performed in line with policy. • <i>Segregation of duties control operation:</i> Sample testing of key automated controls (in relation to financial accounting and reporting systems) that are designed to enforce appropriate segregation of duties. • <i>User access management controls operation:</i> We obtained the Group's evaluation of the access rights, including privileged access rights, granted to applications relevant to financial accounting and reporting systems and tested the resolution of a sample of exceptions. We also assessed the operating effectiveness of controls over granting, removal and appropriateness of access rights, including privileged access rights.

Other Information

Other Information is financial and non-financial information in IOOF Holding Ltd's annual reporting which is provided in addition to the Financial Report and the Auditor's Report. The Directors are responsible for the Other Information.

The Other Information we obtained prior to the date of this Auditor's Report was the Directors' Report and the Remuneration Report. The remaining other information is expected to include: About IOOF, Our Major Brands, Chairman and Managing Director's Commentary, Our Financial Performance, Environmental, Social & Governance Report, IOOF Foundation and Shareholder Information and is expected to be made available to us after the date of the Auditor's Report.

Our opinion on the Financial Report does not cover the Other Information and, accordingly, we do not and will not express an audit opinion or any form of assurance conclusion thereon, with the exception of the Remuneration Report and our related assurance opinion.

In connection with our audit of the Financial Report, our responsibility is to read the Other Information. In doing so, we consider whether the Other Information is materially inconsistent with the Financial Report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We are required to report if we conclude that there is a material misstatement of this Other Information, and based on the work we have performed on the Other Information that we obtained prior to the date of this Auditor's Report we have nothing to report.

Responsibilities of the Directors for the Financial Report

The Directors are responsible for:

- preparing the Financial Report that gives a true and fair view in accordance with *Australian Accounting Standards* and the *Corporations Act 2001*;
- implementing necessary internal control to enable the preparation of a Financial Report that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and
- assessing the Group's ability to continue as a going concern and whether the use of the going concern basis of accounting is appropriate. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objective is:

- to obtain reasonable assurance about whether the Financial Report as a whole is free from material misstatement, whether due to fraud or error; and
- to issue an Auditor's Report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with *Australian Auditing Standards* will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the Financial Report.

A further description of our responsibilities for the audit of the Financial Report is located at the *Auditing and Assurance Standards Board* website at: http://www.auasb.gov.au/auditors_responsibilities/ar1.pdf. This description forms part of our Auditor's Report.

Report on the Remuneration Report

Opinion

In our opinion, the Remuneration Report of IOOF Holdings Ltd for the year ended 30 June 2019, complies with *Section 300A* of the *Corporations Act 2001*.

KPMG

Directors' responsibilities

The Directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with *Section 300A* of the *Corporations Act 2001*.

Our responsibilities

We have audited the Remuneration Report included in pages 18 to 37 of the Directors' report for the year ended 30 June 2019.

Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with *Australian Auditing Standards*.

Section 1 - Financial instruments and risk management

The IOOF Group's activities expose it to a variety of financial and non-financial risks. Financial risks include: market risks (including price risk, currency risk and cash flow and interest rate risk), credit risk, statutory fund and liquidity risk. The nature of the financial risk exposures arising from financial instruments, the objectives, policies and processes for managing these risks, and the methods used to measure them are detailed below. Key non-financial exposures, such as operational risk and a failure to meet regulatory compliance obligations, are discussed in detail in the Operating and Financial Review.

1-1 Risk management

IOOF risk management framework

Risk is defined as the chance of an event occurring that will have an impact on the strategic or business objectives of the IOOF Group, including a failure to exploit opportunities. The IOOF Group's risk management process involves the identification of material risks, assessment of consequence and likelihood, implementation of controls to manage risks, and continuous monitoring and improvement of the procedures in place.

The IOOF Group's objective is to satisfactorily manage its risks in line with the IOOF Group's Risk Management Policy set by the Board, and this aligns to International Standard ISO 31000. The IOOF Group's Risk Management Framework manages the risks faced by the IOOF Group, with approaches varying depending on the nature of the risk. The IOOF Group maintains a framework to ensure regulatory compliance obligations are managed in accordance with Australian Standard 3806 Compliance Programs. The IOOF Group's exposure to all material risks is monitored by the Risk Team and this exposure, and emerging risks, are regularly reported to the Risk and Compliance Committee, and the Board. The IOOF Group's income and operating cash flows are indirectly impacted by changing market conditions. Its exposure is through the impact of market changes on the level of funds under management and administration, and consequently management fee and service fee revenue. Information has been provided below only on the direct impact of changing market conditions to the IOOF Group's income and operating cash flows.

Financial risk

The financial risk management objectives, policies and processes and the quantitative data about the exposure to risk at the reporting date, as set out in the remainder of this note, includes the benefit funds and the controlled unit trusts. The risks associated with financial instruments held by the benefit funds and controlled trusts are borne by the policyholders and members of those funds and trusts, and not the shareholders of the IOOF Group. There is no direct impact on the net profit or the equity of the IOOF Group as a consequence of changes in markets as they apply to financial instruments held by those funds and trusts at the reporting date.

Similarly the objectives, policies and processes for managing the risks of the IOOF Group are separate and distinct from those for the benefit funds and trusts. The funds and trusts are managed under extensive regulatory requirements, and in accordance with specific investment guidelines, risk management strategies, risk management plans, and product disclosure statements. The IOOF Group is managed under a set of separate corporate policies and review processes that are directed toward the interests of the shareholders of the IOOF Group.

Information in relation to financial risks associated with the benefit funds and controlled trusts is available in their Product Disclosure Statements and the individual annual financial reports of those trusts.

Further information in relation to the Australian Accounting Standards requirement to consolidate the benefit funds and controlled trusts in the consolidated financial statements of the IOOF Group is available in Note 7-3(b) Basis of consolidation.

(a) Market risk

(i) Price risk

Price risk is the risk that the fair value or future earnings of a financial instrument will fluctuate because of changes in market prices (other than from interest rate risk or currency risk, as described later). The financial instruments managed by the IOOF Group that are impacted by price risk consist of investment units held in trusts and financial assets at fair value through other comprehensive income (OCI).

The price risk associated with the units held in trusts is that the fair value of those units will fluctuate with movements in the redemption value of those units, which in turn is based on the fair value of the underlying assets held by the trusts. Financial assets at fair value through OCI are exposed to price risk as the share price fluctuates.

IOOF Group sensitivity

At 30 June 2019 had the price of the units / shares held by the IOOF Group in unlisted unit trusts / shares in other entities increased / decreased by 1% (2018: 1%) with all other variables held constant, gains / losses recorded through profit or loss would increase / decrease by \$6,748,000 (2018: \$6,668,000), and financial assets at fair value through OCI reserves would increase / decrease by \$291,000 (2018: \$236,000).

Section 1 - Financial instruments and risk management

1-1 Risk management (continued)

(a) Market risk (continued)

(ii) Currency risk

The IOOF Group's exposure to foreign exchange risk in relation to the financial instruments of its foreign activities in New Zealand and Hong Kong is immaterial.

(iii) Cash flow and interest rate risk

Interest rate risk is the risk to the IOOF Group's earnings and capital arising from changes in market interest rates. The financial instruments held that are impacted by interest rate risk consist of cash, loans, and borrowings.

Short and long-term investment mixes and loans to related entities are influenced by liquidity policy requirements.

Interest rates (both charged and received) are based on market rates, and are closely monitored by management. They are primarily at variable rates of interest, and expose the IOOF Group to cash flow interest rate risk.

Management regularly assesses the appropriateness of the investment of surplus funds with the objective of maximising returns.

IOOF Group sensitivity

At 30 June 2019, if interest rates had changed by +/- 100 basis points (2018: +/- 100 basis points) from the year-end rates with all other variables held constant, post tax profit for the year would have increased/decreased by \$2.2 million (2018: \$nil). Equity would have been higher/lower by the same amount.

(b) Credit risk

Credit risk refers to the risk that a counterparty will fail to meet its contractual obligations resulting in financial loss to the IOOF Group. Credit risk arises for the IOOF Group from cash, debt note, receivables and loans.

The IOOF Group mitigates its credit risk by ensuring cash deposits are held with high credit quality financial institutions and other highly liquid investments are held with trusts operated by the IOOF Group. Where investments are held in units in a trust operated by the IOOF Group, that trust is subject to the rules of the trust deed and the investment in underlying assets is subject to asset allocation guidelines.

Receivables consist of management fees receivable, service fees receivable and other amounts receivable from related parties. These counterparties generally do not have an independent credit rating, and the IOOF Group assesses the credit quality of the debtor taking into account its financial position, past experience with the debtor, and other available credit risk information. In relation to management fees receivable, the IOOF Group is contractually entitled to deduct such fees from investors' account balances, in accordance with the Product Disclosure Statements, and pass the fees to the Responsible Entity or Trustee. Due to this pass-through process the embedded credit risk is considered minimal. Other receivables are regularly monitored by line management.

The maximum exposure to credit risk at the reporting date is the carrying value of the financial assets as summarised in the table included in this note below. The IOOF Group does not hold any significant collateral as security over its receivables and loans, apart from its recourse to certain shares in subsidiaries in relation to loans to executives of subsidiaries. The Company has a concentration of credit risk to ANZ for the value of the debt note (\$800m).

Expected credit loss assessment

As at 30 June 2019, \$2,873,000 trade receivables of the IOOF Group were past due but not impaired (2018: \$2,671,000). The amount of the impairment provision was \$585,000 (2018: \$607,000).

Collectability of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectible are written off by reducing the carrying amount directly. In relation to the impairment of financial assets, AASB 9 requires an expected credit loss model as opposed to an incurred credit loss model under AASB 139. The expected credit loss model requires the Group to account for expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk since initial recognition of the financial assets. In other words, it is no longer necessary for a credit event to have occurred before credit losses are recognised. Credit risk assessments are performed based on data that is determined to be predictive of the risk of loss and applying experienced credit judgement. Expected credit losses are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group expects to receive). Expected credit losses are discounted at the effective interest rate of the financial asset. Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Section 1 - Financial instruments and risk management

1-1 Risk management (continued)

(b) Credit risk (continued)

Impaired receivables (continued)

The amount of the impairment loss is recognised in profit or loss within other expenses. When a trade receivable for which an impairment allowance has been recognised becomes uncollectible in a subsequent year, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in profit or loss.

Movements in the provisions for impairment of trade receivables are as follows:

Carrying value at 1 July	
Provision for impairment provided/(written back) during the year	
Carrying value at 30 June	

2019	2018**
\$'000	\$'000
607	585
(22)	22
585	607
45,950	49,390
1,402	665
468	511
1,003	1,495
48,823	52,061
2,873	2,671

Ageing of trade receivables that were not impaired at 30 June

Neither past due nor impaired	
Past due 31-60 days	
Past due 61-90 days	
Past due 91-120 days	

Trade receivables past due but not impaired

(c) Statutory Fund Risk

Financial risks are monitored and controlled by selecting appropriate assets to back policy liabilities. The assets are regularly monitored by the Investment Management Committee to ensure there are no material exposures and that liability mismatching issues and other risks such as liquidity risk and credit risk are maintained within acceptable limits. The Investment Management Committee is chaired by an independent expert and its membership is drawn from appropriately skilled senior management. There are no Non-Executive Directors on this Committee.

The IOOF Group's friendly society operations are subject to regulatory capital requirements which prescribe the amount of capital to be held depending on the type, quality and concentration of investments held. Procedures are in place to monitor compliance with these requirements. Refer to Section 5 - Statutory funds for further details.

These funds are not available to shareholders. Balances relating to statutory funds in the table below are disclosed inclusive of amounts collected/receivable from or paid/payable to IOOF Group entities.

(d) Liquidity risk

Liquidity risk relates to the IOOF Group having insufficient liquid assets to cover current liabilities and unforeseen expenses. The IOOF Group maintains a prudent approach to managing liquidity risk exposure by maintaining sufficient liquid assets and an ability to access a committed line of credit. It is managed by continuously monitoring actual and forecast cash flows and by matching the maturity profiles of financial assets and liabilities. Temporary surplus funds are invested in highly liquid, low risk financial assets.

The IOOF Group had access to undrawn bank borrowing facilities at the balance date, on the terms described and disclosed in section 3-2 Borrowings. The liquidity requirements for licensed entities in the IOOF Group are regularly reviewed and carefully monitored in accordance with those licence requirements.

Maturities of financial liabilities

The tables below analyse the IOOF Group's financial liabilities into relevant maturity groupings based on the remaining years at the balance date to the contractual maturity date. The amounts disclosed therein are the contractual undiscounted cash flows.

(e) Accounting policies and fair value estimation

The fair values of financial assets and liabilities are equal to the carrying amounts shown in the statement of financial position.

Offsetting assets and liabilities

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the IOOF Group has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Section 1 - Financial instruments and risk management

1-1 Risk management (continued)

(e) Accounting policies and fair value estimation (continued)

Financial assets

The IOOF Group initially recognises loans and receivables and deposits on the date that they are originated. All other financial assets (including assets designated at fair value through profit or loss) are recognised initially on the date at which the IOOF Group becomes a party to the contractual provisions of the instrument.

The IOOF Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the IOOF Group is recognised as a separate asset or liability.

The IOOF Group has the following financial assets:

- cash;
- debt note;
- financial assets at fair value through profit or loss;
- available-for-sale financial assets; and
- loans and receivables.

Cash

Cash includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash.

Debt note

The debt note is initially recognised at cost, and subsequently revalued to fair value at balance date. The debt note is valued via a discounted cash flow, which incorporates unobservable inputs such as discount rates, counterparty credit, and probability-adjusted revenues expected to be received under the arrangement.

Financial assets at fair value through profit or loss

A financial asset is classified as at fair value through profit or loss if the IOOF Group manages such investments and makes purchase and sale decisions in accordance with the IOOF Group's documented risk management or investment strategy. Upon initial recognition attributable transaction costs are recognised in profit or loss when incurred. Financial assets at fair value through profit or loss are measured at fair value, and changes therein are recognised in profit or loss.

Units in unlisted trusts are carried at the current unit price for redemption of those units with the trust.

The fair value of financial instruments traded in active markets is based on quoted market prices at the reporting date. The quoted market price used for financial assets is the closing price.

Equity investments at FVOCI

Equity investments at fair value through other comprehensive income are non-derivative assets comprising principally marketable equity securities that are either designated in this category or are not classified in any of the other categories of financial instruments.

Equity investments at FVOCI are recognised initially at fair value plus any directly attributable transaction costs.

Dividends are recognised in profit or loss unless it clearly represents a recovery of part of the cost of the investment.

Other net gains and losses are recognised in OCI and are never reclassified to profit or loss.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted on an active market. They arise when the IOOF Group provides money, assets, or services directly to a debtor with no intention of selling the receivable. Subsequent to initial recognition, loans and receivables are measured at amortised cost using the effective interest method if it is held to collect contractual cash flows and its contractual terms give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Certificates of deposit

Certificates of deposit held during the current year and in the prior year include deposits with original maturities of more than three months.

Financial liabilities

The IOOF Group initially recognises financial liabilities on the date at which the IOOF Group becomes a party to the contractual provisions of the instrument. The IOOF Group derecognises a financial liability when its contractual obligations are discharged, cancelled or expire.

The IOOF Group has the following non-derivative financial liabilities:

- payables;
- borrowings (including finance leases); and
- other financial liabilities.

Such financial liabilities are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition these financial liabilities are measured at amortised cost using the effective interest method.

Section 1 - Financial instruments and risk management

1-1 Risk management (continued)

(e) Accounting policies and fair value estimation (continued)

Payables

The carrying value of payables are assumed to approximate their fair values due to their short-term nature.

Borrowings and finance leases

Borrowings and finance leases are further explained in section 3-2 Borrowings.

Contingent consideration

The contingent consideration amounts payable can rise and fall depending on performance hurdles achieved during the deferral period specific to each agreement which may include revenue targets, gross margin targets and/or FUMAS retention requirements.

Where contingent consideration is due for payment after 12 months, the estimated amounts payable are discounted. Assumptions used include pre-tax discount rates in the range of 3-4% which were based on market interest rates upon acquisition of related intangibles.

Assets and liabilities relating to statutory funds

Assets held in the Statutory Funds (including the Benefit Funds) are subject to the distribution and transfer restrictions and other requirements of the Life Insurance Act 1995. Monies held in the benefit funds and controlled trusts are held for the benefit of the members of those funds, and are subject to the constitution and rules of those funds.

Accordingly, with the exception of permitted profit distributions, the investments held in the statutory funds are not available for use by other parties of the IOOF Group.

Policy liabilities have been determined in accordance with applicable accounting standards. Policy liabilities for life insurance contracts are valued in accordance with AASB 1038, whereas life investment contracts are valued in accordance with AASB 139 and AASB 118. There are differences between the valuation requirements of the accounting standards and those of the Life Insurance Act 1995.

Assets relating to statutory funds

The IOOF Group has determined that all financial assets held within its reported statutory funds (including the benefit funds which are treated as statutory funds) represent the assets backing policy liabilities and are measured at fair value through profit or loss. Other than loans and receivables held by the IOOF Group and its controlled entities, assets backing policy liabilities have been designated at fair value through profit or loss as the assets are managed on a fair value basis.

Liabilities relating to statutory funds

Policy liabilities have been determined in accordance with applicable accounting standards. Policy liabilities for life insurance contracts are valued in accordance with AASB 1038, whereas life investment contracts are valued in accordance with AASB 139 and AASB 118. There are differences between the valuation requirements of the accounting standards and those of the Life Insurance Act 1995.

Contract classification

The accounting treatment of certain transactions varies depending on the nature of the contract underlying the transaction. The major contract classifications are insurance contracts and investment contracts.

(i) Insurance contracts

Insurance contracts with a discretionary participation feature ('DPF') are those containing significant insurance risk at the inception of the contract, or those where at the inception of the contract there is a scenario with commercial substance where the level of insurance risk may be significant. The significance of insurance risk is dependent on both the probability of an insured event and the magnitude of its potential effect. Life insurance contract liabilities are calculated in accordance with actuarial standards.

Once a contract has been classified as an insurance contract, it remains an insurance contract for the remainder of its lifetime, even if the insurance risk reduces significantly during the year.

(ii) Investment contracts

Contracts not considered insurance contracts are classified as investment contracts. The accounting treatment of investment contracts depends on whether the investment has a discretionary participation feature ('DPF'). A DPF represents a contractual right to receive, as a supplement to guaranteed benefits, additional benefits that are:

- likely to be a significant portion of the total benefits;
- distributed at the discretion of the insurer; and
- are based on the performance of a specified pool of assets.

Deposits collected and benefits paid under investment contracts with DPF are accounted for through profit or loss. The gross change in the liability to these policyholders for the year, which includes any participating benefits vested in policyholders and any undistributed surplus attributed to policyholders, is also recognised in profit or loss.

Deposits collected and withdrawals processed for investment contracts without DPF are accounted for directly through the statement of financial position as a movement in the investment contract liability. Distributions on these contracts are charged to profit or loss as an expense.

Where contracts contain both an investment component and an insurance component and the deposit component can be separately measured, the underlying amounts are unbundled. Premiums relating to the insurance component are accounted for through profit or loss and the investment component is accounted for as a deposit through the statement of financial position as described above.

Section 1 - Financial instruments and risk management

1-2 Financial instruments

Fair value hierarchy

The fair values of financial assets and liabilities are equal to the carrying amounts shown in the statement of financial position. The table below analyses financial instruments carried at fair value, by valuation method.

	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total
30 June 2019				
Financial assets measured at fair value				
FVOCI	41,627	-	-	41,627
Unlisted unit trusts	-	964,014	-	964,014
Debt note	-	-	800,000	800,000
	41,627	964,014	800,000	1,805,641
Financial liabilities measured at fair value				
Contingent consideration	-	-	837	837
	-	-	837	837
30 June 2018				
Financial assets measured at fair value				
FVOCI	33,739	-	-	33,739
Shares in listed companies	18	-	-	18
Unlisted unit trusts	-	952,623	-	952,623
	33,757	952,623	-	986,380
Financial liabilities measured at fair value				
Contingent consideration	-	-	392	392
	-	-	392	392

The definitions of each level and the valuation techniques used are as follows:

- Level 1: quoted closing prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included with Level 1 that are observable for the asset or liability, either directly (ie. as prices) or indirectly (ie. derived from prices). Level 2 fair values for the over-the-counter foreign exchange and index swap are provided by the counterparty and verified by the IOOF Group. Fair values are derived from published market indices and include adjustments to take account of the credit risk of the IOOF Group entity and counterparty.
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The IOOF Group recognises transfers between levels of the fair value hierarchy as of the end of the reporting year during which the transfer has occurred. There were no transfers between Level 1 to Level 2 of the fair value hierarchy during the year ended 30 June 2019.

Reconciliation of movements in level 3 financial liabilities

	Debt note		Contingent consideration	
	2019 \$'000	2018 \$'000	2019 \$'000	2018 \$'000
Opening balance as at 1 July	-	-	392	1,839
Issuance of debt note	800,000	-	-	-
Fair value gain from derecognition of contingent consideration	-	-	-	(805)
Take up of deferred consideration liability	-	-	2,907	-
Unwinding of discount	-	-	8	22
Settlement of contingent consideration	-	-	(2,470)	(664)
Closing balance as at 30 June	800,000	-	837	392

Level 3 financial assets consist of a debt note carried at fair value. The debt note is valued via a discounted cash flow, which incorporates unobservable inputs such as discount rates, counterparty credit, and probability-adjusted revenues expected to be received under the arrangement. An increase in the discount rate used in isolation would result in a decrease to the fair value of the debt note. An increase in the probability adjusted revenues in isolation would result in an increase in the fair value of the debt note.

Level 3 financial liabilities consist of deferred purchase consideration in respect of client lists purchased by the IOOF Group, which is valued at the maximum deferred consideration amount payable under the relevant contracts. The amount of deferred consideration payable is linked to the retention of clients, which is an unobservable output and may decrease the value of the liability.

IOOF Annual Financial Report 2019

Notes to the financial statements

Section 2 - Results for the year

This section focuses on the results and performance of the IOOF Group. On the following pages you will find disclosures explaining the IOOF Group's results for the year, segmental information, taxation and earnings per share.

Where an accounting policy is specific to a single note, the policy is described in the note to which it relates.

2-1 Operating segments

The IOOF Group has the following five strategic divisions, which are its reportable segments. All segments' operating results are regularly reviewed by the IOOF Group's Chief Executive Officer to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

Financial advice and distribution

The provision of financial planning advice and stockbroking services supported by services such as investment research, training, compliance support and access to financial products.

Portfolio and estate administration

The provision of administration and management services through master trust platforms, which offer a single access point to a range of investment products.

Investment management

The management and investment of monies on behalf of corporate, superannuation, institutional clients and private individual investor clients.

Ex-ANZ wealth management

Aligned Dealer Groups (ADGs) acquired from ANZ during the period, which provide financial planning advice services. This is also inclusive of the debt note revenue which represented proportionate economic contribution from the P&I business.

Corporate and other

Corporate and other costs include those of a strategic, shareholder or governance nature incurred in carrying on business as a listed entity managing multiple business units.

Information regarding the results of each reportable segment (excluding the benefit funds) is included below. Performance is measured based on segment underlying profit before income tax as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries.

The significant accounting policies which apply to the major revenue and expense items below follow each of the notes. More general information on how these are recognised/measured can be found in note 7-2 *Basis of preparation*.

2-2 Discontinued operations

(a) Divestment of AET Corporate Trust business

On 1 November 2018, the IOOF Group completed the divestment of the AET Corporate Trust business to Sargon Capital Pty Ltd (Sargon) for an upfront consideration of \$41.3m and a deferred component of \$10.3m dependent on the novation of certain contract revenue to Sargon. An additional \$1.6m consideration relating to a net asset adjustment was received in January 2019. At 30 June 2019, the deferred consideration has been written back as it is considered unlikely that the performance hurdles will be met and the deferred consideration will be received.

The recovery of legal claims relates to recoveries as a result of agreed settlements with PwC, HLB Mann Judd, IOOF's insurers and insurance broker, in respect of the cross-claims brought by Australian Executor Trustees Limited against those parties as part of the proceedings related to Provident Capital Limited. Settlement of legal claims expenditure of \$44.3m was recognised in June 2018 in relation to the Provident proceedings.

(b) Divestment of Ord Minnett business

On 27 June 2019, the Directors announced the divestment of the Group's 70% holding in Ord Minnett Holdings Pty Ltd (Ord Minnett). The disposal is consistent with the Group's long-term strategy to focus on its core wealth management capabilities. The Group entered into a contract with a consortium of private investors led by current Ord Minnett management to dispose of its stake in Ord Minnett for sale consideration of \$115m. The Group expects to recognise a post-tax profit on sale of approximately \$83m in respect of the Ord Minnett business upon completion of the transaction. Completion of the sale is expected to occur on or around 24 September 2019.

Cash and cash equivalents disposed of	(1,605)
Net cash inflow	24,718

Section 2 - Results for the year

2-2 Discontinued operations (continued)

(d) Assets and liabilities of discontinued operations (continued)

Assets classified as held for sale

The Ord Minnett business has been classified and accounted for at 30 June 2019 as a disposal group held for sale.

	30 Jun 19 \$'000	30 Jun 18 \$'000
Assets related to Ord Minnett business	52,474	-
Liabilities associated with assets held for sale	27,434	-
Amounts recognised directly in equity associated with assets held for sale	-	-

As described above, the Group plans to dispose of its Ord Minnett business and anticipates that the disposal will be completed by 24 September 2019. The Group has entered into an agreement with a consortium of private investors and the directors of the Company expect that the fair value less costs to sell of the business will be higher than the aggregate carrying amount of the related assets and liabilities. Therefore, no impairment loss was recognised on reclassification of the asset and liabilities as held for sale nor as at 30 June 2019. The major classes of assets and liabilities of the Ord Minnett business at the end of the reporting period are as follows:

	30 Jun 19 \$'000
Assets	
Cash	14,963
Receivables	13,310
Current tax asset	219
Deferred tax assets	2,623
Property, plant & equipment	2,093
Other intangible assets	9,555
Other assets	9,711
Total assets	52,474
Liabilities	
Trade payables	7,546
Provisions	19,573
Other liabilities	315
Total liabilities	27,434
Net assets of Ord Minnett business attributable to non-controlling interests	(7,512)
Net assets of Ord Minnett business classified as held for sale	17,528

2-3 Revenue

		11,304	8,041
Total revenue		1,063,257	758,080

Section 2 - Results for the year

2-3 Revenue (continued)

Accounting policies

Revenue is measured based on the consideration specified in a contract with a customer. The Group recognises revenue when it transfers control over a good or service to a customer.

(i) Management and service fees revenue

The IOOF Group provides management services to unit trusts and funds operated by the IOOF Group at normal commercial rates. Management and service fees earned from the unit trusts and funds are calculated based on an agreed percentage of the respective funds under management or administration as disclosed in the respective product disclosure statements, and are recognised on an accruals basis.

Management and service fees revenue from the provision of financial advisory services together with revenue from the rendering of services are recognised as a performance obligation satisfied over time.

(ii) Stockbroking revenue and external other fee revenue

Other fee revenue and stockbroking revenue from the rendering of services are recognised as a performance obligation satisfied over time.

(iii) Finance income

Finance income comprises interest income on funds invested (including financial assets at fair value through OCI), dividend income, gains on the divestment of financial assets at fair value through OCI and changes in the fair value of financial assets at fair value through profit or loss. Interest income is recognised as it accrues in profit or loss, using the effective interest method. Dividend income is recognised in profit or loss on the date that the IOOF Group's right to receive payment is established, which in the case of quoted securities is the ex-dividend date.

2-4 Expenses

	Policy note	2019 \$'000	2018 \$'000
<u>Service fees and other direct costs</u>	(i)

		<u>329,547</u>	<u>98,060</u>
Total expenses		1,109,007	602,734

Section 2 - Results for the year

2-4 Expenses (continued)

Accounting policies

Expenses are recognised at the fair value of the consideration paid or payable for services received, further specific expense policies are listed below:

(i) Service fees and other direct costs

Service fees and other direct costs include amounts paid to advisers, dealer groups and other suppliers in the course of operating and marketing products and services of the IOOF Group. Examples of direct costs include custodian fees, audit services and the printing and mailing of client statements and other communications. The values are recognised at the fair value of the consideration paid or payable for the goods or services received.

(ii) Salaries and related employee expenses

These entitlements include salaries, wages, superannuation, bonuses, overtime, allowances, annual and long service leave, but exclude share-based payments. The accounting policies for the four major expense categories under this definition are as follows.

Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

A liability is recognised for the amount expected to be paid if the IOOF Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Short-term incentive plans

A provision for employee benefits in the form of an incentive plan is recognised when there is no realistic alternative but to settle the liability, and at least one of the following conditions is met:

- there are formal terms in the plan for determining the amount of the benefit;
- the amounts to be paid are determined before the time of completion of the financial report; or
- past practice gives clear evidence of the amount of the obligation.

Annual and long service leave benefits

The IOOF Group's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior years plus related on-costs.

Liabilities for long-term benefits that are expected to be settled beyond 12 months are discounted using rates attaching to high quality corporate bonds which most closely match the terms of maturity of the related liabilities at balance date.

In determining the liability for employee entitlements, consideration is given to future increases in wage and salary rates, experience with employee departures and years of service.

Employee defined contribution plan expense

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognised in profit or loss in the years during which services are rendered by employees. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

(iii) Share-based payments expense

The grant date fair value of share-based payment awards granted to employees is recognised as a share-based payment expense, with a corresponding increase in the share-based payments reserve, over the year that the employees unconditionally become entitled to the awards. The amount recognised as an expense is adjusted to reflect the number of awards for which the related service and non-market vesting conditions are expected to be met, such that the amount ultimately recognised as an expense is based on the number of awards that meet the related service and non-market performance conditions at vesting date.

For share-based payment awards with non-vesting conditions, the grant date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.

The fair value at grant date is independently determined where considered appropriate.

Shares held by the IOOF Equity Plan Trust will contribute to the employee allocation of shares on satisfaction of vesting performance hurdles. The IOOF Group has no right to recall placed shares. However, a subsidiary company acts as the Trustee of the Trust, and can direct the voting rights of shares held and strategic direction.

(iv) Termination payments

Termination benefits or redundancy costs are recognised as an expense when the IOOF Group is committed demonstrably, without realistic opportunity of withdrawal, to a formal detailed plan without possibility of withdrawal, or providing termination benefits as a result of an offer made to encourage voluntary redundancy.

Section 2 - Results for the year

2-4 Expenses (continued)

Accounting policies

(v) Amortisation and impairment

The value of intangible assets, with the exception of goodwill and brand names with indefinite useful lives, reduces over the number of years the IOOF Group expects to use the asset, the useful economic life, via an annual amortisation charge to profit and loss. The values and useful lives ascribed are reflective of arms-length transactions and independent expert advice thereon.

Where there has been a technological change or decline in business performance the Directors review the value of assets to ensure they have not fallen below their carrying value. Should an asset's value fall below its carrying value an additional one-off impairment charge is made against profit.

(vi) Deferred acquisition costs

Deferred acquisition costs relate to service fees paid, and are deferred as an asset in recognition that they relate to a future economic benefit. Deferred acquisition costs are initially measured at historical cost and are written down immediately to their recoverable amount if the carrying amount is greater than its estimated recoverable amount.

Deferred acquisition costs are progressively amortised in profit or loss by a systematic allocation over the years the future economic benefits are expected to be received. The amortisation period is between 5 and 7 years.

2-5 Net cash provided by operating activities

Cash includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash.

This note reconciles the operating profit to the cash provided by operating activities per the cash flow statement.

	2019 \$'000	2018 \$'000

26.6%	(15,347)	32.4%	50,409

For statutory reporting purposes, the Group had an effective tax rate of 26.6% on its continuing operations for the year ended 30 June 2019 (2018: 32.4%) compared to a statutory corporate tax rate of 30%. This rate difference is primarily due to impairment of goodwill, impairment of investment in associates, research and development (R&D) tax offsets and tax offsets for fully franked dividend income. For the year ended 30 June 2018, the rate difference was primarily due to impairment of goodwill, research and development (R&D) tax offsets, tax offsets for fully franked dividend income, prior period amendments and non-deductible subsidiary acquisition costs. Excluding these items the IOOF Group's effective tax rate would be 30% across both periods. The effective tax rate for New Zealand and Hong Kong operations was 25.4%, and 5.4% respectively for the year ended 30 June 2019 (2018: 28.7% and 11.8% respectively).

Deferred tax assets and liabilities

*A subsidiary of the Company, IOOF Ltd, is a friendly society in accordance with the Life Insurance Act 1995. The funds operated by IOOF Ltd, and any trusts controlled by those funds, are treated as statutory funds in accordance with the Life Insurance Act 1995. These statutory funds are required to be consolidated in accordance with accounting standards.

The deductible temporary differences and tax losses do not expire under current tax legislation. Deferred tax assets have not been recognised in respect of these items because it is not probable that future taxable profit will be available against which the IOOF Group can utilise the benefits there from.

Accounting policies

Income tax

Income tax comprises current and deferred tax. Current and deferred tax are recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in other comprehensive income.

Current tax

Current tax is the expected tax payable or receivable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years. Current tax also includes any tax arising from dividends.

Current tax assets and liabilities are offset only if certain criteria are met.

Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss;
- temporary differences related to investments in subsidiaries and associates to the extent that the IOOF Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the
- taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when deferred tax balances relate to the same taxation authority.

Section 2 - Results for the year

2-6 Income taxes (continued)

Accounting policies (continued)

Tax consolidation

IOOF Holdings Ltd and its wholly owned Australian resident entities (including IOOF Ltd benefit funds) are part of a tax-consolidated group under Australian taxation law. As a consequence, all members of the tax-consolidated group are taxed as a single entity.

Tax transparency

The IOOF Group is committed to tax transparency and integrity. It has been a signatory to the Board of Taxation's Voluntary Tax Transparency Code (the Code), since January 2017.

The Code is a set of principles and 'minimum standards' to guide disclosure of tax information by businesses, encourage those businesses to avoid aggressive tax planning, and to help educate the public about their compliance with Australia's tax laws.

The IOOF Group provides a reconciliation of accounting profit to tax expense, and to income tax paid/payable including identification of material temporary and non-temporary differences and accounting effective company tax rates for the IOOF Groups Australian and global operations.

Information about international related party dealings

The IOOF Group conducts foreign activities in New Zealand, via IOOF New Zealand, and in Hong Kong, via share broking business, Ord Minnett (now a discontinued operation). Each of those entities is subject to the local tax regime and effective tax rates are disclosed with the IOOF Group's effective tax rate. Related party dealings between the IOOF Group's Australian and foreign jurisdictions are supported by transfer pricing documentation.

Approach to tax strategy and governance

Tax governance is part of the IOOF Group's overall risk management framework, as well as being part of an overall tax strategy. The overall tax strategy drives the IOOF Group's approach to tax risk management and is aimed at good corporate tax compliance and reporting, ability to meet and be prepared for regulatory changes, and in ensuring shareholder value. Tax governance is continuously monitored and in line with the IOOF Group's strategy. The IOOF Group regards its relationship with the ATO as effective and open thereby maintaining transparency and collaboration.

Tax contribution analysis

The IOOF Group contributed a total of \$160.6m in taxes to Australian, New Zealand and Hong Kong governments (state and federal) in the 2019 tax year. \$160.2m or 99.75% of this amount was attributable to the Australian Government. The below tables provide an analysis of the types of taxes the IOOF Group is liable for and those payable in Australia versus those in foreign jurisdictions.

Further taxes paid by the IOOF Group on behalf of others, including employees and members, are not directly borne by the Group. These include income tax, GST, pay-as-you-earn withholding taxes, and local duties, which total a further \$133m.

IOOF Annual Financial Report 2019

Notes to the financial statements

Section 2 - Results for the year

2-7 Dividends

After 30 June 2019 the following fully franked dividends were declared by the directors. The dividends have not been provided for and there are no income tax consequences.

	Cents per share	Total \$'000	Date of payment	Franked / unfranked
Final 2019 dividend	12.0	42,129	27 September 2019	Franked
Special 2020 dividend	7.0	24,575	27 September 2019	Franked

Dividend franking account

30 per cent franking credits available to shareholders of IOOF Holdings Ltd for subsequent financial years

2019 \$'000	2018 \$'000
93,032	77,399

The above available amounts are based on the balance of the dividend franking account at year-end adjusted for:

- (a) franking credits that will arise from the payment of the current tax liabilities; and
- (b) franking credits that the IOOF Group may be prevented from distributing in subsequent years.

The ability to utilise the franking credits is dependent upon there being sufficient available profits to declare dividends. The impact on the dividend franking account of dividends declared after the balance date but not recognised as a liability is to reduce it by \$28,587,000 (2018: \$40,625,000).

The following dividends were declared and paid by the IOOF Group during the current and preceding financial year:

	Cents per share	Total \$'000	Date of payment	Franked / unfranked
2019				
Interim 2019 dividend	25.5	89,524	15 March 2019	Franked
Final 2018 dividend	27.0	94,791	04 September 2018	Franked
	<u>52.5</u>	<u>184,315</u>		
2018				
Interim 2018 dividend	27.0	94,791	14 March 2018	Franked
Final 2017 dividend	27.0	81,036	01 September 2017	Franked
	<u>54.0</u>	<u>175,827</u>		

Franked dividends declared or paid during the year were franked at the tax rate of 30 per cent. Dividend amounts shown are inclusive of any dividends paid on treasury shares.

2-8 Earnings per share

Basic earnings per share

From continuing operations
From discontinued operations
Total basic earnings per share

2019 Cents per share	2018 Cents per share
(12.0)	31.6
20.1	(5.1)
<u>8.1</u>	<u>26.4</u>

Diluted earnings per share

From discontinued operations
Total diluted earnings per share

2019 Cents per share	2018 Cents per share
(12.0)	31.5
20.1	(5.1)
<u>8.1</u>	<u>26.4</u>

Basic and diluted earnings per share

The earnings and weighted average number of ordinary shares used in the calculation of basic and diluted earnings per share are as follows:

	2019 \$'000	2018 \$'000
Profit for the year attributable to owners of the Company	28,560	88,301
Earnings used in the calculation of basic and diluted EPS	28,560	88,301
Profit for the year from discontinued operations used in the calculation of basic and diluted EPS from discontinued operations	75,708	(11,732)
Earnings used in the calculation of basic and diluted EPS from continuing operations	(47,148)	100,033

Section 2 - Results for the year

2-8 Earnings per share (continued)

Weighted average number of ordinary shares

Weighted average number of ordinary shares (basic)
Effect of unvested performance rights
Weighted average number of ordinary shares (diluted)

2019 No. '000	2018 No. '000
350,456	334,072
982	750
351,438	334,822

Accounting policies

The IOOF Group presents basic and diluted earnings per share data for its ordinary shares. Basic earnings per share is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year, adjusted for treasury shares held.

Diluted earnings per share is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, adjusted for treasury shares held, for the effects of all dilutive potential ordinary shares, which comprise performance rights and share options granted to employees.

At 30 June 2019, there were no options outstanding (2018: nil).

The average market value of the Company's shares for purposes of calculating the dilutive effect of share options was based on quoted market prices for the year.

Section 3 - Capital management and financing

This section outlines how the IOOF Group manages its capital structure and related financing costs, including its balance sheet liquidity and access to capital markets.

The IOOF Group's objectives when managing capital are to safeguard its ability to continue as a going concern, so that it can continue to provide returns to shareholders and benefits to other stakeholders, and to maintain an optimal structure to reduce the cost of capital.

3-1 Capital management

In order to maintain or adjust the capital structure, the IOOF Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, buy back its shares on market, issue new shares, sell assets, or otherwise adjust debt levels.

The IOOF Group monitors capital on the basis of investment capital, working capital and regulatory capital.

Investment capital is the IOOF Group's capital that is not required for regulatory and working capital requirements of the business. The investment capital is invested in:

- bank deposits and debt note;
- subsidiaries;
- available-for-sale assets;
- unit trusts, as investments; and
- IOOF Group operated unit trusts, as seed capital.

The investment capital is available to support the organic development of new businesses and products and to respond to investment and growth opportunities such as acquisitions, as they arise. Seed capital is primarily available to support the business in establishing new products and is also used to support capital adequacy requirements of the benefit funds.

Working capital is the capital that is required to meet the day to day operations of the business.

Regulatory capital is the capital which the IOOF Group is required to hold as determined by legislative and regulatory requirements in respect of its friendly society and financial services licensed operations. During the year, the IOOF Group has complied with all externally imposed capital requirements to which it is subject.

The Board of each operational subsidiary manages its own capital required to support planned business growth and meet regulatory requirements. Australian Prudential Regulation Authority (APRA) regulated subsidiaries have their own capital management plan which specifically addresses the regulatory requirements of that entity and sets a target surplus over minimum regulatory requirements. Regular monitoring of regulatory requirements ensures sufficient capital is available and appropriate planning is made to retain target surpluses. IOOF Holdings Ltd is primarily the provider of equity capital to its subsidiaries. Such investment is funded by IOOF Holding Ltd's own investment capital, through capital issues, profit retention and, in some instances, by debt.

Section 3 - Capital management and financing

3-1 Capital management (continued)

Subsidiary capital generated in excess of planned requirements is returned to IOOF Holdings Ltd, usually by way of dividends.

A standby facility is in place as a safeguard against a temporary need for funds and to provide a short term funding facility that allows the business to take advantage of acquisition opportunities as they arise. The weighted average cost of capital is regularly monitored. Funding decisions take into consideration the cost of debt versus the cost of equity with emphasis on the outcome that is best for shareholder interests.

The IOOF Group's capital risk management strategy was not changed during the year.

Further information in relation to capital adequacy requirements imposed by the Life Insurance Act is provided in section 5-4 Capital adequacy position.

3-2 Borrowings

This note provides information about the contractual terms of the IOOF Group's interest-bearing borrowings, which are measured at amortised cost.

For more information about the IOOF Group's exposure to interest rate and liquidity risk, see section 1-1 Risk management.

During the period, IOOF Group executed a syndicated facility agreement (SFA) with lenders (effective 27 September 2018 (SFA effective date)), with an initial drawdown made on 2 October 2018. The SFA consists of the following

- \$300m revolving cash advance facility with a 3 year repayment term from the SFA effective date.
- \$450m revolving cash advance facility with a 5 year repayment term from the SFA effective date.
- Multi-option facility with a 3 year repayment term from the SFA effective date, including a \$20m revolving cash advance facility (interest-bearing borrowing) and a guarantee facility.

The current interest-bearing borrowings have a debt duration profile of approximately 3.4 years (calculated on a facility limit basis). Proceeds from SFA borrowings were applied towards the subscription of a debt note with a face value of \$800m from ANZ, which reflects substantial economic completion of the ANZ P&I business.

(a) Cash advance & working capital facility

The unsecured cash advance facilities and working capital facility is provided under an Australian dollar line of credit facility, to which unrestricted access was available at balance date as follows:

	2019 \$'000	2018 \$'000
Total facilities	770,000	-
Used at 30 June	430,000	-
Unused at 30 June	340,000	-

The financial liability under the facility has a fair value equal to its carrying amount.

(b) Other facilities

In addition to the revolving cash advance facilities, the IOOF Group has contingent liability facilities and had a commercial loan held by one of its subsidiaries that was repaid in full during the period. The aggregate of the contingent liability facilities is \$71.3m (2018: \$40m) of which \$67.8m was used at 30 June 2019 (30 June 2018: \$38.9m).

	2019 \$'000	2018 \$'000
Revolving Cash Advance Facility		
Opening balance 1 July 2018	-	206,908
Net borrowings drawn/(repaid)	430,000	(207,424)
Amortised capitalised establishment fees	(3,497)	516
Closing balance 30 June 2019	426,503	-
Other facilities		
Opening balance 1 July 2018	-	-
Acquisition through business combination	597	-
Net borrowings repaid	(597)	-
Closing balance 30 June 2019	-	-
Total	426,503	-

Accounting policies

Finance costs comprise interest expense on borrowings, unwinding of the discount on provisions, changes in the fair value of financial assets at fair value through profit or loss and impairment losses recognised on financial assets. Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognised in profit or loss using the effective interest method.

Section 3 - Capital management and financing

3-3 Share capital

The Company does not have authorised capital or par value in respect of its issued shares. All issued shares are fully paid. The holders of ordinary shares are entitled to receive dividends as declared from time to time, and are entitled to one vote per share at meetings of the Company. All shares rank equally with regard to the Company's residual assets.

351,076,027 fully paid ordinary shares (2018: 351,076,027)
1,237,144 treasury shares (2018: 484,964)

Accounting policies

Ordinary shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares and share options are shown in equity as a deduction, net of any tax effects.

Treasury shares

Shares in the Company which are purchased on-market by the IOOF Equity Plan Trust are classified as treasury shares and are deducted from share capital. Treasury shares are excluded from the weighted average number of ordinary shares used in the earnings per share calculations. The IOOF Equity Plan Trust is controlled by the IOOF Group and is therefore consolidated. Dividends received on treasury shares are eliminated on consolidation.

3-4 Capital commitments and contingencies

The only capital commitments entered into by the IOOF Group are operating lease commitments disclosed below.

Operating lease commitments

Payments made under operating leases are recognised in profit or loss on a straight-line basis over the term of the lease. Lease incentives received are recognised as an integral part of the total lease expense, over the term of the lease.

Commitments for minimum lease payments in relation to non-cancellable operating leases are payable as follows:

2019	< 1 year	1 to 5 years	Later than 5 years	Total
	\$'000	\$'000	\$'000	\$'000
Premises - continuing operations	8,786	43,896	29,068	81,750

	2019 \$'000	2018 \$'000
Guarantees and underwriting commitments		
Rental bond guarantees	10,773	12,256
ASX settlement bond guarantee	500	1,000
ASIC bond guarantees	40	20
Other guarantees	453	3,000
	11,767	16,276

On 10 April 2019, the Group announced that its subsidiary, Bridges Financial Services Group Pty Ltd, had entered into a strategic partnership with Bendigo and Adelaide Bank Ltd (Bendigo) to acquire Bendigo Financial Planning Ltd's (Bendigo FP) client book and servicing rights for cash consideration of \$3 million, plus a further payment of \$2 million on the first anniversary of completion, subject to maintaining an agreed ongoing service client retention rate. The transaction completed on 31 July 2019.

Final completion of the ANZ P&I Acquisition remains conditional on the receipt of notices from OnePath Custodians (OPC) and ANZ that each have no objection to the P&I Acquisition proceeding. IOOF continues to work co-operatively with OPC and ANZ to provide the information and resources necessary to facilitate those notices being given. From 5 July 2019, recent amendments to the Superannuation Industry (Supervision) Act 1993 (Cth) came into force, giving APRA an approval power in respect of the acquisition of controlling stakes in Registrable Superannuation Entity licensees (such as OPC). As such, receipt of such an approval from APRA is now also a condition to completion of the P&I Acquisition. IOOF is well advanced in preparation and submission of material to APRA for due consideration of the matter.

IOOF has agreed to purchase the P&I business for a cash consideration of A\$975m, subject to a completion adjustment.

Two subsidiaries of the Group have contractual agreements with its planners to provide a put option "Buyer of Last Resort Facility" should a planner wish to sell their business and on the satisfaction of certain specific requirements. The terms and conditions provide that where the specific requirements have been met, a predetermined purchase price will be payable for the business as agreed by all parties over a predetermined period. Where certain terms and conditions have not been met, the predetermined purchase price will be discounted accordingly. As at 30 June 2019, the Group had received requests from planners which satisfied requirements to exercise its obligation. The resale value of such businesses purchased may differ from the cost to the Group. Where confirmation notices have been received, the Group has a fixed obligation to purchase the businesses at market value, the aggregate value of this fixed obligation is \$3.00m (2018: \$2.53m).

Contingent liabilities of the IOOF Group exist in relation to claims and/or possible claims which, at the date of signing these accounts, have not been resolved. An assessment of the likely loss to the Company and its controlled entities has been made in respect of the identified claims, on a claim by claim basis, and specific provision has been made where appropriate. The IOOF Group does not consider that the outcome of any other current proceedings, either individually or in aggregate, is likely to materially affect its operations or financial position.

3-5 Reserves

	2019 \$'000	2018 \$'000
Equity investment revaluation reserve ⁽ⁱ⁾	24,326	18,804
Business combinations reserve ⁽ⁱⁱ⁾	(326)	(326)
Foreign currency translation reserve ⁽ⁱⁱⁱ⁾	30	44
Operating risk financial reserve ^(iv)	2,655	2,655
Share-based payments reserve ^(v)	(1,460)	(1,764)
	25,225	19,413

Nature and purpose of reserves

(i) Equity investment revaluation reserve comprises the cumulative net change in fair value of equity securities designated at FVOCI (2018: available-for-sale financial assets).

(ii) Business combinations reserve reflects historic acquisitions of non-controlling interests.

(iii) Foreign currency translation reserve comprises foreign currency differences arising from the translation of the financial statements of the Group's foreign operations.

(iv) The operating risk financial reserve is held for certain superannuation products that were previously held under AET and have been transferred to IIML as Superannuation Trustee in the current year. Other similar reserves exist within the IOOF Group, however these are generally held by the relevant funds.

(v) The equity-settled employee benefits reserve arises on the grant of performance rights and share options to executives and senior employees under the employee share plan. Amounts are transferred out of the reserve and into issued capital when the shares are transferred to employees.

Section 4 - Operating assets and liabilities

This section shows the assets used to generate the IOOF Group's trading performance and the liabilities incurred as a result. Liabilities relating to the Group's financing activities are addressed in Section 3.

4-1 Associates

Associates are those entities over which the IOOF Group has significant influence, but not control, over the financial and operating policies.

The IOOF Group has interests in a number of associates. For one of these associates, Perennial Value Management Limited, the IOOF Group owns 52.4% (2018: 52.4%) of the equity interests but has 42.4% of the voting rights and dividend entitlements. The IOOF Group has determined that it does not have control but has significant influence because it has representation on the board of the investee. In addition, the IOOF Group owns 56.7% (2018: 43.1%) of the equity interests of Thornton Group (SA) Pty Ltd. The Group has determined that it does not have control of this investee as it has no representation on the Board and does not have power over the investee to direct its operations.

The table below discloses material associates individually:

Associate	Country of incorporation	Ownership interest		Carrying value \$'000	IOOF Group's share of profit/(loss) \$'000
		2019 %	2018 %		
Perennial Value Management Ltd	Australia	52.4	52.4	6,800	956
Thornton Group (SA) Pty Ltd	Australia	56.7	43.1	6,129	127
Grow Super		12.1	7.1	4,155	(298)
Other associates				4,425	201
				21,509	986

Associates had a carrying value of \$24,002,000 and share of profit of \$2,524,000 in 2018. All significant associates have a 30 June financial year end.

The following table summarises the financial information of the IOOF Group's material associate, Perennial Value Management Limited, as included in its own financial statements. All fair values and accounting policies are consistent with those of the IOOF Group.

	2019 \$'000	2018 \$'000
Beneficial ownership interest	42.4%	42.4%
Current assets	19,477	17,222
Non-current assets	8,219	7,422
Current liabilities	(7,050)	(6,967)
Non-current liabilities	(361)	(408)
Net assets (100%)	20,285	17,269
IOOF Group's share of net assets (42.4%)	8,591	7,313
IOOF Group's share of movements in equity and other reserves (42.4%)	(1,791)	(1,490)
Goodwill	-	4,451
Carrying value of interest in associate	6,800	10,274
Revenue (100%)	24,787	26,202
Profit and total comprehensive income (100%)	2,258	4,278
Profit and total comprehensive income (42.4%)	956	1,811
Total profit and total comprehensive income (42.4%)	956	1,811
Dividends received by the IOOF Group	-	1,270

None of the IOOF Group's equity-accounted investees are publicly listed entities and consequently do not have published price quotations.

Dividends received from associates

During the year, the IOOF Group has received dividends of \$358,000 (2018: \$1,753,000) from its associates.

Accounting policies

Interests in associates are accounted for using the equity method. They are initially recognised at cost, which includes any transaction costs. Subsequent to initial recognition, the consolidated financial statements include the IOOF Group's share of the profit or loss and other comprehensive income of the associates, until the date on which significant influence ceases.

Section 4 - Operating assets and liabilities

4-2 Intangible assets (other than goodwill)

	2019 \$'000	2018 \$'000
Cost	652,248	677,147

Acquisition through business combination	-	-	1,382	-	-	1,382
Additions	1,654	1	33	-	3,070	4,758
Divestments	-	(9)	(260)	-	-	(269)
Amortisation expense - continuing operations	(715)	(915)	(34,534)	(801)	(1,401)	(38,366)
Amortisation expense - discontinued operations	-	(38)	(1,515)	-	-	(1,553)
Reclassification to held for sale	-	(24)	(2,758)	(6,773)	-	(9,555)
Carrying value at 30 June 2019	2,223	3,282	294,284	59,371	5,547	364,707

Accounting policies

Intangible assets are non-physical assets used by the IOOF Group to generate revenues and profits. These assets include brand names, software, customer and adviser relationships and contractual arrangements. The cost of these assets is the amount that the IOOF Group has paid or, where there has been a business combination, the fair value of the specific intangible assets that could be sold separately or which arise from legal rights.

The value of intangible assets, with the exception of goodwill and brand names with indefinite useful lives, reduces over the number of years the IOOF Group expects to use the asset, the useful economic life, via an annual amortisation charge to profit and loss. The values and useful lives ascribed are reflective of arms-length transactions and independent expert advice thereon. Where there has been a technological change or decline in business performance the Directors review the value of assets to ensure they have not fallen below their carrying value. Should an asset's value fall below its carrying value an additional one-off impairment charge is made against profit.

Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on brands, is recognised in profit or loss as

Amortisation

Amortisation is charged to the income statement over the estimated useful lives of intangible assets unless such lives are judged to be indefinite. Indefinite life assets are not amortised but are tested for impairment at each reporting date. The estimated useful lives for the current and comparative years are as follows:

- brand names 20 years
- computer software 2.5 - 10 years
- customer relationships 10 - 20 years
- IT development 3 - 5 years
- other 5 - 10 years
- contract agreements 9 - 10 years

Amortisation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

Impairment testing for cash-generating units containing indefinite life intangible assets

For the purposes of impairment testing, indefinite life intangibles are allocated to the IOOF Group's operating divisions, or CGUs, which represent the lowest level within the IOOF Group at which intangible assets are monitored for internal management purposes.

Each CGU is not higher than the IOOF Group's operating segments as reported in Note 2-1 Operating segments.

Section 4 - Operating assets and liabilities

4-2 Intangible assets (other than goodwill) (continued)

Indefinite life intangible assets

The indefinite life intangible assets relate to brand names. The below table excludes \$7.9m of intangibles which have a finite life. The aggregate carrying amounts of indefinite-life intangible assets allocated to each CGU are as follows:

	2019 \$'000	2018 \$'000
Shadforth	51,000	51,000
Ord Minnett group - reclassified to held for sale	-	6,773
Lonsdale	500	500
	51,500	58,273

In designating brand names as indefinite life, consideration was given to the length of time the brand names have been in existence and it was determined that there is no foreseeable limit to the years over which the brand names are expected to generate net cash inflows for the IOOF Group.

The recoverable amount for the brand names have been determined based on a royalty savings method of calculating value in use. The calculation incorporates estimated costs of brand maintenance. The discount rate of 13.3% (2018: 12.7%) used reflects the IOOF Group's pre-tax nominal weighted average cost of capital (WACC). Management's assessment of indefinite life intangible value-in-use exceeds the value of the intangible asset allocated to the CGU, therefore any reasonably possible changes to assumptions used in management's assessment is not expected to result in impairment.

4-3 Goodwill

	2019 \$'000	2018 \$'000
Cost	1,030,321	1,024,166
Accumulated impairment	(93,430)	(83,940)
Net carrying value of goodwill	936,891	940,226
Carrying value at 1 July	940,226	954,867
Acquisition through business combination	6,155	13,698
Impairment of goodwill	(9,490)	(28,339)
Carrying value at 30 June	936,891	940,226

Impairment of \$9.5m has been recognised in 2019 in relation to goodwill allocated to Perennial Investment Partners Limited (2018: impairment of \$28.3m in relation to goodwill allocated to Perennial Investment Partners Limited). Reduced profitability from lower revenue led to its expected fair value less costs to sell declining to below the carrying value of the aggregate goodwill and investment balances.

Accounting policies

Goodwill represents the future economic benefits that arise from assets that are not capable of being individually identified and separately recognised. Its cost is the amount the IOOF Group has paid in acquiring a business over and above the fair value of the individual assets and liabilities acquired. The value of goodwill is an 'intangible' value that comes from, for example, a uniquely strong market position and the outstanding productivity of its employees. The goodwill recognised by the IOOF Group has all arisen as a result of business combinations.

For the measurement of goodwill at initial recognition, see section 7-3(b)(i) Business combinations.

Subsequent measurement

Goodwill is measured at cost less accumulated impairment losses. In respect of equity-accounted investees, the carrying amount of goodwill is included in the carrying amount of the investment, and any impairment loss is allocated to the carrying amount of the equity accounted investee as a whole.

Impairment testing for cash-generating units containing goodwill

For the purposes of impairment testing, goodwill is allocated to the IOOF Group's cash-generating units (CGUs). These represent the lowest level within the IOOF Group at which the goodwill is monitored for internal management purposes. Assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from continuing use of other assets or groups of assets (the CGU).

These CGUs are not higher than the IOOF Group's operating segments as reported in 2-1 Operating segments. The aggregate carrying amounts of goodwill allocated to each CGU are as follows:

Section 4 - Operating assets and liabilities

4-3 Goodwill (continued)

	2019 \$'000	2018 \$'000	Value in Use element		
			Cash inflows yrs 1-5	Cash outflows yrs 1-5	Cash flows - perpetuity

¹ source - RBA Statement of Monetary Policy

² source - ABS 5655.0 Managed Funds Australia

The recoverable amounts for goodwill allocated to all CGUs have been determined based on value-in-use calculations using 2019 actual balances to forecast 2020 and beyond cash flows.

The growth rates applied do not exceed the long-term average growth rate for businesses in which each CGU operates.

The pre-tax discount rate of 13.3% (2018: 12.7%) used reflects the IOOF Group's pre-tax nominal weighted average cost of capital (WACC). Management's assessment of goodwill's value-in-use exceeds the value of goodwill allocated to these CGUs. Any reasonably possible changes to assumptions used in management's assessment is not expected to result in impairment.

Management has applied a post tax WACC increment of 3.5% for Consultum (2018: 3.5%) to reflect a specific company risk premium. In prior year, a post tax WACC increment of 2.5% was also applied for Perennial. These incremental amounts are judgement based and consistent with accepted valuation industry practice.

Sensitivity analysis

At 30 June 2019, if pre-tax discount rates had increased by 4%, and terminal value growth rates had decreased from 2% to 0%, no further impairment would have been identified in connection with goodwill allocated to any cash generating

4-4 Provisions

³ Provisions totalling \$168.1m have been recognised in respect of the ANZ ADGs acquired on 1 October 2018. These provisions relate to customer remediation during the period that the relevant entities were owned by ANZ. The sale agreement indemnified the acquired entities in relation to customer remediation and accordingly, a corresponding receivable from ANZ has been recognised.

⁴ Other includes \$44.3m settlements with the representative plaintiffs in the Provident Proceedings.

Section 4 - Operating assets and liabilities

4-4 Provisions (continued)

Accounting policies

A provision is recognised if, as a result of a past event, the IOOF Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money.

Client remediation provision

ASIC, as part of its Wealth Management Project, has conducted investigations into financial advice fees paid pursuant to ongoing service arrangements, focused on major Wealth Management institutions with financial advice arms. IOOF has a significant number of self-employed and salaried financial advisers and, having noted the ongoing impact of the investigation on clients, has voluntarily undertaken its own review. The review seeks to determine whether fee paying clients under its licenses were: a) provided with agreed services and/or advice; b) supported with documentation evidencing appropriate provision of service and/or advice; and c) received advice appropriate to their circumstances.

IOOF engaged an expert consultant to design the review methodology and estimate financial compensation impact for this matter, in line with observed industry practise to date. IOOF has used sampling of cohorts of financial advisers, based on key risk indicators, to establish possible incidents of inappropriate advice or instances of fees for no service (or no evidence of service). The results of that sampling have been extrapolated across the financial adviser cohorts in accordance with observed likelihood of occurrence within that cohort. Where client compensation is probable and able to be reliably estimated, provisions have been taken. Compensation costs include return of service fees, estimated client loss for inappropriate advice, interest for time value of money at ASIC's directed rate of RBA cash rate + 6% and committed costs to resource the compensation program.

As of 30 June 2019, the Group has recognised provisions of \$391,975,000 (2018: nil) in respect of client remediation and related costs. Of this amount, \$168,810,000 is indemnified by the ANZ Banking Group and an offsetting receivable has also been recognised. There is no material cash flow impact arising from that component of the provision. Determining the amount of the provision, which represents management's best estimate of the costs of settling the identified matters, requires the exercise of significant judgement. It will often be necessary to form a view on a number of different assumptions, including the number of impacted clients, the average refund per client, and associated remediation costs. Consequently, the appropriateness of the underlying assumptions is reviewed on a regular basis against actual experience and other relevant evidence, and adjustments are made to the provisions where appropriate.

Onerous contracts

A provision for onerous contracts is recognised when the expected benefits to be derived by the IOOF Group from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is valued as the estimated present value of future lease payments net of anticipated recoveries from third parties, that the IOOF Group is presently obligated to make under non-cancellable operating lease contracts. The estimate may vary as a result of changes in the utilisation of the leased premises and sub-lease arrangements where applicable. Provisions relate to onerous lease contracts. The unexpired term of these leases is less than 1 year.

Employee entitlements

The provision for employee benefits includes provisions for remuneration in the form of incentive plans and expected A provision for employee benefits in the form of an incentive plan is recognised when there is no realistic alternative but to settle the liability, and at least one of the following conditions is met:

- there are formal terms in the plan for determining the amount of the benefit;
- the amounts to be paid are determined before the time of completion of the financial report; or
- past practice gives clear evidence of the amount of the obligation.

A provision for restructuring is recognised when the IOOF Group has approved a detailed and formal restructuring plan, and the restructuring either has commenced or has been announced publicly. Future operating losses are not provided

Liabilities for incentives are expected to be settled within 12 months and are measured at the amounts expected to be paid when they are settled.

Other provisions

Other provisions have been made for the present value of the Directors' best estimates of legal settlements. The information usually required by AASB 137 Provisions, Contingent Liabilities and Contingent Assets, is not disclosed on the grounds that it can be expected to prejudice the outcome of certain other litigation.

Section 5 - Statutory funds

A subsidiary of the Company, IOOF Ltd, is a friendly society in accordance with the Life Insurance Act 1995. Balances below are disclosed inclusive of amounts collected/receivable from or paid/payable to IOOF Group entities. Details of the assets and liabilities of the statutory funds are included in Section 1. Statutory funds are not available to

Accounting policies

Investment contracts with DPF

The value of these liabilities changes in relation to the change in unit prices for unit linked contracts, and are decreased by management fee charges. In accordance with the rules of the funds, any remaining surplus is attributed to the policyholders. Adjustments to the liabilities at each reporting date are recorded in profit or loss.

Other investment contracts

The value of these liabilities changes in relation to the change in unit prices for unit linked contracts, and are decreased by management fee charges. In accordance with the rules of the funds, any remaining surplus is attributed to the members of the fund. Amounts distributable to members are recorded in profit or loss as an expense.

There is no claims expense in respect of life investment contracts. Surrenders and withdrawals which relate to life investment contracts are treated as a movement in life investment contract liabilities. Surrenders are recognised when the policyholder formally notifies of their intention to end the policy previously contracted.

Insurance contract liabilities and claims expense

A claim expense is recognised when the liability to the policyholder under the policy contract has been established, or upon notification of the insured event. Withdrawal components of life insurance contracts are not expenses and are treated as movements in life insurance contract liabilities.

Section 5 - Statutory funds

5-2 Actuarial assumptions and methods

The effective date of the actuarial report on the policy liabilities and capital adequacy reserves is 30 June 2019. The actuarial report for IOOF Ltd was prepared by Mr Andrew Mead, FIAA, and was dated 23 August 2019. The actuarial report indicates that Mr Mead is satisfied as to the accuracy of the data upon which the policy liabilities have been determined.

Actuarial Methods

Policy liabilities have been calculated in accordance with relevant actuarial guidance issued by the Australian Prudential Regulation Authority under the Life Insurance Act 1995. Policy liabilities are based on a systematic release of planned margins as services are provided to policyholders and premiums are received.

Processes used to select assumptions

Mortality and Morbidity

All mortality and morbidity risk is fully reinsured and the gross risk to the IOOF Group is low. The mortality and morbidity assumptions have been taken to be equal to the reinsurer's mortality and morbidity assumptions.

Other Assumptions

In adopting the accumulation method to assess the policy liabilities, one material assumption is required. It is assumed that the future overall experience as to expense levels, surrender/lapse rates and discount rates will likely remain within a satisfactory range so that the policies produce future profits for the business. In which case, there is no need to set aside provisions, in addition to the accumulation amounts, for future losses (i.e. there is no loss recognition concerns for the business). This assumption has been adopted on the basis that, based on the current actual experience of the business, the policies are producing satisfactory profits for the business and there is no circumstances known that would indicate that the current position (i.e. general experience levels and ongoing profitability) will not continue into the future.

Sensitivity analysis

The policy liabilities are not sensitive to changes in variables within a moderate range. Increases in mortality and morbidity assumptions will result in an increase in gross policy liabilities for IOOF Group, however as the mortality and morbidity risk is fully reinsured any change in these assumptions would be consistent with the reinsurer's assumptions and the net change in policy liabilities would be nil.

5-3 Disclosures on asset restrictions, managed assets and trustee activities

(i) Restrictions on assets

Investments held in life statutory funds can only be used in accordance with the relevant regulatory restrictions imposed under the Life Act and associated rules and regulations. The main restrictions are that the assets in a life statutory fund can only be used to meet the liabilities and expenses of that life statutory fund, to acquire investments to further the business of the life statutory fund or as distributions when capital adequacy and other regulatory requirements are met.

(ii) Managed Funds and other fiduciary duties

Entities in the IOOF Group, including the IOOF Ltd Benefit Funds, hold controlling investments in managed funds. A subsidiary of the Company is the Responsible Entity for these managed funds and has a fiduciary responsibility for managing these trusts. Arrangements are in place to ensure that such activities are managed separately from the other activities of the IOOF Group.

Section 5 - Statutory funds

5-4 Capital adequacy position

Capital adequacy reserves are required to meet the prudential standards determined in accordance with Prudential Standard LPS 110 *Capital Adequacy* issued by the Australian Prudential Regulation Authority under paragraph 230A(1)(a) of the Life Insurance Act 1995. Capital adequacy reserves provide additional protection to policy holders against the impact of fluctuations and unexpected adverse circumstances on the Company. The figures in the table below represent the number of times coverage of the aggregate of all benefit funds and statutory funds in the Life Group over the prescribed capital amount.

Statutory	
2019 \$'000	2018 \$'000
(a) Capital Base	16,027
(b) Prescribed capital amount	7,241
Capital in excess of prescribed capital amount = (a) - (b)	8,786

Section 6 - Other disclosures

6-2 Share-based payments

The IOOF Group operates a number of employee share and option schemes operated by the IOOF Equity Plan Trust (the "Trust"). The employee share option plans were approved by the Board of Directors.

IOOF Executive and Employee Share Option Plan

The IOOF Group has an ownership-based compensation scheme for executives and senior employees.

Selected employees may be granted options which entitle them to purchase ordinary fully paid shares in the Company at a price fixed at the time the options are granted. Voting and dividend rights will be attached to the unissued ordinary shares when the options have been exercised. Options may be exercised at any time from the date of vesting to the date of their expiry.

Options granted under the plan carry no dividend or voting rights. All plans are equity-settled. There were no options granted in 2019 (2018: nil).

IOOF Executive Performance Rights Plan

The IOOF Executive Performance Rights Plan is the vehicle used to deliver equity based incentives to executives and senior employees of the IOOF Group.

Each employee receives ordinary shares of the Company on vesting of the performance rights. No amounts are paid or payable by the recipient on receipt of the performance rights or on vesting. The performance rights carry neither rights to dividends nor voting rights prior to vesting.

Performance rights granted under the plan carry no dividend or voting rights. All plans are equity-settled.

Deferred Share Plan

A Short Term Incentive (STI) mandatory deferral program exists with equity deferral relating to Executive STIs awarded from 2018 onwards. On vesting of performance rights, ordinary shares are transferred to the employee's name or held in trust. The employee receives all dividends on the ordinary shares while held in trust.

There are no options outstanding at 30 June 2019.

Inputs for measurement of grant date fair values granted during the financial year

The grant date fair value of share-based payment plans granted during the year were measured based on a binomial options pricing model for non-market performance conditions and a monte carlo simulation model for market performance conditions. Expected volatility is estimated by considering historic average share price volatility. The inputs used in the measurement of the fair values at grant date of the share-based payment plans are the following:

Series	Fair value	Grant date share price	Expected volatility	Expected life (years)	Dividend yield	Risk-free interest rate
2018-07 Other Key Stakeholders	\$ 8.04	\$ 8.15	n/a	n/a	n/a	n/a
2019-01 Executives	\$ 4.93	\$ 8.00	24%	3	6.8%	2.2%
2019-02 Other Key Stakeholders	\$ 7.58	\$ 7.84	24%	1	6.9%	2.1%
2019-03 Managing Director	\$ 2.04	\$ 6.80	23%	3	7.9%	2.1%
2019-04 Other Key Stakeholders	\$ 3.54	\$ 4.73	37%	3	11.4%	2.0%
2019-05 Other Key Stakeholders	\$ 4.93	\$ 8.00	24%	3	6.8%	2.2%

The following share-based payment arrangements were in existence during the current and comparative reporting years:

Performance Rights Series - Recipient	Exercise price	Earliest vesting date	Last tranche vesting date	Performance related vesting conditions
2019-05 Other Key Stakeholders	nil	30-Jun-21	n/a	TSR
2019-04 Other Key Stakeholders	nil	30-Jun-21	n/a	n/a

The breakdown of share-based payments expense for the year by recipient is as follows. This represents the expense recorded to date and does not reflect the opportunity to transfer to retained profits the value of those legacy series that will lapse.

Recipient	2019 \$'000	2018 \$'000
Former Managing Director	(204)	893
Executives	2,548	833
Other Key Stakeholders	2,484	1,002
	4,828	2,728
Attributable to discontinued operations	(31)	-
	4,797	2,728

Section 6 - Other disclosures

6-2 Share-based payments (continued)

Accounting policies

The grant date fair value of share-based payment awards granted to employees is recognised as a share-based payment expense, with a corresponding increase in the share-based payments reserve, over the years that the employees unconditionally become entitled to the awards. The amount recognised as an expense is adjusted to reflect the number of awards for which the related service and non-market vesting conditions are expected to be met, such that the amount ultimately recognised as an expense is based on the number of awards that meet the related service and non-market performance conditions at vesting date.

For share-based payment awards with non-vesting conditions, the grant date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes. The fair value at grant date is independently determined where considered appropriate. The option pricing model used takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option.

Shares held by the Trust will contribute to the employee allocation of shares on satisfaction of vesting performance hurdles. The IOOF Group has no right to recall placed shares. However, a subsidiary company acts as the Trustee of the Trust, and can direct the voting rights of shares held.

Shares in the Company held by the Trust are classified and disclosed as treasury shares, and deducted from share capital. Dividends received by the Trust are recorded as dividend income in the financial statements of the Trust and are eliminated on consolidation.

6-3 IOOF Group subsidiaries

	Country of incorporation	Ownership interest	
		2019 %	2018 %
Ord Minnett Limited	Australia	70.0	70.0
Ord Minnett Financial Planning Pty Limited	Australia	70.0	70.0
Ord Minnett Management Limited	Australia	70.0	70.0

Unconsolidated structured entities

The IOOF Group has interests in various structured entities that are not consolidated. An 'interest' in an unconsolidated structured entity is any form of contractual or non-contractual involvement which exposes the IOOF Group to variability of returns from the performance of that entity. Such interests include holdings of equity securities and seed capital. The seed capital is primarily available to support the business in establishing new products and is also used to support capital adequacy requirements of the benefit funds.

The IOOF Group has investments in managed investment funds through its asset management subsidiaries. Control of these managed investment funds may exist since the IOOF Group has power over the activities of the fund. However, these funds have not been consolidated because the IOOF Group is not exposed to significant variability in returns from the funds. The IOOF Group earns management fees from the management of these investment funds which are commensurate with the services provided and are reported in external management and service fees revenue in note 2-2. Management fees are generally based on the value of the assets under management. Therefore, the fees earned are impacted by the composition of the assets under management and fluctuations in financial markets.

Investment funds are investment vehicles that consist of a pool of funds collected from several investors for the purpose of investing in securities such as money market instruments, debt securities, equity securities and other similar assets. For all investment funds, the IOOF Group's maximum exposure to loss is equivalent to the carrying amount of the investment in the fund.

6-4 Acquisition of subsidiary

On 1 October 2018, the ADGs formerly owned by ANZ joined the IOOF Group following the completion of a share sale agreement between IOOF and ANZ. The ADGs provide services to clients including strategic financial advice and risk insurance solutions.

The IOOF Group acquired all of the ordinary shares in the parent entity of the ADGs for a total cash consideration of \$25.1m.

In the period from acquisition to 30 June 2019, the ADGs contributed revenue of \$158.8m and a loss of \$16.1m to the IOOF Group's UNPAT results. This excludes integration preparation costs of \$20.8m in relation to the acquisition of the ADGs and scheduled acquisition of the ANZ P&I business.

If the acquisition had occurred on 1 July 2018, management estimates that the consolidated revenue from continuing operations for the Group would have been \$1,116.2m and consolidated loss from continuing operations for the year would have been \$47.2m. In determining these amounts, management has assumed that the fair value adjustments, determined provisionally, that arose on the date of acquisition would have been the same if the acquisition had occurred on 1 July 2018.

The following summarises the major classes of consideration transferred, and the recognised amounts of assets acquired and liabilities assumed at the acquisition date:

Consideration transferred	\$'000
Cash	23,000
Deferred consideration	2,128
Total consideration	25,128
Cash balances acquired	(24,240)
Consideration, net of cash acquired	888

The impact on cash flows for the Group for the year was an outflow of \$0.9m.

Acquisition-related costs

The IOOF Group has incurred acquisition-related costs of \$23.7m in the financial year, on acquisition advisory, integration preparation and finance costs in relation to the acquisition of the ADGs and scheduled acquisition of the ANZ P&I business. These costs have been included in the Other Expenses in note 2-4.

Section 6 - Other disclosures

6-4 Acquisition of subsidiary (continued)

Identifiable assets acquired and liabilities assumed

The following table summarises the recognised amounts of assets acquired and liabilities assumed at the date of acquisition.

	\$'000
Cash	24,240
Receivables	3,744
Prepayments	579
Investments accounted for using the equity method	368
Property and equipment	1,600
Deferred tax assets	1,033
Payables	(2,103)
Borrowings	(618)
Current tax liabilities	242
Provisions	(3,493) *
Non-controlling interest	(544)
Total identifiable net assets acquired	25,048

*\$168.1m customer remediation provision acquired is wholly offset by the indemnity receivable under the sale agreement.

Goodwill and intangibles

Goodwill and intangibles have been recognised as a result of the acquisition as follows:

	\$'000
Total consideration	25,128
Fair value of assets assumed	(25,048)
Goodwill and intangibles acquired	80

The goodwill is attributable mainly to the skills and technical talent of the ADGs' work force and the synergies expected to be achieved from integrating the ADGs into the IOOF Group's existing business. None of the goodwill recognised is expected to be deductible for tax purposes.

6-5 Remuneration of auditors

Auditors' remuneration paid or payable by members of the IOOF Group to the auditors of the corporate entities in relation to audit services of the corporate entities and products operated by the IOOF Group during the year and for the prior year:

	2019 \$	2018 \$
Audit services		
Auditors of the Company		
<i>KPMG Australia</i>		
Audit and review of financial reports	3,147,729	2,721,222
Other regulatory audit services	1,016,270	1,010,007
	4,163,999	3,731,229
Other services		
Auditors of the Company		
<i>KPMG Australia</i>		
Taxation services	82,551	271,280
Due diligence services	567,189	122,488
Other services	29,040	417,427
	678,780	811,195
	4,842,779	4,542,424

All amounts payable to the Auditors of the Company were paid by an IOOF Group subsidiary.

Section 6 - Other disclosures

6-6 Key management personnel

The key management personnel compensation comprised:

	2019 \$	2018 \$
Short-term employee benefits	4,662,992	4,888,457
Post-employment benefits	200,385	179,289
Share-based payments	1,279,181	2,429,027
Termination benefits	1,268,129	-
	7,410,687	7,496,773

Key management personnel compensation reconciles to disclosures in the remuneration report as follows:

Executive key management personnel	6,406,756	4,102,746
Non-executive Directors	1,003,931	965,000
	7,410,687	5,067,746
Bonus deferred shares - at risk	-	2,429,027
Total	7,410,687	7,496,773

Individual Directors and executives compensation disclosures

Information regarding individual Directors and executives compensation and some equity instruments disclosures as required by Corporations Regulation 2M.3.03 is provided in the remuneration report section of the Directors' Report. No Director has entered into a material contract with the IOOF Group since the end of the prior financial year and there were no material contracts involving directors' interests existing at year-end.

6-7 Related party transactions

(a) Ultimate parent entity

IOOF Holdings Ltd is the ultimate parent entity in the IOOF Group.

(b) Loans to Directors and executives of associates and subsidiaries

	Financial year	Opening balance 1 July \$	Closing balance 30 June \$	Interest paid/ payable during year \$	Highest balance during the year \$
Interest free loans					
Perennial Value Management Limited	2019	2,286,717	1,944,381	-	2,286,717
	2018	2,286,717	2,286,717	-	2,286,717
Interest bearing loans					
Perennial Value Management Limited	2019	6,402,062	5,794,350	228,939	6,505,622
	2018	6,267,091	6,402,062	239,898	6,402,062

The amounts above were advanced by Perennial Investment Partners Pty Ltd and I.O.O.F. Investment Management Limited for the specific purpose of assisting executives to acquire an equity interest in subsidiaries and associates of the Company. Secured interest bearing loans totalling \$5,794,350 were made on commercial terms and conditions and loans totalling \$1,944,381 are unsecured interest free loans.

(c) Investment in related entities

Through one of its subsidiaries, the Group (excluding benefit funds) holds investments in managed investment schemes that meet the definition of related parties.

	2019 \$	2018 \$
Investment in related party schemes	279,662	407,517

(d) Transactions with key management personnel

i. Key management personnel compensation

Details of key management personnel compensation are disclosed in section 6-6 to the financial statements and in the Remuneration Report.

ii. Loans to key management personnel

There are no loans between the IOOF Group and key management personnel.

iii. Other transactions with key management personnel of the IOOF Group

There were no other transactions with key management personnel of the IOOF Group during the 2019 and 2018 financial years.

Section 7 - Basis of preparation

This section sets out the IOOF Group's accounting policies that relate to the financial statements as a whole. Where an accounting policy is specific to a single note, the policy is described in the note to which it relates. This section also shows new accounting standards, amendments and interpretations, and whether they are effective in 2018 or later years. How these changes are expected to impact the financial position and performance of the IOOF Group is explained in this section.

7-1 Reporting entity

The Company is a public company listed on the Australian Stock Exchange (trading under the symbol 'IFL'), domiciled in Australia. The consolidated financial statements of the Company as at and for the year ended 30 June 2019 comprise the Company and its controlled entities and the IOOF Group's interests in associates.

The IOOF Group is a for-profit entity and is primarily involved in the provision of wealth management services. The Company's registered office and its principal place of business are Level 6, 161 Collins Street, Melbourne.

7-2 Basis of preparation

(a) Statement of compliance

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards (AASBs) adopted by the Australian Accounting Standards Board (AASB) and the Corporations Act 2001. The consolidated financial statements comply with International Financial Reporting Standards (IFRS) adopted by the International Accounting Standards Board (IASB).

The annual financial report was approved by the Board of Directors on 26 August 2019.

(b) Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis except for the following material items in the statement of financial position:

- financial instruments at fair value through profit or loss are measured at fair value; and
- equity investments at fair value through other comprehensive income are measured at fair value.
- assets (or disposal groups) that are classified as held for sale in accordance with AASB 5 *Non-current Assets Held for Sale and Discontinued Operations* are measured in accordance with that Standard.

The statement of financial position is presented in order of liquidity.

(c) Functional and presentation currency

These consolidated financial statements are presented in Australian dollars, which is the Company's functional currency. All amounts have been rounded to the nearest thousand unless otherwise stated.

(d) Rounding of amounts

The Company is a company of the kind referred to in ASIC Corporations Instrument 2016/191, dated 24 March 2016, and in accordance with that Instrument amounts in the financial report are rounded off to the nearest thousand dollars, narrative disclosures are expressed in whole dollars or as otherwise indicated.

(e) Use of estimates and judgements

To conform with AASBs management is required to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimates are revised and in any future years affected.

Information about critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is included in the following notes:

- section 1-1 - Contingent consideration;
- section 2-4 - (vi) Deferred acquisition costs;
- section 4-2 - Intangible assets (other than goodwill);
- section 4-3 - Goodwill; and
- section 6-2 - Share-based payments.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year are included in the following notes:

- note 4-2 & 4-3 - key assumptions used in discounted cash flow projections; and
- note 3-4 & 4-4 - contingencies and provisions.

IOOF Annual Financial Report 2019

Notes to the financial statements

Section 7 - Basis of preparation

7-3 Other significant accounting policies

Significant accounting policies have been included in the relevant notes to which the policies relate. Other significant accounting policies are listed below.

Certain comparative amounts have been reclassified to conform with the current year's presentation.

(a) Changes in accounting policies

A subsidiary of the Company, IOOF limited, is a friendly society in accordance with the Life Insurance Act 1995 (the 'Act'). The funds operated by IOOF Limited, and any trusts controlled by those Funds, are treated as statutory funds in accordance with the Act. These statutory funds continue to be consolidated in accordance with accounting standards. For the year ended 30 June 2019 and going forward, the assets, liabilities, income and expenses of these statutory funds have been included on a line by line basis in the financial statements. Where relevant, comparative primary financial statements and disclosures have been restated to ensure consistency in presentation of financial information across the applicable comparative periods. This change has been made as it provides information on a basis consistent with broader industry and does not give rise to a change in net profit or net assets of the Group.

The table below shows how the comparative balances of these statutory funds have been reclassified.

Statement of Financial Position

	2018 previously reported \$'000	2018 adjustment \$'000	2018 revised \$'000
Assets			
Cash	121,441	4,178	125,619

Provisions	116,335	-	116,335
Deferred tax liabilities	69,255	4,500	73,755
Deferred revenue liability	1,413	-	1,413
Lease incentives	3,530	-	3,530
Liabilities relating to statutory funds	1,036,491	(1,036,491)	-
Total liabilities	1,318,170	(7,155)	1,311,015
Net assets	1,812,687	-	1,812,687
Equity			
Share capital	1,967,023	-	1,967,023
Reserves	19,413	-	19,413
Accumulated losses	(184,169)	-	(184,169)
Total equity attributable to equity holders of the Company	1,802,267	-	1,802,267
Non-controlling interest	10,420	-	10,420
Total equity	1,812,687	-	1,812,687

The IOOF Group has consistently applied the accounting policies to all years presented in these consolidated financial statements, except as identified at note 7-4.

Section 7 - Basis of preparation

7-3 Other significant accounting policies (continued)

(b) Basis of consolidation

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of the Company as at 30 June 2019 and the results of all controlled subsidiaries for the year then ended. This includes the benefit funds of its subsidiary, IOOF Ltd, and any controlled trusts.

The benefit funds, and any trusts controlled by those funds, are treated as statutory funds in accordance with the Life Insurance Act 1995. These statutory funds, in addition to the statutory funds of the life insurance business conducted by the IOOF Group, are shown separately from shareholder funds in the notes to the financial statements.

Refer to Note 1-1 Assets and liabilities relating to statutory funds for information in relation to the different accounting treatment of investment contracts with discretionary participating features.

(i) Business combinations

The IOOF Group accounts for business combinations using the acquisition method when control is transferred.

The consideration transferred in the acquisition is generally measured at fair value, as are the identifiable net assets acquired. Any goodwill that arises is tested annually for impairment. Any gain on a bargain purchase is recognised in profit or loss immediately. Transaction costs are expensed as incurred, except if related to the issue of debt or equity securities.

Any contingent consideration payable is recognised at fair value at the acquisition date. If the contingent consideration is classified as equity, it is not remeasured and settlement is accounted for within equity. Otherwise, subsequent changes to the fair value of the contingent consideration are recognised in profit or loss.

When share-based payment awards (replacement awards) are required to be exchanged for awards held by the acquiree's employees (acquiree's awards) and relate to past services, then all or a portion of the amount of the acquiree's replacement awards is included in measuring the consideration transferred in the business combination. This determination is based on the market-based value of the replacement awards compared with the market-based value of the acquiree's awards and the extent to which the replacement awards relate to past and/or future service.

(ii) Non-controlling interests (NCI)

NCI are measured at their proportionate share of the acquiree's identifiable net assets at the acquisition date. Changes in the IOOF Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

(iii) Subsidiaries

Subsidiaries are entities controlled by the IOOF Group. The IOOF Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

(iv) Loss of control

When the IOOF Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost.

(v) IOOF Equity Plan Trust (the "Trust")

The IOOF Group has formed a trust to administer the IOOF Group's employee share schemes. The Trust is consolidated, as the substance of the relationship is that the Trust is controlled by the IOOF Group. Shares held by the Trust are disclosed as treasury shares and are deducted from share capital.

(vi) Transactions eliminated on consolidation

Intra-IOOF Group balances and transactions, and any unrealised income and expenses arising from intra-IOOF Group transactions, are eliminated in preparing the consolidated financial statements. Unrealised gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the IOOF Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment. Dividends paid to the Trust are also eliminated.

Section 7 - Basis of preparation

7-3 Other significant accounting policies (continued)

(c) Foreign currency

Foreign currency transactions

Transactions in foreign currencies are translated at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated to Australian dollars at the foreign exchange rate ruling at that date. Foreign exchange differences arising on translation are recognised in profit or loss. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on consolidation, are translated to Australian dollars at foreign exchange rates ruling at the balance sheet date. The revenue and expenses of foreign operations are translated to Australian dollars at rates approximating the foreign exchange rates ruling at the dates of the transactions.

Foreign currency differences are recognised directly in equity in the foreign currency translation reserve.

(d) Property and equipment

(i) Recognition and measurement

Property and equipment are measured at cost less any accumulated depreciation and any accumulated impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset.

The gain or loss on divestment of an item of property and equipment is determined by comparing the proceeds from divestment with the carrying amount of the property and equipment and is recognised net within other income/other expenses in profit or loss. When revalued assets are sold, any related amount included in the revaluation reserve is transferred to retained earnings.

(ii) Subsequent costs

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the IOOF Group. Repairs and maintenance costs are charged to profit or loss as they are incurred.

(iii) Depreciation

Depreciation is recognised in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property and equipment. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the IOOF Group will obtain ownership by the end of the lease term.

Items of property and equipment are depreciated from the date that they are installed and are ready for use, or in respect of internally constructed assets, from the date that the asset is completed and ready for use.

The estimated useful lives for the current and comparative year are as follows:

- office equipment 3-10 years
- leasehold improvements 3-10 years
- equipment under finance lease 3-10 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date, and adjusted if appropriate.

(e) Impairment

(i) Non-derivative financial assets

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

Objective evidence that financial assets (including equity securities) are impaired can include default or delinquency by a debtor, restructuring of an amount due to the IOOF Group on terms that the IOOF Group would not consider otherwise, indications that a debtor or issuer will enter bankruptcy, adverse changes in the payment status of borrowers or issuers in the IOOF Group, economic conditions that correlate with defaults or the disappearance of an active market of a security. In addition, for an investment in an equity security, a significant or prolonged decline in its fair value below its cost is considered objective evidence of impairment.

Section 7 - Basis of preparation

7-3 Other significant accounting policies (continued)

(e) Impairment (continued)

(i) Non-derivative financial assets (continued)

Financial assets measured at amortised cost

The Group recognises loss allowances for expected credit losses on financial assets measured at amortised cost. When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information.

The Group considers a financial asset to be in default when the borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security, or the financial asset is more than 90 days past due. The maximum period considered when estimating expected credit losses is the maximum contractual period over which the Group is exposed to the credit risk.

Expected credit losses are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group expects to receive). Expected credit losses are discounted at the effective interest rate of the financial asset. Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Financial assets and liabilities at fair value through OCI

Impairment losses on equity investments at fair value through OCI are recognised by reclassifying the losses accumulated in the investment revaluation reserve to profit or loss. The cumulative loss that is reclassified from equity to profit or loss is the difference between the acquisition cost, net of any principal repayment and amortisation, and the current fair value, less any impairment loss previously recognised in profit or loss. Changes in impairment provisions attributable to application of the effective interest method are reflected as a component of interest income. If, in a subsequent year, the fair value of an impaired debt investment at fair value through OCI increases and the increase can be related objectively to an event occurring after the impairment loss was recognised in profit or loss, then the impairment loss is reversed, with the amount of the reversal recognised in profit or loss. However, any subsequent recovery in the fair value of an impaired debt investment at fair value through OCI is recognised in other comprehensive income.

Associates

An impairment loss in respect of an associate is measured by comparing the recoverable amount of the investment with its carrying amount. An impairment loss is recognised in profit or loss, and is reversed if there has been a favourable change in the estimates used to determine the recoverable amount.

(ii) Non-financial assets

The carrying amounts of the IOOF Group's non-financial assets, other than deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For goodwill, and intangible assets that have indefinite useful lives or that are not yet available for use, the recoverable amount is estimated each year at the same time.

An impairment loss is recognised if the carrying amount of an asset or its related cash-generating unit (CGU) exceeds its estimated recoverable amount.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Subject to an operating segment ceiling test, for the purposes of goodwill impairment testing, CGUs to which goodwill has been allocated are aggregated so that the level at which impairment is tested reflects the lowest level at which goodwill is monitored for internal reporting purposes. Goodwill acquired in a business combination is allocated to groups of CGUs that are expected to benefit from the synergies of the combination.

Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the units, and then to reduce the carrying amounts of the other assets in the unit (group of units) on a pro rata basis.

Section 7 - Basis of preparation

7-3 Other significant accounting policies (continued)

(e) Impairment (continued)

(ii) Non-financial assets (continued)

An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognised in prior years are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

Goodwill that forms part of the carrying amount of an investment in an associate is not recognised separately, and therefore is not tested for impairment separately. Instead, the entire amount of the investment in an associate is tested for impairment as a single asset when there is objective evidence that the investment in an associate may be impaired.

(f) Goods and service tax (GST)

Revenues, expenses and assets (excluding receivables) are recorded net of GST. GST input tax credits are initially recorded as an asset and GST collected as a liability. These balances are offset as at the reporting date and recognised as either an amount receivable or payable to the Australian Taxation Office. The GST portion relating to financial supplies and non-deductible expenditure, for which an input tax credit cannot be claimed, is expensed or is recognised as part of the cost of acquisition of an asset.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the Australian Taxation Office is included with other receivables or payables in the statement of financial position.

Cash flows are presented in the statement of cash flows on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the Australian Taxation Office are presented as operating cash flows.

(g) Leases

Leases in terms of which the IOOF Group assumes substantially all the risks and rewards of ownership are classified as finance leases. Upon initial recognition the leased asset is measured at an amount equal to the lower of its fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the asset is accounted for in accordance with the accounting policy applicable to that asset.

Minimum lease payments made under finance leases are apportioned between the finance expense and the reduction of the outstanding liability. The finance expense is allocated to each year during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability. Other leases are operating leases and are not recognised on the IOOF Group's statement of financial position.

(h) Non-current assets held for sale

Non-current assets and disposal groups are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the asset (or disposal group) is available for immediate sale in its present condition subject only to terms that are usual and customary for sales for such asset (or disposal group) and its sale is highly probable. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

When the Group is committed to a sale plan involving loss of control of a subsidiary, all of the assets and liabilities of that subsidiary are classified as held for sale when the criteria described above are met.

Non-current assets (and disposal groups) classified as held for sale are measured at the lower of their previous carrying amount and fair value less costs to sell.

Section 7 - Basis of preparation

7-4 Adoption of new and revised Standards

New and amended Standards that are effective for the current year

Impact of initial application of AASB 9 *Financial Instruments*

In the current year, the Group has applied AASB 9 *Financial Instruments* (as revised in July 2014) and the related consequential amendments to other Standards that are effective for an annual period that begins on or after 1 January 2018. The transition provisions of AASB 9 allow an entity not to restate comparatives. AASB 9 introduced the following new requirements:

(a) Classification and measurement of financial assets

The date of initial application (i.e. the date on which the Group has assessed its existing financial assets and financial liabilities in terms of the requirements of AASB 9) is 1 July 2018. Accordingly, the Group has applied the requirements of AASB 9 to instruments that continue to be recognised as at 1 July 2018 and has not applied the requirements to instruments that have already been derecognised as at 1 July 2018. Comparative amounts in relation to instruments that continue to be recognised as at 1 July 2018 have been restated where appropriate.

All recognised financial assets that are within the scope of AASB 9 are required to be measured subsequently at amortised cost or fair value on the basis of the entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.

The directors of the Company reviewed and assessed the Group's existing financial assets as at 1 July 2018 based on the facts and circumstances that existed at that date and concluded that the initial application of AASB 9 has had the following impact on the Group's financial assets as regards their classification and measurement:

The Group's equity investments were classified as available-for-sale financial assets under AASB 139 *Financial Instruments: Recognition and Measurement*. The investments have been reclassified as financial assets at fair value through Other Comprehensive Income under AASB 9 because they are held for long-term strategic purposes. The change in fair value on these equity instruments continues to be accumulated in the investments revaluation reserve.

(b) Impairment of financial assets

In relation to the impairment of financial assets, AASB 9 requires an expected credit loss model as opposed to an incurred credit loss model under AASB 139. The expected credit loss model requires the Group to account for expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk since initial recognition of the financial assets. In other words, it is no longer necessary for a credit event to have occurred before credit losses are recognised.

The adoption of AASB 9 has not had a significant impact on the recognition and measurement of the IOOF Group's financial instruments.

Impact of initial application of AASB 15 *Revenue from Contracts with Customers*

In the current year, the Group has applied AASB 15 Revenue from Contracts with Customers (as amended in April 2016) which is effective for an annual period that begins on or after 1 January 2018. AASB 15 introduced a 5-step approach to revenue recognition. Far more prescriptive guidance has been added in AASB 15 to deal with specific scenarios. Details of the new requirements as well as their impact on the Group's consolidated financial statements are described below.

The Group's accounting policies for its revenue streams are disclosed in detail in note 2-3. The application of AASB 15 has not had a significant impact on the financial position and/or the net profit/loss of the Group.

The IOOF Group previously recognised investment manager fees and adviser payments as a reduction to management and service fees revenue. Upon adoption of AASB 15 these costs are now recognised in service and marketing fees expense. This change does not impact the IOOF Group's profit. If the Standard had been applied in the 2018 financial year, the Group's reported revenues and expenses would have been as follows:

	2018 previously reported \$'000	2018 AASB 15 adjustment \$'000	2018 revised \$'000
Management and service fees revenue	708,894	98,200	807,094
External other fee revenue	26,841	(271)	26,570
Service and marketing fees expense	(219,731)	(97,929)	(317,660)
	516,004	-	516,004

Section 7 - Basis of preparation

7-4 Adoption of new and revised Standards (continued)

The IOOF Group previously recognised insurance revenue when it was received. Upon adoption of AASB 15 revenue is now recorded upfront at the commencement of the policy. As the advisers of the IOOF Group have an obligation to review the suitability of the product's offered on an annual basis unless otherwise specified, this has an immaterial impact.

(i) Management and service fees revenue

The IOOF Group provides management services to unit trusts and funds operated by the IOOF Group at normal commercial rates. Management and service fees earned from the unit trusts and funds are calculated based on an agreed percentage of the respective funds under management or administration as disclosed in the respective product disclosure statements, and are recognised on an accruals basis. The IOOF Group recognises management and service fees revenue at the time the service is provided. There has been no significant change to this treatment under AASB 15.

(ii) Other revenue

Stockbroking revenue and external other fee revenue are also recognised at the time the service is provided. There has been no significant change to this treatment under AASB 15.

New and revised Standards in issue but not yet effective

At the date of authorisation of these financial statements, the Group has not applied the following new and revised IFRS Standards that have been issued but are not yet effective:

AASB 16	<i>Leases</i>
AASB 17	<i>Insurance Contracts</i>
Amendments to AASB 128	<i>Long-term Interests in Associates and Joint Ventures</i>
Annual Improvements to IFRS Standards 2015–2017	<i>Amendments to IFRS 3 Business Combinations, IFRS 11 Joint Arrangements, IAS 12 Income Taxes and IAS 23 Borrowing Costs</i>
AASB 10 Consolidated Financial Statements and AASB 128 (amendments)	<i>Sale or Contribution of Assets between an Investor and its Associate or Joint Venture</i>
IFRIC 23	<i>Uncertainty over Income Tax Treatments</i>

The directors do not expect that the adoption of the Standards listed above will have a material impact on the financial statements of the Group in future periods, except as noted below:

AASB 16 Leases

AASB 16 introduces a single, on-balance sheet lease accounting model for lessees. A lessee recognises a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. There are optional exemptions for short-term leases and leases of low value items.

AASB 16 replaces existing leases guidance including AASB 17 *Leases*, IFRIC 4 *Determining whether an Arrangement contains a Lease*, SIC-15 *Operating Leases-Incentives* and SIC-27 *Evaluating the Substance of Transactions involving the Legal Form of a Lease*.

The Standard is effective for annual years beginning on or after 1 January 2019. Early adoption is permitted for entities that apply AASB 15 Revenue from Contracts with Customers at or before the date of initial application of AASB 16.

The IOOF Group has prepared calculations of the initial impact of implementing the Standard in its consolidated financial statements. The most significant impact identified is that the IOOF Group will recognise new assets and liabilities for its property operating leases of \$81.7m. The nature of expenses related to those leases will now change as AASB 16 replaces the straight-line operating lease expense with a depreciation charge for right-of-use assets and interest expense on lease liabilities.

The IOOF Group will apply the standard using a modified retrospective approach and plans to adopt AASB 16 in the consolidated financial statements for the year ended 30 June 2020.

Section 7 - Basis of preparation

7-4 Adoption of new and revised Standards (continued)

AASB 17 Insurance Contracts

AASB 17 replaces AASB 4 *Insurance Contracts* and similarly applies to insurance contracts. The classification of insurance contracts is similar to AASB 4 *Insurance Contracts* however unbundling rule changes may mean some contract components now need to be measured under AASB 17.

The new standard contains a lower level of aggregation/smaller portfolios, changes to contract boundaries and valuation approaches, the application of Contractual Service Margins to policies valued under certain methodologies, changes in treatment to reinsurance and an ability to use Other Comprehensive Income for changes in asset values.

The IOOF Group is in the process of assessing the potential impact of its consolidated financial statements and the impact has not yet been determined. The IOOF Group plans to adopt AASB 17 in the consolidated financial statements for the year ended 30 June 2022.

7-5 Subsequent events

The Directors have declared the payment of a final dividend of 12.0 cents per ordinary share franked to 100% based on tax paid at 30%, to be paid on 27 September 2019.

The Directors have declared the payment of a special 2020 dividend of 7.0 cents per ordinary share franked to 100% based on tax paid at 30%, to be paid on 27 September 2019.

The Directors are not aware of any other matter or circumstance not otherwise dealt with in this report, or the accompanying financial statements and notes thereto, that has arisen since 30 June 2019 that has significantly affected, or may significantly affect:

- the IOOF Group's operations in future financial years; or
- the results of those operations in future financial years; or
- the IOOF Group's state of affairs in future financial years.
