Lonsec "Recommended"

Performance as at 31 December 2022 (all figures unaudited)

	1 mth %	3 mths %	1 year %	3 years % p.a.	5 years % p.a.	Since incept. % p.a.
ACQ ¹	-1.9%	3.2%	-24.3%	5.7%	7.3%	8.9%
S&P/ASX Small Ords Acc Index	-3.7%	7.5%	-18.4%	1.4%	2.9%	6.2%

¹ Calculated as the movement in NTA before tax, post management fees, performance fees and operating costs.

Includes dividends paid and payable but has not been grossed-up for franking credits received by shareholders.

All figures are unaudited, and unlisted valuations are performed by Acorn Capital in accordance with ACQ Board approved policies.

Acorn Capital - Investment Update

"The market weakened into year-end with December falling 3.7%, bringing to a close a tough year in Small Caps, with the XSOAI returning -18.4%. Similarly, the Emerging Companies Index also declined 22.5% for the calendar year. This has been the XSO's weakest year since 2011 and 3rd worst since its 2003 inception. The bulk of the market's December decline was driven by Resources (-5.1%), Consumer Discretionary (-5.4%), and Information Technology (-5.0%), but no sector was spared, and all posted negative returns for the month.

Acorn's research confirms that over 49 years, investment returns are dependent on being fully invested throughout the cycle and missing the bottom of the market has a significant reduction in long-term returns. We have taken into consideration the current tight equity raising environment, and believe the underlying portfolio investments will not be forced into capital raisings, although corporate activities are expected, and we are positioned to take advantage of any opportunities arising through the forthcoming half-yearly reporting season."

Sector Exposures

ACQ Objective

The Objective is to create a diversified portfolio of listed microcap companies and then to invest opportunistically in unlisted entities that offer better relative value. The performance objective for ACQ is to outperform the S&P/ASX Small Ordinaries Accumulation Index over the medium to long term.

Dividend Intention

Acorn Capital Investment Fund Limited intends to pay annual dividends targeting at least 5% of closing post-tax NTA for each financial year, franked to the highest extent possible and without the Company incurring a liability.

Where the Company accumulates franking credits that the Board determines are in excess to its requirements it is the intent to distribute those excess credits by way of special dividends. This is subject to the Company having sufficient profit and cash flow to make such payments

Investment Philosophy

The investment philosophy is based on a belief that there are pricing inefficiencies amongst emerging or microcap companies due to a lack of readily available external research conducted on such entities.

Acorn Capital believes that through a research driven investment process the pricing inefficiencies that exist in both listed microcaps and unlisted microcaps can be exploited to earn returns superior to those available in the broader market.

Unlisted microcap opportunities must be of better relative value on a risk-adjusted basis to displace existing listed portfolio investments in the corresponding sector.

Investment Strategy

- Research-driven stock selection
- Economic sector diversified
- Style agnostic
- Long term investor
- Create diversified portfolios to reduce volatility

Investment Manager profile

Acorn Capital was established in 1998 as a specialist investment manager in emerging Australian companies.

Acorn Capital distinguishes itself through its relatively large research and investment team with expertise across all industries as well as its provision of expansion capital to developing companies.

Through its strategies Acorn Capital can provide Investors with efficient off-index exposure to both public and private emerging companies.
