

ISSUE OF PLACEMENT SHARES

Northern Cobalt Limited (N27 or the Company) (ASX:N27) is pleased to announce that it has issued 8,568,674 fully paid ordinary shares as announced on 14 March 2018. The Company has issued the Shares to domestic and international professional and institutional investors under a share placement raising \$2,999,035 (before costs).

Disclosure required under ASX Listing Rules 7.1A.4(b) and 3.10.5A

In relation to the Placement, and in accordance with ASX Listing Rules 7.1A.4(b) and 3.10.5A the Company makes the following disclosures:

- (a) The Company has issued a total of 8,568,674 fully paid ordinary shares at 35 cents per share. Of the securities issued, 3,935,284 fully paid ordinary shares have been issued under Listing Rule 7.1A and the remaining 4,633,390 shares have been issued under the Company's 15% placement capacity under Listing Rule 7.1.

The securities issued under Listing Rule 7.1A result in the following dilution to existing holders of ordinary securities:

- Number of fully paid ordinary shares on issue prior to the placement of securities under LR 7.1A was 39,952,843.
- Number of fully paid ordinary shares on issue following this issue of securities under LR 7.1A will be 43,888,127 (a total of 48,521,517 including the issue under LR 7.1).
- Percentage of voting dilution following the issue under LR 7.1A is 10% (21.5% whereby the issue of shares under LR 7.1 is taken into account).

- (b) The Company has issued shares as a placement to sophisticated, professional and institutional investors. The issue has been made as a placement and not as a pro-rata issue or other type of issue in which existing shareholders would have been able to participate. This approach has been taken as it considered that the issue, being carried out as part of the Placement, is the most cost-efficient and expedient method available at the time for raising, at an appropriate price, the funds required
