

ASX RELEASE | CLEARVUE TECHNOLOGIES LIMITED | (ASX:CPV | OTCQX:CVUEF)

ClearVue Executive Departure

Company continues active program of leadership transformation.

18 July 2025: ClearVue Technologies Limited (ASX: CPV | OTC: CVUEF) (**ClearVue** or the **Company**) announced today that Mr. Charles Mowrey, President and CEO for the Company's North American operations has resigned, effective immediately. Mr. Mowrey joined ClearVue in May 2024.

Victor Rosenberg, ClearVue Non-Executive Chairman and Founder, said:

"The ClearVue Board thanks Mr. Mowrey for his contribution over the last year and wish him the best in his future undertakings and professional pursuits."

The Company wishes to advise shareholders that our Chief Development Officer, Mr Clifton Smyth, is currently in the United States. Mr Smyth will oversee and manage the transition process to ensure continuity and a seamless handover for all current and prospective projects and licensees in the region.

The Company has an active program of board and leadership revitalisation designed to progress financial performance, global partner development and product advancement goals. As announced previously, the CEO and board directors are currently undertaking a comprehensive review of all operational costs and license agreements. An update will be provided to the market upon completion of the review.

Authorised by the Board of ClearVue Technologies Limited.

ABOUT CLEARVUE TECHNOLOGIES LIMITED

ClearVue Technologies Limited (ASX: CPV; OTCX: CVUEF) is an Australian technology company that integrates solar technology into building façade and rooftop surfaces to provide renewable energy generation and offset the operational carbon footprint of buildings. The Company's advanced, patented glass technology preserves glass transparency maintaining building aesthetics while generating energy.

ClearVue has extended solar energy-generation to vision glass, cladding, spandrel, balustrade, and skylight solutions. These solutions can offset operational energy requirements significantly contributing to the net zero building.

ClearVue's integrated solar façade is revolutionizing the way buildings are designed, constructed, and renovated. Experience how building façades will become a major contributing factor to reducing operational carbon by visiting ClearVue at www.clearvuepv.com.
