Submission of the Amended Underground Expansion Plan (UEP) for Russell Vale Colliery

WCL is pleased to advise that the Revised Underground Expansion Plan, Final Revised Preferred Project Report and Response to Second PAC Review (Reports) have been submitted to the Department of Planning, Industry and Environment (DPI&E) on 17 July 2019. We have now been informed by the Department that this has now been posted on their website for Public Exhibition.

WCL and our consultants have completed additional specialist reports and remediation options to improve the requirements and address the issues that were raised in past. WCL has consulted and liaised with the community and other stakeholders and as a result these Reports have been independently peer reviewed. Consequently, it took extra time for WCL to finalize and submit these Reports, however it has ensured that all reasonable and feasible measures have been taken to mitigate all the impacts of the proposed project.

The assessment and determination of this report will be done by DPI&E and the Independent Planning Commission in the coming months.

For further details, please contact the Company Secretary.
