## **ARDMORE MINE OPERATIONS UPDATE**

Centrex Limited (ASX: CXM) ('Centrex' or 'the Company') provides the following update for the Ardmore Mine, 100% owned by its wholly owned subsidiary, Agriflex Pty Ltd.

### **RAIL NETWORK DISRUPTION**

At 2 Feb 5:23PM AEDT, the Company was notified by the Company's logistics partner, Aurizon Holdings Ltd that a portion of the Mt. Isa – Townsville rail network has been damaged following the recent heavy rainfall and flooding associated with ex-Tropical Cyclone Kirrily. Presently, it is estimated that it will take two weeks for the rail network to become operational again.

To address this development, Aurizon Holdings Ltd, is currently investigating available road transport alternatives for some of the Company's phosphate concentrate. Furthermore, the Company is keeping its customers up to date on any potential delays that may arise to scheduled shipments.

All activities at the Ardmore Mine, including mining and processing, and drying continue as normal with only minor interruptions experienced due to rainfall events, typical for this time of year. Presently, all activities at the Ardmore Mine are expected to continue operating as planned.

As a minimum, the Company expects to load product already at the port (Approx 11,500t) during February. This has been contracted to an overseas customer.

The Company will continue to keep the market updated in accordance with its continuous disclosure obligations.
