Operational overview:

Cody Star has completed its initial explorational fishing trips in the Coral Sea with excellent results.

Cody Star began its explorational fishing trips to the Coral Sea in July 2025. Confirmation of large quantities of fish stocks (including sought-after Coral Trout, Bar Cod and Flame-Tail Snapper) in the CSF has been determined and areas mapped.

These exploration trips cover only a very small proportion of the vast CSF which spans 989,836 sq. km. Further exploration needs to be conducted to realise the full potential of the CSF.

Company formally closed its NZ operations.

After continuous losses since 2019 with little possibility of being turned around in the near future, the Company reluctantly closed its New Zealand subsidiary to prevent further losses.
