Village Roadshow invests in Linus

Village Roadshow Ltd (ASX:VRL) and Kirby family interests take private placement of \$1.5 million in Linus Technologies Limited (ASX: LNU)

Linus Technologies Limited (ASX: LNU) (Linus) today announced a \$1 million private placement of ordinary shares to Village Roadshow Ltd, accompanied by a \$500,000 private placement to Kirby family interests.

Robert Kirby, Co-Executive Chairman and Co-CEO of Village Roadshow, commented, "We have followed the Linus story closely and are delighted to back the business with direct investment. We can see many applications for the technology across the video industry.

"Village Roadshow has long been a leading voice in tackling global piracy. We are particularly interested in the anti-piracy solutions that Linus is developing and are actively working together with Linus to introduce its technology to industry leaders in the hope of reducing global piracy."

Chris Richardson, CEO of Linus, said, "We are very pleased to be working with Village Roadshow, a leader in the global fight against video piracy. Village Roadshow sees the value in Linus' virtualization technology and the potential to stem piracy and create new revenue streams for studios and distributors."

Linus expects to use the net proceeds of the private placement to accelerate its commercialization activities around its patented product, the Linus Video Virtualization Engine™.

The \$1.5 million placement will comprise the issue of 30 million ordinary shares at an issue price of \$0.05 per share.

###

About Linus Technologies Limited

Linus Technologies Limited (ASX: LNU) is set to revolutionise the world of video. The Linus Video Virtualization Engine™ has cracked the code of content intelligence and created the next evolution of video streaming.

Linus transforms cumbersome, static video files into agile, dynamic files that can be easily manipulated on the fly, in order to deliver an enhanced, custom experience for both broadcasters and end-users in any way imaginable, and some as yet to be imagined.

Linius has the potential to transform many market sectors, and is initially focused on:

1. Delivering personalised advertising solutions for broadcasters
2. Video security and reduced piracy
3. Enhancing search engine monetisation
4. Security-service applications

Linius' patented Video Virtualization Engine™ cuts costs and boost revenues across the multi-billion dollar video industry.
