

S2 Resources Ltd (“S2” or the “Company”) refers to its announcement “Fosterville Update” dated 24 June 2024 and notes that cut-off grade and internal dilution were inadvertently excluded from the JORC table accompanying the announcement.

The following was to have been reported under “Data Aggregation Methods” within Section 2 of the JORC Table accompanying the abovementioned announcement:

All Exploration Results reported are reported according to standard industry practice. Drill intersections are calculated using criteria of a minimum 1g/t gold over a minimum downhole interval of 0.3 metres, containing no more than 3 metres of internal waste. Intersections are length weighted and density weighted where applicable.

This announcement has been authorised for release by the Company Secretary, Andrea Betti
