

## **Investor Briefing: A Conversation with H.R. McMaster**

---

**Amaero International Limited (ASX:3DA) (“Amaero” or “the Company”)** is pleased to announce Chairman and CEO, Hank Holland, will host a conversation with H.R. McMaster titled “An Atrophied Arsenal – Re-Shoring Defense Production and Supply Chain Capabilities” on Tuesday, October 8 at 11:00 AEDT. The investor briefing will be recorded and posted to Amaero’s website.

Lieutenant General (ret.) H.R. McMaster serves as Special Advisor to Amaero’s Chairman and CEO. In his role, he advises Mr. Holland on strategic and commercial matters, as well as Amaero’s engagement with the U.S. government, Department of Defense, defense prime contractors and the broader defense industrial base ecosystem.

McMaster retired from the military in June 2018 after serving as the 25<sup>th</sup> assistant to the U.S. President for the Department of National Security Affairs. Upon graduating from U.S. Military Academy in 1984, McMaster served as a commissioned officer for 34 years. From 2014-2017, McMaster designed the future army as the director of Army Capabilities Integration Center and the deputy commanding general of the U.S. Army Training and Doctrine Command.

McMaster is the Fouad and Michelle Ajami Senior Fellow at the Hoover Institution, Stanford University, the Bernard and Susan Liautaud Fellow at Freeman Spogli Institute and lecturer at Stanford University’s Graduate School of Business. He is a distinguished visiting fellow at Arizona State University. He holds a PhD in military history from University of North Carolina at Chapel Hill.

This announcement has been authorized for release by the Chairman and CEO.

### **About Amaero**

Amaero International Limited (ASX:3DA) is an ASX-listed company with manufacturing and corporate headquarters located in Tennessee, USA. Amaero is a leading U.S. domestic producer of high-value C103, refractory alloy, and titanium powders for additive and advanced manufacturing of components utilized by the defense, space, and aviation industries. The technical and manufacturing team brings decades of experience and know-how with pioneering work in gas atomization of refractory and titanium alloys. The company has commissioned advanced gas atomization technology with an industry leading yield of AM powder. The company is also a leader in Isostatic Powder Processing (IPP) manufacturing of large near-net-shape powder metallurgy parts with forged-equivalent material properties and microstructure for a variety of alloys. IPP is helping alleviate the strained domestic supply chain for large scale castings and forgings.
