## From Star Wars to Supermarkets – How Semiconductors Power the Universe: Expert Panel Series

### Highlights:

- BluGlass and ShareCafe are hosting a virtual three-part expert panel series exploring the fast-growing semiconductor and high-tech industries driving the economies of tomorrow
- Hear from semiconductor pioneers, leading scientists, Government representatives and CEOs of high-tech ASX companies on emerging trends, applications, and opportunities
- Attendance is free, however registration is required

Global semiconductor developer, **BluGlass Limited (ASX:BLG)**, and Australia's largest provider of online business and finance news, **ShareCafe**, are hosting a series of expert panel sessions to educate the Australian investor community on applications and opportunities within semiconductor and high-tech industries.

The first panel in the series, *From Star Wars to Supermarkets: How Semiconductors Power the Universe*, is on Wednesday 19 October 2022 at 11:00am AEDT and will cover Australia's semiconductor and high-tech sector in the context of the global industry and opportunities for Australia.

The panel will feature a short keynote presentation by Nobel Laureate and inventor of gallium nitride (GaN) semiconductors, Professor Shuji Nakamura. Highly credentialed panellists include industry pioneer Professor Steven DenBaars, NUBURU founder Jean-Michel Pelaprat, and Advanced Manufacturing Growth Centre Chair Paul Cooper.

The virtual sessions are free to attend. Moderated by Deloitte partner Andrea Culligan, attendees will have an opportunity to ask questions.

This event is CPD Accredited for Advisers and Brokers.

### Panel 1: From Star Wars to Supermarkets – Semiconductors power the universe

**Date:** Wednesday, 19 October 2022

**Time:** 11:00am – 12:00pm AEDT

**Register to attend here:** [https://us02web.zoom.us/webinar/register/WN\\_ZERGkGciQ2udyYLtGQqLGw](https://us02web.zoom.us/webinar/register/WN_ZERGkGciQ2udyYLtGQqLGw)

*This announcement has been approved for release by the Board of BluGlass Limited.*

### About BluGlass

Developing leading-edge semiconductor manufacturing technology and devices for more than a decade, **BluGlass Limited (ASX:BLG)** is a provider to the global GaN photonics industries, delivering cutting-edge, custom **laser diode** development across the industrial, defence, bio-medical, and scientific markets.

Listed on the ASX, we are an Australian public company established to power the smarter, cleaner, more efficient photonics of tomorrow with our proprietary low temperature, low hydrogen, **remote plasma chemical vapour deposition** (RPCVD) manufacturing technology.

Backed by an extensive network of supply-chain partners, BluGlass is developing a suite of laser diode products, from small batch custom lasers through to medium and high-volume off-the-shelf products.

#### **About ShareCafe**

Born in 1998, ShareCafe is one of the oldest financial services sites in Australia and has been providing investors with the latest news, independent insights and tools required to make better informed investment decisions for over two decades. With news, information and regular contributions from Australia's most respected market commentators, fund managers, economists and analysts, ShareCafe educates, enlightens and informs.
