Scalare Partners (ASX: SCP) (Scalare or the Company), a leading technology accelerator, announces with effect from today the completion of the 100% acquisition of Inhouse Ventures Pty Ltd (Inhouse or IHV), a leading platform for scalable technology startups. The acquisition was originally announced on 12 March 2025.

Completion of the acquisition follows the satisfaction of all conditions precedent and other completion requirements. This includes the issue of 5,643,683 ordinary shares in Scalare Partners to IHV vendors at an issue price of \$0.189, being the 5-day VWAP following the execution of the agreement with IHV. The shares issued today will be escrowed until 14 November 2026. The shares were issued using the Company's available Placement Capacity under ASX Listing Rule 7.1.

Founded by Elliot Spiegel in June 2022, Inhouse Ventures has rapidly established itself as one of Australia's premier platforms for technology founders. IHV's mission is to accelerate founders at critical stages of their growth journey, providing tailored solutions to support fundraising, scaling, and business development.

The acquisition unlocks new revenue opportunities for Scalare by broadening its service offering and increasing its reach within the early-stage technology sector. This move aligns with Scalare's long-term vision of becoming a leading accelerator and ecosystem partner for technology founders.

IHV marks Scalare's third acquisition, following the Australian Technologies Competition (ATC) in April 2023 and Tech Ready Women (TRW) in April 2024.

As part of its growth strategy, Scalare will continue exploring acquisition opportunities to enhance its ecosystem of products and services for early-stage technology businesses.

This announcement has been approved for release by the Board of Scalare Partners
