

25 June 2018

Update of Mining Ban in Ghana

I am pleased to announce that on the 19th June 2018, President Nana Addo Dankwa Akufo-Addo, publicly made an announcement at the International Conference Centre in Accra to assured that the Government will shortly put out a statement setting out a comprehensive roadmap, including the lifting of the ban on small-scale mining, to deal with, on a permanent basis, the grave threat of galamsey to the present and future health of Ghana.

SMG will continue to pay attention to the progress of Ghanaian Government and will be well prepared. SMG is able to commence the Joint Venture project immediately once the mining ban is lifted.

For more details on the announcement, please see website link below.
