## **INTELICARE DEPLOYMENT FOR HARDI'S THIRD AND FOURTH SITES COMMENCES WITH HARDWARE PAYMENTS RECEIVED**

### **HIGHLIGHTS**

- **InteliCare has commenced deployment planning at Hardi Aged Care's third and fourth facilities (Summer Hills and Guildford)**
- **Initial hardware revenues of \$239,000 have been received, representing 70% of the hardware revenue for these deployments**
- **Deployment at Manly Vale and Blacktown sites continue with monthly subscriptions commencing at Manly Vale**
- **InteliCare has so far received Hardware and Implementation fees of \$702,000 out of a total of \$1.7M. Once full implementation of all 6 sites has been achieved ~\$400,000 pa in additional SaaS fees will be generated over the next 3 years**
- **Integration into Hardi operational systems has commenced**

InteliCare Holdings Ltd ("ICR" or the "Company") (ASX: ICR), an Australian Software-as-a-Service (SaaS) technology company commercialising its proprietary AI driven InteliCare platform (InteliCare) in the aged care, disability and health sectors is pleased to update that ICR's deployment within Hardi Aged Care ("Hardi") has now moved to the third and fourth Hardi sites at Summer Hill and Guildford.

ICR has received payments totalling \$239,000 representing 70% of the Hardware fees for the Summer Hill and Guildford sites, with associated implementation fees to be invoiced in the coming month.

This exciting development is based on the validation of the ICR deployments at Manly Vale and the forty-two (42) beds at the Blacktown facility, with the client handover at these sites continuing over coming months. Monthly SaaS fees have commenced at Manly Vale.

**Daniel Pilbrow, Chief Executive Officer**, says: "I am delighted that we are now able to support the Hardi team in the exciting progression towards deployment at the third and fourth sites at Summer Hill and Guildford. With the client handover at both of Hardi's Manly Vale and Blacktown facilities continuing, I am also encouraged by the benefits that key staff at these sites are experiencing and the great relationships that have been established between the Hardi and InteliCare teams. Furthermore, the planning for the integration with existing Hardi operational systems well underway, with work progressing on both care management system (Manad) integration and scoping for the nurse call integrations. We look forward to the valuable benefits these integrations will bring, enabling connected information to inform care decision making and supporting the best outcomes for Hardi's residents."

To support Hardi's operations, ICR has developed a sophisticated, customisable event detection engine that can leverage RTLS location data to detect various types of resident behaviours and staff/resident interactions, leading to improved care and compliance optimisation. Hardi will also be able to take advantage of the newly deployed Alert Dashboard App that is designed to deliver real time data to any tablet and large format smart displays, ensuring facility staff can rapidly identify and respond to emerging resident events and alerts.

Hardi and ICR continue to finalise deployment and purchase plans for the two remaining Hardi facilities and the remaining seventy-three (73) beds at the Blacktown facility.

So far ICR has received revenues of ~\$702,000 towards the total hardware and implementation fees of \$1.7 million for the project, with approximately \$400,000 generated in SaaS fees once the platform is fully deployed across all six sites.
