OneVue & Oracle to develop outsourced Asia Pacific fund services solution

OneVue Holdings Limited is working with Oracle to deliver an end-to-end fund services offering to global investment managers and custodians.

The companies this week signed a memorandum of understanding. The relationship is designed to support the goal of taking OneVue global with Oracle's FLEXCUBE product leadership and investments.

"Working with Oracle can significantly enhance OneVue's capabilities as a fund services provider at a time where cross-border opportunities are growing. Our offering can provide a flexible, functionally rich product to help clients focus on their core objectives of product innovation and customer centricity," OneVue Group CEO Connie Mckeage said.

Oracle Vice President and Head of Sales for Japan and Asia Pacific, Venky Srinivasan added: "Investment managers, fund administrators and custodians want to reduce their costs, simplify their operations and manage risk and compliance effectively. OneVue's industry expertise and servicing capabilities combined with Oracle FLEXCUBE's product capability and global acceptance, can help our mutual customers across the region drive growth across borders."
