

ASX Announcement
10 September 2024

Board Changes

Range International Limited (ASX:RAN, **Company** or **Range**), manufacturer of Re>Pal™ 'zero-waste' recycled plastic pallets is pleased to advise that Neil MacDonald has been appointed as a Non-Executive Director of Range effective 9 September 2024. Separately, Mr Stephen (Steve) Bowhill has resigned as a Non-Executive Director of Range effective 9 September 2024.

Steve first joined the Board of Directors in February 2018 and during his six and a half years of service he held various roles including, CEO for almost 3 years from 10/09/2018 to 12/05/2021. When Steve first joined, he set about introducing sales and marketing plans to introduce the Company's upcycled plastic pallets to manufacturing and logistics companies through Indonesia and some of its near neighbours. Many of the relationships that Steve first cemented several years ago are still productive today. Even when trading conditions became difficult and Range did not give cash remuneration to its Directors, Steve continued to assist with client growth and development. Steve leaves the Company having to concentrate on his other corporate role which increasingly consumes all his time. The Company wishes to thank Steve for his dedicated efforts over many years.

The Board of Directors welcomes Neil Macdonald as a Non-Executive Director. Neil has been a keen observer of the Company's progress for several years. His family's manufacturing background has given him a deep understanding of our waste recycling and pallet manufacturing processes. Neil has a successful career in financial markets, having worked at ABN AMRO and Digital Asset Funds Management. His experience includes managing market and credit risk and advising on and distributing financial products. More recently, he has been acting as a responsible manager of an AFSL business and managing a family office. Neil's broad range of skills and knowledge of management systems will make him a valuable contributor to our decision-making processes.

This announcement has been approved for release by the Board of the Company.

**About Range International:**

Range is a manufacturer of plastic pallets. Our ThermoFusion™ technology allows Range to make 'zero waste', 100% upcycled plastic pallets. Range currently has production lines operating in its East Java factory in Indonesia and sells its pallets under the brand Re>Pal™, supplying pallets into Indonesia and across Asia Pacific.
