MUFG telephone numbers and postal address remain unchanged.

**Approved for release by the Company Secretary of ImpediMed Limited.**

For more information, contact Dr Parmjot Bains or McGregor Grant on +61 7 3860 3700.

### **About ImpediMed**

Founded in Brisbane, Australia with US and European operations, ImpediMed is a medical technology company that uses bioimpedance spectroscopy (BIS) technology to generate powerful data to maximise patient health. ImpediMed produces the SOZO<sup>®</sup> Digital Health Platform, which is FDA-cleared, CE-marked, and ARTG-listed for multiple indications, including lymphoedema, heart failure, and protein calorie malnutrition and sold in select markets globally.

In March 2024, the NCCN Clinical Practice Guidelines in Oncology (NCCN Guidelines<sup>®</sup>) for Survivorship continue to reference bioimpedance spectroscopy as the recommended objective tool to screen at-risk cancer patients for early signs of lymphoedema. With the SOZO Digital Health Platform and L-Dex<sup>®</sup>, ImpediMed is the only company to offer FDA-cleared technology that uses bioimpedance spectroscopy for the clinical assessment of lymphoedema. The connected digital health platform and large, attractive cancer-related lymphoedema market present an opportunity for continued strong growth through ImpediMed's SaaS subscription-based business.
