Directors' Report

Your directors present their report on the consolidated entity (referred to hereafter as the Group) consisting of Compumedics Limited and the entities it controlled at the end of, or during, the year ended 30 June 2021.

The following persons were directors of Compumedics Limited during the whole of the financial year and up to the date of this report unless otherwise stated:

Dr. David Burton
Mr. David Lawson
Mr. Tucson Dunn

Principal activities

During the year the principal continuing activities of the Group were the research, development, manufacture and distribution of medical equipment. There have been no significant changes in the operation of the Group during the year.

Dividends

The directors have not declared a dividend in the current financial year (2020: nil).

Review of operations

Information on the operations and financial position of the Group and its business strategies and prospects and a summary of consolidated revenue and results by operating segments are set out below:

	Total Revenue		Segment Results	
	2021	2020	2021	2020
	\$000	\$000	\$000	\$000
USA	10,400	12,581	118	726
Australia and Asia Pacific	14,085	14,972	56	1,836
Europe	11,255	7,516	2,389	(320)
Total continuing operations	35,740	35,069	2,563	2,242
Depreciation and amortisation			(1,457)	(1,664)
Impairment of intangible assets			-	(7,661)
Finance costs			(330)	(420)
Profit/(loss) before income tax expense			776	(7,503)
Income tax benefit			222	1,665
Profit/(loss) for the year			998	(5,838)

Comments on the operations and the results of those operations are set out below:

During the 2021 financial year the Company has continued to traverse the challenges posed by the COVID-19 pandemic, which continued to impact the Company's key markets through the middle of the 2021 financial year, when much of the northern hemisphere was dealing with the pandemic, pre vaccination rollouts. With that said, the Company has continued to plan for the second installation phase of its first MEG sale at the Barrow Neurological Institute (BNI) in the USA. At the same time, the Group had also progressed development of and commercialisation activities relating to the Somfit, consumer based, sleep monitoring device and technology. In addition, the Company has concurrently with these two step-out growth opportunities, continued to grow its core sleep, neuro diagnostic and trans cranial Doppler business, where the Company has been able to do so.

FINANCE

During the 2021 financial year the Company has renewed its existing working capital facilities. The Company's existing \$1.0m overdraft facility (which was temporarily increased to \$2.5m at the start of the COVID-19 pandemic) was modified to a \$2.0m limit on an ongoing basis. The Company, which had converted its existing USD1m facility in relation to the MEG business into an AUD1.6m bank bill last financial year, subsequently changed this facility to a principal and interest loan repayable over 4 years commencing June 2021. The DWL

business drew down on a favourable German government loan in April 2021, which was provided as part of the response to the COVID-19 pandemic. This loan is repayable over 4 years. There were no other financing activities during the 2021 financial year.

OPERATIONS

Compumedics research and development (R&D) investment was slightly higher than the prior year at approximately 12% of sales for the 2021 financial year, which remains about twice the industry standard. Consequently, the Group has retained its technological leadership, with a strong pipeline of new and exciting upcoming product releases and upgrades.

In order to ensure the Group operates as efficiently as possible a number of existing projects have concluded and new projects commenced during the financial year. These include reviewing production location for its new range of products being released over the next 12 months.

While these structural transformations have demanded on-going investment in the short term, in terms of personnel, engineering and components, they have and will continue to result in substantial savings and elevated shareholder returns in the medium term through on-going improved margins.

STRENGTHENED SALES AND MARKETING

The Group achieved the following geographical outcomes.

(a) Americas

Total US revenues were \$10.4m for the year ended 30 June 2021 compared to \$12.6m for the prior year. The reduced sales revenue in the US reflects primarily the impacts of a reduction in the brain research business (Neuroscan) in the US as universities there continued to grapple with the COVID-19 pandemic in the second half of the 2020 financial year. Despite the pandemic the Company continues to strengthen the structure of the general and sales and marketing management and team members to drive growth as the pandemic subsides.

(b) Asia Pacific

Australian and Asia Pacific revenues for the year ended 30 June 2021 were \$14.1m compared to \$15.0m for the prior year. The Chinese market remained particularly challenging especially for sleep and neurology, whereas Australia was not significantly down on the prior year. It is expected that the Company's China-based sales will not grow as strongly as they have in the past but will return to pre-pandemic levels over the course of the 2022 financial year.

(c) Europe

European revenues for the year ended 30 June 2020 were \$11.3m compared to the prior year of \$7.5m reflecting a strong rebound in sales despite the major European markets being in lockdown over their winter, in response to the COVID-19 pandemic.

The Group, with a focus on working around the COVID-19 pandemic continues to look for ways to make gains in Neuro diagnostic markets around the world, particularly where we sell directly, such as, the US, Australia, Germany and France.

In the Group's core sleep diagnostic business, Compumedics has the most sophisticated and advanced range of sleep-monitoring systems of any of the companies competing in these markets. The Group continues to be recognised as a leading sleep diagnostic Company worldwide and as such global sleep diagnostic markets continue to offer opportunities for growth as the Company and customers respond to new ways of operating through the COVID-19 pandemic.

The Group is continuing to develop its eHealth, Cloud or WEB enabled, sleep diagnostic solution for key markets around the world. The Company now has more than 56 customers in the US and Australia for its Nexus 360 professional sleep diagnostic cloud-based service with invoiced revenues of about \$1.1m in FY2021 (similar to FY2020 due to COVID-19 lockdowns). The Company has performed more than 125,000 studies via its Nexus 360 platform.

The Group is also continuing the pre-work for the installation of the second phase of its first MEG system to the Barrow Neurological Institute in Phoenix, Arizona, USA.

BREAKOUT MEDICAL INNOVATIONS

Compumedics Medical Innovation (CMI) division has continued to develop a number of breakout technology platforms. Each of these CMI platforms incorporates a folio of patents, compliments Compumedics' core business, presents unique and significant product differentiation, and has been independently validated, as outlined in the subsequent sections.

SUMMARY

The Group is clearly focused on the following key goals being:

- 1 The geographical expansion of the core sleep diagnostic and neuro diagnostic monitoring businesses into global territories, where the Group has little or no market share.
- 2 Completing the second and final phase of the first MEG sale to Barrow Neurological Institute in Phoenix, AZ, USA, whilst concurrently pursuing the next MEG opportunities.
- 3 Substantially grow the Nexus 360 cloud-based sleep diagnostic business from the current 56 customers in the US and Australia.
- 4 Continue the productivity enhancement programs to eliminate and reconfigure expensive and inefficient processes with all parts of the business.
- 5 Commercialisation of the Group's consumer sleep technology, Somfit.

This is a great Company and we remain confident the operational initiatives currently being undertaken will continue to improve profitability in the short-term, allowing our very positive prospects for the medium and long-term to be realised. The demand for innovative healthcare solutions continues to be underpinned by an ever-increasing ageing population, coupled with the growing incidence and awareness of neurology and sleep disorders.

Likely Developments and Expected Results

The focus for the Group will be on guiding the business through the ongoing impacts of the COVID-19 pandemic and restoring the profitable growth achieved in prior years to further capitalise on the larger and growing customer base of the Group. The Group will also continue development of its MEG business and commercialisation of its Somfit product with interested international partners.

Given the ongoing and uncertain impacts of the COVID-19 pandemic on our key markets around the world it remains difficult to forecast the Company's expected results for any given future period. As such, the Company remains unable to provide guidance at this time.

Significant Changes in State of Affairs

There have been no significant changes in the state of affairs of the Group during the financial year.

Matters Subsequent to the End of the Financial Year

In the financial year ended 30 June 2020 the Company's wholly owned USA subsidiary, Compumedics USA, Inc., became eligible for and received a loan under the USA Government's CARES ACT PPP Loan arrangement.

The loan amount was for USD637k (AUD848k in current borrowings on 30 June 2021) and was to be forgiven on the basis Compumedics USA, Inc met specific requirements of the loan arrangement.

Those requirements were met, and the loan was forgiven in July 2021. As such Compumedics USA, Inc. will remove the loan from its balance sheet in the six months to 31 December 2021 and declare the amount as other income in the same period. Compumedics USA, Inc and as a result Compumedics Limited have already recorded the funds in reported cash balances on 30 June 2020 and 30 June 2021.

Apart from the matter above, the Directors are not aware of any matters subsequent to the end of the financial year that would have a material impact on the financial performance of the Group.

Environmental Regulation

The Group is not subject to significant environmental regulation in respect of its activities.

Information on directors

Dr. David Burton, Chairman and Chief Executive Officer, Age 62

Experience and expertise

Founder and major shareholder through related entity. He was awarded an Associate Diploma in Engineering (Electronics) by the Royal Melbourne Institute of Technology and a Ph.D. (Eng. Sc.) by Monash University, Melbourne (Australia). Dr. Burton's engineering background includes the design and project management of the Compumedics' first sleep laboratory and portable sleep systems. Dr. Burton has authored fifteen patents or patent applications that form part of Compumedics' key intellectual property. Extensive experience in the development, design, manufacture and sale of medical devices and the development of the business.

B – Number of meetings held during the time the director held office or was a member of the committee during the year

Remuneration report (audited)

The remuneration report is set out under the following main headings:

- A Principles used to determine the nature and amount of remuneration
- B Details of remuneration
- C Service agreements
- D Share-based compensation
- E Additional information

The information provided in this remuneration report has been audited as required by section 308(3C) of the Corporations Act 2001.

A Principles used to determine the nature and amount of remuneration

The objective of the Group's executive reward framework is to ensure reward for performance is competitive and appropriate for the results delivered. The framework aligns executive reward with achievement of strategic objectives and the creation of value for shareholders and conforms to market practice for delivery of reward. The Board ensures that executive reward satisfies the following key criteria for good reward governance practices:

- competitiveness and reasonableness
- acceptability to shareholders
- performance linkage / alignment of executive compensation
- transparency
- capital management

The Group has structured an executive remuneration framework that is market competitive and complimentary to the reward strategy of the organisation. The Board is satisfied remuneration recommendations are made free from undue influence by the members of the key management personnel.

Alignment to shareholders' interests:

- has economic profit as a core component of plan design
- focuses on sustained growth in shareholder wealth, consisting of dividends and growth in share price
- delivering constant return on assets as well as focusing the executive on key non-financial drivers of value
- attracts and retains high calibre executives

Alignment to program participants' interests:

- rewards capability and experience
- reflects competitive reward for contribution to growth in shareholder wealth
- provides a clear structure for earning rewards
- provides recognition for contribution

The framework provides a mix of fixed and variable pay, and a blend of short and long-term incentives. As executives gain seniority with the group, the balance of this mix shifts to a higher proportion of "at risk" rewards.

The Board has established a remuneration committee, which provides advice on remuneration and incentive policies and practices and specific recommendations on remuneration packages and other terms of employment for executive directors, other senior executives and non-executive directors. The Corporate Governance Statement provides further information on the role of this committee.

Non-executive directors

Fees and payments to non-executive directors reflect the demands, which are made on, and the responsibilities of, the directors. Non-executive directors' fees and payments are reviewed annually by the Board. The Chairman's fees are determined independently to the fees of non-executive directors based on comparative roles in the external market. The Chairman is not present at any discussions relating to determination of his own remuneration.

Non-executive directors do not receive share options.

Directors' fees

The current base remuneration was last reviewed with effect from 1 July 2007. The Chairman's remuneration is inclusive of committee fees while other non-executive directors who chair a committee receive additional yearly fees.

Non-executive directors' fees are determined within an aggregate directors' fee pool limit, which is periodically recommended for approval by shareholders. The maximum currently stands at \$250,000 total pool per annum.

The following fees have been applied:

	From 1 July 2020 to 30 June 2021 \$	From 1 July 2019 to 30 June 2020 \$
Base fees		
Chairman	50,000	50,000
Other non-executive directors	30,000	30,000
Additional Fees		
Audit committee – chairman	5,000	5,000
Audit committee – member	2,500	2,500
Remuneration committee – chairman	5,000	5,000
Remuneration committee – member	2,500	2,500

Executive pay

The executive pay and reward framework has 5 components:

- Base pay and benefits
- Short-term performance incentives
- Long-term incentives through participation in the Compumedics Limited Employee Option Plan
- Other remuneration such as superannuation, and
- Long-term equity linked incentive program specifically for the head of the Medical Innovations Division.

The combination of these comprises the executive's total remuneration.

Base pay

Structured as a total employment cost package, which may be delivered as a combination of cash and prescribed non-financial benefits at the executives' discretion.

Executives are offered a competitive base pay that comprises the fixed component of pay and rewards. Base pay for executives is reviewed annually to ensure the executive's pay is competitive with the market. An executive's pay is also reviewed on promotion.

Benefits

Executives may receive benefits including health insurance, car allowances, other expense reimbursements and tax advisory services.

Superannuation

Retirement benefits are currently limited to the statutory rate of superannuation but are not capped based on salary. Executives may elect to make further salary sacrifice additions to superannuation funds of their choice, up to the allowable limits prescribed.

Short-term incentives

Should the Group achieve a pre-determined profit target set by the remuneration committee a pool of short-term incentive (STI) is available to executives during the annual review. Using a profit target ensures variable award is only available when value has been created for shareholders and when profit is consistent with the business plan. The incentive pool is leveraged for performance above the threshold to provide an incentive for executive out-performance.

Each executive has a target STI opportunity depending on the accountabilities of the role and impact on the organisation or business unit performance. The maximum target bonus opportunity can be up to 60% of base pay, as determined by the remuneration committee each year.

Each year, the remuneration committee considers the appropriate targets and key performance indicators (KPIs) to link the STI plan and the level of payout if targets are met. This includes setting any maximum payout under the STI plan, and minimum levels of performance to trigger payment of STI.

For the year ended 30 June 2021, the KPIs linked to short-term incentive plans were based on Group, individual business and personal objectives. KPIs are set according to the individual responsibilities of each member of the executive team.

Each year the remuneration committee considers the appropriate targets and key performance indicators (KPI's) to link the Short-Term Incentive (STI) plan and the level of payout if targets are met. This includes setting any maximum payout under the STI plan and minimum levels of performance to trigger payment of STI.

The short-term bonus payments may be adjusted up or down in line with under or over achievement against the target performance levels. This is at the discretion of the remuneration committee.

The STI target payment is assessed by the Chief Executive Officer (CEO) and the Chief Financial Officer (CFO) following the end of each financial year and any payments due are recommended to the remuneration committee for authorisation. The CEO and CFO recommend STI targets for the following year for key executives, which are put to the remuneration committee for review and authorisation annually.

Long-term incentives

The Group has instigated a long-term incentive program for one executive. At 30 June 2021 no other long-term incentive plans were in place for any other Director or key management personnel. Any instigation of a long-term incentive program for any other executive of the Group will be determined by and authorised by the remuneration committee and the remuneration committee will assess subsequent performance.

Medical Innovation Long Term Performance Plan (MI-LTPP)

The Group has formalised and gained approval at the 2009 and 2014 annual general meetings for the MI-LTPP for the head of the Medical Innovations Division ("Division Head"), who is currently the Executive Chairman. The rationale of the MI-LTPP is to reward the Division Head where future commercial projects are met on the following criteria:

1. The future commercial project is based on innovative, novel and patentable technology;
2. The patented technology is supplementary to, but consistent with, the ongoing businesses of Compumedics Limited; and
3. There is significant risk attached to the development of the intellectual property or technology and the commercialisation thereof.

On the basis that these 3 criteria exist, and, determined by the Remuneration Committee, a commercial project will be eligible for inclusion under the MI-LTPP. At 30 June 2021 the Remuneration Committee has approved several projects that are eligible under the MI-LTPP subject to the parameters discussed below.

The parameters of the MI-LTPP include that the Division Head will be entitled to an incremental 8% equity in any subsidiary entities of the Group that develop projects that meet all of criteria 1 to 3. The 8% equity will only deliver value to the Divisional Head where value is created for the whole Group, in which case the Group receives 92% of the incremental value created.

The entitlement will be calculated after repayment of any initial costs of establishment or development costs outlaid by Compumedics. The Directors have sought and gained expert advice that the entitlements under the plan form part of remuneration for the purposes of accounting standards and are fair and reasonable, having regard to relevant circumstances.

The Board recommended to shareholders and the shareholders approved, at the 2014 AGM, the 8% equity be issued to the Division Head. As a result, 8% of the issued capital of Compumedics Medical Innovation Pty Ltd was issued to David Burton, late October 2014.

Compumedics Employee Option Plan

Information on the Compumedics Option Plan is set out in section D and note 29 to the Financial Statements. There are no share-based payments for the year ended 30th June 2021.

Details of remuneration*Amounts of remuneration*

Details of the remuneration of the directors and the key management personnel (as defined in AASB 124 Related Party Disclosures) of Compumedics Group are set out in the following tables.

The key management personnel of the Group are the directors of Compumedics Limited (see pages 5 to 6 above) and those executives that report directly to the Chief Executive Officer being:

- Warwick Freeman, Chief Technology Officer
- Christoph Witte, Managing Director – Compumedics Germany GmbH

Warwick Freeman	100	100	-	-	-	-
Other key management personnel of the Group						
Christoph Witte	100	100	-	-	-	-

The table below identifies for each cash bonus and grant of options included in the tables on page 10, the percentage of the available bonus or grant that was paid, or that vested, in the financial year, and the percentage that was forfeited because the person did not meet the service and performance criteria set. No other cash bonus targets were set for any other executive of the Group for the year ended 30 June 2021. As such no other executive was eligible for a cash bonus and as a consequence did not forfeit a cash bonus.

Name	Cash bonus	
	Paid %	Forfeited %
David Burton	N/A	N/A
David Lawson	N/A	N/A
Christoph Witte	N/A	N/A

C Service agreements

On appointment to the Board, all non-executive directors enter into a service agreement with the Company in the form of a letter of appointment. The letter summarises the Board policies and terms, including compensation, relevant to the office of the director.

Remuneration and other terms of employment for the Chief Financial Officer and the other key management personnel are also formalised in service agreements. Each of these agreements provide for the provision of performance-related cash bonuses, other benefits including health insurance, car allowances and tax advisory services, and other benefits set out below.

All contracts with executives may be terminated early by either party, subject to termination payments, as detailed below.

Remuneration payments for the year ended 30 June 2020, were temporarily reduced by 20% from 1st April 2020 in response to the COVID-19 pandemic. This temporary reduction was halved to a 10% reduction from 1st July 2020 through 30th September 2020. From 1st October 2020 remuneration payments were fully restored.

David Burton, Chief Executive Officer/Chairman

- Fee for services provided for the year ended 30 June 2021 of AUD194,966, to be reviewed annually by the remuneration committee. Director's fees of \$48,750 were also paid (2020: \$47,500). David Burton is also entitled to participate in the Medical Innovation Long Term Performance Plan as approved at the 2009 and 2014 Annual General Meetings.
- D & DJ Burton Holdings Pty Ltd a Company associated with D. Burton receives licence fees, described in Note 30.
- Performance bonus: No performance bonus was paid during the financial year. (2020: NIL).
- Review of last salary and fees -1 July 2020
- David Burton has a formal Employment Contract, which covers the above terms, amongst other items, including a twelve-month notice period.

David Lawson, Executive Director, Chief Financial Officer/Company Secretary

- Base salary inclusive of superannuation, for the year ended 30 June 2021 of AUD240,643 to be reviewed annually by the remuneration committee. Director's fees of \$34,125 were also paid (2020: \$33,250)
- Performance bonus: No performance bonus was granted or paid during the financial year. (2020: NIL)
- Review of last salary -1 July 2020
- The service agreement takes the form of a letter of offer, which incorporates Compumedics standard conditions of employment, which includes a twelve-month termination notice period, amongst other statutory conditions.

Warwick Freeman, Chief Technology Officer

- Base salary inclusive of superannuation, for the year ended 30 June 2021 of AUD256,784 to be reviewed annually by the remuneration committee
- Review of last salary – 30 June 2020
- The service agreement takes the form of a letter of offer, which incorporates Compumedics standard conditions of employment, which includes a twelve-month termination notice period, amongst other basic statutory conditions.

Christoph Witte, Managing Director, DWL

- Base salary inclusive of superannuation, for the year ended 30 June 2021 of EUR223,680 to be reviewed annually by the remuneration committee.
- Car Allowance of EUR7,208
- Performance bonus – no performance bonus was granted or paid during the year ended 30 June 2021. (2020: NIL)
- Review of last salary -1 July 2020
- Christoph Witte's service agreement contains a notice period of six months, amongst other conditions.

D Share-based compensation

The establishment of the Compumedics Limited Employee Option Plan was approved by shareholders immediately prior to the listing of the Company in December 2000. All staff are eligible to participate in the plan. Options are typically granted under the plan for no consideration except when options are issued in lieu of a cash bonus as noted below. Options are granted for a five-year period and each new tranche vests is exercisable on the following basis:

- (i) 20% of each new tranche vests and is exercisable at the 1st anniversary date of the grant
- (ii) 30% of each new tranche vests and is exercisable at the 2nd anniversary date of the grant
- (iii) 50% of each new tranche vests and is exercisable at the 3rd anniversary date into one ordinary share of the Company.

The exercise price of the options is based on the closing price at which the Company's shares are traded on the Australian Securities Exchange on the day prior to the grant.

Where options have been taken in lieu of a cash bonus the vesting period does not apply and the exercise price is 1 cent per share. The number of options issued is calculated by dividing the cash bonus available by the average share price for the 5 trading days prior to the granting of the options taken in lieu of the cash bonus.

The Group did not have any share-based payments in the full year ended 30 June 2021. Unissued ordinary shares in Compumedics Limited under option at the date of this report held by directors are Nil.

E Additional information

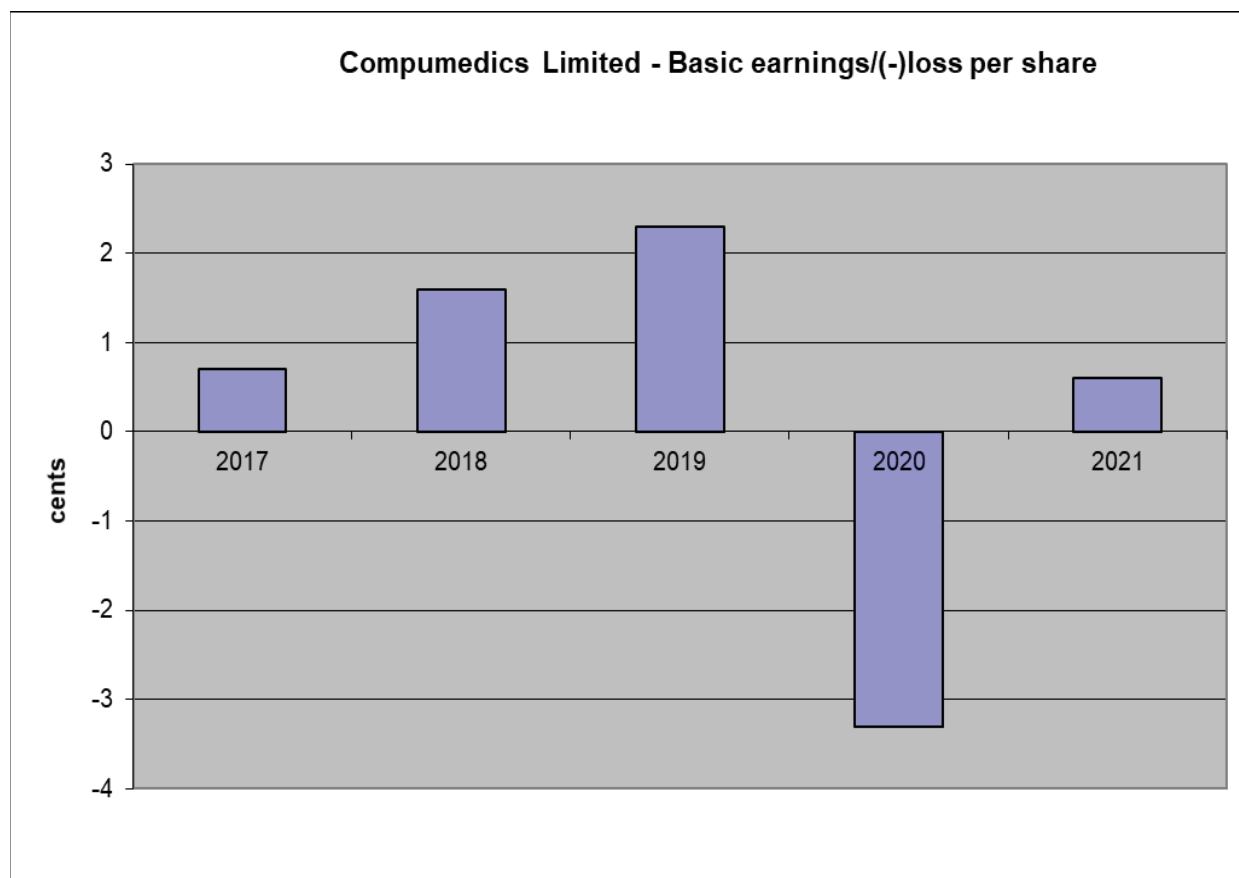

Loans to directors and executives

There are no current loans to directors and executives.

Shares under option

There were no unissued ordinary shares of Compumedics Limited under option at the date of this report. No options expired during the financial year ended 30 June 2021 (2020: NIL).

There were no new options issued during the year.

Group performance

The earnings/(loss) per share performance of the Compumedics Group reflects the improving trading environment for the Group following the initial impacts of the COVID-19 pandemic on the business in FY2020. The Group did take a \$7.6m once-off non-cash charge to earnings per share in the 2020 financial year to reduce the carrying value of the Group's intangible assets. Without this charge the Groups earnings per share were earnings of one cent per share. The directors remain focused on profitably guiding the Group through the continuing COVID-19 pandemic and restoring growth to earnings per share growth as quickly as circumstances allow.

Insurance of officers

During the financial year, Compumedics Limited paid premiums of \$40,940 to insure the Directors and Secretary of the Company and its Australian-based controlled entities, and the Executives and other senior managers of each of the divisions of the Group.

The liabilities insured are legal costs that may be incurred in defending civil or criminal proceedings that may be brought against the officers in their capacity as officers of entities in the Group, and any other payments arising from liabilities incurred by the officers in connection with such proceedings. This does not include such liabilities that arise from conduct involving a wilful breach of duty by the officers or the improper use by the officers of their position or of information to gain advantage for them or someone else or to cause detriment to the Group. It is not possible to apportion the premium between amounts relating to the insurance against legal costs and those relating to other liabilities.

Proceedings on behalf of the Company

No person has applied to the Court under section 237 of the *Corporations Act 2001* for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party, for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

No proceedings have been brought or intervened in on behalf of the Company with leave of the Court under section 237 of the *Corporations Act 2001*.

Non-audit services

The Group may decide to employ the auditor on assignments additional to their statutory audit duties where the auditor's expertise and experience with the Group are important.

Details of the amounts paid or payable to the auditor Nexia Melbourne Audit Pty Ltd, for non-audit services provided during the year are set out below.

The Board of directors has considered the position and, in accordance with advice received from the audit committee, is satisfied that the provision of the non-audit services is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*. The directors are satisfied that the provision of non-audit services by the auditor, as set out below, did not compromise the auditor independence requirements of the *Corporations Act 2001* for the following reasons:

- All non-audit services have been reviewed by the audit committee to ensure they do not impact the impartiality and objectivity of the auditor
- None of the services undermine the general principles relating to auditor independence as set out in APES 110 *Code of Ethics for Professional Accountants*.

During the year the following fees were paid or payable for services provided by the auditor of the parent entity, its related practices and non-related audit firms:

	Consolidated	
	2021	2020
	\$	\$
Non-audit services		
<i>Taxation services</i>		
Tax compliance services	49,000	42,000
Fringe Benefits Tax services	3,000	3,000
Total remuneration for taxation services	52,000	45,000

Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 15.

Rounding of amounts

Compumedics Limited is a type of Company referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191 and therefore the amounts contained in this report and in the financial report have been rounded to the nearest \$1,000, or in certain cases, to the nearest dollar.

Auditor

Nexia Melbourne Audit Pty Ltd continues in office in accordance with section 327 of the *Corporations Act 2001*.

This report is made in accordance with a resolution of directors.

David Burton
Director

Melbourne
28 September 2021

Auditor's Independence Declaration under Section 307C of the Corporations Act 2001 to the Directors of Compumedics Limited

I declare that, to the best of my knowledge and belief, during the year ended 30 June 2021, there have been:

- (i) no contraventions of the auditor independence requirements as set out in the *Corporations Act 2001* in relation to the audit; and
- (ii) no contraventions of any applicable code of professional conduct in relation to the audit.

**Nexia Melbourne Audit Pty Ltd
Melbourne**

**Andrew S. Wehrens
Director**

Dated this 28th day of September 2021

Financial Statements – 30 June 2021

This financial report covers consolidated financial statements for the consolidated entity consisting of Compumedics Limited and its subsidiaries. The financial report is presented in the Australian currency and all values are rounded to the nearest thousand dollars (\$000) unless otherwise stated.

Compumedics Limited is a Company limited by shares, incorporated and domiciled in Australia. Its registered office and principal place of business is:

Compumedics Limited
30-40 Flockhart Street
Abbotsford VIC 3067
Australia

A description of the nature of the consolidated entity's operations and its principal activities is included in the review of operations and activities on pages 2 - 3 in the directors' report, which is not part of this financial report.

The financial report was authorised for issue by the directors on 28 September 2021. The Company has the power to amend and reissue the financial report.

Through the use of the Internet, we have ensured that our corporate reporting is timely, complete, and available globally at minimum cost to the Company. All press releases, financial reports and other information are available to our investors on our website: www.compumedics.com.au.

Consolidated Statement of Profit or Loss and Other Comprehensive Income

The above Consolidated Statement of Cash Flows should be read in conjunction with the accompanying notes.

Notes to the Financial Statements

For the year ended 30 June 2021

1. Summary of significant accounting policies

The principal accounting policies adopted in the preparation of the financial report are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated. The financial report includes financial statements for the consolidated entity consisting of Compumedics Limited and its subsidiaries. Compumedics Limited is the ultimate parent entity.

(a) Basis of preparation

This general-purpose financial report has been prepared in accordance with Australian Accounting Standards, other authoritative pronouncements of the Australian Accounting Standards Board and the Corporations Act 2001. The financial report has been prepared for a for-profit-entity.

Compliance with IFRS

The financial report complies with Australian Accounting Standards and International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board.

Historical cost convention

These financial statements have been prepared under the historical cost convention.

Critical accounting estimates

The preparation of the financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in note 3.

Going Concern and funding facilities

During the year ended 30 June 2021 the Group reported a profit after tax of \$1.0m and net positive cash flow from operations of \$1.6m.

The Group reported cash of \$6.8m at 30 June 2021, compared to \$6.4m at 30 June 2020.

As such the Directors have prepared the financial statements on a going-concern basis.

Changes in Accounting Policies

There were no changes in accounting policies in the year ended 30 June 2021.

(b) Principles of consolidation

Subsidiaries

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Compumedics Limited ("Group") as at 30 June 2021 and the results of all subsidiaries for the year then ended. Compumedics Limited and its subsidiaries together are referred to in this financial report as the Group or the consolidated entity.

Subsidiaries are all those entities (including special purpose entities) over which the Group has the power to govern the financial and operating policies, generally accompanying a shareholding of more than one-half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity.

Subsidiaries are fully consolidated from the date on which the Group obtains control and cease to be consolidated from the date on which control is transferred out of the Group.

The Group uses the acquisition method of accounting to account for the acquisition of subsidiaries.

1. Summary of significant accounting policies (continued)

(b) Principles of consolidation (continued)

Intercompany transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

(c) Operating segments

An operating segment is a component of an entity that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity), whose operating results are regularly reviewed by the entity's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance and for which discrete financial information is available. This includes start-up operations, which are yet to earn revenues. Management will also consider other factors in determining operating segments such as the existence of a line manager and the level of segment information presented to the Board of directors.

Operating segments have been identified based on the information provided to the chief operating decision maker being the executive management team.

The group aggregates two or more operating segments when they have similar economic characteristics, and the segments are similar in each of the following respects:

- Nature of the products and services,
- Nature of the production processes,
- Type or class of customer for the products and services,
- Methods used to distribute the products or provide the services, and if applicable
- Nature of the regulatory environment.

Operating segments that meet the quantitative criteria as prescribed by AASB 8 are reported separately. However, an operating segment that does not meet the quantitative criteria is still reported separately where information about the segment would be useful to users of the financial statements.

(d) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in Australian dollars, which is Compumedics Limited's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss, except when they are deferred in other comprehensive income as qualifying cash flow hedges and qualifying net investment hedges or are attributable to part of the net investment in a foreign operation.

(iii) Group companies

The results and financial position of all the Group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency.

On consolidation, exchange differences arising from the translation of any net investment in foreign entities, and of borrowings and other financial instruments designated as hedges of such investments, are taken to foreign currency translation reserve. When a foreign operation is sold or any borrowings forming part of the net investment are repaid, a proportionate share of such exchange differences are recognised in profit or loss, as part of the gain or loss on sale where applicable. Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entities and translated at the closing rate.

1. Summary of significant accounting policies (continued)

(e) Revenue from contracts with customers

The core principle of AASB15 is that revenue is recognised taking into consideration the following five elements in any contract of sale by the Company to a customer:

- 1 Identification of a contract with a customer
- 2 Identification of the performance obligations in the contract with a customer
- 3 Determination of the transaction price of the contract with a customer
- 4 Consideration of the transaction price alongside the performance obligations in the contract
- 5 Recognition of revenue (or the transaction price) when (or as) the Company satisfies a performance obligation

In assessing the above criteria, the Company has reviewed the parameters of the contracts of sale it typically enters into with customers when selling products and/or services to them and has grouped contracts of sale with similar parameters together for the purposes of recognising revenue.

The accounting policy for the sale of products and the sale of services is:

The sale of products

The Company typically sells its products, being medical devices (hardware and software), either directly to end-user customers, such as hospitals, private physicians, universities or medical service providers, or to distributors, who then sell the product onto end-user customers.

Where the Company sells products to end-user customers there is typically an installation and training obligation at the end-user customer site, once the goods have been shipped to the end-user customer. In such situations the contract of sale with the end-user customer will separately identify the installation and training obligation, with a separate price for that installation and training obligation.

Taking into consideration the terms and conditions of sale, which forms the basis of the contract of sale between the Company and the end-user customer the Company recognises the sale of the products when the products are shipped from the Company's facility to the end-user customer, excluding that part of the price that is separately attributable to the installation and training obligation. This revenue will be recognised once the installation and training obligation has been satisfied.

Where the Company sells its products to its distributors, who then sell those products to end-user customers the Company typically, does not have an installation and training obligation with the distributor. As such the Company will recognise revenue for the sale of products to its distributors when the products are shipped to the distributor.

Should the Company sell products to end-user customers or distributors that have different terms and conditions in the contract of sale, to those typically entered into then the Company will review the specific contract of sale and book revenue according to the completion of the terms of the contract of sale.

1. Summary of significant accounting policies (continued)

(e) Revenue from contracts with customers (continued)

The sale of services

The Company typically sells its services, being post product-sale technical service and support or software-as-a-service (typically diagnostic software sold on a per-use or per-user basis) either under an annual or multi-year contract with an end-user customer, or on a per-use, or once-off basis.

Typically, the entering of a contract for post product-sale technical service and support by an end-user customer will involve the Company providing pre-defined on-site, over the phone, or WEB-based technical advice regarding the use and/or application of the product. Typically the contract for service will also include performance parameters for service and repair of the products, should they malfunction, be broken or be damaged in use.

Where the Company sells post product-sale technical service and support services to end-user customers under an annual or multi-year contract, the Company will recognise the revenue associated with these contracts for service on a monthly basis as the service obligation for that month is satisfied.

If an end-user customer does not enter into an annual or multi-year service contract and requires these types of services to be performed by the Company then the end-user customer shall pay for these services on a per-use, or once-off basis. Revenue associated with these per-use or one-off contracts for service will be recognised at the time the service obligation by the Company is satisfied with the end-user customer.

Typically, distributors of the Company's products will not require services as described above, but where they do, revenue will be recognised in the manner described above.

Where the Company sells its diagnostic software on a per-use or per-user basis under an annual or multi-year contract to an end-user customer, the Company will recognise that revenue each month as the delivery of the diagnostic software obligation on a per-use or per-user basis is satisfied with the end-user customer for that month.

Should the Company sell services to end-user customers or distributors that have different performance obligations in the contract of service, to those typically entered into, and as described above, then the Company will review the specific contract of service in relation to terms of that contract and book revenue according to the obligations of the contract of service.

Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset. Government grants relating to an asset are presented in the Statement of Financial Position as unearned revenue.

Government grants and assistance that compensate for costs incurred are deferred and recognised in the Statement of Comprehensive income on systematic basis over the period in which the costs are recognised. Government grants and assistance that compensate for costs are presented in the Statement of Comprehensive income as other income.

(f) Income tax

Current tax assets and liabilities for the current period are measured at the amount expected to be recovered from or paid to the taxation authorities based on the current period's taxable income. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current income tax relating to items recognised directly in equity is recognised in equity and not in the income statement. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

1. Summary of significant accounting policies (continued)

(f) Income tax (continued)

Deferred income tax is provided on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognised for all taxable temporary differences except:

- ▶ When the deferred income tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss

- ▶ When the taxable temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, and the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future

Deferred income tax assets are recognised for all deductible temporary differences, carry-forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry-forward of unused tax credits and unused tax losses can be utilised, except:

- ▶ When the deferred income tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss

- ▶ When the deductible temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, in which case a deferred tax asset is only recognised to the extent that it is probable that the temporary difference will reverse in the foreseeable future and taxable profit will be available against which the temporary difference can be utilised

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that enough taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Unrecognised deferred income tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and deferred tax liabilities are offset only if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and liabilities relate to the same taxable entity and the same taxation authority.

Tax consolidation legislation

Compumedics Limited and its wholly owned Australian controlled entities have not implemented the tax consolidation legislation.

Other taxes

Revenues, expenses and assets are recognised net of the amount of GST except:

- ▶ When the GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable

- ▶ Receivables and payables, which are stated with the amount of GST included

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position. Cash flows are included in the statement of cash flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority is classified as part of operating cash flows. Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

1. Summary of significant accounting policies (continued)

(g) Leases

At inception of a contract, the Group assesses whether a lease exists - i.e. does the contract convey the right to control the use of an identified asset for a period of time in exchange for consideration.

This involves an assessment of whether:

- The contract involves the use of an identified asset - this may be explicitly or implicitly identified within the agreement. If the supplier has a substantive substitution right, then there is no identified asset.
- The Group has the right to obtain substantially all of the economic benefits from the use of the asset throughout the period of use.
- The Group has the right to direct the use of the asset i.e. decision-making rights in relation to changing how and for what purpose the asset is used.

Lessee accounting

The non-lease components included in the lease agreement have been separated and are recognised as an expense as incurred.

At the lease commencement, the Group recognises a right-of-use asset and associated lease liability for the lease term. The lease term includes extension periods where the Group believes it is reasonably certain that the option will be exercised.

The right-of-use asset is measured using the cost model where cost on initial recognition comprises of the lease liability, initial direct costs, prepaid lease payments, estimated cost of removal and restoration less any lease incentives received.

The right-of-use asset is depreciated over the lease term on a straight-line basis and assessed for impairment in accordance with the impairment of assets accounting policy. The right-of-use asset is subject to the impairment requirements and is assessed for impairment indicators at each reporting date.

The lease liability is initially measured at the present value of the remaining lease payments at the commencement of the lease. The discount rate is the rate implicit in the lease, however where this cannot be readily determined then the Group's incremental borrowing rate is used.

Subsequent to initial recognition, the lease liability is measured at amortised cost using the effective interest rate method. The lease liability is remeasured whether there is a lease modification, change in estimate of the lease term or index upon which the lease payments are based (e.g. CPI) or a change in the Group's assessment of lease term.

Where the lease liability is remeasured, the right-of-use asset is adjusted to reflect the remeasurement or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Exceptions to lease accounting

The Group has elected to apply the exceptions to lease accounting for both short-term leases (i.e. leases with a term of less than or equal to 12 months) and leases of low-value assets. The Group recognises the payments associated with these leases as an expense on a straight-line basis over the lease term.

(h) Impairment of assets

Goodwill and intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

1. Summary of significant accounting policies (continued)

(i) Cash and cash equivalents

For statement of cash flows presentation purposes, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities on the Statement of Financial Position.

(j) Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

Collectability of trade receivables is reviewed on an ongoing basis. Debts, which are known to be uncollectible, are written off by reducing the carrying amount directly. An allowance account (provision for impairment of trade receivables) is used when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments are considered indicators that the trade receivable is impaired. The amount of the impairment allowance is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. Cash flows relating to short-term receivables are not discounted if the effect of discounting is immaterial.

The amount of the impairment loss is recognised in profit or loss within 'sales and marketing expenses'. When a trade receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in profit or loss.

(k) Inventories

Raw materials and stores, work in progress and finished goods are stated at the lower of cost and net realisable value. Cost comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Costs are assigned to individual items of inventory on basis of weighted average costs. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

1. Summary of significant accounting policies (continued)

(I) Financial instruments

Financial instruments are recognised initially on the date that the Group becomes party to the contractual provisions of the instrument.

On initial recognition, all financial instruments are measured at fair value plus transaction costs.

Financial assets

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Classification

On initial recognition, the Group classifies its financial assets into the following categories, those measured at:

- amortised cost
- fair value through other comprehensive income - equity instrument (FVOCI - equity)

Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets.

Amortised cost

Assets measured at amortised cost are financial assets where:

- the business model is to hold assets to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows are solely payments of principal and interest on the principal amount outstanding.

The Group's financial assets measured at amortised cost comprise trade and other receivables and cash and cash equivalents in the consolidated statement of financial position.

Subsequent to initial recognition, these assets are carried at amortised cost using the effective interest rate method less provision for impairment.

Interest income, foreign exchange gains or losses and impairment are recognised in profit or loss. Gain or loss on derecognition is recognised in profit or loss.

Fair value through other comprehensive income

Equity instruments

The Group has a number of strategic investments in listed and unlisted entities over which they do not have significant influence nor control. The Group has made an irrevocable election to classify these equity investments as fair value through other comprehensive income as they are not held for trading purposes.

These investments are carried at fair value with changes in fair value recognised in other comprehensive income (financial asset reserve). On disposal any balance in the financial asset reserve is transferred to retained earnings and is not reclassified to profit or loss.

Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI.

Impairment of financial assets

Impairment of financial assets is recognised on an expected credit loss (ECL) basis for the following assets:

- financial assets measured at amortised cost; and
- contract assets.

When determining whether the credit risk of a financial assets has increased significant since initial recognition and when estimating ECL, the Group considers reasonable and supportable information that is

1. Summary of significant accounting policies (continued)

(I) Financial instruments (continued)

relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on the Group's historical experience and informed credit assessment and including forward looking information.

The Group uses the presumption that an asset which is more than 30 days past due has seen a significant increase in credit risk.

The Group uses the presumption that a financial asset is in default when:

- the other party is unlikely to pay its credit obligations to the Group in full, without recourse to the Group to actions such as realising security (if any is held); or
- the financial assets is more than 90 days past due.

Credit losses are measured as the present value of the difference between the cash flows due to the Group in accordance with the contract and the cash flows expected to be received. This is applied using a probability weighted approach.

Trade receivables and contract assets

Impairment of trade receivables and contract assets have been determined using the simplified approach in AASB 9 which uses an estimation of lifetime expected credit losses. The Group has determined the probability of non-payment of the receivable and contract asset and multiplied this by the amount of the expected loss arising from default.

The amount of the impairment is recorded in a separate allowance account with the loss being recognised in finance expense. Once the receivable is determined to be uncollectable then the gross carrying amount is written off against the associated allowance.

Where the Group renegotiates the terms of trade receivables due from certain customers, the new expected cash flows are discounted at the original effective interest rate and any resulting difference to the carrying value is recognised in profit or loss.

Other financial assets measured at amortised cost

Impairment of other financial assets measured at amortised cost are determined using the expected credit loss model in AASB 9. On initial recognition of the asset, an estimate of the expected credit losses for the next 12 months is recognised. Where the asset has experienced significant increase in credit risk then the lifetime losses are estimated and recognised.

Financial liabilities

The Group measures all financial liabilities initially at fair value less transaction costs, subsequently financial liabilities are measured at amortised cost using the effective interest rate method.

The financial liabilities of the Group comprise trade payables, bank and other loans and finance lease liabilities.

Impairment of non-financial assets

At the end of each reporting period the Group determines whether there is an evidence of an impairment indicator for non-financial assets.

Where an indicator exists and regardless for goodwill, the recoverable amount of the asset is estimated. Where assets do not operate independently of other assets, the recoverable amount of the relevant cash generating unit (CGU) is estimated.

The recoverable amount of an asset or CGU is the higher of the fair value less costs of disposal and the value in use. Value in use is the present value of the future cash flows expected to be derived from an asset or cash generating unit.

1. Summary of significant accounting policies (continued)

(k) Impairment of non-financial assets (continued)

Where the recoverable amount is less than the carrying amount, an impairment loss is recognised in profit or loss. Reversal indicators are considered in subsequent periods for all assets which have suffered an impairment loss, except for goodwill.

(m) Property, plant and equipment

All property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Depreciation on assets is calculated using the straight-line method to allocate their cost or re-valued amounts, net of their residual values, over their estimated useful lives. The expected useful lives for all categories of property, plant and equipment are between 3 and 6 years.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each reporting date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (note 1(h)).

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss.

(n) Intangible assets

Research and development

Expenditure on research activities, undertaken with the prospect of obtaining new scientific or technical knowledge and understanding, is recognised in the statement of comprehensive income as an expense when it is incurred. Expenditure on development activities, being the application of research findings or other knowledge to a plan or design for the production of new or substantially improved products or services before the start of commercial production or use, is capitalised if the product or service is technically and commercially feasible and adequate resources are available to complete development.

The expenditure capitalised comprises all directly attributable costs, including costs of materials, services, direct labour and an appropriate proportion of overheads. Other development expenditures that do not meet these criteria are recognised as an expense as incurred. Development costs previously recognised as an expense are not recognised as an asset in a subsequent period. Capitalised development costs are recorded as intangible assets and amortised from the point at which the asset is ready for use on a straight-line basis over its useful life, which is dependent on the specific activity capitalised. Historically, this has been 7 years.

Licence Fee

The Group has capitalised an upfront licence fee of USD1.0m paid to Korean Research Institute of Standards and Science as part of the Licence Agreement signed in April 2016. These fees will be amortised against future sales of the MEG device. The period of amortisation will be the remaining life of the Licence Agreement at the booking of the second MEG sale. The Licence Agreement has a 20 year life from April 2016.

(o) Trade and other payables

Trade and other payables are carried at amortised cost and due to their short-term nature, they are not discounted. They represent liabilities for goods and services provided to the Group prior to the end of the financial year that are unpaid and arise when the Group becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured and are usually paid within 30 days of recognition.

1. Summary of significant accounting policies (continued)

(p) Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit and loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities, which are not an incremental cost relating to the actual draw-down of the facility, are recognised as prepayments and amortised on a straight-line basis over the term of the facility.

Borrowings are removed from the Statement of Financial Position when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in other income or other expenses.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

(q) Borrowing costs

Borrowing costs incurred for the construction of any qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Other borrowing costs are expensed.

Borrowing costs include:

- Interest on bank overdrafts, other short-term funding facilities and short-term and long-term borrowings,
- Finance lease charges, and
- Bank charges on borrowing facilities.

(r) Provisions

Provisions for legal claims, service warranties and make good obligations are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the reporting date. The discount rate used to determine the present value reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

(s) Employee benefits

(i) Wages and salaries and annual leave

Liabilities for wages and salaries, including non-monetary benefits, and annual leave expected to be settled within 12 months of the reporting date are recognised in provisions in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled.

(ii) Long service leave

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

1. Summary of significant accounting policies (continued)

(s) Employee benefits (continued)

(iii) Share-based payments

Share-based compensation benefits, if applicable, are provided to employees via the Compumedics Employee Option Plan. Information relating to these schemes is set out in note 29.

The fair value of options granted under the Compumedics Employee Option Plan is recognised as an employee benefit expense with a corresponding increase in equity. The fair value is measured at grant date and recognised over the period during which the employees become unconditionally entitled to the options.

The fair value at grant date is independently determined using a Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option.

The fair value of the options granted is adjusted to reflect market-vesting conditions but excludes the impact of any non-market vesting conditions (for example, profitability and sales growth targets). Non-market vesting conditions are included in assumptions about the number of options that are expected to become exercisable. At each reporting date, the entity revises its estimate of the number of options that are expected to become exercisable. The employee benefit expense recognised each period considers the most recent estimate. The impact of the revision to original estimates, if any, is recognised in profit or loss with a corresponding adjustment to equity.

(iv) Termination benefits

Termination benefits are payable when employment is terminated before the normal retirement date, or when an employee accepts voluntary redundancy in exchange for these benefits. The Group recognises termination benefits when it is demonstrably committed to either terminating the employment of current employees according to a detailed formal plan without possibility of withdrawal or providing termination benefits as a result of an offer made to encourage voluntary redundancy. Benefits falling due more than 12 months after reporting date are discounted to present value.

(t) Contributed equity

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(u) Dividends

Provision is made for any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the financial year but not distributed at reporting date.

(v) Earnings per share

(i) Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to equity holders of the Company, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.

(ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

1. Summary of significant accounting policies (continued)

(w) Rounding of amounts

Compumedics Limited is a type of Company referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191 and therefore the amounts contained in this report and in the financial report have been rounded to the nearest \$1,000, or in certain cases, to the nearest dollar.

(x) Reclassifications

Certain reclassifications have been made in the financial statements to ensure that prior year comparisons conform to the current year presentations.

(y) New accounting standards and interpretations

The following standards and interpretations have been issued by the AASB but are not yet effective for the year ended 30 June 2021.

Standard Name	Requirements	Effective date	Likely impact on initial application
AASB 2020-1	<i>Amendments to Australian Accounting Standards – Classification of Liabilities as Current or Non-Current</i> Amends AASB 101 to clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the expectations of the entity or events after the reporting date (for example, the receipt of a waiver, a breach of covenant, or settlement of the liability). The mandatory application date of the amendment has been deferred by 12 months to 1 January 2023 by AASB 2020-6.	1 January 2023	30 June 2024
AASB 2021-2	<i>Amendments to Australian Accounting Standards – Disclosure of Accounting Policies and Definition of Accounting Estimates</i> This Standard amends: a) AASB 7, to clarify that information about measurement bases for financial instruments is expected to be material to an entity's financial statements; b) AASB 101, to require entities to disclose their material accounting policy information rather than their significant accounting policies; c) AASB 108, to clarify how entities should distinguish changes in accounting policies and changes in accounting estimates; d) AASB 134, to identify material accounting policy information as a component of a complete set of financial statements; and AASB Practice Statement 2, to provide guidance on how to apply the concept of materiality to accounting policy disclosures.	1 January 2023	30 June 2024

Notes to the Financial Statements (continued)

For the year ended 30 June 2021

2. Financial risk management

The Group's activities expose it to a variety of financial risks: market risk (including foreign currency risk, interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance and financial position of the Group.

Risk management is carried out by the senior managers of the Group.

(a) Market risk*(i) Foreign currency risk*

Foreign exchange risk arises when recognised assets and liabilities are denominated in a currency that is not the entity's functional currency.

The Group operates internationally and is exposed to foreign exchange risk primarily arising from currency exposures to the US dollar and the Euro.

The Group does not generally use derivative financial instruments as the Group seeks to offset its revenues and receivables denominated in US dollars and Euros with expenses and payables in the same currency where it is appropriate to do so. The Group will look to cover specific foreign currency exposures where it is appropriate to do so.

The Group's and parent entity's exposure to foreign currency risk at the reporting date was as follows:

	30 June 2021		30 June 2020	
	USD	EUR	USD	EUR
	\$'000	\$'000	\$'000	\$'000
Financial assets				
Cash and cash equivalents	3,171	1,345	3,278	795
Trade receivables	3,989	2,273	7,833	891
Financial liabilities				
Bank and other loans	-	(510)	(637)	(7)
Trade payables	(1,149)	(567)	(1,130)	(293)
Net exposure	6,011	2,541	9,344	1,386

Sensitivity analysis

Based on the financial instruments held on 30 June 2021, had the Australian dollar weakened/strengthened by five percent against the US dollar with all other variables held constant, the Group's post-tax profit for the year would have been \$0.424m higher / \$0.381m lower (2020: \$0.691m higher / \$0.763m lower), as a result of foreign exchange gains/losses on translation of US dollar denominated financial instruments as detailed in the above table. Based on the financial instruments held on 30 June 2021, had the Australian dollar weakened/strengthened by five percent against the EURO with all other variables held constant, the Group's post-tax profit for the year would have been \$0.274m higher / \$0.247m lower (2020: \$0.109m higher / \$0.120m lower), as a result of foreign exchange gains/losses on translation of EURO dollar denominated financial instruments as detailed in the above table. The Group and parent entity's exposure to other foreign exchange movements is not material. The Group considers a five percent movement in either the US dollar or the Euro appropriate for the purposes of this sensitivity analysis as historically the Australian dollar has moved in a plus or minus five percent band against the US dollar and the Euro in any given recent financial year.

Notes to the Financial Statements (continued)

For the year ended 30 June 2021

2. Financial risk management (continued)**(a) Market risk (continued)**

The parent entity has a current intercompany account receivable with the US business, all of which is considered a net investment in the US legal entity. As such, any exchange gain or loss resulting from the translation into Australian Dollars of the net investment of the intercompany account is taken to a foreign currency translation reserve. There is no profit or loss impact from movements in exchange rates relating to this net investment.

The parent entity likewise considers its intercompany account with the German and French businesses as part of its net investment and again there is no profit or loss impact from movements in exchange rates related to these net investments.

(ii) Interest rate risk

As at the reporting date, the Group had the following variable rate borrowings outstanding:

	30 June 2021		30 June 2020	
	Weighted average interest rate %	Balance \$'000	Weighted average interest rate %	Balance \$'000
Consolidated				
Cash and cash equivalents	0.00%	6,770	0.00%	6,412
Bank overdrafts and loan facilities	2.99%	5,001	5.5%	3,062

Sensitivity analysis

The Group's overall sensitivity to interest rate movements is, in part, dependent on the underlying profitability of the Group. If the Group delivers profits at the level achieved in the year ended 30 June 2021 then based on 30 June 2021 year end borrowing of \$5.0m a plus or minus 2% movement in interest rates (+/- \$100,000) would not cause a material change in underlying profitability of the Group.

The Group has adopted a policy of predominantly borrowing in Australian dollars with Australian banks and/or other financial institutions as it builds its offshore businesses. The Group does have an overdraft in its 100% subsidiary Compumedics Germany GmbH. The facility limit is EUR350k. The Group also has a further German government loan in this subsidiary with a limit of EUR500k. The Group also has a USD637k payroll protection loan in its Compumedics USA subsidiary because of government assistance for the COVID-19 pandemic. As documented in Note 33 the conditions for forgiveness of this loan were met and the loan was forgiven in July 2021.

(b) Credit risk

The Group currently sells goods and services primarily to four major geographic regions being:

- Australia and New Zealand (A & NZ)
- United States of America (USA)
- Europe, the Middle East and Africa (EMEA)
- Asia

The sale of goods and services into Australia and New Zealand, the USA, France and Germany are made directly to the end user customer.

Notes to the Financial Statements (continued)

For the year ended 30 June 2021

2. Financial risk management (continued)

(b) Credit risk (continued)

The sale of goods and services to Europe, the Middle East, Africa and Asia are typically made via distributors based in specific countries in Europe (excluding France and Germany), the Middle East, Africa and Asia. The distributor then on sells the goods to the end user customer in the specific country in Europe, the Middle East, Africa and Asia. The collectability of receivables within agreed terms is typically better where the goods and services are sold to a direct customer rather than to a distributor.

The Group does not hold any credit derivatives to offset its credit exposure. The Company also has an overdraft facility in its 100% owned Germany based subsidiary, Compumedics Germany GmbH as well as a EUR500k German Government COVID-19 loan facility. Details of which can be found at Note 15. These financing activities do not affect this analysis of credit risk summarised here.

The Group trades only with recognised, creditworthy third parties.

It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures including an assessment of their independent credit rating, financial position, past experience and industry reputation. Risk limits are set for each individual customer in accordance with parameters set by the Board. These risk limits are regularly monitored.

In addition, receivable balances are monitored on an ongoing basis with the result that the Group's experience of bad debts has not been significant, despite receivable balances remaining payable beyond terms. The following tables identify accounts receivable at 30 June 2021 and 30 June 2020 identified by debt owed into major region and currency. The aging analysis is presented based on due date of invoice.

Region	Not Due \$'000	1 to 29 Days \$'000	30 Days \$'000	60 Days \$'000	90+ Days \$'000	Total \$'000
2021						
Australia and Asia Pacific (AUD)	683	18	61	-	11	773
Australia and Asia Pacific (USD)	1,096	1,222	1	23	2,981	5,323
Australia and Asia Pacific (EUR)	303	360	29	-	89	781
USA Entities (USD)	1,898	488	76	114	958	3,534
European Entities (EUR)	2,282	129	55	157	146	2,769
	<u>6,262</u>	<u>2,217</u>	<u>222</u>	<u>294</u>	<u>4,185</u>	<u>13,180</u>
Provision		-	-	-	(169)	(169)
2020						
Australia and Asia Pacific (AUD)	328	324	1	(1)	1	653
Australia and Asia Pacific (USD)	1,441	345	3	21	5,016	6,826
Australia and Asia Pacific (EUR)	58	-	-	17	114	189
USA Entities (USD)	894	274	195	319	1,640	3,322
European Entities (EUR)	844	74	25	(15)	1,044	1,972
	<u>3,565</u>	<u>1,017</u>	<u>224</u>	<u>341</u>	<u>7,815</u>	<u>12,962</u>
Provision		-	-	-	(366)	(366)

The table highlights that:

The collection of cash from the sale of goods and services to direct end user customers as identified by USA (USD) and Australia and Asia Pacific (AUD) accounts receivable usually occurs at or not long after agreed payment terms. Debtors in the 90-day column are 27.1% (2020: 49.4%) and 1.4% (2020: 0.4%) of the total debtors owing in the respective territories. Variations in the 90 day column year-on-year are usually not significant in absolute dollar terms, but in the current year reflect an outstanding debt in the US, which the Group views as recoverable, as such the balances do not reflect any deterioration in amounts owing but rather reflect timing issues related to installation and training and the subsequent collection of cash.

Notes to the Financial Statements (continued)

For the year ended 30 June 2021

2. Financial risk management (continued)

(b) Credit risk (continued)

- The collection of cash from the sale of goods and services to distributors in Europe, the Middle East, Africa and Asia as represented by Australia and Asia Pacific (USD) accounts receivable usually occur well after agreed payment terms.
- Debtors in the 90-day column are approximately 56.0% (2020: 73.1%) of the total debtors outstanding in the current year. The Company does not consider these accounts receivable to be at risk of non-payment but they have aged considerably as a result of the effects of the COVID-19 pandemic, particularly in China.
- The collection of cash from the sale of goods and services in the Europe-based business, which is primarily via distributors into Europe and Asia typically occurs after agreed payment terms. Debtors in the 90-day column for European Entities represent 5.3% (2020: 53.0%) of all debtors owed to this business, again reflecting delays in payment as a result of COVID-19. The Group sees this as a timing issue and expects full recoverability of the amounts owing.

Information on the Group's maximum exposure to credit risk and financial assets that are either past due or impaired can be found at Note 10.

(c) Liquidity risk

Liquidity risk arises from the financial liabilities of the Group and the Group's subsequent ability to meet their obligations to repay their financial liabilities as and when they fall due.

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of bank overdrafts, bank loans, finance leases and committed available credit lines.

The Group does not have a specific policy as to the ratio of long term to short term debt and has instead focused on minimising total Group debt.

The Group manages its liquidity risk by monitoring the total cash inflows and outflows expected on a monthly basis across its worldwide business units that reflect expectations of management of the expected settlement of financial assets and liabilities.

However, where the counterparty has a choice of when the amount is paid, the liability is allocated to the earliest period in which the Group can be required to pay. When the Group is committed to make amounts available in instalments, each instalment is allocated to the earliest period in which the Group is required to pay. For financial guarantee contracts, the maximum amount of the guarantee is allocated to the earliest period in which the guarantee can be called.

The risk implied from the values shown in the table below, reflects a balanced view of cash inflows and outflows of non-derivative financial instruments. Leasing obligations, trade payables and other financial liabilities mainly originate from the financing of assets used in the Group's ongoing operations such as property, plant, equipment and investments in working capital (e.g. inventories and trade receivables).

Liquid non-derivative assets comprising cash and receivables are considered in the Group's overall liquidity risk. The Group ensures that sufficient liquid assets are available to meet all the required short-term cash payments.

The Company increased bank debt from \$3.1m to \$5.0m during the financial year, whilst also increasing the cash balance to \$6.8m on 30 June 2021 from \$6.4m on 30 June 2020. The increase in bank debt results primarily from working capital needs and the timing of funds in and out of the business. As documented in Note 33, the Group has met, in July 2021, the conditions for the loan advanced under the payroll protection program in the US to be forgiven.

Notes to the Financial Statements (continued)

For the year ended 30 June 2021

2. Financial risk management (continued)

(c) Liquidity risk (continued)

Details of the Group's financing arrangements can be found at Note 15.

Liquid Financial Assets and Liquid Financial Liabilities

Consolidated	6 months \$000	6-12 months \$000	1-5 years \$000	> 5 years \$000	Total \$000

Notes to the Financial Statements (continued)

For the year ended 30 June 2021

3. Critical accounting estimates and judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the entity and that are believed to be reasonable under the circumstances.

Critical accounting estimates and assumptions

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

(i) *Deferred revenues*

In calculating the Group's deferred revenues at any point in time the Group makes a judgement regarding the revenues to be deferred to future periods in respect of future installations and training obligations.

The Group reviews its installation and training obligations charged specifically against invoices raised with customers and defers this amount. This amount is deferred until such time as the future installation and training obligations have been extinguished.

(ii) *Inventory*

At any given point the Group has an obligation to carry its inventory at the lower of cost and net realisable value. In determining the Group's compliance with this requirement, the Group reviews its slow-moving inventory at December 31 and June 30 each year. As a consequence of this review the financial provision for slow moving inventory is adjusted with a resulting profit or loss impact.

In determining the appropriateness of the slow-moving inventory provision, the Group makes estimates about its future use of certain product lines and the ultimate recoverability and usefulness of the inventory on hand.

Given the leading-edge technology nature of the Group's activities, this may mean that inventory that was previously considered usable and therefore of value may quickly become redundant, obsolete or simply no longer usable.

(iii) *Trade receivables*

Similarly, for trade receivables the Group must make an estimate at any given point in time as to the recoverability of the receivables it has on its ledger and a provision for impairment is created based on this estimate.

The estimate is based on many factors including:

- The Group's knowledge of its customers and the likelihood of there being any issue with payment
- The Group's prior good history in relation to collecting receivables
- The territory where the receivable is owed from; and
- The age of outstanding balances.

Using this information, the Group makes an assessment of the recoverability of its trade receivables.

(iv) *Recoverability of capitalised development costs*

The Group did capitalise additional costs of \$1.79m (2020: \$3.83m) related predominantly to the development of the Somfit product and the new MEG product. The recoverability of these costs is dependent on the commercial success of both these products, which form the basis of the net present value calculations, so that it will generate future economic benefits in excess of the costs capitalised and therefore supports the carrying value of the assets. The Company did review the carrying value of the intangible assets of the Group for the prior year on 30 June 2020 in light of the impacts of the COVID-19 pandemic and as a consequence of that review decided to reduce the carrying value of the intangible assets by \$7.7m on 30 June 2020. The Group continued amortisation of these costs in the 2021 financial year with a \$0.49m (2020: \$0.2m) charge to profit or loss in the current year, solely related to the intangible assets in the DWL business in Germany.

Notes to the Financial Statements (continued)

For the year ended 30 June 2021

(v) *Deferred tax asset / liability*

The Group has booked a deferred tax asset related to the future benefit of unused tax credits as well as a net deferred tax asset relating to timing differences, where it is reasonably certain it can recover those losses against future taxable profits.

4. Operating Segments

(a) Accounting policies and inter-segment transactions

The accounting policies used by the Group in reporting segments internally are the same as those contained in note 1 to the accounts and in the prior periods except as detailed below:

Inter-entity sales

Inter-entity sales are recognised based on an internally set transfer price. The price is set annually and aims to reflect what the business operations could achieve if they sold their output and services to external parties at arm's length.

Corporate charges

Corporate charges comprise non-segmental expenses such as head office expenses and interest. Corporate charges are allocated to each operating segment on a proportionate basis linked to segment revenue so as to determine a segmental result.

It is the Group's policy that if term of revenue and expenses are not allocated to operating segments then any associated assets and liabilities are also not allocated to segments. This is to avoid asymmetrical allocations within segments which management believe would be inconsistent.

(b) Description of segments

Identification of reportable segments

The Group has identified its operating segments based on the internal reports that are reviewed and used by the executive management team (chief operating decision maker) in assessing performance and in determining the allocation of resources.

The operating segments are identified by management based on the geographical location in which products are sold and services provided, either directly to end-user customers or via distributors. Discrete financial information about each of these operating businesses is reported to the executive management team on at least a monthly basis.

Geographic locations

Americas

The Group's Americas based business includes, the United States, Canada and Latin America. The Group sells all of its product offerings in this region including sleep diagnostic systems, clinical EEG systems, brain monitoring systems, ultra-sonic blood-flow systems, supplies and technical service and support. The US business also includes that sleep diagnostic services business. Sales in the Americas are predominantly direct sales to end-user customers. The US office is based in Charlotte, North Carolina.

Australia and Asia Pacific

The Group's head office is based in Melbourne, Australia and the Australia and Asia Pacific territory includes all countries in the Asia Pacific region with major countries for the territory including Japan and China. The Group sells all of its product offerings in this region including sleep diagnostic systems, clinical EEG systems, brain monitoring systems, ultra-sonic blood-flow systems, supplies and technical service and support. The group sells directly to end-user customers in Australia and via a network of distributors into the Asian region.

Notes to the Financial Statements (continued)

For the year ended 30 June 2021

4. Operating Segments (continued)

Europe and the Middle East

The Group's Europe-based business has its principal office in Singen, Germany with additional offices in Hamburg and Freiburg Germany. The Europe based territory includes all countries in the European region, plus all Middle Eastern countries. The Group sells all of its product offerings in this region including sleep diagnostic systems, clinical EEG systems, brain monitoring systems, ultra-sonic blood-flow systems, supplies and technical service and support. The Group sells its ultra-sonic blood-flow systems directly in Germany and all other products are sold via a network of distributors across the territory.

Major Customers

The Group does not have any individual customer that contributes 10% or more to Group revenues in the years ended 30 June 2021 or 30 June 2020.

Segment revenues are allocated based on the country in which the customer is located. Segment assets and capital expenditure are allocated based on where the assets are located.

2021	Americas \$'000	Australia and Asia Pacific \$'000	Europe and the Middle East \$'000	Group \$'000
Revenue				
Sales to external customers	10,400	14,085	11,255	35,740
Intersegment sales	351	4,831	538	5,720

Segment Result	565	1,836	(320)	2,081
Depreciation and amortisation				(1,503)
Impairment of intangible asset				(7,661)
Net interest expense				(420)
Net Profit before income tax per the Statement of Profit or Loss and Other Comprehensive Income				(7,503)
Segment Assets	9,291	59,772	5,222	74,285
Intersegment elimination	-	(38,758)	-	(38,758)
Total assets per the Statement of Financial Position	9,291	21,014	5,222	35,527
Acquisition of property plant & equipment	157	54	201	412

Sales within Australia for 2020 were \$5.1m

5. Revenue

	2021 \$'000	2020 \$'000
<i>Sales revenue</i>		
Sale of goods	32,596	30,875
Services	3,144	4,194
	35,740	35,069

6. Other income

Other income	559	358
COVID-19 government assistance	955	577
COVID-19 related grant income	-	330
	1,514	1,265

Other income relates primarily to COVID-19 government assistance in the form of JobKeeper \$905k in Australia, which ceased on 31 December 2020 and ATO cash boost \$50k. The COVID-19 government grant income in the prior year related to assessment activities to convert existing SPAP devices to non-invasive ventilators for the State Government. This grant concluded in the prior period. Other income relates to the sub-lease rental income in Melbourne and other items not directly related to the main operating activities of the Group.

Notes to the Financial Statements (continued)

For the year ended 30 June 2021

7. Expenses

	Consolidated	
	2021	2020
	\$'000	\$'000
Profit before income tax includes the following specific expenses:		
<i>Depreciation</i>		
Plant and equipment	521	595
Total depreciation	521	595
<i>Amortisation</i>		
Intangible asset	88	186
Right-of-use assets	848	883
<i>Finance costs</i>		
Interest and finance charges paid/payable	330	420
<i>Foreign exchange (gains) and losses (a)</i>	806	(69)
<i>Employee benefits</i>		
Payroll expense including leave payments	16,982	17,524
Superannuation entitlements	639	678
	17,621	18,202
Research and development expenditure	4,388	3,843
Current receivables – movement in impairment provision	(197)	102
Inventory – write down:	189	259

(a) Foreign exchange gains and losses

Net foreign exchange gains/(losses) of (\$0.806m) (2020: \$0.069m) were primarily related to trading transactions.

Notes to the Financial Statements (continued)

For the year ended 30 June 2021

8. Income tax expense/benefit

	Consolidated	
	2021	2020
	\$'000	\$'000
(a) Income tax expense/(benefit)		
Current income tax charge	600	113
Deferred income tax / (asset)	(822)	(1,778)
Income tax reported in the statement of profit or loss and other comprehensive income	(222)	(1,665)
(b) Numerical reconciliation of income tax expense/(benefit) to prima facie tax payable		
Profit / (Loss) before income tax expense as reported in the statement of profit or loss and other comprehensive income	776	(7,503)
Tax expense/(benefit) at the Australian tax rate of 26% (2020 – 27.5%)	202	(2,063)
Tax effect of amounts which are not deductible (taxable) in calculating taxable income:		
Research and development	(275)	(249)
Changes in recognised temporary differences	(149)	647
Income tax expense/(benefit) reported in the statement of profit or loss and other comprehensive income	(222)	(1,665)
(c) Provision for income tax – current		
Estimated income tax payable	-	106

The benefit of tax losses will be obtained if:

- (i) the Group derives future assessable income of a nature and an amount enough to enable the benefit from the deductions for the loss to be realised,
- (ii) the Group continues to comply with the conditions for deductibility imposed by tax legislation, and
- (iii) no change in tax legislation adversely affects the Group in realising the benefit from the deductions for the loss.

(d) Tax consolidation legislation

Compumedics Limited and its wholly owned Australian controlled entities have elected not to implement the tax consolidation legislation.

Notes to the Financial Statements (continued)

For the year ended 30 June 2021

9. Current assets – Cash and cash equivalents

	Consolidated	
	2021	2020
	\$'000	\$'000
Cash at bank and on hand	6,770	6,412

Included in cash on hand is restricted cash amounting to \$0.2m. This relates to security for the rental bond on the offices the Company occupies in Melbourne and for security regarding the corporate credit cards used in the US.

Reconciliation to Statement of Cash Flows

For the purposes of the statement of cash flow, cash and cash equivalents comprise the following at 30 June

Cash at bank and on hand	6,770	6,412
Bank overdrafts (note 15)	(1,629)	(397)
Balances per Statement of Cash Flows	5,141	6,015

10. Current assets – Trade and other receivables

	Consolidated	
	2021	2020
	\$'000	\$'000
Trade receivables	13,180	12,962
Allowance for impairment loss (a)	(169)	(366)
	13,011	12,596
Other receivables/prepayments	2,472	1,047
Related party receivables:		
Loans to key management personnel	-	-
	15,483	13,643

(a) Movements in the provision for impairment loss were as follows:

At 1 July	366	264
Provision for impairment recognised during the year	(207)	104
Receivables written off during the year as uncollectible	10	(2)
	169	366

The creation and release of the provision for impaired receivables has been included in 'sales and marketing' expenses in profit or loss. Amounts charged to the allowance account are generally written off when there is no expectation of recovering additional cash.

The other classes within trade and other receivables do not contain impaired assets and are not past due. Based on the credit history of these other classes, it is expected that these amounts will be received when due.

Notes to the Financial Statements (continued)

For the year ended 30 June 2021

10. Current assets – Trade and other receivables (continued)**Past due but not impaired**

As of 30 June 2021, trade receivables of \$6.75m (2020 - \$6.609m) were past due but not impaired. These relate to a number of independent customers and distributors for whom there is no recent history of default. The ageing analysis of these trade receivables is as follows:

	Consolidated	
	2021	2020
	\$'000	\$'000
Up to 3 months	2,735	1,582
3 to 6 months	267	1,841
Over 6 months	3,748	3,187
	6,750	6,609

Fair value and credit risk

Due to the short-term nature of these non-interest bearing receivables, their carrying amount is assumed to approximate their fair value.

The maximum exposure to credit risk at the reporting date is the carrying amount of each class of receivables mentioned above. Refer to note 2 for more information on the risk management policy of the Group and the credit quality of the entity's trade receivables.

Due to the industry in which the Group operates, the Group trades with a number of Australian and overseas distributors who are historically slow payers. The ageing profile of trade receivables is closely monitored and significantly aged balances and doubtful accounts are provided against.

11. Current assets - Inventories

The provision for stock obsolescence was increased during the year ended 30 June 2021 by \$0.189m as a result of the Group recognising provision against specific inventory items. These activities have led the Group to adjust the provision for stock obsolescence to reflect the recoverable value of the inventory on hand at 30 June 2021.

	Consolidated	
	2021	2020
	\$'000	\$'000
Raw materials and stores (at cost)	5,438	5,602
Work in progress (at cost)	581	816
Finished goods (at net realisable value)	5,444	4,008
Provision for obsolescence	(1,784)	(1,595)
Total inventories at the lower of cost and net realisable value	9,679	8,831

(a) Inventory expense

Inventories recognised as an expense during the year ended 30 June 2021 amounted to \$17,286,138 (2020: \$14,300,344).

Notes to the Financial Statements (continued)

For the year ended 30 June 2021

At 1 July 2020	2,777	2,777
Additions	1,391	1,391
Impairment charge	-	-
Amortisation charge	(88)	(88)
At 30 June 2021	4,080	4,080
At 30 June 2021		
Cost*	12,037	12,037
Accumulated amortisation** and impairment	(7,957)	(7,957)
Net carrying amount	4,080	4,080

* Relates to capitalised development costs being an internally generated intangible asset and capitalised licence fees

** Amortisation of \$87,740 (2020 - \$185,941) is included in depreciation and amortisation expense in profit or loss. Further, an impairment charge of \$7,661,313 was taken to the profit or loss for the year ended 30 June 2020. The remaining balance of the intangible asset relates to MEG to be amortised over approximately 20 years, the Somfit product to be amortised over 10 years from first sale and the DWL products.

14. Current liabilities - Trade and other payables

	Consolidated 2021 \$'000	2020 \$'000
Trade payables	4,449	2,926
Other payables	936	906
	5,385	3,832

(a) Foreign currency risk

For an analysis of the sensitivity of trade and other payables to foreign currency risk refer to note 2.

Notes to the Financial Statements (continued)

For the year ended 30 June 2021

15. Current Liabilities - Borrowings

	Consolidated	
	2021 \$'000	2020 \$'000
Secured		
Bank overdraft	1,629	397
Bank Bill / Working capital facility (MEG)	-	1,600
Fixed term loan	1,920	116
Lease liabilities (note 28)	11	12
Unsecured		
Other loans	848	926
Total Current Borrowings	4,408	3,051

Bank and Other Funding Facilities

During the financial year the Company renegotiated its facilities provided by Bank of Melbourne (BOM). The Company previously had an overdraft facility with a \$1.0m limit, which was temporarily increased to \$2.5m at the start of the pandemic in 2020 but has been revised to an ongoing limit of \$2.0m. The Company also had a working capital facility with BOM for funding the manufacture of the MEG system. This facility was also changed during the financial year and is now a \$1.6m principal and interest loan repayable over 5 years from June 2021. The Company also has equipment purchasing facilities typically repayable over three years depending on the equipment purchased. The Company has transactional banking facilities and credit cards with Bank of Melbourne. Provision of these facilities, including the borrowing facilities, is subject to the Group being compliant with three ratios. The first is a Capital Ratio, which compares Total Tangible Assets Less Total Liabilities, to Total Tangible assets. On 30 June 2020, the Group was compliant with this test. The second is a Financial Debt to EBITDA ratio. This compares total financial debt to EBITDA. On 30 June 2021 the Group was compliant with this test. The third is a Debt Service Cover ratio, which compares EBITDA less tax to Gross interest and principal repayments. On 30 June 2021 the Group was compliant with this ratio. The Group was successful in obtaining funds under the USA Government Payroll Protection Plan in FY2020. This is shown as unsecured other loans of \$0.8m (FY2020 \$0.9m). If certain conditions are met by the US business by 31 December 2020, this loan will be forgiven. As disclosed in Note 33 Events Occurring after Reporting Date, the conditions were met in July 2021 and the loan has subsequently been forgiven. The Group also has a EUR0.35m unsecured overdraft facility with Sparkasse Bank in Germany. In addition, the Group has a EUR0.5m facility provided by the German government in response to the COVID-19 pandemic. This was drawn down in April 2021 and the proceeds deposited to a term deposit account. This facility is repayable over four years.

(a) Risk exposures

Details of the Group's exposure to fair value interest rate risk arising from current borrowings is set out in note 2.

(b) Fair value disclosures

No borrowings are readily traded on organised markets.

The carrying amounts of all borrowings are not materially different to their fair values at reporting date.

(c) Assets pledged as security and not derecognised in the Statement of Financial Position

The total secured liabilities are as follows:

	Consolidated	
	2021 \$'000	2020 \$'000
Bank overdraft	1,629	397
Working capital facility (MEG)	-	1,600
Fixed term loan	1,920	116
Lease liabilities – current	11	12
Lease liabilities – non-current	-	11
Total secured liabilities	3,560	2,136

Notes to the Financial Statements (continued)

For the year ended 30 June 2021

15. Current Liabilities – Borrowings (continued)

Security is held against the following subsidiaries: Compumedics Telemed Pty Ltd, Compumedics Cardiology Pty Ltd, Compumedics Medical Innovation Pty Ltd, Compumedics USA Inc, Compumedics Germany GmbH and Compumedics Singapore Pte Ltd.

Lease liabilities are effectively secured as the rights to the leased assets recognised in the financial statements revert to the lessor in the event of default.

The carrying amounts of assets pledged as security for current borrowings are:

		Consolidated	
		2021	2020
	Notes	\$'000	\$'000
Current			
<i>Floating charge</i>			
Cash and cash equivalents	9	6,770	6,412
Receivables	10	13,011	12,596
Inventories	11	9,679	8,831
Total current assets pledged as security		29,460	27,839
Non-current			
<i>Floating charge</i>			
Property, plant and equipment	12	955	1,465
Total non-current assets pledged as security		955	1,465
Total assets pledged as security		30,415	29,304

(d) Forward exchange contracts

As at 30 June 2021 and 30 June 2020 there were no outstanding forward exchange contracts.

(e) Financing arrangements

Access was available at reporting date to the following lines of credit:

	Consolidated	
	2021 \$'000	2020 \$'000
Credit standby arrangements		
Total facility		
Bank Overdraft	2,000	2,500
Bank Bill /Working capital facility (MEG)	-	1,600
Fixed term loan	1,129	350
Overdraft – DWL	554	577
German COVID-19 loan	791	-
Payroll Protection (USA)	848	926
	5,322	5,953
Used at reporting date		
Bank Overdraft	1,629	397
Bank Bill / Working capital facility (MEG)	-	1,600
Fixed term loan	1,129	116
German COVID-19 loan	791	-
Payroll Protection (USA)	848	926
	4,397	3,039

Notes to the Financial Statements (continued)

For the year ended 30 June 2021

15. Current Liabilities – Borrowings (continued)

Unused at reporting date

Bank Overdraft	371	2,103
Fixed term loan	-	234
Overdraft - DWL	554	577
	925	2,914
Loan / funding facilities		
Total facilities	5,322	5,953
Used at reporting date	4,397	3,039
Unused at reporting date	925	2,914

The Group had funding facilities totalling \$5.3million at 30 June 2021.

(f) Derivative instruments

Compumedics Limited and certain of its controlled entities may be party to derivative financial instruments in the normal course of business in order to hedge exposure to fluctuations in foreign exchange rates. At reporting date there were no outstanding derivative financial instruments in place.

16. Current liabilities - Provisions

	2021 \$'000	2020 \$'000
Employee benefits	2,795	2,419
Service warranties (note 16(a))	354	409
	3,149	2,828

(a) Service warranties

Provision is made for the estimated warranty claims in respect of products sold which are still under warranty at reporting date. These claims are expected to be settled in the next financial year but this may be extended into the following year if claims are made late in the warranty period and are subject to confirmation by suppliers that component parts are defective.

Management estimates the provision based on historical warranty claim information and any recent trends that may suggest future claims could differ from historical amounts.

(b) Movements in provisions

Movements in each class of provision during the financial year, other than employee benefits, are set out below:

	Service warranties \$'000
Current	
Carrying amount at start of year	409
Charged/(credited) to profit or loss	
- additional provisions recognised	-
- unused amounts reversed	(55)
Carrying amount at end of year	354

Notes to the Financial Statements (continued)

For the year ended 30 June 2021

17. Current liabilities - Deferred income

	Consolidated	
	2021	2020
	\$'000	\$'000
Current		
Deferred income	1,749	1,717

Deferred income relates to service contracts yet to be performed and post-sale installation and training obligations yet to be completed pursuant to the Group's accounting policies as detailed in Note 1 Summary of significant accounting policies, (e) Revenue recognition and Note 3 Critical accounting estimates and judgements, (i) Deferred Revenues.

18. Non-current liabilities - Borrowings

	Consolidated	
	2021	2020
	\$'000	\$'000
Secured		
Government loan	593	-
Lease liabilities (note 28)	-	11
	593	11

(a) Foreign currency and interest rate risk

Information about the Group's exposure to interest rate and foreign currency risk is provided in note 2 and note 15.

19. Non-current liabilities – Provisions

	Consolidated	
	2021	2020
	\$'000	\$'000
Employee benefits	16	31

20. Non-current liabilities - Deferred income

	Consolidated	
	2021	2020
	\$'000	\$'000
Deferred income	272	420

Deferred income relates to service contracts yet to be performed and post-sale installation and training obligations yet to be completed pursuant to the Group's accounting policies as detailed in Note 1 Summary of significant accounting policies, (e) Revenue recognition and Note 3 Critical accounting estimates and judgements, (i) Deferred Revenues.

Notes to the Financial Statements (continued)

For the year ended 30 June 2021

21. Contributed equity

	Consolidated		Consolidated	
	2021	2020	2021	2020
	Shares	Shares	\$'000	\$'000
(a) Share capital				
Ordinary shares				
Fully paid	177,162,948	177,162,948	35,654	35,654

(b) Movements in ordinary share capital:

Date	Details	Number of shares	Issue price	\$'000
30 June 2019	Balance	177,162,948		35,654
	No new issues	-	-	-
30 June 2020	Balance	177,162,948		35,654
	No new issues	-	-	-
30 June 2021	Balance	177,162,948		35,654

(c) Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on winding up of the Company in proportion to the number of and amounts paid on the shares held.

On a show of hands every holder of ordinary shares present at a meeting in person or by proxy, is entitled to one vote, and upon a poll each share is entitled to one vote.

The ordinary shares have no par value.

(d) Other equity securities

There are no other equity securities issued at this time.

(e) Capital management

When managing capital, management's objective is to ensure the entity continues as a going concern as well as to maintain optimal returns to shareholders and benefits for other stakeholders. Management also aims to maintain a capital structure that ensures the lowest cost of capital available to the entity. Management will periodically adjust the capital structure of the Group to take advantage of favourable costs of capital or high returns on assets. As the market is constantly changing, management may pay a dividend to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

Management currently has no plans to pay a dividend and has not done so in the prior year. This policy will be reviewed at least annually against known and anticipated operational outcomes.

Management may consider the issue of further shares on the market in the foreseeable future.

Notes to the Financial Statements (continued)

For the year ended 30 June 2021

21. Contributed equity (continued)

(e) Capital management (continued)

	Consolidated	
	2021 \$'000	2020 \$'000
Total borrowings	5,001	3,063
Less cash and cash equivalents	6,770	6,412
Net (cash) / debt	(1,769)	(3,349)
Total equity	22,155	21,794
Total funding	20,386	18,445
 Gearing ratio	 (8.0)%	 (15.4)%

22. Reserves and accumulated losses

	Consolidated	
	2021 \$'000	2020 \$'000
(a) Reserves		
Foreign currency translation reserve	(473)	164
	(473)	164

(b) Accumulated losses

Movements in accumulated losses were as follows:

Balance 1 July	(14,024)	(8,064)
Restatement for the adoption of AASB16	-	(122)

26. Contingencies**(a) Contingent liabilities**

The consolidated entity had no contingent liabilities at 30 June 2021 (2020: None).

(b) Contingent assets

The consolidated entity had no contingent assets at 30 June 2021 (2020: None).

27. Leases**The Group as a lessee**

The Group has leases over a range of assets including land and buildings, plant and equipment.

The Group has chosen not to apply AASB 16 to leases of intangible assets.

Information relating to the leases in place and associated balances and transactions are provided below.

Terms and conditions of leases

The building leases are for the corporate office and warehouse in Melbourne, Australia and corporate offices in Charlotte NC, USA, Singen, Dresden and Hamburg Germany. The leases are all due to expire within the next 24 months. The Company may seek to extend these leases, where it believes this to be in the best interests of the Company. The rentals are subject to an annual CPI increase.

The equipment leases are for various items of plant and equipment and cars. The leases are all due to expire within the next 24 months and the lease payments are fixed.

Right-of-Use Assets

	Buildings \$'000	Office Equipment and Cars \$'000	Total \$'000

Compumedics Korea Co. Ltd.	South Korea	Ordinary	100	100

Notes to the Financial Statements (continued)**For the year ended 30 June 2021****33. Events occurring after the reporting date**

In the financial year ended 30 June 2020 the Company's wholly owned USA subsidiary, Compumedics USA, Inc., became eligible for and received a loan under the USA Government's CARES ACT PPP Loan arrangement.

The loan amount was for USD637k (AUD848k in current borrowings on 30 June 2021) and was to be forgiven on the basis Compumedics USA, Inc met specific requirements of the loan arrangement.

Those requirements were met, and the loan was forgiven in July 2021. As such Compumedics USA, Inc. will remove the loan from its balance sheet in the six months to 31 December 2021 and declare the amount as other income in the same period. Compumedics USA, Inc and as a result Compumedics Limited have already recorded the funds in reported cash balances on 30 June 2020 and 30 June 2021.

Apart from the matter above, the Directors are not aware of any matters subsequent to the end of the financial year that would have a material impact on the financial performance of the Group.

Directors' Declaration

In the opinion of the directors:

- (a) the financial statements and notes set out on pages 16 to 63 are in accordance with the Corporations Act 2001, including:
 - (i) complying with Australian Accounting Standards, the Corporations Regulations 2001 and other mandatory professional reporting requirements; and
 - (ii) giving a true and fair view of the Company's and consolidated entity's financial position as at 30 June 2021 and of their performance for the financial year ended on that date; and
 - (iii) complying with the International Financial Reporting Standards as disclosed in note 1, and
- (b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable; and

The directors have been given the declarations by the Chief Executive Officer and Chief Financial Officer required by section 295A of the Corporations Act 2001.

This declaration is made in accordance with a resolution of the directors.

A handwritten signature in black ink, appearing to read 'David Burton', with a vertical yellow line to its left.

Independent Auditor's Report to the Members of Compumedics Limited

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Compumedics Limited (the Company and its subsidiaries (the Group)), which comprises the consolidated statement of financial position as at 30 June 2021, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- (i) giving a true and fair view of the Group's financial position as at 30 June 2021 and of its performance for the year then ended; and
- (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional & Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, has been given to the directors of the Company, as at the date of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

In our opinion, there are no key audit matters to communicate.

Other Information

The directors are responsible for the other information. The other information comprises the information in the Group's annual report for the year ended 30 June 2021 but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

Independent Auditor's Report to the Members of Compumedics Limited

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of the other information we are required to report that fact. The annual report is expected to be made available to us after the date of this independent auditor's report.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

Independent Auditor's Report to the Members of Compumedics Limited

- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Group financial report. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 6 to 12 of the Directors' Report for the year ended 30 June 2021.

In our opinion, the Remuneration Report of Compumedics Limited for the year ended 30 June 2021 complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
