

Lion Selection Group

ASX RELEASE : LSX

31 August 2021

New Website

Lion Selection Group Limited (Lion) is pleased to advise that it has redeveloped its website, which is located at www.lionselection.com.au. A key component of the update has been to include a summary of the historic work and data for the Pani Gold Project that was collected and announced by One Asia Resources or prior explorers.

The Pani Gold Project has been explored by a number of parties over many years but only in the last decade has it evolved to be a major gold discovery. The bulk of the work on the Pani IUP has been conducted by unlisted company One Asia Resources, which compiled and reported data according to JORC 2012 guidelines, and is now collated for Lion shareholders to view.
