Golden Mile Appoints Managing Director

Golden Mile Resources Limited (“Golden Mile”; “the Company”; ASX: “G88”) is pleased to announce the appointment of experienced resources industry executive Jordan Luckett as Managing Director. Jordan has been employed as Exploration Manager for the Company since February 2022.

In welcoming the appointment of Mr Luckett as Managing Director, Golden Mile Chairman Mr Rhod Grivas said: “As Golden Mile completes further metallurgical and mining feasibility studies on Quicksilver, it is important to have an experienced Managing Director to drive the studies and promote the transitional message to the investor market. In agreeing to step up Jordan the Board considers that he will bring significant experience having worked extensively in the mining industry from exploration, through feasibility studies to mining.”

Commenting on the appointment Mr Luckett said, “Having had the opportunity to develop a deeper understanding of Golden Miles’s projects while working as Exploration Manager, it has become apparent to me that the advanced Quicksilver Nickel-Cobalt project has great potential. This is because of the unique style of mineralisation and unlocking this potential could result in a significant return for the Company. I also like the fundamentals of nickel going forward and believe that if the narrative around the transition to EVs is anywhere near correct then nickel will be in high demand for a long period of time.

“This also underpins the Company’s greenfield Yarrabee and Yuinmery projects that I think are also highly prospective for both nickel and copper sulphide mineralisation. Finally, in an uncertain world some exposure to gold might be a good thing and the Company has the well-located Gidgee and Leonora gold projects that are currently being funded by capable JV Partners and further gold potential at its 100% Yuinmery Project”

During his career, Mr Luckett has been a member of a number of successful exploration teams that have made discoveries in Western Australia, Queensland, Canada and Africa. For the previous sixteen years he has held senior management positions in both mining and exploration companies.

Mr Luckett has 27 years’ of experience in both exploration and mining geology, having worked throughout Australia, North America and Africa. He has a broad experience that includes board and management, underground mining, resource definition project generation and all facets of exploration.

Mr Luckett has a Bachelor of Science degree and is a member of the Australasian Institute of Mining and Metallurgy.

Pursuant to ASX listing Rule 3.16.4 details of Mr Luckett’s remuneration package is attached to this announcement as Appendix 1.

This Announcement has been approved for release by the Board of Golden Mile Resources Limited.
