

## **ASX Announcement**

### **First production order for ROAM-e placed**

- **IOT places first order for October 2016 delivery**
- **First batch to be sent to distributors in USA, Japan and Australia**
- **First retailer orders scheduled for December 16 quarter**

**Sydney:** 31 August, 2016: IOT Group Limited (ASX: IOT) advises that the first production order for the ROAM-e 'flying selfies' was placed with Shenzhen AEE Technology Co., Ltd ('AEE') for delivery in the December Quarter 2016.

The first batch of the production will be sent to our distributors in the USA, Japan and Australia for evaluation by the buyers of major consumer product retail stores.

Following their appraisal IOT expects to receive firm orders in the December Quarter 2016.

In terms of the technology development, IOT is conducting test flights which are continuing to refine flight control software, altitude hold and auto take-off and landing are substantially complete, and GPS positioning is well underway.

Vision system software integration with flight control software is well advanced and the manufacturing tooling drawings are substantially complete and early long lead time orders are being placed.

The AEE working relationship is very strong with around two dozen of their staff focusing on the ROAM-e project. AEE will be distributing the ROAM-e in China where it is reporting strong interest.

## About IOT Group Limited

[www.theiotgroup.com](http://www.theiotgroup.com)

(Internet of Things)

IOT Group has tapped into global niche markets by adapting and enhancing existing trend products and making them more affordable and useful to consumers. IOT Group is designing and developing a range of smart wearables, a range of flying selfie drones, augmented reality, virtual reality, home automation products and a universal computing device as we look to create a complete IoT ecosystem over the next 24 months.

## ROAMe

FLYING SELFIES

Utilising industry specific innovation and our own technology, we've created the first facial recognition flying selfie device operated through smartphones and vision control systems, called ROAM-e. With unique follow me truly functionality, a flight time of up to 20 minutes and the capacity to charge in just two hours! You will always capture perfectly uninterrupted panoramic shots with ROAM-e's 360 degree 1080p HD camera. And you will never miss a moment with ROAM-e's live streaming capabilities, so the action is always in real time whenever, where ever. ROAM-e is your personal companion who will always be within 5m of you, so you never have to worry about invading anyone's personal space. Built with the world's first dual-axis collapsible blades means that ROAM-e's light, compact and easy to carry and ready for any occasion but most importantly not weigh you down. Selfies have reached new heights!

OUTDOOR KONNECT

Outdoor Konnect (OK) is focused on designing and developing a range of affordable innovative wearable devices, accessories and outdoor products combining the latest technology with unique features. Our devices include a variety of smart watches with some already available through retailers and from our website.
