Eastern Resources Limited (“**EFE**” or the “**Company**”) is pleased to provide an overview of the Company’s activities for the period ending 30 June 2025 (“Quarter”, “Reporting Period”).

TRIGG HILL PROJECT

During the Quarter, the Company conducted a further soil sampling program at the Trigg Hill Lithium project.

This soil sampling program covered the untested area which had not received any modern exploration analysis, and assessed the prospectivity of the area to obtain an understanding of zonation and lithium mineralisation.

The program provided geochemical coverage over the northwest area of the Project where lithium bearing pegmatites had been identified at Trigg Hill and East Curlew prospects.

Sampling was undertaken on eight lines and collected on a nominal 200m X 80m regional grid, immediately west and northwest of the Curlew ML.

LITHIUM PROJECTS

The Yalgoo West and the Lake Johnston Projects were surrendered during the Quarter due to the lack of potential for a significant lithium resource in those tenements.

NEW PROJECT SEARCH AND POTENTIAL ACQUISITION

During the Quarter, the Company reviewed a number of opportunities and progressed due diligence on exploration projects prospective for precious metals. Commercial discussions with various parties are at an early stage and the likelihood of the Company finalising an acquisition is uncertain. The Company is committed to exploration projects that will add to shareholder value.

FINANCIAL POSITION

The cash and cash equivalents at the end of the Quarter is approximately \$3.73 million.

RELATED PARTY PAYMENTS

During the Quarter, the Company made related party payments, at normal commercial rates, of \$98,000 (Excl GST) for Directors fees and Directors consulting services.
