

Update on Mineral Sands Resources Pty Ltd

Further to the request for voluntary suspension dated 31 July 2024 whereby Mineral Commodities Ltd (**Company** or **MRC**) (ASX:MRC) noted it had advised Mineral Sands Resources Pty Ltd (**MSR**)¹ the owner of the Tormin Mineral Sands Project (**Tormin**), that it will no longer provide funding due to the interruption to operations and revenue stream caused by the storms that led to the MV Ultra Galaxy running aground near Tormin and the subsequent oil spill, MRC understands MSR is in the process of appointing a business rescue practitioner in accordance with South African law.

The Company's is advancing discussions with various parties regarding the proposed funding of the Company and that are ongoing and incomplete. MRC will update the market once a conclusion to these discussions has been reached.

About Mineral Commodities Ltd

Mineral Commodities Ltd is a global mining and development company with a primary focus on the production of high-grade Mineral Sands and Natural Flake Graphite from operations in South Africa and Norway.

The Company is a producer of zircon, rutile, garnet, magnetite, and ilmenite concentrates through its Tormin Mineral Sands Operation, located on the Western Cape of South Africa.

The Company also owns and operates the Skaland Graphite Operation in Norway, the world's highest-grade operating flake graphite mine and is the only producer in Europe. The planned development of the Munglinup Graphite Project, located in Western Australia, builds on the Skaland acquisition and is a further step toward an integrated, downstream value-adding strategy which aims to capitalise on the fast-growing demand for sustainably manufactured lithium-ion batteries.

The Company's aspiration is to become a leading vertically integrated diversified producer of graphitic anode materials and value-added mineral products with a commitment to operate with a focus on the Environment, Sustainability and Governance.

Forward Looking Statements
