

Fluence Corporation Limited Appoints Arnon Goldfarb as Director

-Experienced Industrialist adds strength to Board of Directors-

September 20, 2017

Melbourne, Australia & New York, USA: Fluence Corporation Limited (ASX: FLC) ("Fluence" or the "Company"), a global leader in water and wastewater treatment solutions, today announced the appointment of Arnon Goldfarb to the Board of Directors as a Non-Executive Director, effective immediately.

Mr. Goldfarb brings more than 30 years of executive experience to Fluence. He has held a number of key roles including 10 years as General Manager of TMB Ltd, a water treatment company involved with desalination, drilling, water reservoirs and aqua culture, in both domestic and international markets, and 5 years as Vice President Business Development of Israel Chemical.

Currently based in Israel and a partner with Israel Cleantech Ventures, a successful venture capital fund, Mr. Goldfarb sits on several Boards, including a local municipal waste treatment facility in the west Galilee region.

"We are delighted to welcome a person of Arnon's local and international stature to the Board," said Richard Irving, Executive Chairman of Fluence. "Arnon is a proven industrialist and understands very well the challenges and opportunities for growing technology companies. Arnon's significant experience and networks in Israel and overseas will benefit the group at many levels, including Fluence Water Israel – the group's largest revenue generator - as well as the Israel based Product & Innovation Group."

About Fluence Corporation

Fluence Corporation's vision is to become a leading global provider of fast-to-deploy decentralized and packaged water and wastewater treatment solutions, already an estimated A\$17 billion market in 2016, excluding the China rural market opportunity. Fluence has experience operating in over 70 countries worldwide and employs more than 300 highly trained water professionals around the globe. The Company provides local, sustainable treatment and reuse solutions while empowering businesses and communities worldwide to make the most of their water resources.

Fluence offers an integrated range of services across the complete water cycle, from early stage evaluation, through design and delivery to ongoing support and optimization of water related assets. With core operations in North America, South America, the Middle East and Europe, one of Fluence's main focuses will be expanding into the vast market in China for rural wastewater treatment.
