### **About SDI Limited**

SDI has a long history of research and development, manufacturing, and marketing of innovative dental materials. Founded in 1972, the Company has grown to become a world leader in the dental industry with expertise in restorative material, tooth whitening and adhesives.

SDI is renowned in the global industry for its ionglass™ manufacturing technology, which has led to the development of many unique brands, including the Riva range of glass ionomer products. Further, Pola, SDI's innovative whitening system, has accumulated more than 15 years of clinical success worldwide and enjoys significant brand equity globally.

SDI's products are developed, designed and manufactured in Victoria, Australia and distributed to over 100 countries worldwide. SDI has sales and distribution subsidiaries in the USA, Germany, and Brazil.
