

14 December 2017

RCR EPC and O&M Contracts Finalised for 88MWac Wemen and 75MWac Clermont Solar Farms

Diversified engineering and infrastructure company RCR Tomlinson Ltd (ASX: RCR), is pleased to announce that it has received a notice to proceed for the Engineering, Procurement and Construction (“EPC”) and Operation and Maintenance (“O&M”) for the 75MWac Clermont Solar Farm and the 88MWac Wemen Solar Farm, being developed by international renewable energy company, Wirsol Energy Ltd (part of the WIRCON Group).

As announced on 13 November 2017, RCR’s EPC and O&M contracts for these projects are valued at approximately \$260 million.

With the EPC and O&M contracts now executed and a notice to proceed received, RCR will commence construction activity immediately on these two large-scale solar farm projects.

The Clermont Solar Farm is located in Rockhampton, Northern Queensland and the Wemen Solar Farm is located in Wemen, Victoria.

RCR Managing Director & CEO, Dr Paul Dalgleish said “We look forward to a long relationship with Wirsol who are a leading project developer of sustainable energy projects and one of the largest developers of utility-scale solar projects in Australia with over 335MWac currently under construction.”

ABOUT RCR

RCR Tomlinson Ltd (ASX code: RCR) is a diversified engineering and infrastructure company, working with some of the world’s leading organisations to provide intelligent engineering solutions to the Infrastructure, Energy and Resources sectors. RCR has 119 years of history in the engineering sector and owns some of Australia’s oldest engineering businesses including RCR Tomlinson™, O’Donnell Griffin™, Haden™, and Resolve FM™.

RCR’s core capabilities encompass development, engineering, procurement, construction, operation and maintenance of major infrastructure, energy and resource projects. These include power generation plants (using a wide range of fuels, solar, wind and battery), water and waste treatment systems, rail and road tunnel infrastructure, rail signalling and overhead wiring systems, mineral processing and material handling plants, integrated oil & gas services (both onshore and offshore), supply of RCR proprietary materials handling and process equipment, and property services including facilities management, HVAC and electrical services.

RCR has operations across Australia, Asia and New Zealand. Additional information is available at www.rcrtom.com.au
