DECEMBER 2020 QUARTERLY REPORT

ACTIVITY AND PORTFOLIO REVIEW

High Peak Royalties is pleased to announce the December Quarter Statement of Activity and Cash Flows. HPR has a portfolio of royalties in Australia and USA as detailed on the final page of the Activities Report.

Quarterly revenue was \$78,806 and cash at the end of the quarter was \$1,026,000.

Commodity prices recovered after dropping due to reduced economic activity related to Covid-19 in 2020. LNG spot price in Asia recovered sharply in 2021, and this bodes well for future revenues from Queensland gas projects that export to Asia.

HPR acquired additional royalties in the USA, and the first revenue cheques have been received and will be included in next quarter report. The company reviewed several opportunities in the last quarter and is actively seeking additional royalties.

During the quarter, \$53,750 was paid to directors of the Company in director fees, as noted in Item 6.1 of the 5B.

REVIEW OF PORTFOLIO ASSETS

USA

USA revenue was steady with \$78,806 for the December quarter compared to the September quarter of \$82,014. There was interest paid in the period for the Macquarie Bank Financing Facility costs of \$34,665.

Amadeus Basin (NT)

HPR has royalties on multiple permit areas in the Amadeus Basin. These include several Operated by Central Petroleum Limited (ASX:CTP), who today announced:

“We progressed our exploration program in the Amadeus Basin, targeting formations known to be productive in other areas. The Amadeus exploration program is to be funded from a partial farm-out of our producing fields. Our progress with a preferred farm-out partner is tracking well with a target of first quarter CY2021 to announce agreed terms of this transaction, allowing us to plan for exploration drilling to begin in Q3 CY2021.

“Our exploration team worked closely with Santos to return to exploration at Dukas, and we anticipate a final well design will be approved by the JV shortly. In parallel to Dukas, we continue to consider options to appraise the larger Zevon sub-salt lead through seismic, including the potential to farm-out exploration in EP 115.

We continued our efforts to progress the Amadeus to Moomba Gas Pipeline (AMGP), including initial discussions with other Northern Territory gas suppliers for foundation volumes. Alternatively, our Amadeus exploration program later this year could be the catalyst to construct this major piece of gas transportation infrastructure.”

Queensland (QLD)

Royalties were not received due to the result of an adjustment to the FY20 royalties received against the December 2020 quarter royalty payment.

HPR also monitors the other permits where HPR has royalties, including those operated by Shell (formerly BG, QGC).

Western Australia (WA)

HPR also has royalties on several high potential offshore permits, including one permit near the large Dorado discovery operated by Santos Limited.
