LETTER TO SHAREHOLDERS

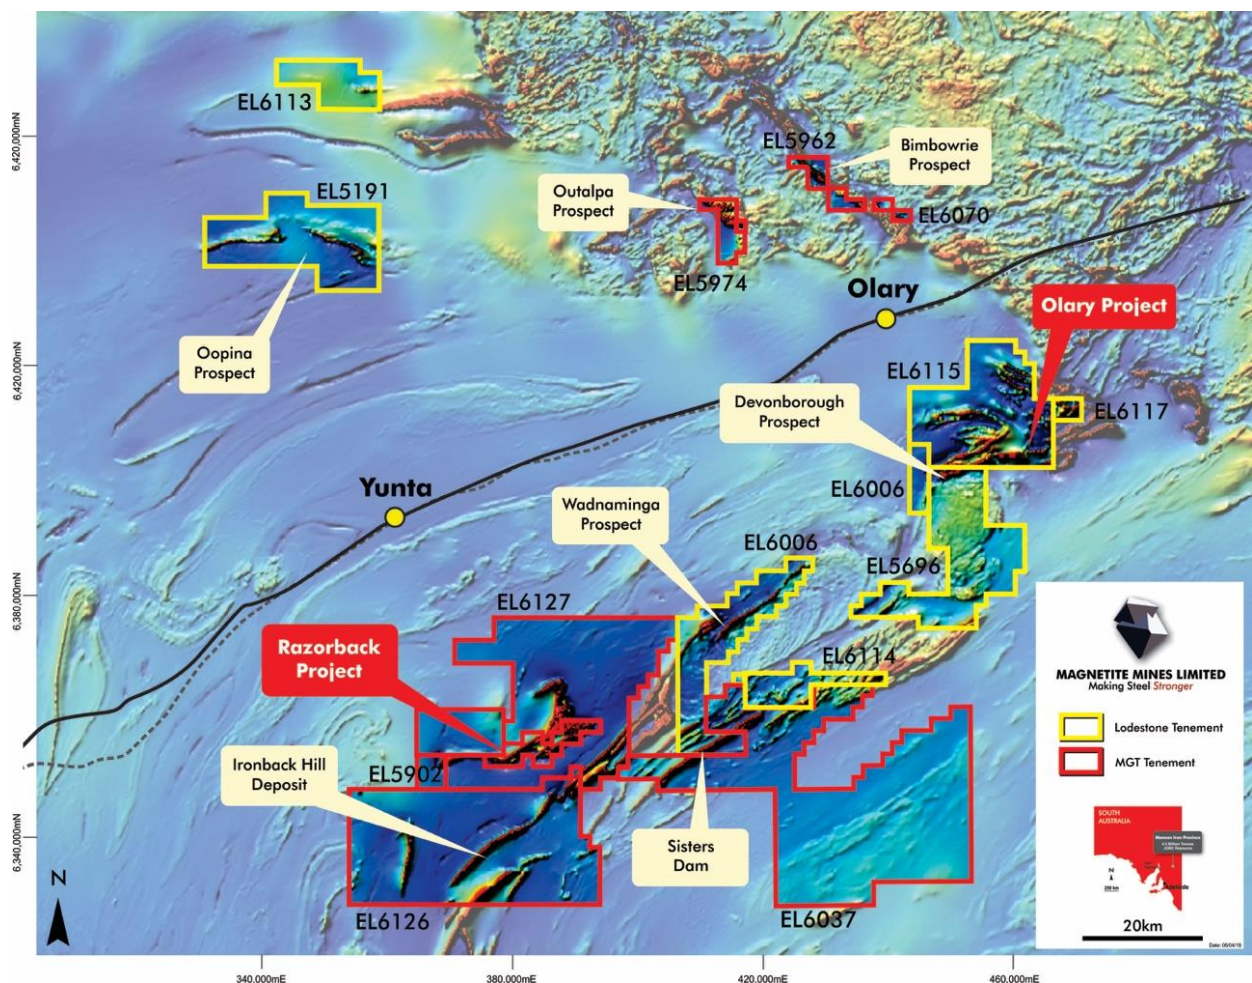

Dear Shareholder,

On behalf of Magnetite Mines Limited (**Company**), I am pleased to invite you to participate in a 1 for 4 pro-rata renounceable rights issue of new shares at an offer price of \$0.015 per new share (**Rights Issue**) to raise up to \$2 million subject to the terms of the Rights Issue outlined in this Prospectus. The offer price represents a 48% discount to the Company's 30 day VWAP of \$0.029 on 11 April 2018. Each Share comes with one attaching option with an exercise price of \$0.05 per option and expiring 31 May 2021.

Funds raised will be used to complete the acquisition of Lodestone Equities Limited (**Lodestone**) (an entity associated with Chairman Mr Gordon Toll) and holder of the Olary, Wadaminga and Sister's Dam Projects, to progress exploration and evaluation activities at the Olary Project, for working capital and the costs of the Rights Issue.

Each of the directors of the Company has confirmed their intention to either participate in the issue or arrange for their entitlement to be fully subscribed, and shareholders will be able to apply for additional shares beyond their entitlement if they wish.

As announced on 29 March 2018, the Company has entered into a final framework agreement setting out the principal commercial terms for the acquisition of Lodestone by the Company. Following execution of transaction documents, the acquisition terms will become legally binding and the Company will hold a shareholder meeting to obtain regulatory and shareholder approval of the acquisition to become the most significant magnetite tenement holder in the Mawson Iron Province (Braemar Formation) south of the Barrier Highway in South Australia, with tenements reaching from 100km NNE of Burra to 40km SE of Olary.

Eligible shareholders may apply for some or all of their Entitlement under the Rights Issue, and may also apply for additional new shares in excess of their Entitlement (for further details see Section 2.3). The Rights Issue is scheduled to close at 5.00pm (WST) on Thursday, 10 May 2018. To participate, you will need to ensure that you have completed and returned the Entitlement and Acceptance Form and paid all application monies before this time and date. Details of how to accept the Rights Issue are provided on the Entitlement and Acceptance Form and in Section 2 of this Prospectus.

The Company is subject to a range of risks which apply to the mining and resources sector including completion of the proposed acquisition, the success of its operations and exploration programs, a loss of key personnel and the price of commodities. These risks and others are discussed in more detail in Section 4 of this Prospectus.

On behalf of the Board of the Company, I thank you for your continued support and I strongly urge you to consider taking up your Entitlement and being part of this exciting new phase in our Company's development.

Yours faithfully

INVESTMENT OVERVIEW

This Section is intended to highlight key information for potential investors. It is an overview only, and is not intended to replace the Prospectus. Potential investors should read the Prospectus in full before deciding to invest in Securities.

Key Information	Further Information
<p>Transaction specific prospectus</p> <p>This Prospectus is a transaction specific prospectus for an offer of continuously quoted securities (as defined in the Corporations Act) and has been prepared in accordance with section 713 of the Corporations Act. It does not contain the same level of disclosure as an initial public offering prospectus. In making representations in this Prospectus regard has been had to the fact that the Company is a disclosing entity for the purposes of the Corporations Act and certain matters may reasonably be expected to be known to investors and professional advisers whom potential investors may consult.</p>	Section 5.4
<p>Risk factors</p> <p>Potential investors should be aware that subscribing for Securities in the Company involves a number of risks. The key risk factors of which investors should be aware are set out in Section 4, including (but not limited to) risks in respect of:</p> <ul style="list-style-type: none"> • <i>Completion of Acquisition and integration risk</i> <p>As announced on 29 March 2018, the Company has entered into a final framework agreement with Coffee House Group and Lodestone Equities Limited to acquire the issued capital of Lodestone and its subsidiaries (Acquisition). Lodestone owns tenements in close proximity to the Company's existing tenements. As disclosed, Coffee House Group and Lodestone are entities associated with the Company's chairman, Mr Gordon Toll. The framework agreement does not create any legally binding obligation on the parties to proceed with the Acquisition until a formal share sale agreement is executed. The framework agreement (among other things as summarised in the 29 March 2018 announcement) provides that the Acquisition is subject to shareholder approval and, as mentioned above, that formal agreements, including a share sale agreement, are required to be executed before the transaction can proceed. There is a risk that the Acquisition will not proceed if the parties are unable to negotiate the final form of transaction documents or shareholders do not approve the Acquisition.</p> <p>If the Company proceeds with the Acquisition, the prospects and results of the Company will depend on the success of management in integrating the acquisition of Lodestone. There is no guarantee that the Company will be able to integrate this new Acquisition into the Company successfully, or that any economic benefits will be able to be realised from the integration.</p>	Section 4

Key Information	Further Information
<p>In addition, the Acquisition or any other acquisition or transaction may have other transaction specific risks associated with it, including risks related to the completion of the transaction, the project or the jurisdictions in which the project is located.</p> <ul style="list-style-type: none"> <p><i>Exploration stage and success</i></p> <p>The Company is not at the development stage. There can be no assurance that exploration of the tenements currently held by the Company, or any other tenements that may be acquired in the future by the Company via the Acquisition or otherwise, will result in the discovery of an economic deposit. Investors should understand that mineral exploration and any subsequent development are high-risk undertakings.</p> <p>Despite the best efforts of the Company, there is no guarantee of exploration success, and even if there is exploration success, there is no guarantee that development of any such success will be commercially viable. The current and future operations of the Company will be affected by a range of factors. If exploration is successful, there will be additional costs and processes involved in moving to the development phase.</p> <p><i>Future capital requirements</i></p> <p>The Company's activities will require substantial expenditure. There can be no guarantees that the funds raised through the Rights Issue will be sufficient to successfully achieve all the objectives of the Company's overall business strategy. If the Company is unable to use debt or equity to fund development after the substantial exhaustion of the net proceeds of the Rights Issue, there can be no assurances that the Company will have sufficient capital resources for that purpose, or other purposes, or that it will be able to obtain additional resources on terms acceptable to the Company or at all. Any additional equity financing may be dilutive to Shareholders and any debt financing if available may involve restrictive covenants, which may limit the Company's operations and business strategy.</p> <p>The Company's failure to raise capital if and when needed could delay or suspend the Company's business strategy and could have a material adverse effect on the Company's activities.</p> 	
<p>Rights Issue</p> <p>This Prospectus is for a renounceable rights issue of 1 New Share for every 4 existing Shares held by Eligible Shareholders on the Record Date at an issue price of \$0.015 per New Share to raise up to approximately \$2 million (before costs). 1. Details of the Offers

1.1 Rights Issue

The Company is making a renounceable pro rata offer of ordinary fully paid Shares (**New Shares**) at an issue price of \$0.015 each to Eligible Shareholders on the basis of one (1) New Share for every four (4) Shares held at 5:00pm (WST) on the Record Date, together with one (1) Attaching Option for every New Share issued (**Rights Issue**). The Attaching Options are intended to be quoted and will be exercisable at \$0.05 each on or before 31 May 2021.

The Lead Manager and Underwriter is CPS Capital Group Pty Ltd (ACN 088 055 636) (**CPS Capital**) and CPS Capital has agreed to underwrite the Rights Issue by subscribing for any shortfall up to the value of \$1 million (66,666,667 New Shares). Please refer to Section 5.3 for more details.

At the date of this Prospectus the Company has on issue 558,894,264 Shares and 103,300,000 unquoted Options with various exercise prices (\$0.02 to \$0.10) and expiry dates (31 October 2018 to 30 November 2022).

On the assumption that no Options are exercised before the Record Date, the Company proposes to offer approximately 139,723,566 New Shares under the Rights Issue, subject to rounding. If all of the unquoted Options were exercised before the Record Date, approximately 165,548,566 New Shares would be offered under the Rights Issue.

Where the determination of the Entitlement of any Eligible Shareholder results in a fraction of a Share, such fraction will be rounded up to the nearest whole Share.

New Shares issued under the Rights Issue will be issued as fully paid ordinary shares and will rank equally in all respects with the existing ordinary shares on issue. Further details on the rights and liabilities attaching to the New Shares proposed to be issued under the Rights Issue are contained in Section 5.1. Attaching Options issued under the Rights Issue will be issued on the terms and conditions contained in Section 5.2.

1.2 Underwriting

The Rights Issue is partially underwritten by CPS Capital to \$1 million (66,666,667 New Shares). Please refer to Sections 5.3 and 5.10 for further details.

1.3 Shortfall Offer

Any New Shares and Attaching Options not applied for by the Closing Date will become Shortfall Securities. Directors reserve the right to issue any Shortfall Securities within 3 months after the Closing Date (**Shortfall Offer**).

The Shortfall Offer is, to the extent it is made in Australia, made under this Prospectus. To the extent the Shortfall Offer is made outside Australia, the Shortfall Offer is made without disclosure, a prospectus, lodgement, filing or registration, or other requirements of any applicable securities law, and only in circumstances where it is lawful to do so (such as to institutional or sophisticated investors). Persons outside Australia who apply for Shortfall Securities represent to the Company that they can apply for Shortfall Securities in circumstances which do not require the offer for Shortfall Securities or this Prospectus to be registered.

Eligible Shareholders may apply for Shortfall Securities by completing the Entitlement and Acceptance Form in accordance with the instructions set out on that form. Investors who are not Eligible Shareholders may apply for Shortfall Securities by completing the Shortfall Application Form.

It is possible that there may be no Shortfall Securities available for issue. The Underwriter has the sole right to nominate and determine who is to receive the Underwritten Shortfall Securities, following reasonable consultation with, and due consideration of any comments provided by, the Company.

The Directors reserve the right at their absolute discretion to reject any application for Shortfall Securities or to issue a lesser number of Shortfall Securities than that applied for, and it is an express term of the Shortfall Offer that applicants for Shortfall Securities will be bound to accept a lesser number of Shortfall Securities allocated to them than applied for. If a lesser number is allocated, excess application money will be refunded without interest as soon as practicable.

All Securities issued under the Shortfall Offer shall be issued on the same terms as the Securities being offered under the Rights Issue (including the issue price).

1.4 Opening and Closing Date

For the Rights Issue, the Company will accept Entitlement and Acceptance Forms from the Record Date for determining Entitlements until 5.00pm (WST) on Thursday, 10 May 2018 or such other date as the Directors in their absolute discretion shall determine, subject to the requirements of the Listing Rules (**Closing Date**). If the Closing Date is varied, subsequent dates may also be varied accordingly.

The Shortfall Offer will remain open after the Closing Date for up to 3 months, unless closed earlier at the discretion of the Directors.

1.5 Proposed use of funds

Completion of the Offers will result in an increase in cash at hand of approximately \$1 million (before costs) on an Underwritten Amount basis and \$2 million (before costs) on a full subscription basis. The following indicative table sets out the proposed use of funds raised under the Rights Issue:

Proposed use	Underwritten Amount \$	Full Subscription \$
Completion of proposed acquisition of Lodestone ¹	200,000	200,000
Progress exploration and evaluation activities on the Olary Project	213,344	890,906
Expenses of the Offers ²	181,656	205,094
Working capital ³	405,000	800,000
TOTAL	1,000,000	2,096,000

Notes:

1. See ASX announcement dated 29 March 2018.
2. See Section 5.11 for further details relating to the estimated expenses of the Offers.
3. Working capital includes but is not limited to corporate administration and operating costs and may be applied to additional directors' fees or executive fees, ASX and share registry fees, legal, tax and audit fees, insurance and additional travel costs.

If the Rights Issue is not fully subscribed and the Company only raises the Underwritten Amount, then the funds will be used as per the Underwritten Amount column in the table above. If the amount raised is between the Underwritten Amount and full subscription then funds allocated will be scaled back on a pro-rata basis to the extent possible.

The above is a statement of current intentions at the date of this Prospectus. Intervening events and new circumstances have the potential to affect the manner in which the funds are ultimately applied. The Board reserves the right to alter the way the funds are applied on this basis.

1.6 Effect on control of the Company

The maximum total number of New Shares proposed to be issued under the Offers is approximately 139,723,566 which will constitute 20% of the Shares on issue following completion of the Offers (assuming no other Shares are issued or convertible securities exercised or converted to Shares prior to the Record Date).

The Company is of the view that the Offers will not affect the Control (as defined by section 50AA of the Corporations Act) of the Company.

As at the date of this Prospectus, the Company's chairman, Mr Gordon Toll, is the largest shareholder of the Company with voting power of 19.41% (held directly and indirectly). Mr Toll has indicated to the Company that he intends to procure that his entitlement is fully subscribed and accordingly will not increase his interest as a result of the Rights Issue.

No other shareholder will increase their voting power in the Company to 20% or more under the Rights Issue.

No nominee has been appointed for Ineligible Foreign Shareholders under section 615 of the Corporations Act and, as such, Eligible Shareholders will not be able to rely on the exception for rights issues in item 10 of section 611 of the Corporations Act. Accordingly, when an Eligible Shareholder applies for some or all of their Entitlement, they must have regard to section 606 of the Corporations Act. Eligible Shareholders who may be at risk of exceeding the 20% voting power threshold in section 606 as a result of acceptance of their Entitlement should seek professional advice before completing and returning their Entitlement and Acceptance Form.

As the Rights Issue is renounceable, the Company will appoint CPS Capital to arrange for the sale of Entitlements that would have been given to Ineligible Shareholders and to account to them for the net proceeds of the sale. See Section 1.16 for further details.

The Underwriter presently has no Shares in the Company, and it has indicated that it has no intention of acquiring Shares in the Company prior to the Record Date. CPS Capital has agreed to partially underwrite the Rights Issue for up to \$1,000,000 (66,666,667 New Shares).

The Underwriter's maximum potential relevant interest in Shares and voting power in the Company under several scenarios are set out in the table below and are based on the assumptions that:

- (a) no further Shares are issued; and
- (b) the Underwriter takes up its full Entitlement.

	Total Underwriter Shares	Total Shares	Underwriter voting power
Date of Prospectus	Nil	558,894,264	0%
<i>Entitlement Offer</i>			
• Fully subscribed	Nil	698,617,830	Nil
• 75% subscribed by Shareholders other than the Underwriter	34,930,891	698,617,830	5.0%
• 50% subscribed by Shareholders other than the Underwriter	66,666,667	695,422,714	9.6%
• 25% subscribed by Shareholders other than the Underwriter	66,666,667	660,491,823	10.1%
• Underwritten Shares only	66,666,667	625,560,931	10.7%

CPS Capital has confirmed with the Company that the Underwritten Amount is fully sub-underwritten and, in the event that:

- (i) no Eligible Shareholders take up their rights under this Prospectus; and
- (ii) no Shortfall Securities are issued,

then no sub-underwriter will hold voting power of more than 20%.

1.7 Potential dilution to Shareholders

Eligible Shareholders should note that if they do not participate in the Rights Issue, their holdings are likely to be diluted. Examples of how the dilution may impact Shareholders are set out in the table below:

Holder	Holding as at Record Date	% at Record Date	Entitlement to Shares on 1 for 4 basis	% post-Offers if Entitlement not taken up (Min)	% post-Offers if Entitlement not taken up (Max)
Shareholder 1	90,000,000	16.1	22,500,000	12.9	14.4
Shareholder 2	45,000,000	8.1	11,250,000	6.4	7.2
Shareholder 3	20,000,000	3.6	5,000,000	2.9	3.2
Shareholder 4	10,000,000	1.8	2,500,000	1.4	1.6
Shareholder 5	5,000,000	0.9	1,250,000	0.7	0.8
Shareholder 6	2,500,000	0.4	625,000	0.3	0.4

Note:

1. The dilution effect shown in the table is the maximum percentage on the assumption that those Entitlements not accepted are subsequently placed pursuant to the Directors' reserved discretion. In the event all Entitlements are not accepted and some or all of the resulting Shortfall is not subsequently placed, the dilution effect for each Shareholder not accepting their Entitlement would be a lesser percentage. The dilution effect also assumes that no Securities will be issued, exercised or converted prior to the Record Date.

In the event the Offers are oversubscribed, the Directors reserve the right in their absolute discretion to utilise the Company's 15% placement capacity to issue additional New Shares and Attaching Options pursuant to Listing Rule 7.1.

1.8 Substantial Shareholders

Based on available information as at the date of this Prospectus, those persons which (together with their associates) have a relevant interest in 5% or more of the Shares on issue are set out below:

Substantial Shareholder	Number of Shares	Voting power
Entities associated with Mr Gordon Toll	108,476,509	19.41%
Mango Bay Enterprises Incorporated	45,065,000	8.06%

1.9 Minimum subscription

The minimum subscription amount for the Rights Issue is \$1,000,000 (being the Underwritten Amount).

1.10 Rights trading

The Entitlements under the Rights Issue are renounceable. Accordingly, there will be trading of Entitlements on ASX and you may dispose of your Entitlements to subscribe

for Securities to any other party. If you do not take up your Entitlement to Securities under the Rights Issue by the Rights Issue Closing Date, the Rights Issue to you will lapse.

Trading of Entitlements on ASX is expected to occur in accordance with the timetable.

1.11 Issue date and dispatch

All Securities under the Rights Issue are expected to be issued on or before the date specified in the proposed timetable in this Prospectus.

Security holder statements and CHESS allotment confirmation notices will be dispatched one day after the issue of the Securities under the Rights Issue.

It is the responsibility of Applicants to determine their allocation prior to trading in the Securities. Applicants who sell Securities before they receive their holding statements do so at their own risk.

1.12 Application Monies held on trust

All Application Monies received for the Shares issued by this Prospectus will be held on trust in a bank account maintained solely for the purpose of depositing Application Monies received pursuant to this Prospectus until the Securities are issued under the Offers. All Application Monies received in respect of the Offers will be returned (without interest) if the Securities under the Offers are not issued.

1.13 ASX quotation

Application has been or will be made for the official quotation of the Securities offered by this Prospectus. If permission is not granted by ASX for the official quotation of the Securities offered by this Prospectus within three months after the date of this Prospectus (or such period as ASX allows), the Company will repay, as soon as practicable, without interest, all Application Monies received pursuant to this Prospectus. If Company is unable to meet the ASX quotation conditions for the Attaching Options, the Company will withdraw the Offers.

1.14 CHESS

The Company participates in the Clearing House Electronic Sub-register System known as CHESS. ASX Settlement Pty Limited, a wholly owned subsidiary of ASX, operates CHESS in accordance with the Listing Rules and the ASX Settlement Operating Rules.

Under CHESS, Applicants will not receive a certificate but will receive a statement of their holding of Securities pursuant to their acceptance of the Offers.

Shareholders who are broker sponsored will receive a CHESS statement from ASX Settlement Pty Limited.

The CHESS statement will specify the number of Securities issued under this Prospectus, provide details of your holder identification number, the participant identification number of the sponsor and the terms and conditions applicable to the Securities.

If you are registered on the Issuer Sponsored sub-register, your statement will be despatched by Computershare Investor Services Pty Limited and will contain the

number of Securities issued to you under this Prospectus and your security holder reference number.

A CHESS statement or Issuer Sponsored statement will routinely be sent to Security holders at the end of any calendar month during which the balance of their Security holding changes. Security holders may request a statement at any other time; however, a charge may be made for additional statements.

1.15 Ineligible Foreign Shareholders

This Prospectus, and any accompanying Entitlement and Acceptance Form, do not, and is not intended to, constitute an offer of Securities in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus or the Securities under the Rights Issue.

The distribution of this Prospectus in jurisdictions outside Australia and New Zealand may be restricted by law and persons who come into possession of this Prospectus should seek advice on and observe any such restrictions. Any failure to comply with such restrictions may constitute a violation of applicable securities laws.

The Company believes that it is unreasonable to extend the Rights Issue to Ineligible Foreign Shareholders. The Company has formed this view having considered:

- (a) the number and value of the Securities that would be offered to those Shareholders; and
- (b) the cost of complying with the legal requirements and the requirements of regulatory authorities in the overseas jurisdictions.

Accordingly, Ineligible Foreign Shareholders will not be entitled to participate in the Rights Issue. CPS Capital has been appointed to arrange for the sale of the Entitlements that would have been given to Ineligible Foreign Shareholders and to account for them for the net proceeds of the sale (see Section 1.16 for further details).

1.16 Sale of Ineligible Foreign Shareholders rights

CPS Capital has been appointed to sell the rights that would otherwise be held by Ineligible Foreign Shareholders.

Pursuant to the arrangement, the Company will place the Entitlements that would otherwise be issued to Ineligible Foreign Shareholders under a local shareholder reference number and then CPS Capital will then sell those Entitlements and provide the proceeds of those sales (net of expenses) back to the Company (or the Share Registry). The Company will then distribute to each of those Ineligible Foreign Shareholders their proportion of the proceeds of the sale net of expenses.

The Company will pay CPS Capital a brokerage fee on the sale of Ineligible Foreign Shareholders Entitlements.

CPS Capital will not be required to individually correspond on any matter with any of the Company's Ineligible Foreign Shareholders.

1.17 New Zealand offer restrictions

The Securities are not being offered or sold to the public within New Zealand other than to existing Shareholders of the Company with registered addresses in New Zealand at the Record Date.

This Prospectus has not been registered, filed with or approved by any New Zealand regulatory authority. This Prospectus is not an investment statement or prospectus under New Zealand law and is not required to, and may not, contain all the information that an investment statement or prospectus under New Zealand law is required to contain.

1.18 Isle of Man

No offer or invitation to subscribe for shares may be made to the public in the Isle of Man.

1.19 Malaysia

This Prospectus may not be distributed or made available in Malaysia. No approval from, or recognition by, the Securities Commission of Malaysia has been or will be obtained in relation to any offer of New Shares and Attaching Options. The New Shares and Attaching Options may not be offered or sold in Malaysia except pursuant to, and to persons prescribed under, Part I of Schedule 6 of the Malaysian Capital Markets and Services Act.

1.20 Notice to nominees and custodians

Nominees and custodians that hold Shares should note that the Rights Issue is available only to Eligible Shareholders. The Company is not required to determine whether or not any registered holder is acting as a nominee or the identity or residence of any beneficial owners of Securities. If any nominee or custodian is acting on behalf of a foreign person, that holder, in dealing with its beneficiary, will need to assess whether indirect participation by the beneficiary in the Rights Issue is compatible with applicable foreign laws.

1.21 Taxation implications

The Directors do not consider it appropriate to give Applicants advice regarding the taxation consequences of subscribing for Securities.

The Company, its advisers and its officers do not accept any responsibility or liability for any such taxation consequences to Applicants. As a result, Applicants should consult their professional tax adviser in connection with subscribing for Securities.

1.22 Major activities and financial information

A summary of the activities and financial information relating to the Company for the financial year ended 30 June 2017 and the half-year ended 31 December 2017 can be found in the Company's 2017 Annual Report and the Half Yearly Report for the six-month period to 31 December 2017 lodged with ASX. The Company's continuous disclosure notices (i.e. ASX announcements) since the lodgement of its Annual Report on 29 September 2017 are listed in Section 5.5.

Copies of these documents are available free of charge from the Company. Directors strongly recommend that potential Applicants review these and all other

announcements prior to deciding whether or not to participate in the Offers.

1.23 Privacy

The Company collects information about each Applicant provided on an Application Form for the purposes of processing the application and, if the application is successful, to administer the Applicant's Security holding in the Company.

By submitting an Application Form, each Applicant agrees that the Company may use the information provided by an Applicant on the Application Form for the purposes set out in this privacy disclosure statement and may disclose it for those purposes to the Share Registry, the Company's related bodies corporate, agents, contractors and third party service providers, including mailing houses and professional advisers, and to ASX and regulatory authorities.

If you do not provide the information required on the Application Form, the Company may not be able to accept or process your application.

An Applicant has an entitlement to gain access to, correct and update the information that the Company holds about that person subject to certain exemptions under law. A fee may be charged for access. Access requests must be made in writing to the Company's registered office.

Collection, maintenance and disclosure of certain personal information is governed by legislation including the *Privacy Act 1988* (Cth) (as amended), the Corporations Act and certain rules such as the ASX Settlement Operating Rules.

2.3 Subscribe for all of your Entitlement and apply for additional Securities

The latest available market sale price of the Shares on ASX prior to the date of lodgement of this Prospectus with the ASIC was \$0.023 per Share on 12 April 2018.

3.4 Dividend Policy

The Directors are not able to say when and if dividends will be paid in the future, as the payment of any dividends will depend on the future profitability, financial position and cash requirements of the Company.

4. Risk Factors

An investment in Securities offered by this Prospectus should be regarded as speculative. Activities in the Company, as in any business, are subject to risks which may impact on the Company's future performance. The Company has implemented appropriate strategies, actions, systems and safeguards for known risks, however some are outside its control.

The Directors consider that the following summary, which is not exhaustive, represents some of the major risk factors which prospective investors need to be aware of in evaluating the Company's business and the risks of investing in the Company. Prospective investors should carefully consider the following factors in addition to the other information presented in the Prospectus.

The principal risks include, but are not limited to, the following:

4.1 Risks specific to the Company

(a) Completion of Acquisition and integration risk

As announced on 29 March 2018, the Company has entered into a final framework agreement with Coffee House Group and Lodestone Equities Limited to acquire the issued capital of Lodestone and its subsidiaries (**Acquisition**). Lodestone owns tenements in close proximity to the Company's existing tenements. As disclosed, Coffee House Group and Lodestone are entities associated with the Company's chairman, Mr Gordon Toll. The framework agreement does not create any legally binding obligation on the parties to proceed with the Acquisition until a formal share sale agreement is executed.

The framework agreement (among other things as summarised in the 29 March 2018 announcement) provides that the Acquisition is subject to shareholder approval and, as mentioned above, that formal agreements, including a share sale agreement, are required to be executed before the transaction can proceed. There is a risk that the Acquisition will not proceed if the parties are unable to negotiate the final form of transaction documents or shareholders do not approve the Acquisition. As the parties are yet to complete formal documentation, there is also a risk that the terms of the proposed Acquisition set out in the final framework agreement differ to those in the formal agreements that will be legally binding.

If the Company proceeds with the Acquisition, the prospects and results of the Company will depend on the success of management in integrating the acquisition of Lodestone. There is no guarantee that the Company will be able to integrate this new Acquisition into the Company successfully, or that any economic benefits will be able to be realised from the integration.

In addition, the Acquisition or any other acquisition or transaction may have other transaction specific risks associated with it, including risks related to the completion of the transaction, the project or the jurisdictions in which the project is located.

(b) Exploration stage and success

The Company is not at the development stage. There can be no assurance that exploration of the tenements currently held by the Company, or any other

tenements that may be acquired in the future by the Company via the Acquisition or otherwise, will result in the discovery of an economic deposit. Investors should understand that mineral exploration and any subsequent development are high-risk undertakings.

Despite the best efforts of the Company, there is no guarantee of exploration success, and even if there is exploration success, there is no guarantee that development of any such success will be commercially viable. The current and future operations of the Company will be affected by a range of factors. If exploration is successful, there will be additional costs and processes involved in moving to the development phase.

(c) Operating and project risks

The business of mineral exploration and mining involves risks and hazards. For example, in an exploration context no assurance can be given that ore bodies will be detected with preferred or desirable tonnages or grades. High risk and substantial expense can be incurred without the requisite or expected degree of reward. Even if commercial quantities of ore are discovered, unforeseen risks can arise in the development and production phase including mining or processing issues, environmental hazards, industrial and environmental accidents, industrial disputes and unexpected shortages or increases in the costs of consumables, labour forced disruption, the unavailability of materials and plant and equipment, mechanical failure or plant breakdown, unusual or unexpected geological formation, pit failures, changes in the regulatory environment and weather conditions. Such occurrences could result in damage to, or destruction of, mineral properties or production facilities, personal injury or death, environmental damage, delays in mining, monetary losses and possible legal liability.

(d) Future capital requirements

The Company's activities will require substantial expenditure. There can be no guarantees that the funds raised through the Rights Issue will be sufficient to successfully achieve all the objectives of the Company's overall business strategy. If the Company is unable to use debt or equity to fund development after the substantial exhaustion of the net proceeds of the Rights Issue, there can be no assurances that the Company will have sufficient capital resources for that purpose, or other purposes, or that it will be able to obtain additional resources on terms acceptable to the Company or at all. Any additional equity financing may be dilutive to Shareholders and any debt financing if available may involve restrictive covenants, which may limit the Company's operations and business strategy.

The Company's failure to raise capital if and when needed could delay or suspend the Company's business strategy and could have a material adverse effect on the Company's activities.

(e) Key personnel risks

The Company's success depends to a significant extent upon its key management personnel, as well as other management and technical personnel including sub-contractors. Although the Company enters into employment and incentive arrangements with its personnel to secure their services, it cannot guarantee the retention of their services.

There can be no assurance given that there will be no detrimental impact on the Company if one or more of these people cease their engagement. The Company's inability to recruit additional appropriate skilled and qualified personnel to replace these key personnel could have an adverse effect on the Company. There can be no guarantee that personnel with the appropriate skills will be available within the Company's required timeframes.

(f) Commodity price volatility and exchange rates risks

In the event that the Company achieves exploration success, the revenue it will derive through the sale of commodities exposes the potential income of the Company to commodity price and exchange rate risks. Commodity prices fluctuate and are affected by many factors beyond the control of the Company. Such factors include supply and demand fluctuations for commodities, technological advancements, forward selling activities and other macro-economic factors. Furthermore, international prices of various commodities and some services are denominated in United States dollars, whereas the income and expenditure of the Company are and will be taken into account in Australian currency. This exposes the Company to the fluctuations and volatility of the rates of exchange between the United States dollar and the Australian dollar, as determined by international markets.

(g) Tenement title

The Company's title to its tenements generally requires the Company to continue to satisfy its expenditure or work commitments. The Company currently has no reason to believe that it will not satisfy those commitments. However, this cannot be guaranteed.

Interests in tenements in Australia are governed by federal and state legislation and are evidenced by the granting of licences. Each licence is for a specific term and carries with it annual expenditure and reporting commitments, as well as other conditions requiring compliance, such as satisfaction of statutory payments (including land taxes and statutory duties) and compliance with work programmes and public health and safety laws. Consequently, the Company could lose title to or its interest in tenements if licence conditions are not met or if insufficient funds are available to meet expenditure commitments as and when they arise.

Further, mining and exploration tenements, once granted, are subject to periodic renewal. There is no guarantee that current or future tenement renewals will be approved. Renewal of the term of a granted tenement is at the discretion of the relevant government authority and may include additional or varied expenditure or work commitments or compulsory relinquishment of the areas comprising the Company's projects. The imposition of new conditions or the inability to meet those conditions may adversely affect the operations, financial position and/or performance of the Company.

(h) Litigation and counterparty risks

The Company is not currently involved in any litigation, however like any corporation operating in a commercial setting, the Company is exposed to potential legal and other claims or disputes in the course of its business, including litigation from employees, regulators or other third parties. As with all litigation, there are risks involved. An adverse outcome in litigation or the

cost of responding to potential or actual litigation may have a material adverse impact on the financial performance of the Company.

In addition, there is a risk of financial failure or default by a participant in any joint venture to which the Company is or may become a party, or the insolvency or managerial failure by any of the contractors or other suppliers used by the Company in any of its activities, or that any of those agreements are terminated in accordance with their terms. There is also a risk of legal or other disputes between the Company and co-venturers or contractors or others suppliers.

(i) **Convertible note dilution risk**

As announced on 31 August 2015 and 14 December 2016, the Company issued 100 unsecured convertible notes, each with a deemed value of \$25,000 and aggregate value of \$2.5 million, to Mintech Resources. The terms of the convertible notes provide that the Company may elect to convert all or some of the convertible notes held by providing a conversion notice to Mintech Resources (**Conversion Notice**). Should the Company elect to convert the convertible notes, the Shares to be issued pursuant to the convertible notes will be issued at a price being 100% of the volume weighted average price on the Business Day immediately before the Company provides the Conversion Notice to Mintech Resources (**Convertible Note Shares**). Accordingly, should the Company elect to convert the convertible notes into Shares of the Company, this may result in significant dilution for Shareholders. However, it is likely the Company will require Shareholder approval prior issuing any Convertible Note Shares.

(j) **Liquidity and volatility**

An investment in New Shares should be regarded as speculative. The Company also has a relatively small Shareholder base. As a consequence there is a risk, particularly in times of share market turbulence or negative investor sentiment, that there will not be a highly liquid market for Shares or that the price of Shares may decrease considerably. There may be relatively few buyers or sellers of securities on ASX at any given time and the market price may be highly volatile. This may result in Shareholders wishing to sell their Shares at such a time receiving a market price for their Shares that is considerably less than the price paid under the Rights Issue.

The past performance of the Company is not necessarily an indication as to future performance of the Company as the trading price of Shares can go up or down.

4.2 Risks associated with mining exploration and operations

Mineral exploration, development and mining may be hampered by circumstances beyond the control of the Company and are speculative operations which by their nature are subject to a number of inherent risks, including those summarised in the section below.

(a) **Exploration risks**

Exploration is a high-risk activity that requires large amounts of expenditure over extended periods of time. The Company's exploration activities are subject to all the hazards and risks normally encountered in the exploration

of minerals, including climatic conditions, hazards of operating vehicles and plant, risks associated with operating in remote areas and other similar considerations. Conclusions drawn during mineral exploration are subject to the uncertainties associated with all sampling techniques and to the risk of incorrect interpretation of geological, geochemical, geophysical, drilling and other data.

Further, the costs of the Company's exploration activities may materially differ from its estimates and assumptions. No assurance can be given that the Company's cost estimates and the underlying assumptions will be realised in practice, which may materially and adversely affect the value of the Company's Shares.

(b) Resource and reserve estimates

Resource and reserve estimates are expressions of judgements based on knowledge, experience and industry practice. Estimates that are valid when made may change significantly when new information becomes available through drilling, sampling and similar examinations.

In addition, resource and reserve estimates are necessarily imprecise and depend to some extent on geological interpretations, as well as various economic, commercial, technical, environmental and legal assumptions which may prove to be inaccurate.

Should the Company encounter mineralisation or formations different from those predicted, resource estimates may have to be adjusted and mining plans may have to be altered in a way which could adversely affect the Company's operations.

(c) Regulatory risks

Changes in legislative and administrative regimes, taxation laws, interest rates, other legal and government policies in Australia may have an adverse effect on the assets, operations and ultimately the financial performance of the Company and the market price of Shares.

Exploration and prospective production are dependent upon the granting and maintenance of appropriate licences, permits and regulatory consents and authorisations, which may not be granted or may be withdrawn or by made subject to limitations at the discretion of government or regulatory authorities. Although the authorisations may be renewed following expiry or grant (as the case may be), there can be no assurance that such authorisations will be continued, renewed or granted, or as to the terms of renewals or grants. If the Company cannot obtain or retain the appropriate authorisations or there is a material delay in obtaining or renewing them or they are granted subject to onerous conditions, then the Company's ability to conduct its exploration or development operations may be adversely affected.

(d) Environmental risks

The Company's operations and activities are subject to the environmental laws of Australia and any other places the Company may conduct business. As with most exploration projects, the Company's operations and activities are expected to have an impact on the environment, particularly if advanced exploration or mine development proceeds. The Company attempts to

conduct its operations and activities to the highest standard of environmental obligation, including compliance with all environmental laws and regulations. However, non-compliance with or breach of any conditions attached to the Company's mining or environmental licences may lead to penalties and/or revocation of the licence, and significant liability could be imposed on the Company for damages, clean-up costs or penalties in the event of certain environmental damage. This would require the Company to incur significant costs and may result in an adverse impact on the Company's cash flows, financial position and performance.

Further, the Company is unable to predict the effect of additional environmental laws and regulations which may be adopted in the future, including whether any such laws or regulations would materially increase the Company's cost of doing business or affect its operations in any area. There can be no assurances that new environmental laws, regulations or stricter enforcement policies, once implemented, will not oblige the Company to incur significant expenses and undertake significant investments which could have a material adverse effect on the Company's operations, financial position and performance.

(e) Insurance risks

Company will endeavour to maintain insurance within ranges of coverage in accordance with industry practice. However, in certain circumstances, the Company's insurance may not be of a nature or level to provide adequate cover. The occurrence of an event that is not covered or fully covered by insurance could have an adverse effect on the Company's operations and financial position and performance.

Insurance of risks associated with minerals exploration is not always available and, where available, the costs can be prohibitive. There is a risk that insurance premiums may increase to a level where the Company considers it is unreasonable or not in its interests to maintain insurance cover or not to a level of coverage that is in accordance with industry practice. The Company will use reasonable endeavours to insure against the risks it considers appropriate for the Company's needs and circumstances. However, no assurance can be given that the Company will be able to obtain such insurance coverage in the future at reasonable rates or that any coverage it arranges will be adequate and available to cover claims.

4.3 General Risks

(a) Discretion in use of capital

The Board and the Company's management have discretion concerning the use of the Company's capital resources as well as the timing of expenditures. Capital resources may be used in ways not previously anticipated or disclosed. The results and the effectiveness of the application of capital resources are uncertain. If they are not applied effectively, the Company's financial and/or operational performance may suffer.

(b) Investment in capital markets

As with all stock market investments, there are risks associated with an investment in the Company.

Securities listed on the stock market, and in particular securities of mining and exploration companies, have experienced extreme price and volume fluctuations that have often been unrelated to the operating performances of such companies. These factors may materially affect the market price of Shares regardless of the Company's performance. The price of Shares might trade below or above the issue price for the New Shares.

(c) **General economic conditions**

The operating and financial performance of the Company is influenced by a variety of general economic and business conditions, including levels of consumer spending, oil prices, inflation, interest rates and exchange rates, supply and demand, industrial disruption, access to debt and capital markets and government fiscal, monetary and regulatory policies. Changes in general economic conditions may result from many factors including government policy, international economic conditions, significant acts of terrorism, hostilities or war or natural disasters. A prolonged deterioration in general economic conditions, including an increase in interest rates or a decrease in consumer and business demand, could be expected to have an adverse impact on the Company's operating and financial performance and financial position.

The Company's future possible revenues and Share prices may be affected by these factors, which are beyond the control of the Company.

4.4 Investment Speculative

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company.

The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the Securities. Shareholders should consider that the investment in the Company is high risk and should consult their professional adviser before deciding whether to apply for Securities pursuant to this Prospectus.

5. Additional information

5.1 Rights and liabilities attaching to Shares

A summary of the rights attaching to Shares in the Company is below. This summary is qualified by the full terms of the Constitution (a full copy of the Constitution is available from the Company on request free of charge) and does not purport to be exhaustive or to constitute a definitive statement of the rights and liabilities of Shareholders. These rights and liabilities can involve complex questions of law arising from an interaction of the Constitution with statutory and common law requirements. For a Shareholder to obtain a definitive assessment of the rights and liabilities which attach to Shares in any specific circumstances, the Shareholder should seek legal advice.

(a) Issue of Shares

The issue of Shares in the capital of the Company and the options over unissued Shares by the Company is under the control of the Directors, subject to the Corporations Act and Listing Rules.

(b) Voting

A poll may be demanded by the chairman of the meeting, by any five Shareholders present in person or by proxy, attorney or representative, or by any one or more Shareholders who are together entitled to not less than 5% of the total voting rights of, or paid up value of, the Shares of all those Shareholders having the right to vote at that meeting.

(c) Dividends

The Directors may refuse to register any transfer of Shares, other than a proper market transfer, where permitted by the Listing Rules or the ASX Settlement Rules. The Company must not refuse to register or give effect to or delay or in any way interfere with a proper ASX transfer of Shares or other securities.

(e) **Meetings and notice**

Each Shareholder is entitled to receive notice of, and to attend, general meetings of the Company and to receive all notices, accounts and other documents required to be sent to Shareholders under the Constitution, the Corporations Act and the Listing Rules.

(f) **Rights on winding up**

The Company has only issued one class of Shares, which all rank equally in the event of liquidation. Once all the liabilities of the Company are satisfied, a liquidator may, with the authority of a special resolution of Shareholders divide the whole or any part of the remaining assets of the Company. The liquidator can with the sanction of a special resolution of the Company's Shareholders vest the whole or any part of the assets in trust for the benefit of Shareholders as the liquidator thinks fit, but no Shareholder of the Company can be compelled to accept any Shares or other securities in respect of which there is any liability.

(g) **Shareholder Liability**

As the Shares are not subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

- (h) The number and exercise price of the Attaching Options remains the same regardless if the Company makes a bonus issue of Shares or other Securities to Shareholders.

- (i) If there is a reorganisation (including consolidation, sub-division, reduction or return) of the share capital of the Company, then the rights of the Attaching Option holder (including the number of Attaching Options to which the Attaching Option holder is entitled to and the exercise price) is changed to the extent necessary to comply with the Listing Rules applying to a reorganisation of capital at the time of the reorganisation.

5.4 Company is a disclosing entity

The Company is a disclosing entity under the Corporations Act. It is subject to regular reporting and disclosure obligations under both the Corporations Act and the Listing Rules. These obligations require the Company to notify ASX of information about specific events and matters as they arise for the purpose of ASX making the information available to the securities market conducted by ASX. In particular, the Company has an obligation under the Listing Rules (subject to certain limited exceptions), to notify ASX once it is, or becomes aware of information concerning the Company which a reasonable person would expect to have a material effect on the price or value of the Shares.

The Company is also required to prepare and lodge with ASIC yearly and half-yearly financial statements accompanied by a Directors' statement and report, and an audit

(b) **Remuneration of Directors**

The maximum total amount of directors' fees for the non-executive Directors shall, subject to any resolution of a general meeting, be fixed by the Directors. The Board may allocate this pool (or part of it) at its discretion.

The remuneration of executive Directors is to be fixed by the Board, without the affected executive Director participating in that decision-making process, and must not be calculated as a commission on, or a percentage of, operating revenue.

A Director may also be paid fees or other amounts as the Directors determine where a Director performs special duties or otherwise performs services outside the scope of the ordinary duties of a Director. A Director may also be reimbursed for out of pocket expenses incurred as a result of their directorship or any special duties.
