The release of this announcement has been authorised by Ben Donovan, Company Secretary.

## About Koonenberry Gold

Koonenberry Gold Ltd is a minerals explorer based in Australia, aiming to create value for shareholders through exploration within the Company's 100%-owned Koonenberry Gold Project. The Project is located in north-western New South Wales, approximately 160km north-east of the major mining and cultural centre of Broken Hill and 40km west of the opal mining town of White Cliffs. Good access is available via main roads connecting Broken Hill, White Cliffs and Tibooburra. Acquired in 2017, and with an IPO in 2021, the Project covers approximately 1,339km<sup>2</sup> of granted ELs in a consolidated tenement package and a further 727km<sup>2</sup> of ELAs.

With abundant evidence of high-grade mineralisation in multiple bedrock sources and a pipeline of emerging targets, the tenement package offers a compelling regional scale discovery opportunity in an underexplored and emerging province. Koonenberry Gold holds a dominant position in the Koonenberry Belt in NSW which is believed to be an extension of the Stawell Zone in Western Victoria and therefore has the potential for the discovery of significant gold deposits.

Koonenberry Gold Prospects and pipeline of discovery opportunities.
