

EVP R&D DR MITCHELL GLASS, AND DR MARIO CASTRO OF WASHINGTON UNIVERSITY

**DISCUSS WITH BRR MEDIA THE INV102 (ORAL NADOLOL) DATA PRESENTED TO
AMERICAN THORACIC SOCIETY MEETING IN DENVER, COLORADO**

Brisbane, Australia and Delaware, United States, 19 May 2015: Australian respiratory technology company Invision Limited (ASX: IVX) is delighted to invite investors to listen to Invision's Dr Mitchell Glass and Dr Mario Castro of Washington University discuss INV102 (oral nadolol) data that has been presented to international medical experts at a prestigious US pulmonary conference, the American Thoracic Society (ATS) Meeting.

In this audiocast, Drs Glass and Castro discuss:

- Invision's fully recruited phase 2 trial of INV102 (oral nadolol) in patients with chronic cough, and how can nadolol potentially help smokers to quit
- Why this trial important for other respiratory diseases like asthma and COPD
- Next steps for this clinical program

About Invision Limited

Invision is a life sciences company focussed on the development of treatments for major opportunities in respiratory disease and autoimmune disease. The Group has three drug assets in development, and three phase II clinical trials, regulated by the Food & Drug Administration (FDA), currently underway in the United States. INV102 (nadolol), a beta blocker (beta adrenergic inverse agonist) currently used to treat high blood pressure and migraine, is being repurposed to treat chronic inflammatory airway diseases, including asthma and chronic obstructive pulmonary disease (COPD). INV104 (zafirlukast) is a leukotriene receptor antagonist (LTRA) that reduces inflammation, constriction of the airways, and the build-up of mucus in the lungs. INV103 (ala-Cpn10) is a modified, naturally occurring human protein which has been proposed as a founding member of the Resolution Associated Molecular Pattern (RAMPs) family hypothesised to maintain and restore immune homeostasis. Invision is an ASX listed company (ASX:IVX), with its clinical headquarters in Delaware, USA.
