This Document is not a Prospectus nor an Offer to Subscribe for Shares.

Mount Gibson Iron Limited and its subsidiaries (ASX:MGX, "MGX") makes no representations or warranty (express or implied) as to the accuracy, reliability or completeness of this document. MGX and its respective directors, employees, agents and consultants shall have no liability (including liability to any person by reason of negligence or negligent misstatement) for any statements, opinions, information or matters (expressed or implied) arising out of, or contained in or derived from, or for any omissions from this document, except liability under statute that cannot be excluded.

This document contains reference to certain forecasts, projections, intentions, expectations and plans of MGX, which may or may not be achieved. They are based on certain assumptions which may not be met or on which views may differ.

The performance and operations of MGX may be influenced by a number of factors, uncertainties and contingencies many of which are outside the control of MGX and its directors.

No representation or warranty (expressed or implied) is made by MGX or any of its respective directors, officers, employees, advisers or agents that any forecasts, projections, intentions, expectations or plans set out in this document will be achieved, either totally or partially, or that any particular rate of return will be achieved.

Investments in shares in MGX are considered highly speculative.

Business Overview

Koolan Island shiploading

Kimberley Region

Koolan Island

- Australia's highest grade direct shipping ore (DSO) hematite iron ore mine, with Ore Reserves of **18.7 Mt grading 65.2% Fe***.
- Ore sales guidance of **1.8-2.1 Mwmt** for FY2021.
- Waste stripping investment phase in next 12 months.
- Sales & cashflow to rise significantly from FY2022.

Mid-West Region

Shine Project, Extension Hill, Geraldton Port

- Shine Iron Ore Project progressing to targeted first ore sales in mid-2021.
- Successful Extension Hill low grade sales program extended to late 2020 targeting **1.0-1.2 Mwmt** in FY2021.
- Mid-West rail refund stream accruing at ~\$2 million/quarter, based on third party rail volumes on segments of the Mid-West network. Capped at \$35M (indexed), with ~\$11 million earned to date as at 30 June 2020.

* Refer Mineral Resources and Ore Reserves slide at the end of this presentation.

Corporate Overview

Issued shares	1,186 million shares
Market capitalisation	A\$890 million (\$0.75/share)
Cash/investments	A\$445 million (30 September 2020)
Bank Borrowings	Nil
Index	ASX-300
Dividends	A\$309 million (fully franked) paid since 2011

Shareholder Distribution (% issued shares at 30 Sept 2020)

- APAC Resources
- Australia/NZ Institutions
- Shougang Fushan
- Australian/NZ Retail
- North America
- UK & Europe
- Directors & Management
- Other
- Asia/Middle East

Board and Management

- Lee Seng Hui – *Non-Executive Chairman*
- Simon Bird – *Lead Independent Non-Executive Director*
- Russell Barwick – *Independent Non-Executive Director*
- Paul Douglas – *Independent Non-Executive Director*
- Alan Jones – *Independent Non-Executive Director*
- Ding Rucai – *Non-Executive Director*
- Peter Kerr - *CEO*
- Mark Mitchell - *COO*
- Gill Dobson - *CFO*
- David Stokes - *Co. Sec. & General Counsel*

2019/20 Financial Year in brief

(Year ended 30 June 2020; all currency in Australian dollars unless stated otherwise)

- Total iron ore sales of **4.9 million wet metric tonnes** (Mwmt), comprising 2.3 Mwmt of Koolan Island high grade fines and 2.6 Mwmt of Mid-West low grade material.
- **Positive first year of high-grade sales** (average **65.6% Fe**) from the restarted Koolan Island operation.
- Net profit after tax of **\$84 million**.
- Cash and liquid investments of **\$423 million** at 30 June 2020, and no borrowings.
- **Successful Mid-West low grade sales program extended** to late 2020, and **Shine Project** progressing toward first ore sales in mid-2021.
- **Final dividend** for 2019/20 of **3.0 cents per share fully franked**, taking total fully franked dividends paid since late 2011 to **\$309 million**.

Positive start in September 2020 Quarter

- Total iron ore sales of **1.4 Mwmt** comprising:
 - **0.7 Mwmt** of Koolan Island high grade fines.
 - **0.7 Mwmt** of Mid-West low grade material.
- Group cashflow of **\$32 million**.
- Group unit cash costs of **\$56/wmt** before Koolan Island advanced waste stripping investment of \$24 million.
- Cash and liquid investments increased to **\$445 million** at 30 September 2020, and no borrowings.
- **Koolan Island Airstrip operational**, passenger jet services commenced mid-October 2020.

** Group cash costs are reported FOB and include operating costs, royalties, sustaining capital expenditure and allocated corporate costs, and are before waste stripping investment and capital improvement projects.*

Market Conditions

Iron Ore Pricing

Iron Ore Price
(US\$/dmt CFR North China)

Grade-adjusted HG Premium / LG Discount
(% per dmtu relative to 62% index)

- Prices across all product types have remained elevated on the back of strong Chinese demand for steel, and ongoing mine supply disruption.
- Brazilian supply adversely impacted by the COVID-19 pandemic and regulatory restrictions related to tailings dam management.
- Premiums and discounts have narrowed as prices have risen above US\$100/dmt CFR, in line with historical trends.
- Iron ore prices continue to look well supported.
- Koolan Island provides MGX with the ability to capture premium (+65% Fe) prices, at all price levels.
- Demand for lower grade products remains strong, supporting remaining sales from Extension Hill and the outlook for Shine.

Koolan Island

Australia's highest-grade DSO iron ore mine

Main Pit looking west, August 2020

Koolan Island

A premium quality orebody

Koolan Main Pit - Mineral Resources and Ore Reserves					
	Tonnes millions	Fe %	SiO ₂ %	Al ₂ O ₃ %	P %
Mineral Resources, reported above 50% Fe					
Measured	2.7	60.1	13.40	0.34	0.007
Indicated	30.0	65.6	4.83	0.67	0.012
Inferred	5.3	61.4	11.10	0.76	0.010
Total Resources	38.0	64.6	6.30	0.66	0.011
Ore Reserves, reported above 50% Fe					
Proved	0.2	58.5	15.61	0.45	0.006
Probable	18.5	65.3	4.86	0.88	0.013
Total Reserves	18.7	65.2	4.96	0.88	0.013
<i>Discrepancies may appear due to rounding. Mineral Resources are reported inclusive of Ore Reserves. All tonnages have been estimated as dry tonnages.</i>					

- High grade hematite iron ore (65.2% Fe).
- Low contaminants (particularly alumina and phosphorus).
- Well understood orebody, consistent grade and width.
- Sought-after product.
- Production sold under life-of-mine offtakes.

Chart sources: Mount Gibson Iron, public/company reports, Citi Research, Platts and Metals Market Index. MGX Koolan Island and Shine DSO reflects current Ore Reserves, Shine sales targeted from mid-2021. Other ores depicted represent fines products from other WA producers including Rio Tinto, BHP, FMG, Roy Hill, Atlas (now Hancock), and Mineral Resources. Refer slides at the end of this presentation for MGX Mineral Resources and Ore Reserves information.

Koolan Island

Positive start to FY2021

- Progressing through waste stripping investment phase of the life-of-mine plan, with ore production and cashflow to rise significantly from FY2022.
- Ore sales guidance of **1.8–2.1 Mwmt** at a cash cost* of **\$60-65/wmt** FOB before advanced waste stripping investment (~\$100m) and capital improvement projects (~\$20m, mostly for crushing circuit upgrade).
- Strong September 2020 quarter:
 - 9 shipments totalling **0.7 Mwmt** of high-grade fines;
 - **\$66/wmt** FOB cash cost before \$24 million advanced waste stripping; and
 - Average realised price of **US\$104/dmt** FOB.
- Shipments will reduce in the November-March period (peak waste cycle) and are scheduled to increase in June 2021 quarter.
- Crushing circuit upgrade will accommodate increased crushing needs from end-FY2021 as ore production accelerates.
- Potential life extension opportunities under evaluation.

**Site cash costs include operating costs, sustaining capital and royalties, before Koolan advance waste stripping and capital projects costs. All currency in Australian dollars unless stated otherwise.*

Koolan Island

Site layout

Koolan Island is located in Yampi Sound in the Buccaneer Archipelago off the northern Kimberley coast of Western Australia, approximately 140 kilometres north of Derby.

Koolan Island

Main Pit Operations

Looking west over mining operations in eastern end of Main Pit, November 2020.

Koolan Island

Crushing & Shiploading

ROM stockpiles, crushing plant and shiploader, September 2020

Koolan Island

New Airstrip Operational

Completed airstrip, looking west, August 2020

Koolan Island

New Airstrip Operational

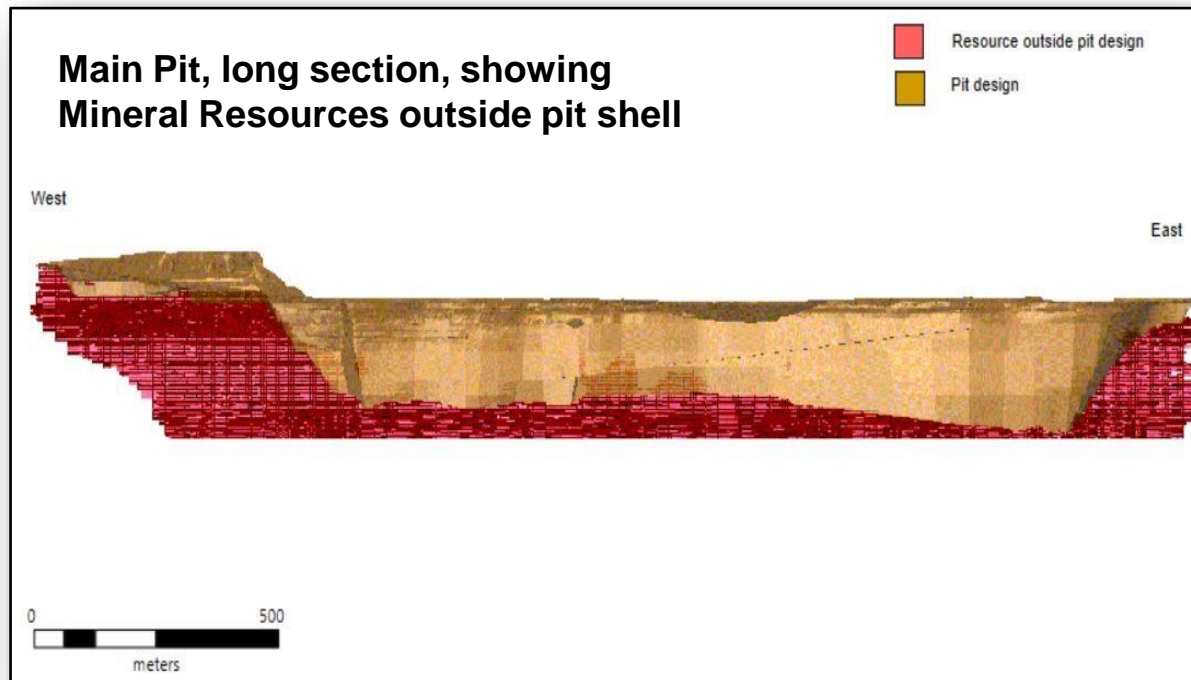

Koolan Island

Mine life extension targets

- Numerous opportunities for incremental life extension beyond the current 5 year mine life.
- Main Pit – existing resources and development potential along strike, to the west and east.
- Mangrove deposit, adjacent to crusher/ROM pad, under evaluation.
- Reviewing prospects adjacent to previously mined satellite pits.

Mid-West Operations

Long-Standing Production Presence

Mid-West Operations

Extension Hill Low Grade Sales Program

- FY2020 low grade sales totalled **2.6 Mwmt**, versus initial sales target of 1.0Mwmt.
- Site operating cashflow of **\$22 million** for FY2020 including rail credit refund of \$8 million.
- Low grade sales extended to December 2020.
- FY2021 guidance of **1.0-1.2 Mwmt** at a site cash cost of **\$40-45/wmt FOB***.
- September quarter sales of **0.7 Mwmt** at cash cost of **\$40/wmt FOB**.
- Quarterly site cashflow of **\$8 million**, including rail credit refund.
- Rail credit entitlement accruing at **~\$2 million** per quarter, capped at a cumulative total of \$35 million (indexed) and time limit of 2031.

**Site cash costs include operating costs, sustaining capital and royalties. All currency in Australian dollars unless stated otherwise.*

Reclamation of low-grade stockpiles

Mining of low-grade detrital gravels

Mid-West Operations

Shine Iron Ore Project

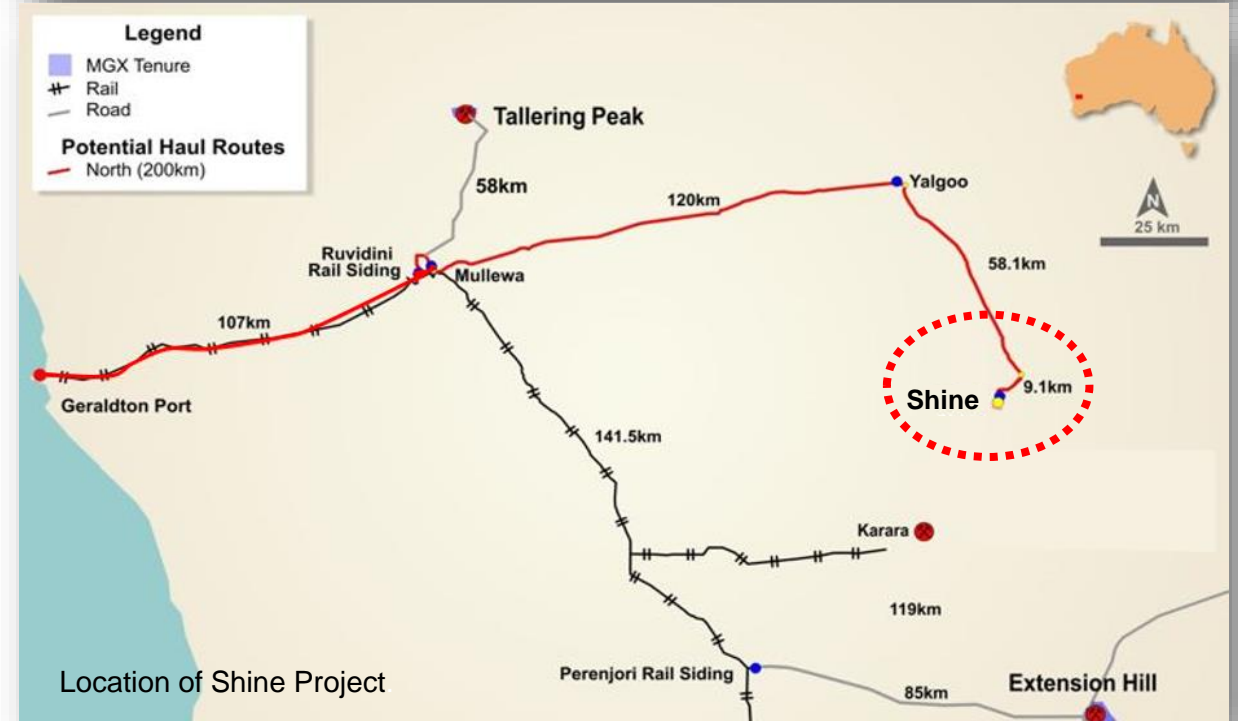

- Staged development plan to align with market conditions, targeting first shipments in mid-2021.
- Ore Reserves of **2.8Mt @ 59.4% Fe*** in **Stage 1** Pit.
- Initial two-year mine life at circa 1.5Mtpa.
- Indicative development capex of **\$17-20 million**.
- Indicative average unit cash cost of **\$65-70/wmt** FOB.
- Base case assumes truck haulage to Geraldton with potential cost-effective alternatives under discussion.
- Potential for **Stage 2** pit to extend life by a further ~2 years, subject to market conditions.
- Reported Measured, Indicated and Inferred Hematite Resources of **10.8Mt grading 58.2% Fe**.

** Refer slide at end of presentation for additional information and Competent Persons attributions, and ASX release dated 9 October 2020.*

Shine Project area

MGX – Part of our Communities

(statistics as at 30 September 2020)

- **Local employment** - we seek to increase employment from our local communities. At Koolan Island, over **20%** of our employees reside in Derby, Broome and surrounds.
- **Gender diversity** - women account for **18%** of our employees and **30%** of all executive and senior management roles, above industry benchmarks. We are aiming higher.
- **Traditional Owners** – we have positive longstanding relationships with Traditional Owners and are committed to Indigenous employment. Approximately **17%** of MGX’s employees are Indigenous and we are actively working with Traditional Owner groups to grow this.
- **Local communities and community organisations** – we have well established arrangements with local shires and we directly partner and support various community organisations and initiatives, with a focus on **youth and education**, including:

Clontarf Foundation	Girls Academy	Shooting Stars
Shine Program for Girls	Royal Flying Doctor Service	Foodbank
Lifeline WA	Regional sporting clubs	Regional schools

- MGX is the **only Australian producer** of direct shipping **high grade** (~65% Fe) and low impurity hematite iron ores.
- **Profitable, with a disciplined** pathway to **significantly higher sales and cashflows** at Koolan Island.
- **Mid-West** low grade sales further extended, capitalising on favourable iron ore market conditions, and Shine Project to generate **additional life and cashflows** through the use of existing infrastructure.
- **Strong cash (and liquid investment) backing with no borrowings**, providing protection, operational flexibility and the ability to pursue internal and external growth opportunities.
- **Desired growth** in bulk materials and base metals, with a priority focus on Australia.
- **Lean, stable and experienced team** with a range of operating, commercial and corporate capabilities.

<i>Discrepancies may appear due to rounding. Mineral Resources are reported inclusive of Ore Reserves. All tonnages have been estimated as dry tonnages.</i>					

Competent Persons Statements

Exploration Results:

The information in this report that relates to Exploration Results including sampling techniques and data management is based on information compiled by Mr Brett Morey, a Competent Person who is a member of the Australasian Institute of Mining and Metallurgy. Mr Morey is a full-time employee of Mount Gibson Iron Limited and has sufficient experience relevant to the style of mineralisation and type of deposits under consideration and to the activity being undertaken, to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Morey consents to the inclusion in this report of the matters based on his information in the form and context in which it appears.

Mineral Resources:

The information in this report relating to Mineral Resources is based on information compiled by Ms Elizabeth Haren, a Competent Person who is a member and Chartered Professional of the Australasian Institute of Mining and Metallurgy and member of the Australian Institute of Geoscientists. Ms Haren was a full-time employee of, and is a consultant to, Mount Gibson Iron Limited. Ms Haren has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Ms Haren consents to the inclusion in this report of the matters based on her information in the form and context in which it appears.

Ore Reserves:

The information in this report relating to Ore Reserves is based on information compiled by Mr Brett Morey, a member of the Australasian Institute of Mining and Metallurgy. Mr Morey is a full-time employee of Mount Gibson Iron Limited and has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr Morey consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.
