

ASX Announcement

23 March 2020

## **FOD facilities remain open and fully operational**

### **Highlights**

- **FOD facilities including its juice, beverage, functional food and sanitiser lines remain open and fully functional**
- **As an essential service, management and staff are committed to ongoing operations and delivery of goods**
- **Demand for FOD's product range remains strong**

The Food Revolution Group Limited (ASX: FOD) advises that the Company's operations, including all products lines, remain open and fully operational. As an essential service, FOD's juice, beverage, functional food and sanitiser products are in demand and will continue to be manufactured by the company.

Earlier this month the Company announced expansion plans and new product lines including, three new juice products, hand sanitisers and ethanol-based all-purpose disinfectants.

FOD Chairman Norman Li said: "The Company has adapted well to changing market conditions. The current increased demand for the company's products coupled with the startup of the new factory have strengthened financial and operational positions. We have long-term plans for these products through our distribution network in China."

This announcement was authorised by FOD Chairman Norman Li.

### **About The Food Revolution Group**

The Food Revolution Group Limited (ASX: FOD) is an Australian-based food processing company that uses a combination of conventional juice processing equipment and custom-developed equipment and processes to manufacture a range of high-quality juices, fibres, infused fruits and fruit waters that are sold as branded products or ingredients to customers domestically and overseas.

FOD uses a range of processing technologies, including Current Counter Extraction (CCE) technology which was developed in conjunction with Australia's CSIRO to extract juice from fruit and vegetables. Its processing facilities are located in Mill Park, Victoria.

FOD is aiming to generate shareholder value through exploring opportunities for growth in the functional food, beverage and nutraceutical markets in Australian and key international markets, including China.
