Market commentary

The Australian share market had a strong start to the calendar year, rising +4.6% in January. Shares reached new highs toward month-end, propelled by expectations of an imminent official interest rate cut following soft inflation data. The rally was broad-based, with all sectors posting gains, except Utilities which fell -2.4%. Consumer Discretionary stocks led the market (up +7.1%) aided by the prospect of lower interest rates, and better-than-expected spending figures.

Argo's monthly per share net tangible assets (NTA) also reached a record high of \$10.37 per share.

On Monday, Argo reported half-year profit of \$121.2 million and an interim dividend of 17 cents per share, fully franked. To see the full announcement, click [here](#) or visit argoinvestments.com.au.
