ASX Announcement

Wiseway Group Limited (ASX: WWG)

Wiseway New Zealand Accredited Air Cargo Agent

Wiseway Group Limited (**Wiseway**) is pleased to announce that it has been accredited by the International Air Transport Association (IATA) as an IATA Cargo Agent in New Zealand and has commenced offering integrated logistics services to the country.

The globally recognised industry credential enables Wiseway's experienced team to enhance its end-to-end logistics services offered across its international network, through allowing it to deal directly with airlines when servicing clients' freight requirements in New Zealand.

Mr Roger Tong, Wiseway's CEO and Co-founder said: "Wiseway is excited at receiving IATA's accreditation in the New Zealand market. We look forward to the opportunities to serve, together with our partner airlines, both new and existing clients through the launching of our integrated logistics solutions in this important market.

This is a significant step in the execution of our regional growth strategy, as we remain focused on taking advantage of emerging opportunities driven by the rapidly evolving demand for freight services across the Asia-Pacific region.

In Australia and New Zealand, the Company's focus continues to be on investing to strengthen our already strong relationships with Chinese e-commerce platforms and leveraging the growth opportunities available through enhancing the services offered to them."

Through its investment made over recent months, Wiseway can now handle all airfreight export shipments in-house from its Auckland Airport precinct facility. This follows receipt of the necessary accreditations and satisfying the requirements of airlines, which include Regulated Air Cargo Agent (RACA) approval and Ministry of Industry (MPI) accredited Risk Management Programmes (RMP) for milk, dairy and perishables exports. Additionally, the facility has also been designated as a Customs Controlled Area (CCA) by New Zealand Customs.

CEO and Co-founder, Roger Tong said: "I am proud of our team's hard work and commitment to achieve all these accreditations within our first 6 months in New Zealand. This sees the Company strongly positioned for growth going into the important October to April peak season, with our integrated logistics solutions enabling our clients to directly export New Zealand milk powder, nutritional products and perishables, to Australia, China and other Asian countries."
