ASX Announcement

New Contracts

Mayfield Group Holdings Limited (**Mayfield**) is excited to announce the successful award of a significant contract within the renewable, data and mining sectors, together with continuing buildup of the total work-in-hand for the 2025 and 2026 financial years.

Our subsidiary, Mayfield Industries Pty Ltd, will manage these contracts, representing a substantial step forward in our growth and commitment to delivering excellence in electrical infrastructure in support of Australia's electrification and digitisation journey.

Details of the Significant Contract

Central West Orana Renewable Energy Zone (**CWO REZ**): ACERREZ, a consortium of Acciona, Cobra and Endeavour Energy has awarded Mayfield the contract for the supply and installation of 26 Prefabricated Protection Buildings for the CWO REZ. The contract value is approximately \$20 million.

The CWO REZ will be a modern-day power source that supplies safe, reliable, and affordable grid-scale energy over the operations phase and beyond. The CWO REZ will connect new renewable generation and storage facilities to the National Electricity Market. Design will commence in January 2025, with construction commencing from Q4 2025 through to Q2 2027.

Other sectors

A total of approximately \$15 million in other new contracts has recently been added. These include the supply of switchboards to NextDC for the M2 Data Centre, the expansion to the port and mining operations for mining companies and a Telecommunication Relocation contract for the Lotus Creek Wind Farm for CS Energy.

Looking Forward

The CWO REZ contract together with the other contracts secured in recent months has increased work-in-hand to \$96 million stretching into the 2028 financial year.

Mayfield remains confident in its prospects and is committed to its Australian manufacturing and technology application strategies. We are profoundly grateful for the support of our valued clients and the dedication of our team.

This announcement has been authorised by our Managing Director, Andrew Rowe.
