DIAMONDS

Edjudina Gold Project
Historic Workings

ANNUAL REPORT

For the year ending 30 June 2024

GIBB RIVER DIAMONDS LIMITED

ABN 51 129 185 550

Dear Fellow Shareholder,

I am pleased to present the Annual Report of Gibb River Diamonds Limited ('GIB' or the 'Company') for the year ended 30 June 2024.

The Company continues to progress the Ellendale Diamond Project with a view to re-commencing production. Milestones achieved during the year include the grant of the three main mining leases, publication of the E9 Lights JORC Indicated Resource, and the signing of a Mining Benefits Agreement with the Bunuba Native Title group.

Also at Ellendale, GIB conducted a successful Aboriginal heritage clearance survey over mining lease M04/477. This survey provides heritage clearance to allow for the re-commencement of mining and diamond production over GIB's main E9 targets. Environmental studies completed over M04/477 further de-risked the project with an on-ground Vegetation, Flora and Fauna Survey Report indicating no red flags to mining.

During the year, GIB announced a maiden Indicated and Inferred resource for the Neta Gold Prospect at the Edjudina Gold Project in the Eastern Goldfields of WA. The Company continues to progress the grant of mining lease application M31/495 (covering the Neta Resource) through the Native Title process.

Following the acquisition of the Erongo and Kunene uranium projects in Namibia, Africa, the Company is working through the Namibian permitting process in order to commence on-ground exploration within this world-class uranium mining jurisdiction.

GIB is proud to have achieved this work while keeping a close eye on expenditure, and is looking forward to the opportunities and continued progress in the year ahead.

Yours Sincerely

Jim Richards
Executive Chairman

1.0 Ellendale Diamond Project, WA

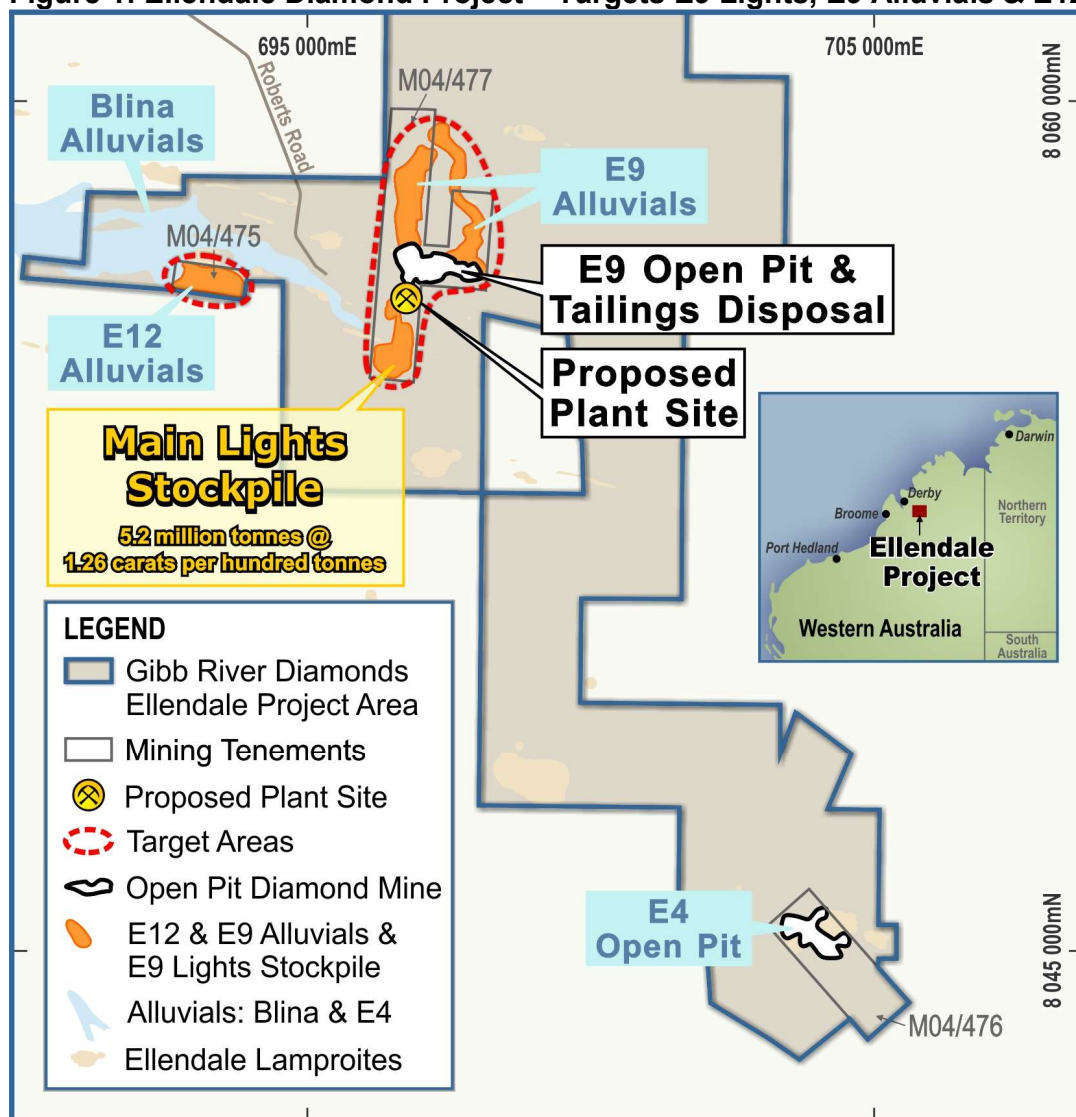

GIB 100%

GIB is seeking to re-establish diamond production at the Ellendale Diamond Project in the Kimberley Region of WA. During the year the Company's Ellendale mining leases were granted and a maiden diamond resource and exploration target were announced for the E9 lights stockpile.

GIB also secured a Mining Benefits Agreement with the Bunuba Dawangarri Aboriginal Corporation ('Bunuba'), the Traditional Owners for the Ellendale Diamond Project area. Heritage and flora & fauna surveys were completed over M04/477 and found no impediments to GIB's proposed exploration and mining activities.

The Ellendale Project has been one of the world's largest diamond producers in the past, with previous operators reporting a combined market capitalisation of over \$690 million in 2006 on leases now held by GIB. Ellendale's production included the annual supply of over 50% of the world's Fancy Yellow diamonds, which were the subject of a special marketing agreement between former operators and Tiffany & Co²⁰⁻²⁴.

Figure 1: Ellendale Diamond Project – Targets E9 Lights, E9 Alluvials & E12 Alluvials

1.1 Maiden JORC Resource at E9 Main Lights Stockpile

In November the Company announced the maiden JORC Inferred Diamond Resource for the E9 Main Lights Stockpile (Figure 2):

Table 1: JORC Inferred Diamond Resource – Ellendale 9 Main Lights Stockpile

Inferred Resource	Tonnes million	Grade cpht*	Carats	Value US\$/carat	US\$/tonne
Total	5.2	1.26	66,277	1,200	15.3

Notes:

- *cpht is carats per hundred tonnes
- Rounding of: tonnage down to the nearest 100,000 tonnes; carats down to the nearest 100 carats; Value US\$/carat down to nearest \$100; Value US\$/tonne up to the nearest ten cents. This may result in rounding errors
- Bottom cut-off screen size effective 1.5mm
- US\$/tonne assumes the diamond valuation report pricing of May 2023²² is realised

Figure 2: E9 Main Lights Stockpile, Prospects & Proposed Infrastructure Locations

2.0 Edjudina Gold Project

GIB 100%

During the year GIB announced a maiden Indicated and Inferred gold resource at Neta, and has continued to progress the grant of Mining Lease M31/495 over the Company's Neta gold resource through the Native Title process.

2.1 Neta Gold Resource

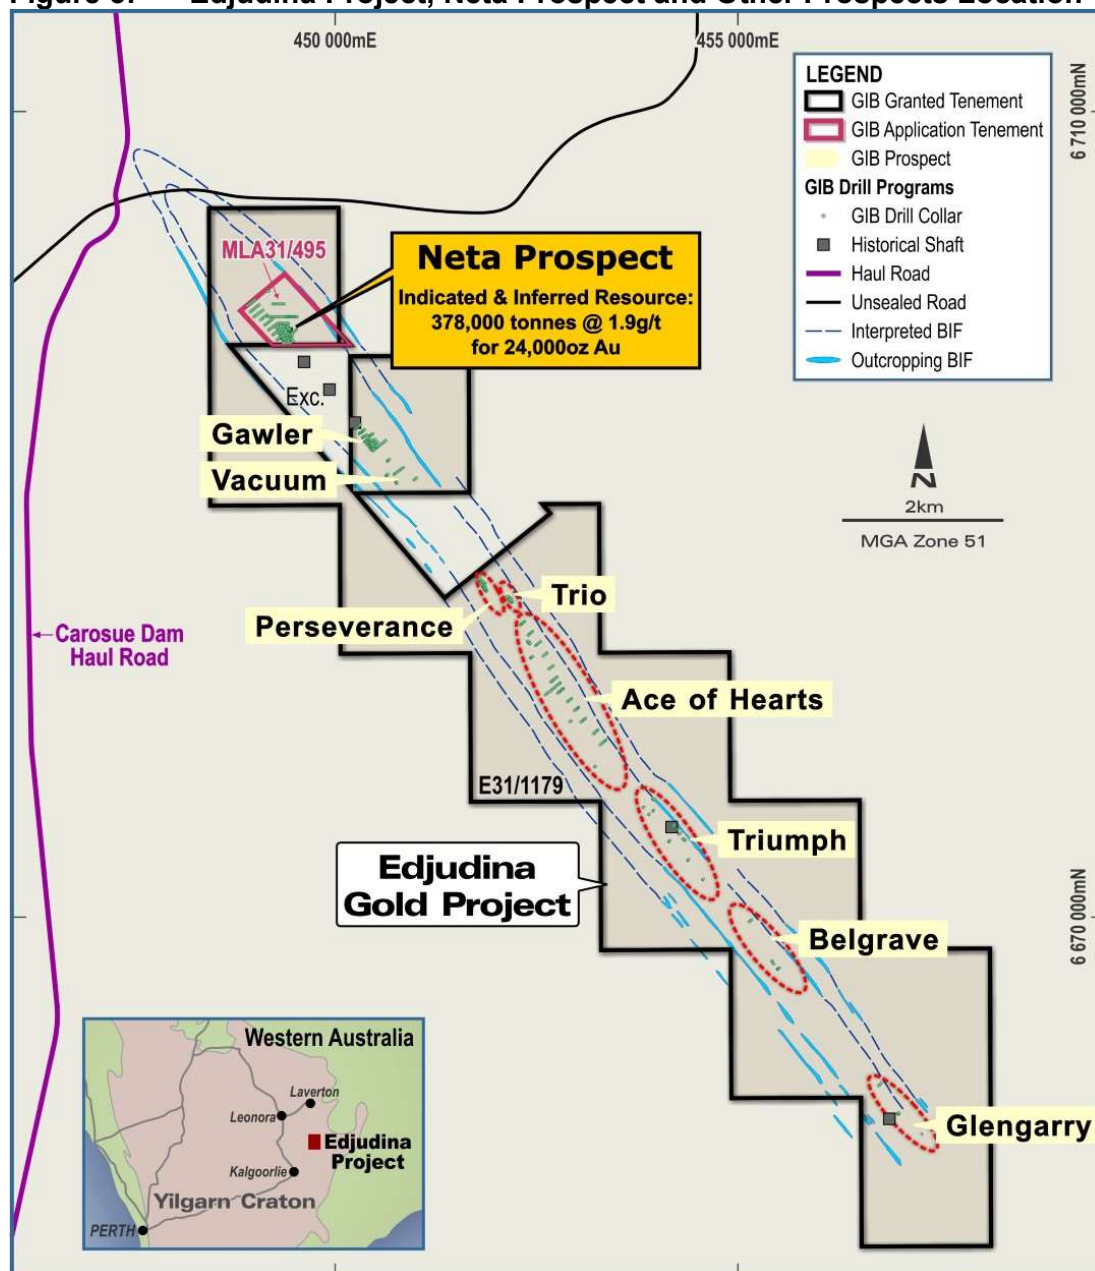

In April 2024, GIB reported the maiden JORC Inferred and Indicated Resource (Mineral Resource Estimate, or MRE) for the Neta Prospect at the Edjudina Gold Project (Figure 3)²⁸:

Table 1: JORC Indicated & Inferred Gold Resource at a Cut-off 1g/t– Neta Prospect

Resource Category	Tonnes	Gold Grade (g/t)	Gold Ounces
Inferred	268,000	1.8	16,000
Indicated	110,000	2.2	8,000
Total	378,000	1.9	24,000

- Cut-off 1g/t;
- Rounded to significant figures; can result in rounding errors

This MRE was compiled with reasonable prospect of eventual economic extraction factors being applied. Mineralisation starts from surface and a third of the resource, including all oxide ore, is in the Indicated category.

Figure 3: Edjudina Project, Neta Prospect and Other Prospects Location

3.0 Uranium Projects, Namibia, Africa

GIB 100%

In June 2024 GIB announced the acquisition of the Erongo Project (47.6 km²) and the Kunene Project (1,780km²) consisting of six Exclusive Prospecting Licenses (EPLs) in the Republic of Namibia in Africa²⁹.

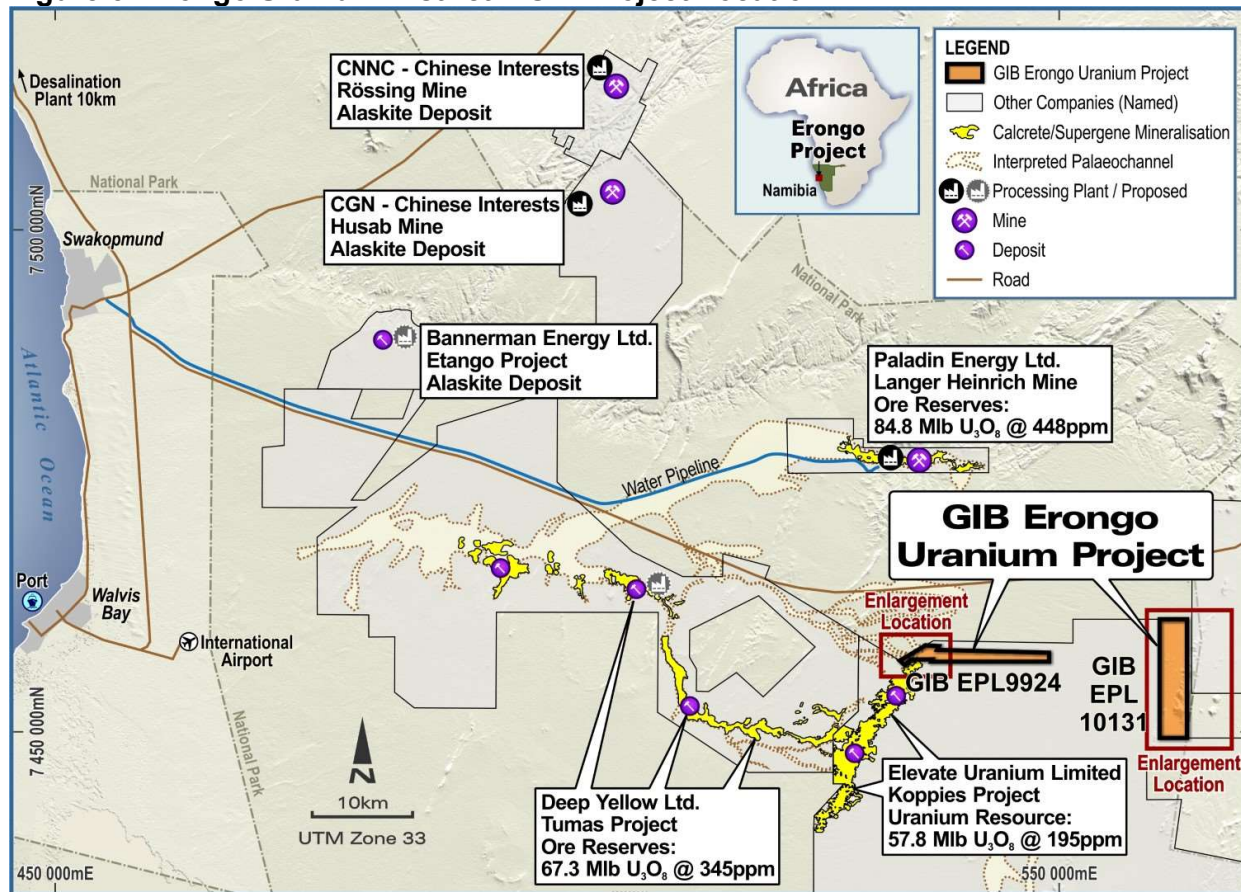

Figure 4: Location of GIB's Erongo & Kunene Uranium Projects, Namibia

3.1 Erongo Uranium Project, Namibia

GIB's Erongo Uranium Project is situated in the heart of the Erongo Uranium District of Namibia, one of the world's leading uranium producing areas. The project consists of two permit applications, EPLs 9924 and 10131 with a combined area of 47.6km².

These EPLs are highly prospective for calcrete-palaeochannel hosted uranium deposits. There are a number of calcrete-hosted uranium deposits close or adjacent to the GIB permits, including the producing Langer Heinrich Mine (Paladin), the Tumas Deposit (Deep Yellow) and the Koppies Deposit (Elevate Uranium) as well as numerous other uranium occurrences (Figure 5).

Figure 5: Erongo Uranium District – GIB Project Location

3.2 Erongo Project – GIB Targets

GIB's Erongo target areas are outlined below. The Company has not discovered any evidence of previous drilling on EPLs 9924 and 10131 and the targets appear to be untested.

Many of the calcrete uranium deposits in the Erongo region contain areas which are under undefined alluvial or wind-blown cover, which is sufficient to mask a measurable radiometric signature. If totally obscured, blind deposits of this type would usually be discovered through drilling, often with the assistance of other exploration techniques such as radon-cup sampling.

The main target within EPL10131 is an undercover (i.e. it is blind), Langer Heinrich-style, calcrete-palaeochannel hosted uranium deposit.

3.3 Kunene Uranium Project, Namibia

The Kunene Uranium Project is located in northern Namibia and targets uranium mineralisation hosted in the Karoo Formation, which is prospective primarily for roll-front style uranium deposits. The Company has a large ground holding in the area with four EPLs for 1,780km², much of this area hosts Karoo Formation rocks.

The Company believes the Kunene Project has the technical merit and prospectivity for a large new greenfields uranium discovery of the roll-front type and/or calcrete-hosted type and is currently assessing various options to further develop this significant ground holding in Namibia.

4.0 Iroquois Zn/Pb Project

GIB 20% Free-carry to BFS

GIB holds a 20% equity in tenement E69/2820 which lies approximately 100km north-east of Wiluna, WA. The project is managed within a Joint Venture between ASX listed Strickland Metals Limited (STK) and GIB. The tenement hosts the Iroquois Zn-Pb Project which has previously reported excellent drilling results including IQRC001: 23m @ 5.5% Zn + Pb from 108m⁵.

Strickland have communicated with GIB the following as regards exploration activity in the last quarter of the year.

'...Strickland engaged with Magspec Airborne Surveys to undertake a 50-metre spaced airborne magnetic and radiometric survey across the E69/2820 tenement.

Strickland also engaged with Moombarriga Geoscience to undertake a 3D Induced Polarisation Survey, extending the existing IP coverage to the south-west of the Iroquois prospect. The results from this work are pending. Two water bores were also completed during this period.'

5.0 Highland Plains Phosphate Project

GIB 100%

The Highland Plains Phosphate Project has a JORC (2004) compliant Inferred Resource of 56 million tonnes at 16% P₂O₅, at a 10% P₂O₅ cut-off¹⁻⁷. The project is 100% owned by GIB with no private royalties.

Contained within this Global Resource (above) is an Inferred Resource of 14 million tonnes at 20% P₂O₅ (above a 15% P₂O₅ cut-off), confined to the western portion of the Global Resource. This is named the Western Mine Target Zone (WMTZ)¹⁻⁷.

The Company is seeking a strategic investment partner or trade sale to assist GIB to progress the Highland Plains Phosphate Project.

6.0 Annual Report Summary

Excellent progress has been made at the Ellendale Diamond Project during the year, with the publication of the JORC Resource over the Lights Stockpile, the three mining leases being granted, the heritage clearance survey completed and the environmental report not indicating any red flags to mining. These are all major steps towards facilitating the re-commencement of mining on the M04/477 mining lease (formerly the Ellendale 9 mine).

At the Edjudina Gold Project the Company announced the maiden shallow and high grade Neta Indicated and Inferred Resource. The next step is the grant of mining lease M31/495 and the Company continues to progress this permit to grant through the Native Title process.

Following a field trip to Namibia, the Company announced the acquisition (by pegging) of two uranium projects totalling 1,828km² in this world class uranium mining jurisdiction. GIB continues to progress these projects through the Namibian permitting system in order to conduct on-ground exploration in the 2025 reporting period.

This last year has been a busy period for the Company, and GIB looks forward to delivering on the considerable potential of its projects in the year ahead.

Jim Richards
Executive Chairman

Appendix A – Mineral Resources and Ore Reserves (MROR) Statement

Summary

This statement represents the Mineral Resources and Ore Reserves (MROR) statement for Gibb River Diamonds Limited as at 30 June 2024.

This MROR statement has been compiled and reported in accordance with the guidelines of the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves' (2012 JORC Code).

This statement is to be reviewed and updated annually in accordance with Section 15 of the 2012 JORC Code. The nominated annual review date for this MROR statement is 30 June 2024. The information in this statement has been extracted from the relevant reports as indicated below in each Mineral Resource table. The Company's Mineral Resources remained unchanged in 2024 at Highland Plains.

The Highland Plains Mineral Resource Estimate (MRE) was prepared and first disclosed under the JORC Code 2004. It has not been updated to comply with the JORC Code 2012 on the basis that the information has not materially changed since it was last reported. The Company confirms that the form and context in which the Competent Person's findings are presented here have not been materially modified.

Mineral Resources

Ellendale Diamond Project

The JORC Inferred Diamond Resource for the E9 Main Lights Stockpile at the Ellendale Diamond Project is:

Table 1: JORC Inferred Diamond Resource – Ellendale 9 Main Lights Stockpile

Inferred Resource	Tonnes million	Grade cpht*	Carats	Value US\$/carat	US\$/tonne
Total	5.2	1.26	66,277	1,200	15.3

Notes:

- *cpht is carats per hundred tonnes
- Rounding of: tonnage down to the nearest 100,000 tonnes; carats down to the nearest 100 carats; Value US\$/carat down to nearest \$100; Value US\$/tonne up to the nearest ten cents. This may result in rounding errors
- Bottom cut-off screen size effective 1.5mm
- US\$/tonne assumes the diamond valuation report pricing of May 2023²² is realised

The only change to this resource since publication is surficial disturbance of the stockpile by DMIRS conducting contouring for environmental rehabilitation work. This work is not considered material to the MRE.

Edjudina Gold Project, WA

The JORC Inferred and Indicated Resource (Mineral Resource Estimate, or MRE) for the Neta Prospect at the Edjudina Gold Project is:

JORC Indicated & Inferred Gold Resource at a Cut-off 1g/t– Neta Prospect

Resource Category	Tonnes	Gold Grade (g/t)	Gold Ounces
Inferred	268,000	1.8	16,000
Indicated	110,000	2.2	8,000
Total	378,000	1.9	24,000

- Cut-off 1g/t;
- Rounded to significant figures; can result in rounding errors

This MRE was compiled with reasonable prospect of eventual economic extraction factors being applied. Mineralisation starts from surface and a third of the resource, including all oxide ore, is in the Indicated category.

Highland Plains Phosphate Project

The Highland Plains Phosphate Project in the NT has a JORC Code (2004) Inferred Resource of 56 million tonnes at 16% P₂O₅ (above a 10% P₂O₅ cut-off).

Contained within the Global Resource (above) is estimated an Inferred Resource of 14 million tonnes at 20% P₂O₅ (above a 15% P₂O₅ cut-off), confined to the western portion of the Global Resource.

The Project is 100% owned by GIB and has no private royalties.

The Highland Plains Mineral Resource was first reported [31 March 2009](https://www.gibbriverdiamonds.com) in accordance with the 2004 JORC Code (available to view at www.gibbriverdiamonds.com). The original report was prepared by Cube Consulting Pty Ltd.

Governance Summary

The Mineral Resource estimate listed in this report are subject to GIB's governance arrangements and internal controls. GIB's Mineral Resource estimate is derived by a Competent Person (CP) with the relevant experience in the style of mineralisation and type of deposit under consideration and to the activity which they are undertaking and has been classified and reported in accordance with the JORC Code.

Competent Persons Statement and Disclaimer

The information in this report that relates to previously reported exploration results and Mineral Resource Estimates (except for Highland Plains) is based on information compiled by Mr. Jim Richards who is a Member of The Australasian Institute of Mining and Metallurgy and a Member of the Australian Institute of Geoscientists. Mr. Richards is a Director of Gibb River Diamonds Limited. Mr. Richards has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr. Richards consents to the inclusion in the report of the matters based on the information in the form and context in which it appears.

The Information in this report that relates to the Highland Plains Exploration reporting and Mineral Resource is based on information compiled by Jim Richards who is a member of the Australasian Institute of Mining and Metallurgy and a Member of the Australian Institute of Geoscientists. Jim Richards is a director of Gibb River Diamonds Limited and has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which they are undertaking to qualify as a competent Person as defined in the December 2004 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Richards consents to the inclusion in this report of the Information, in the form and context in which it appears.

The interpretations and conclusions reached in this report are based on current geological theory and the best evidence available to the authors at the time of writing. It is the nature of all scientific conclusions that they are founded on an assessment of probabilities and, however high these probabilities might be, they make no claim for complete certainty. Any economic decisions that might be based on interpretations or conclusions contained in this report will therefore carry an element of risk.

It should not be assumed that the reported Exploration Results will result, with further exploration, in the definition of a Mineral Resource.

Forward-looking statements are statements that are not historical facts. Words such as “expect(s)”, “feel(s)”, “believe(s)”, “will”, “may”, “anticipate(s)” and similar expressions are intended to identify forward-looking statements. These statements include, but are not limited to statements regarding future production, resources or reserves and exploration results. All such statements are subject to certain risks and uncertainties, many of which are difficult to predict and generally beyond the control of the Company, that could cause actual results to differ materially from those expressed in, or implied or projected by, the forward-looking information and statements.

These risks and uncertainties include, but are not limited to: (i) those relating to the interpretation of drill results, the geology, grade and continuity of mineral deposits and conclusions of economic evaluations, (ii) risks relating to possible variations in reserves, grade, planned mining dilution and ore loss, or recovery rates and changes in project parameters as plans continue to be refined, (iii) the potential for delays in exploration or development activities or the completion of feasibility studies, (iv) risks related to commodity price and foreign exchange rate fluctuations, (v) risks related to failure to obtain adequate financing on a timely basis and on acceptable terms or delays in obtaining governmental approvals or in the completion of development or construction activities, and (vi) other risks and uncertainties related to the Company’s prospects, properties and business strategy. Our audience is cautioned not to place undue reliance on these forward-looking statements that speak only as of the date hereof, and we do not undertake any obligation to revise and disseminate forward-looking statements to reflect events or circumstances after the date hereof, or to reflect the occurrence of or non-occurrence of any events.

DIRECTORS' REPORT
30 JUNE 2024

The Directors present their report together with the financial report on Gibb River Diamonds Limited ("GIB" or "the Company") and its subsidiary (the "Group") for the year ended 30 June 2024. In order to comply with the provisions of the Corporations Act 2001, the Directors' report is as follows.

DETAILS OF DIRECTORS

The names and particulars of the directors of the Company holding office during the year and to the date of this report are:

MR JAMES (JIM) RICHARDS
B.Sc. Hons (Geology), MAusIMM
Executive Chairman

Jim Richards is a geology graduate of the University of London. He is a Perth based Company director and geologist with 25 years' experience in exploration for a wide variety of commodities.

Prior to the ASX listing of Phosphate Australia Limited (now Gibb River Diamonds Limited), Mr Richards was the chief executive officer and director of United Minerals Corporation NL ("UMC"). At UMC, Mr Richards led the technical team that discovered the high-grade iron 'Railway Deposit' in the Pilbara. BHP Billiton acquired the Railway Deposit in February 2010 by a take-over of UMC for AUD\$204 million.

Mr Richards has considerable overseas experience including running his own alluvial diamond dredging operation in Guyana, South America and work on the Omai gold project (that became a major mine) also in Guyana. Other resources work includes operating in Indonesia and two years spent in both Laos and Pakistan.

Previous employers and clients have included Newmont Mining Corporation, BHP Billiton Limited and Woodside Energy Limited. Prior to his corporate career, Mr Richards served as a regular officer in the British Army Parachute Regiment.

MR GRANT MOONEY
B.Bus, CA
Non-executive Director & Company Secretary

Grant Mooney is the principal of Perth-based corporate advisory firm Mooney & Partners, specialising in corporate compliance administration to public companies. Mr Mooney has gained extensive experience in the areas of corporate and project management since commencing Mooney & Partners in 1999. His experience extends to advice on capital raisings, mergers and acquisitions and corporate governance.

Currently, Mr Mooney serves as a director to several ASX listed companies across a variety of industries including technology and resources. He is a director of Carnegie Clean Energy Limited, Aurora Labs Limited, Accelerate Resources Limited, Riedel Resources Limited, CGN Resources Limited and Talga Group Limited. Mr Mooney is a member of the Chartered Accountants Australia and New Zealand. He was a previous Director of Greenstone Resources Limited (formally Barra Resources Limited), until his resignation on 18 August 2021, and SRJ Technologies Limited, until his resignation on 17 January 2023.

MR TOM REDDICLIFFE
BSc (Hons), MSc (Geol), FAusIMM
Non-executive Director

Tom Reddicliffe is a geologist with some 37 years of largely Australian focused diamond exploration and evaluation experience having graduated with an Honours degree in geology in 1974 from the University of Queensland. He is currently a Fellow of the Australian Institute of Mining and Metallurgy.

Mr Reddicliffe joined Ashton Mining Limited in 1976, and worked with the AEJV exploration teams at both Ellendale and Argyle. He was appointed the Australian Exploration Manager of Ashton Mining Limited in 1991 and remained in that position up until Ashton was taken over by Rio Tinto in late 2000. During his position as exploration manager with Ashton Mining Limited, Mr Reddicliffe was credited with discovering the Merlin diamond pipes in the Northern Territory in 1993 which became a renowned producer of large, good quality white diamonds. Merlin produced Australia's largest diamond - the 104.73 carat gemstone Jungiila-Bunajina.

After his tenure with Ashton Mining Limited, Mr Reddicliffe joined Striker Resources (renamed North Australian Diamonds Limited in 2004) as Technical Director from 2003 and was appointed CEO in 2007. Mr Reddicliffe stepped down from the Board of North Australian Diamonds Limited in mid-2011. Mr Reddicliffe is the current Executive Chairman of Errawarra Resources Limited (appointed non-Executive director 2 November 2020) and is Executive Director of GreenTech Metals Limited.

DIRECTORS' REPORT
30 JUNE 2024
DIRECTORSHIP OF OTHER LISTED COMPANIES

Directorships of other listed companies held by directors in the three years immediately before the end of the year are as follows:

Director	Company	Year of directorship
Grant Mooney	Accelerate Resources Limited	1 June 2017 to the present
	Carnegie Clean Energy Limited	19 February 2008 to the present
	Riedel Resources Limited	31 October 2018 to present
	Talga Resources Limited	20 February 2014 to the present
	Aurora Labs Limited	25 March 2020 to the present
	CGN Resources Limited	3 July 2023 to present
	Greenstone Resources Limited	29 November 2002 to 19 August 2022
	SRJ Technologies Limited	2 June 2020 to 17 January 2023
Tom Reddicliffe	Errawarra Resources Limited	2 November 2020 to the present
	GreenTech Metals Limited	24 March 2021 to the present

DIRECTORS' SHARE AND OPTION HOLDINGS

At the date of this report, the direct and indirect interest of the Directors in the shares and options of the Company were:

Director	Ordinary Shares	Options (Unlisted)
James Richards (i)	41,683,592	10,000,000
Grant Mooney (ii)	9,400,516	4,000,000
Tom Reddicliffe (iii)	Nil	4,000,000

(i) James Richards holds 33,339,515 shares and 5,000,000 unlisted options in his own name. Llangurig Super Pty Ltd <Jim Richards Super Fund A/c>, in which James Richards is a director and beneficiary holds 8,344,077 shares and 5,000,000 unlisted options.

(ii) Grant Mooney holds 2,238,888 shares in his own name. Samantha Mooney, spouse of Grant Mooney holds 13,333 shares and Mooney & Partners Pty Ltd of which Grant Mooney is the sole director holds 1,271,628 shares. Ocean Flyers Pty Ltd <S&G Mooney Super Fund>, in which Grant Mooney is a director and beneficiary holds 5,876,667 shares. Grant Mooney holds 4,000,000 options in his own name.

(iii) Tom Reddicliffe holds 4,000,000 options in his own name.

PRINCIPAL ACTIVITIES

The principal activity of the Company is mineral exploration.

OPERATING RESULTS

The consolidated loss from ordinary activities after income tax of the Group for the year ended 30 June 2024 was \$1,586,093 (2023 loss: \$683,912).

DIRECTORS' REPORT
30 JUNE 2024

REVIEW OF OPERATIONS

The Company is pleased to present its annual Review of Operations for the year ended 30 June 2024.

1.0 Ellendale Diamond Project (Western Australia) GIB 100%

On 1 November 2023 the Company announced a Lights Stockpile Inferred Resource of 5.2 million tonnes @ 1.26 carats per hundred tonnes and a diamond value of US\$1,200 per carat. GIB also signed a Mining Benefits Agreement with the Native Title holders in January 2024, and completed a Heritage Survey and a flora and fauna survey during the year.

The company is seeking to re-establish diamond production at Ellendale and this was greatly assisted by the grant of mining licenses M04/475, M04/476 and M04/477 in May 2024.

2.0 Edjudina Gold Project (Western Australia) GIB 100%

In November 2023 GIB reported the maiden Neta JORC Inferred and Indicated Resource of 378kt @ 1.9g/t Au, including 110kt @ 2.2g/t in the Indicated category. All oxide gold is in the JORC Indicated Resource.

During the year, the Company continued to progress the grant of M31/495 through the National Native Title Tribunal (NNTT) and via negotiations with the Wangkatja Tjungula Aboriginal Corporation. The Company is optimistic the mining licence will be granted in an expeditious manner.

3.0 Namibian Uranium Projects (Namibia, Africa) GIB 100%

During the year, the Company incorporated a subsidiary GIB Mining Namibia (Pty) Ltd, and GIB acquired (by pegging) two uranium projects in Namibia, a Tier-1 uranium mining country. The Erongo project (47.6km²) targets calcrete uranium mineralisation in proximity to Paladin Energy Limited's Langer Heinrich mine, the Tumas Project (Deep Yellow) and the Koppies Project (Elevate Uranium). The Kunene project (1,780 km²) in Namibia's far northwest is grassroots and is targeting roll-front and calcrete-type uranium mineralisation.

4.0 Iroquois Zinc Lead Project (Western Australia) GIB 20%

GIB retains a 20% interest in E69/2820 which lies approximately 100km north-east of Wiluna, WA. The 20% GIB project equity is free carried up to the completion of a bankable feasibility study. This tenement is a part of Strickland Metals Limited's (ASX: STK, previously Alloy Resources Limited) Earahedy Zn-Pb Project. Strickland announced the commissioning of two geophysical surveys over Iroquois during the year.

5.0 Highland Plains Phosphate Project (Northern Territory) GIB 100%

The Highland Plains Phosphate Project has a JORC compliant Inferred Resource of 53 million tonnes at 16% P₂O₅. Substantial amounts of drilling and scoping study work have been done by GIB at Highland Plains with proposed solutions for beneficiation to higher grades and product transport logistics using a slurry pipeline. GIB continues to seek interested parties with a view to an equity partner or trade sale for Highland Plains.

MATERIAL BUSINESS RISKS

The Highland Plains Phosphate Project has a JORC compliant Inferred Resource of 53 million tonnes at 16% P₂O₅. Substantial drilling and scoping study work have previously been done by GIB at Highland Plains with proposed solutions for beneficiation to higher grades and product transport logistics using a slurry pipeline. GIB continues to seek interested parties with a view to an equity partner or trade sale for Highland Plains.

Exploration and Development Risks

Few mineral properties which are explored are ultimately developed into producing mines. There can be no guarantee that the estimates of quantities and qualities of minerals disclosed will be economically recoverable. Mineral exploration is speculative in nature and there can be no assurance that any minerals discovered will result in the definition of a mineral resource.

The economics of developing gold and other mineral properties is affected by many factors, including the cost of operations, variations in the grade of minerals mined, fluctuations in metal markets, costs of processing equipment and such other factors as government regulations, including regulations relating to royalties, allowable production, importing and exporting of minerals and environmental protection. The long-term success of the Company depends on its ability to explore, develop and commercially produce minerals from its mineral properties and to locate and acquire additional properties worthy of exploration and development for minerals.

DIRECTORS' REPORT
30 JUNE 2024

Changes to legislation and permits governing operations and activities of mining companies, or more stringent implementation thereof, could have a material adverse impact on the Company and cause increases in capital expenditures or production costs or reduction in levels of production at any future producing properties or require abandonment or delays in the development of new mining properties.

Permits and licenses

The activities of the Company will be subject to government approvals, various laws governing exploration, development, production taxes, labour standards and occupational health, mine safety, toxic substances and other matters, including issues affecting local native populations. Amendments to current laws and regulations governing operations and activities of exploration and mining, or more stringent implementation thereof, could have a material adverse impact on the business, operations and financial performance of the Company. Further, the mining licenses and permits issued in respect of the Company's mineral properties may be subject to conditions which, if not satisfied, may lead to the revocation of such licenses. In the event of revocation, the value of the Company's investments in its mineral properties may decline.

Access to Financing

The Company is at the exploration and development stage with no revenue currently being generated from activities on its mineral properties. The Company may therefore have to raise the capital necessary to undertake or complete future exploration and development work, including drilling programs and a feasibility study. There can be no assurance that debt or equity financing will be available or sufficient to meet these requirements or for other corporate purposes or, if debt or equity financing is available, that it will be on terms acceptable to the Company. Moreover, future activities may require the Company to alter its capitalisation significantly. An inability to access sufficient capital for operations could have a material adverse effect on the Company's financial condition, results of operations or prospects. In particular, failure to obtain such financing on a timely basis could cause the Company to delay its planned exploration and development activities or not pursue further acquisition opportunities.

Title risks

The Company's mineral properties may be subject to prior unregistered agreements or transfers and title may be affected by undetected defects.

Volatility of metal and diamond prices

The market price of diamonds, precious or base metals is volatile and is affected by numerous factors that will be beyond the Company's control. Sustained downward movements in metal market prices could render less economic, or uneconomic, some or all of the mining and/or exploration activities to be undertaken by the Company.

Mineral Resource estimates

Mineral resources that are not mineral reserves do not have demonstrated economic viability and there is no assurance that they will ever be mined or processed profitably. Due to the uncertainty which may attach to mineral resources, there is no assurance that mineral resources will be upgraded to proven and probable ore reserves as a result of continued exploration.

Environmental risks

All phases of the mining business present environmental risks and hazards and are subject to environmental regulation pursuant to a variety of international conventions and state and municipal laws and regulations. Environmental legislation provides for, among other things, restrictions and prohibitions on spills, releases or emissions of various substances produced in association with mining operations. The legislation also requires that wells and facility sites be operated, maintained, abandoned and reclaimed to the satisfaction of applicable regulatory authorities. Compliance with environmental legislation can require significant expenditures and a breach may result in the imposition of fines and penalties.

Economic

General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's development and production activities, as well as on its ability to fund those activities.

DIRECTORS' REPORT
30 JUNE 2024

Climate risk

There are a number of climate-related factors that may affect the Company's operations and proposed activities. In particular:

(i) the emergence of new or expanded regulations associated with the transitioning to a lower-carbon economy and market changes related to climate change mitigation. The Company may be impacted by changes to local or international compliance regulations related to climate change mitigation efforts, or by specific taxation or penalties for carbon emissions or environmental damage. These examples sit amongst an array of possible restraints on industry that may further impact the Company and its profitability; and

(ii) climate change may cause certain physical and environmental risks that cannot be predicted by the Company, including events such as increased severity of weather patterns and incidences of extreme weather events and longer-term physical risks such as shifting climate patterns.

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

Other than described elsewhere in this report, there was no significant change in the state of affairs of the Company during the year.

SIGNIFICANT EVENTS SUBSEQUENT TO END OF YEAR

In September 2024, the Group purchased a mining lease and mining data at an adjacent tenement in Edjudina. The consideration was satisfied by the issue of 3,000,000 Gibb shares.

Other than above, there was no other matter or circumstance subsequent to the end of the year that has significantly affected the operations of the Company, the results of operations or the state of affairs in future financial years.

FUTURE DEVELOPMENTS

The Company intends to continue mineral exploration activities while considering new project acquisitions and joint venture opportunities.

ENVIRONMENTAL REGULATION

The Company is required to carry out its activities in accordance with the Mining Laws and regulations in the areas in which it undertakes its exploration activities. The Company is not aware of any matter that requires disclosure with respect to any significant environmental regulation in respect of its operating activities.

SHARE OPTIONS

At the date of this report, the following options are outstanding in respect of unissued ordinary shares in Gibb River Diamonds:

Number of Shares Under Options	Exercise Price	Expiry Date
9,000,000	11.0 cents	31 August 2025
9,000,000	8.5 cents	31 August 2026
3,000,000	9.0 cents	1 December 2024
500,000	6.8 cents	6 June 2026
2,000,000	6.5 cents	25 June 2026
6,000,000	6.0 cents	12 December 2026
2,500,000	5.0 cents	22 December 2026

No shares (2023: Nil) were issued during or since the end of the financial year as a result of the exercise of options.

INDEMNIFYING OFFICER OR AUDITOR

During the year, the Company paid a premium in respect of a contract insuring the directors of the Company, the Company secretary and all executive officers of the Company and related body corporate against a liability incurred as such a director, secretary or executive officer to the extent permitted by the Corporations Act 2001. The contract of insurance prohibits disclosure of the amount of the premium.

The Company has not indemnified or agreed to indemnify the auditor of the Company or of any related body corporate against a liability incurred as the auditor.

DIRECTORS' REPORT
30 JUNE 2024

DIVIDENDS

No dividends have been paid or declared since the start of the year, and the directors do not recommend the payment of a dividend in respect of the year.

DIRECTORS' MEETINGS

There were five (5) Directors' meetings held during the year ended 30 June 2024. The names of directors who held office during the year and their attendance at Board meetings is detailed below:

Director	Number Attended	Number Eligible to Attend
Jim Richards	5	5
Grant Mooney	5	5
Tom Reddicliffe	5	5

There were also six (6) circular resolutions passed by the Board of Directors during the year. (2023: four (4))

As at the date of this report an Audit Committee of the Board of Directors did not exist due to the Directors of the Board having a close involvement in the operations of the Company. There are no other sub-committees of the Board.

REMUNERATION REPORT (AUDITED)

This report details the amount and nature of remuneration of each director of the Company. Other than directors, there were no key management personnel of the Company during the year.

Remuneration Policy

The remuneration policy is to provide a fixed remuneration component and a specific equity related component. The Board believes that this remuneration policy is appropriate given the stage of development of the Company and the activities, which it undertakes and is appropriate in aligning director objectives with shareholder and business objectives. At this point in the Company's development, the Board does not believe it is appropriate to link director and executive officers' remuneration with Company performance.

The remuneration policy in regards to settling terms and conditions for the executive directors has been developed by the Board taking into account market conditions and comparable salary levels for companies of similar size and operating in similar sectors.

Directors receive a superannuation guarantee contribution required by the Government, which during the year was 11% and do not receive any other retirement benefit.

The Board policy is to remunerate non-executive directors at market rates for comparable companies for time, commitment and responsibilities. The Board determines payment to the non-executive directors and reviews their remuneration annually, based on market practices, duties and accountability. Independent external advice is sought when required. The maximum aggregate amount of fees that can be paid to non-executive directors is subject to approval by shareholders at a General Meeting. Fees for non-executive directors are not linked to the performance of the Company.

The following were Key Management Personnel of the Company during the year:

- James Richards (*Executive Chairman*)
- Grant Mooney (*Non-Executive Director and Company Secretary*)
- Tom Reddicliffe (*Non-Executive Director*)

DIRECTORS' REPORT
30 JUNE 2024
REMUNERATION REPORT (AUDITED) (CONTINUED)

Details of remuneration provided to Key Management Personnel during the year are as follows:

		Short-term employee benefits		Post-employment benefits	Share-based payments		
		Salary & Fees \$	Bonus \$	Super-annuation \$	Options \$	Total \$	Performance %
James Richards	2024	250,000	-	27,500	-	277,500	0%
	2023	250,000	-	26,355	180,500	456,855	40%
Grant Mooney ⁽¹⁾	2024	83,000	-	3,850	-	86,850	0%
	2023	83,000	-	3,675	72,200	158,875	45%
Tom Reddicliffe	2024	35,000	-	3,850	-	38,850	0%
	2023	35,000	-	3,675	72,200	110,875	62%
TOTAL	2024	368,000	-	35,200	-	403,200	0%
TOTAL	2023	368,000	-	33,705	324,900	726,605	45%

(1) Amounts paid to Grant Mooney include Director's fees of \$35,000 (2023: \$35,000) and fees paid to a related party, Mooney & Partners Pty Ltd, in respect of company secretarial services totalling \$48,000 plus GST (2023: \$48,000 plus GST).

There are no contracts to which a Director is a party or under which the Director is entitled to a benefit other than as disclosed in the financial report.

Value of options issued to Key Management Personnel

During the financial year, the following share-based payment arrangements were in existence for Key Management Personnel:

Options Series	Grant Date	Expiry Date	Grant Date Fair Value	Vesting Date
Issued 17 November 2022 exercisable @ \$0.085	17/11/2022	31/08/2026	\$0.0361	17/11/2022
Issued 1 December 2020 exercisable @ \$0.075	1/12/2020	30/11/2023	\$0.1033	1/12/2020

There were nil (2023: 9,000,000) options issued to Key Management Personnel during the year. Refer to Note 19 of the financial statements for the valuation assumptions.

The Board reviews the remuneration packages of all key management personnel on an annual basis. The maximum remuneration of non-executive Directors is to be determined by Shareholders in general meeting in accordance with the Constitution, the Corporations Act and the ASX Listing Rules, as applicable. At present the maximum aggregate remuneration of non-executive Directors is \$400,000 per annum. The apportionment of non-executive Director Remuneration within that maximum will be made by the Board having regard to the inputs and value to the Company of the respective contributions by each non-executive Director. Remuneration is not linked to specific service or performance criteria.

Remuneration levels, shares and options granted are not dependent upon any performance criteria as the nature of the Company's operations are exploration, and they are not generating profit.

The Company did not use remuneration consultants during the year or prior year.

30 JUNE 2024

REMUNERATION REPORT (AUDITED) (CONTINUED)

Key management personnel equity holdings

Fully paid ordinary shares issued by Gibb River Diamonds Limited

The movement during the reporting year in the number of ordinary shares in the Company held, directly, indirectly or beneficially, by each specified director is as follows:

Director	Opening Balance 1 July 2023	Granted as compensation	Received on exercise of options	Other movement during the year	Closing Balance 30 June 2024
James Richards (i)	41,683,292	-	-	-	41,683,292
Grant Mooney (ii)	9,400,516	-	-	-	9,400,516
Tom Reddicliffe	-	-	-	-	-

Executive unlisted share options issued by Gibb River Diamonds Limited

The movement during the reporting year in the number of unlisted options over ordinary shares in the Company held, directly, indirectly or beneficially, by each specified director is as follows:

Director	Balance as at beginning of year 1 July 2023	Exercised	Expired unexercised	Balance vested at 30 June 2024	Vested but not exercisable	Vested and exercisable 30 June 2024
James Richards (i)	12,000,000	-	(2,000,000)	10,000,000	-	10,000,000
Grant Mooney (ii)	6,000,000	-	(2,000,000)	4,000,000	-	4,000,000
Tom Reddicliffe (iii)	6,000,000	-	(2,000,000)	4,000,000	-	4,000,000

- (i) James Richards holds 33,339,215 shares in his own name and 5,000,000 unlisted options. Llangurig Super Pty Ltd <Jim Richards Super Fund A/c>, in which James Richards is a director and beneficiary holds 8,344,077 shares and 5,000,000 unlisted options.
- (ii) Grant Mooney holds 2,238,888 shares in his own name. Samantha Mooney, spouse of Grant Mooney holds 13,333 shares and Mooney & Partners Pty Ltd of which Grant Mooney is the sole director holds 1,271,628 shares. Ocean Flyers Pty Ltd <S&G Mooney Super Fund>, in which Grant Mooney is a director and beneficiary holds 5,876,667 shares. Grant Mooney holds 4,000,000 options in his own name.
- (iii) Tom Reddicliffe holds 4,000,000 options in his own name.

Services Agreements

Executive Chairman James (Jim) Richards has an employment contract commencing on 1 October 2013 which continues on a month by month basis with one month's termination notice. On 1 July 2022 the directors fee was revised to \$250,000 plus statutory superannuation.

Non-Executive Director Grant Mooney has a Services Agreement commencing on 14 October 2008 which continues on a month by month basis with one month's termination notice. On 1 January 2022 the directors fee was revised to \$35,000 plus statutory superannuation.

Non-Executive Director Tom Reddicliffe has a letter of appointment for no fixed term commencing on 24 March 2020. On 1 January 2022 the directors fee was revised to \$35,000 plus statutory superannuation.

Mooney & Partners Pty Ltd, a company associated with Grant Mooney has a services contract with the Company to provide company secretarial and administrative services to the Company for a period of 3 years commencing on 1 September 2009 which expired on 1 September 2012 and continues on a month by month basis with one month's termination notice. On 1 September 2020, the fee was reinstated to \$48,000 per annum plus GST.

No director or member of senior management are entitled to any termination payment apart from remuneration payable up to and including the termination date and any amounts payable due upon accrued leave.

END OF REMUNERATION REPORT

PROCEEDINGS ON BEHALF OF THE COMPANY

No person has applied for leave of the court to bring proceedings on behalf of the Company or intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or any part of those proceedings. The Company was not a party to such proceedings during the year.

NON-AUDIT SERVICES

During the year there were no non-audit services provided by HLB Mann Judd, nor its related entities.

DIRECTORS' REPORT
30 JUNE 2024

AUDITOR'S INDEPENDENCE DECLARATION

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out on page 10.

Signed on 26 September 2024 in accordance with a resolution of the Board, made pursuant to Section 298(2) of the Corporations Act 2001.

On behalf of the Directors:

JAMES RICHARDS
Executive Chairman

GRANT MOONEY
Non-executive Director

AUDITOR'S INDEPENDENCE DECLARATION

As lead auditor for the audit of the consolidated financial report of Gibb River Diamonds Limited for the year ended 30 June 2024, I declare that to the best of my knowledge and belief, there have been no contraventions of:

- a) the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- b) any applicable code of professional conduct in relation to the audit.

**NOTES TO AND FORMING PART OF THE
CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2024**

Note 1. CORPORATE INFORMATION

Gibb River Diamonds Limited is a for-profit company limited by shares domiciled and incorporated in Australia whose shares are publicly traded on the Australian Securities Exchange Limited.

The address of the registered office and the principal place of business are disclosed on the contents page.

The nature of the operations and principal activities of the Company are described in Note 21 and the Review of Operations at the front of the annual report.

Note 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES

(a) Statement of Compliance

The Financial Report for the Company for the year ended 30 June 2024 was authorised for issue in accordance with a resolution of the Directors on 26 September 2024.

The financial report complies with Australian Accounting Standards, which include Australian equivalents to International Financial Reporting Standards (AIFRS). Compliance with AIFRS ensures that the financial report, comprising the financial statements and notes thereto, complies with International Financial Reporting Standards (IFRS).

(b) Basis of preparation

The financial statements cover Gibb River Diamonds Limited ("the Company") and the entities if controlled ("the Group") during the year ended 30 June 2024. These financial statements are general purpose financial statements, which have been prepared in accordance with the requirements of the Corporations Act 2001, Australian Accounting Standards and other authoritative pronouncements of the Australian Accounting Standards Board. For the purposes of preparing the financial report the Company is a for-profit entity.

The financial statements have been prepared on a historical cost basis, except for selected non-current assets and financial assets which have been measured at fair value as explained in the relevant accounting policies. Historical cost is based on the fair values of the consideration given in exchange for goods and services.

The functional currency is Australian Dollars and rounding is made to the nearest dollar. For GIB Mining Namibia (Pty) Ltd, the functional currency is Namibian Dollars, which are translated into Australian Dollars for consolidation,

Accounting policies have been consistently applied to all financial years presented unless specially stated below.

(c) Adoption of New and Revised Standards

In the year ended 30 June 2024, the Directors have reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to the Company and effective for the current annual reporting period. The Company has assessed the impact of these new standards and has determined that there is no material impact on the financial statements.

Standards and Interpretations in issue not yet effective

The Directors have also reviewed all Standards and Interpretations in issue not yet effective for the year ended 30 June 2023. There are none which have a material impact on the Company.

(d) Income tax

Current tax

Current tax is calculated by reference to the amount of income taxes payable or recoverable in respect of the taxable profit or tax loss for the year. It is calculated using tax rates and tax laws that have been enacted or substantively enacted by reporting date. Current tax for current and prior years is recognised as a liability (or asset) to the extent that it is unpaid (or refundable).

Deferred tax

Deferred tax is accounted for using the liability method. Temporary differences are differences between the tax base of an asset or liability and its carrying amount in the balance sheet. The tax base of an asset or liability is the amount attributed to that asset or liability for tax purposes.

In principle, deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that sufficient taxable amounts will be available against which deductible temporary differences or unused tax losses and tax offsets can be utilised. However, deferred tax assets and liabilities are not recognised if the temporary differences giving rise to them arise from the initial recognition of assets and liabilities (other than as a result of a business combination) which affects neither taxable income nor accounting profit.

**NOTES TO AND FORMING PART OF THE
CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2024**

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the year(s) when the asset and liability giving rise to them are realised or settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by reporting date. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Current and deferred tax for the year

Current and deferred tax is recognised as an expense or income in the profit or loss, except when it relates to items credited or debited to profit or loss (whether in other comprehensive income or directly in equity), in which case the deferred tax is also recognised outside profit or loss, or where it arises from the initial accounting for a business combination, in which case it is taken into account in the determination of goodwill or excess.

(e) Property, plant and equipment

Plant and equipment and leasehold improvements are stated at cost less accumulated depreciation and impairment. Cost includes expenditure that is directly attributable to the acquisition of the item.

Depreciation is provided on property, plant and equipment and is calculated on a straight line basis so as to write off the net cost of each asset over its expected useful life to its estimated residual value. Leasehold improvements are depreciated over the term of the lease or estimated useful life, whichever is the shorter, using the straight line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each annual reporting year.

The following estimated useful lives are used in the calculation of depreciation:

- Furniture & Fittings - 10 years
- Vehicles - 12 years
- Plant & equipment - 3 years
- Buildings & improvements - 7 years

(f) Provisions

Provisions are recognised when the Company has a present obligation, the future sacrifice of economic benefits is probable, and the amount of the provision can be measured reliably.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that recovery will be received and the amount of the receivable can be measured reliably.

(g) Revenue recognition

Interest revenue

Interest revenue is recognised on a time proportionate basis that takes into account the effective yield on the financial asset.

(h) Share-based payments

Equity-settled share-based payments are measured at fair value at the date of grant. Fair value is measured by use of a Black-Scholes model. The expected life used in the model has been adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions, and behavioural considerations.

The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting term, based on the Company's estimate of shares that will eventually vest.

In relation to the acquisition of assets the fair value of the equity issued is used to approximate the fair value of the asset acquired where the fair value of the project has not otherwise been determined reliably.

(i) Exploration and evaluation

The new exploration and evaluation expenditure accounting policy is to expense all exploration and evaluation expenditure as incurred. Expenditure incurred on activities that precede exploration and evaluation of mineral resources, including all expenditure prior to securing legal rights to explore an area, is expensed to profit or loss as incurred.

**NOTES TO AND FORMING PART OF THE
CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2024**

Note 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

(j) Financial instruments

Debt and equity instruments

Debt and equity instruments are classified as either liabilities or as equity in accordance with the substance of the contractual arrangements.

Transaction costs on the issue of equity instruments

Transactions costs arising on the issue of equity instruments are recognised directly in equity as reduction of the proceeds of the equity instruments to which the costs relate. Transaction costs are the costs that are incurred directly in connection with the issue of those equity instruments, and which would not have been incurred had those instruments not been issued.

Recognition and derecognition

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the contractual rights to the cash flows from the financial asset expire, or when the financial asset and substantially all the risks and rewards are transferred.

A financial liability is derecognised when it is extinguished, discharged, cancelled or expires.

Classification and initial measurement of financial assets

Except for those trade receivables that do not contain a significant financing component and are measured at the transaction price in accordance with AASB 15, all financial assets are initially measured at fair value adjusted for transaction costs (where applicable).

For the purpose of subsequent measurement, financial assets, other than those designated and effective as hedging instruments, are classified into the following categories:

- amortised cost
- fair value through profit or loss (FVTPL)
- equity instruments at fair value through other comprehensive income (FVOCI)
- debt instruments at fair value through other comprehensive income (FVOCI).

All income and expenses relating to financial assets that are recognised in profit or loss are presented within finance costs, finance income or other financial items, except for impairment of trade receivables which is presented within other expenses.

The classification is determined by both:

- the entity's business model for managing the financial asset
- the contractual cash flow characteristics of the financial asset.

All income and expenses relating to financial assets that are recognised in profit or loss are presented within finance costs, finance income or other financial items, except for impairment of trade receivables which is presented within other expenses.

Subsequent measurement of financial assets

Financial assets at amortised cost

Financial assets are measured at amortised cost if the assets meet the following conditions (and are not designated as FVTPL):

- they are held within a business model whose objective is to hold the financial assets to collect its contractual cash flows
- the contractual terms of the financial assets give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial recognition, these are measured at amortised cost using the effective interest method.

Discounting is omitted where the effect of discounting is immaterial. The Company's cash and cash equivalents, trade and most other receivables fall into this category of financial instruments as well as listed bonds that were previously classified as held-to-maturity under IAS 39.

Financial assets at fair value through profit or loss (FVTPL)

Financial assets that are held within a different business model other than 'hold to collect' or 'hold to collect and sell' are categorised at fair value through profit and loss. Further, irrespective of business model financial assets whose contractual cash flows are not solely payments of principal and interest are accounted for at FVTPL. All derivative financial instruments fall into this category, except for those designated and effective as hedging instruments, for which the hedge accounting requirements apply.

The category also contains an equity investment. The Company accounts for the investment at FVTPL and did not make the irrevocable election to account for the investment in unlisted and listed equity securities at fair value through other comprehensive income (FVOCI). The fair value was determined in line with the requirements of AASB 9, which does not allow for measurement at cost.

Assets in this category are measured at fair value with gains or losses recognised in profit or loss. The fair values of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.

**NOTES TO AND FORMING PART OF THE
CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2024**

Note 2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

(j) Financial instruments (continued)

Classification and measurement of financial liabilities

The Company's financial liabilities include borrowings, trade and other payables and derivative financial instruments. Financial liabilities are initially measured at fair value, and, where applicable, adjusted for transaction costs unless the Company designated a financial liability at fair value through profit or loss.

Subsequently, financial liabilities are measured at amortised cost using the effective interest method except for derivatives and financial liabilities designated at FVTPL, which are carried subsequently at fair value with gains or losses recognised in profit or loss (other than derivative financial instruments that are designated and effective as hedging instruments).

All interest-related charges and, if applicable, changes in an instrument's fair value that are reported in profit or loss are included within finance costs or finance income.

(p) Impairment of non-financial assets

Derecognition of financial assets

A financial asset is derecognised when the rights to receive cash flows from the asset have expired or the Company has transferred substantially all of the risks and rewards of control of the asset.

At each reporting date, the Company reviews the carrying amounts of its tangible and intangible non-financial assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where the asset does not generate cash inflows that are independent from other assets, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised in profit or loss immediately.

Where an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of its recoverable amount, but only to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (cash-generating unit) in prior years. A reversal of an impairment loss is recognised in profit or loss immediately.

(q) Critical Accounting Estimates and Judgements

The Directors evaluate estimates and judgements incorporated into the financial report based on the grant date historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Company.

Share based payments

The values of amounts recognised in respect of share-based payments have been estimated based on the grant date fair value of the options. To estimate the fair value an option pricing model has been used. There are many variable assumptions used as inputs into the model (which have been detailed in Note 18. If any of these assumptions or estimates were to change this could have a significant effect on the amounts recognised.

(u) Issued capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds. Incremental costs directly attributable to the issue of new shares or options for the acquisition of a new business are not included in the cost of acquisition as part of the purchase consideration.

(v) Earnings/(loss) per share

Basic earnings/(loss) per share is calculated as net profit/(loss) attributable to members of the Company, adjusted to exclude any costs of servicing equity (other than dividends) and preference share dividends, divided by the weighted average number of ordinary shares, adjusted for any bonus element.

Diluted earnings/(loss) per share is calculated as net profit/loss attributable to members of the parent, adjusted for:

- costs of servicing equity (other than dividends) and preference share dividends;
- the after tax effect of dividends and interest associated with dilutive potential ordinary shares that have been recognised as expenses; and
- other non-discretionary changes in revenues or expenses during the period that would result from the dilution of potential ordinary shares; divided by the weighted average number of ordinary shares and dilutive potential ordinary shares, adjusted for any bonus element.

**NOTES TO AND FORMING PART OF THE
CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2024**

Note 3. Revenue

	Consolidated 30 June 2024 \$	Company 30 June 2023 \$
Interest received from financial institutions	67,923	16,576
Total Revenue	67,923	16,576

Note 4. Profit/(Loss)

	Consolidated 30 June 2024 \$	Company 30 June 2023 \$
Expenses		
Depreciation of non-current assets	64,466	56,570
Rental expense on operating leases	23,608	13,161
Share based payment expenses	153,140	397,500

Note 5. Income Tax

Income tax expense

- (a) The prima facie income tax expense on pre-tax accounting loss from operations reconciles to the income tax expense as follows:

Loss from continuing operations before tax

(Benefit) calculated at 30% (2023: 30%)

Effect of higher foreign rates

Non-deductible expenses

Temporary differences not brought to account as a deferred tax asset

Tax losses not brought to account as a deferred tax asset/(realisation of prior tax losses not brought to account)

Income tax benefit at effective rate of 0% (2023: 0%)

	Consolidated 30 June 2024 \$	Company 30 June 2023 \$
Loss from continuing operations before tax	(1,586,093)	(683,912)
(Benefit) calculated at 30% (2023: 30%)	(475,828)	(205,174)
Effect of higher foreign rates	(7,745)	-
Non-deductible expenses	46,146	121,730
Temporary differences not brought to account as a deferred tax asset	(69,562)	(321,017)
Tax losses not brought to account as a deferred tax asset/(realisation of prior tax losses not brought to account)	506,989	404,461
Income tax benefit at effective rate of 0% (2023: 0%)	-	-

Note 5. Income Tax (continued)

(b) Deferred tax liabilities

Add: Other

Recognised deferred tax liabilities

	Consolidated 30 June 2024 \$	Company 30 June 2023 \$
Add: Other	11,204	16,013
Recognised deferred tax liabilities	11,204	16,013

(c) Deferred tax assets

Temporary differences

Recognised deferred tax assets

Temporary differences	11,204	16,013
Recognised deferred tax assets	11,204	16,013

The deferred tax assets and deferred tax liabilities are recognised and fully offset.

Not recognised:

Unrecognised temporary differences

Unrecognised tax losses

Total deferred tax assets not recognised

Tax effect of unrecognised deferred tax assets

Unrecognised temporary differences	1,713,759	2,621,414
Unrecognised tax losses	13,074,720	10,496,946
Total deferred tax assets not recognised	14,788,479	13,118,360
Tax effect of unrecognised deferred tax assets	4,436,544	3,935,508

The net deferred tax asset arising from the tax losses has not been recognised as an asset in the Statement of Financial Position because recovery is not probable.

The taxation benefit of tax losses not brought to account will only be obtained if:

- (i) assessable income is derived of a nature and of an amount sufficient to enable the benefits to be realised;
- (ii) conditions for deductibility imposed by the law are complied with; and
- (iii) no changes in tax legislation adversely affect the realisation of the benefit from the deductions.

- ⁷ Employees' options are exercisable at \$0.065 each, by the expiry date noted above. The options vest immediately.
- ⁸ Native title options are exercisable at \$0.06 each, by the expiry date noted above. The options vest immediately.
- ⁹ Employees' options are exercisable at \$0.05 each, by the expiry date noted above. The options vest immediately.

The weighted average contractual life of options remaining as at 30 June 2024 is 21.77 months (2023: 23.36 months).

Note 18. Reserves

Foreign Currency Translation Reserve

This reserve is used to record the value of foreign currency translations with its subsidiary, Gib Mining Namibia during the year

	Consolidated 30 June 2024 \$	Company 30 June 2023 \$
Opening Balance	-	-
Foreign currency translation movement	1,983	-
Closing balance	1,983	-

Options reserve

This reserve is used to record the value of equity benefits provided to employees, consultants and Directors as part of their remuneration.

	Consolidated 30 June 2024 \$	Company 30 June 2023 \$
Opening Balance	1,601,225	1,713,875
Options expensed during year	153,140	397,500
Less options exercised during the year	-	-
Less expired options (Nil Value)	(753,725)	(510,150)
Closing balance	1,000,640	1,601,225

The Options Reserve arises as the share options granted vest over the vesting period. Amounts are transferred out of the reserve and into issued capital when the options are exercised.

CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2024**

Note 18. Accumulated losses

Using the Black & Scholes options valuation and methodology, the fair value of the options was calculated as at the grant date. The following inputs were used for options issue during the year:

INPUT	EMPLOYEE OPTIONS	NATIVE TITLE OPTIONS	EMPLOYEE OPTIONS	EMPLOYEE OPTIONS
Exercise price	\$0.05	\$0.065	\$0.068	\$0.065
Share price	\$0.03	\$0.033	\$0.048	\$0.047
Grant date	22/12/2023	29/01/2024	6/06/2024	25/06/2024
Expected volatility (i)	100%	100%	100%	100%
Expiry date	22/12/2026	12/12/2026	6/06/2026	26/06/2026
Expected dividends	Nil	Nil	Nil	Nil
Risk free interest rate	4.35%	4.35%	4.35%	4.35%
Value per option	\$0.0162	\$0.0167	\$0.022	\$0.0219
Number of options	2,500,000	6,000,000	500,000	2,000,000
Value of options	\$40,500	\$100,200	\$11,000	\$43,800

(i) Volatility using the Black & Scholes method was determined by reviewing similar companies for a similar period.

	Consolidated 30 June 2024 \$	Company 30 June 2023 \$
Balance at the beginning of the year	(16,662,717)	(16,488,955)
Net loss for the year	(1,586,093)	(683,912)
Transfer from share option reserve (expired options)	753,725	510,150
Balance at the end of the year	(17,495,085)	(16,662,717)

Note 19. Statement of Operations by Segment

The Company has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors (chief operating decision makers) in assessing performance and determining the allocation of resources. The Company operates solely in the natural resources exploration industry in Australia and has determined that this is the only operating segment. The Company is predominantly involved in mineral exploration and development.

Note 20. Related Party Transactions

a) Key management personnel compensation

Details of key management personnel compensation are disclosed in Note 7 to the financial statements.

b) Transactions with director related entities

During the year, Mooney & Partners Pty Ltd, a company associated with Grant Mooney was paid for Company secretarial services provided to the Company totalling \$48,000 (2023: \$48,000). This amount is included in Mr Mooney's remuneration in the remuneration report.

c) Subsidiaries

The consolidated financial statements incorporate the assets, liabilities and results of the following subsidiary:

Name	Country of Incorporation	Percentage Ownded 2024	Percentage Ownded 2024
GIB Mining Namibia (Pty) Ltd ¹	Namibia	100%	0%

¹ Company was incorporated by the group.

**NOTES TO AND FORMING PART OF THE
CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2024**

Note 21. Financial Instruments

(a) Overview

The Company's principal financial instruments comprise receivables, payables, cash, equity investments and short-term deposits. The main risks arising from the Company's financial instruments are interest rate risk, credit risk, liquidity risk and commodity prices risk.

This note presents information about the Company's exposure to each of the above risks, its objectives, policies and processes for measuring and managing risk, and the management of capital. All financial assets and liabilities are held at amortised cost, with the exception of financial assets at fair value through profit or loss (Note 11).

(b) Interest rate risk

The Company's exposure to interest rate risk, which is the risk that a financial instrument's value will fluctuate as a result of changes in market interest rates and the effective average interest rates in classes of financial assets and liabilities is as follows:

2024	Average Effective Interest Rate %	Fixed Interest Rate \$	Floating Interest Rate \$	Non-Interest Bearing \$	Total \$
Financial assets:					
Operating accounts	-	-	-	12,011	12,011
Savings accounts	1.35%	-	183,547	-	183,547
Term deposits	4.08%	1,541,674	-	-	1,541,674
Receivables	-	-	-	55,317	55,317
Financial assets	-	-	-	5,250	5,250
		1,541,674	183,547	72,578	1,797,799
Financial liabilities:					
Accounts payable	-	-	-	119,978	119,978
Lease Liability current	4.6%	28,267	-	-	28,267
		28,267	-	119,978	148,245

2023	Average Effective Interest Rate %	Fixed Interest Rate \$	Floating Interest Rate \$	Non-Interest Bearing \$	Total \$
Financial assets:					
Operating accounts	-	-	-	29,486	29,486
Savings accounts	-	-	122,358	-	122,358
Term deposits	-	607,190	-	-	607,190
Receivables	-	-	-	60,116	60,116
Financial assets	-	-	-	2,322,813	2,322,813
		607,190	122,358	2,412,415	3,141,963
Financial liabilities:					
Accounts payable	-	-	-	70,758	70,758
Lease Liability current	4.6%	27,530	-	-	27,530
		27,530	-	70,758	98,288

The Company's exposure to interest rate risks is not material.

(c) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. This arises principally from cash and cash equivalents and trade and other receivables.

There are no significant concentrations of credit risk within the Company. The carrying amount of the Company's financial assets represents the maximum credit risk exposure, as represented below:

	Consolidated 30 June 2024 \$	Company 30 June 2023 \$
Cash and cash equivalents	1,737,232	759,034
Trade and other receivables	55,317	60,116
	1,792,549	819,150

**NOTES TO AND FORMING PART OF THE
CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2024**

Note 22. Financial Instruments (continued)

(d) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Board's approach to managing liquidity is to ensure, as far as possible, that the Company will always have sufficient liquidity to meet its liabilities when due, by insuring sufficient liquid funds are available on short term maturities.

The maturity of all current financial assets and liabilities is less than six months. The only other is the non-current lease liability which is not material.

(e) Commodity price risk

The Company is exposed to commodity price risk. Commodity prices can be volatile and are influenced by factors beyond the Company's control. As the Company is currently engaged in exploration and business development activities, no sales of commodities are forecast for the next 12 months, and accordingly, no hedging or derivative transactions have been used to manage commodity price risk.

(f) Fair Value

The net fair value of financial assets and financial liabilities approximate their carrying value. Net fair value and carrying amounts of financial assets and financial liabilities are disclosed in the statement of financial position and in the notes to and forming part of the financial statements.

Financial assets and financial liabilities measured at fair value in the statement of financial position are grouped into three (3) levels of a fair value hierarchy. The three (3) levels are defined based on the observability of significant inputs to the measurement, as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
- Level 3: unobservable inputs for the asset or liability

The following table shows the levels within the hierarchy of financial assets and liabilities measured at fair value on a recurring basis.

30 June 2024	Level 1	Level 2	Level 3	Total
Financial Assets:				
Listed Shares	5,250	-	-	5,250
Net fair value:	5,250	-	-	5,250

30 June 2023	Level 1	Level 2	Level 3	Total
Financial Assets:				
Listed Shares	2,322,813	-	-	2,322,813
Net fair value:	2,322,813	-	-	2,322,813

There were no transfers between Level 1 and Level 2 in 2023 or 2024.

Fair values of these listed securities have been estimated by reference to quoted bid prices in active markets at the reporting date and are categorised within Level 1 of the fair value hierarchy above.

At balance date the majority of the Company's equity price risk relates to its holding in Strickland Metals Limited. (2023: Burgundy Diamond Mines Limited. The 12 month volatility of the Burgundy stock was 89%)

Note 23. Earnings/(loss) per Share

Basic loss per share (cents per share)
Diluted loss per share (cents per share)

Consolidated 2024 Cents	Company 2023 Cents
(0.75)	(0.32)
(0.75)	(0.32)

Basic Loss per Share

The earnings and weighted average number of ordinary shares used in the calculation of basic earnings per share are as follows:

Loss after income tax expense

Consolidated 30 June 2024 \$	Company 30 June 2023 \$
(1,586,093)	(683,912)

Weighted average number of ordinary shares

Weighted average number of dilutive ordinary shares

Consolidated 2024 No.	Company 2023 No.
211,509,445	211,509,445
211,509,445	211,509,445

**NOTES TO AND FORMING PART OF THE
CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2024**

Note 24. Significant Events Subsequent to Year End

In September 2024, the Group purchased a mining lease and mining data at an adjacent tenement in Edjudina. This transaction was satisfied by the issue of 3,000,000 Gibb shares.

Other than above, there was no matter or circumstance subsequent to the end of the year that has significantly affected the operations of the Company, the results of operations or the state of affairs in future financial years.

Note 25. Contingent Liabilities

In June 1992 the High Court of Australia held in the Mabo case that the common law of Australia recognises a form of native title. The full impact that the Mabo decision may have on tenements held by the Company is not yet known. The Company is aware of native title claims that have been lodged with the National Native Title Tribunal ("the Tribunal") over several areas in the Northern Territory in which the Company holds interests. The native title claims have been accepted by the Tribunal for determination under section 63(1) of the Native Title Act 1993 (Commonwealth). There is no information at balance date known to Directors which would result in an impairment trigger or potential loss of tenements.

Note 26. Exploration Expenditure Commitments

The Company has minimum statutory commitments as conditions of tenure of certain mining tenements. Whilst these obligations may vary, a reasonable estimate of the minimum commitment projected for the next 12 months if it is to retain all of its present interests in mining and exploration properties is \$281,320 (2023: \$112,980).

Note 27. Parent Entity

The following information has been extracted from the books and records of the parent and has been prepared using accounting policies that are consistent with this financial report.

STATEMENT OF FINANCIAL POSITION	Parent 2024 \$

DIRECTORS' DECLARATION

1. In the opinion of the directors of Gibb River Diamonds Limited ("the Company")
 - a. the accompanying financial statements and notes are in accordance with the Corporations Act 2001 including:
 - i. giving a true and correct view of the Company's financial position as at 30 June 2024 and of its performance for the year then ended; and
 - ii. complying with Australian Accounting Standards, the Corporations Regulations 2001, professional reporting requirements and other mandatory requirements.
 - b. there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.
 - c. the financial statements and notes thereto are in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board.
 - d. The consolidated entity disclosure statement is true and correct.
2. This declaration has been made after receiving the declarations required to be made to the Directors in accordance with Section 292A of the Corporations Act 2001 for the financial year ended 30 June 2024.

This declaration is signed in accordance with a resolution of the Board of Directors.

JAMES RICHARDS
Chairman

GRANT MOONEY
Non-executive Director

Dated this 26th day of September 2024

INDEPENDENT AUDITOR'S REPORT

To the Members of Gibb River Diamonds Limited

Report on the Audit of the Financial Report*Opinion*

We have audited the financial report of Gibb River Diamonds Limited ("the Company") and its controlled entities ("the Group"), which comprises the consolidated statement of financial position as at 30 June 2024, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, notes to the financial statements, including material accounting policy information, the consolidated entity disclosure statement and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the Group's financial position as at 30 June 2024 and of its financial performance for the year then ended; and
- (b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* ("the Code") that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	How our audit addressed the key audit matter
Accounting for financial assets at fair value through profit or loss Refer to Note 11	
<p>The Group holds equity interests in listed companies. The Group is required to consider its accounting policy in relation to this asset in light of accounting standard AASB 9 Financial Instruments and has elected to measure these investments at fair value through profit or loss ("FVTPL").</p> <p>We considered this to be a key audit matter due to this item representing a significant asset of the Group of which the Group sold a significant number of investments during the year and recorded material cash receipts of \$2.18 million in relation to the sale.</p>	<p>Our audit procedures included but were not limited to the following:</p> <ul style="list-style-type: none"> - We verified a sample of the listed investments sold during the year to external trade confirmations and verified the receipt of the proceeds to bank statements; - We ensured that the Group accounted for the disposal of the equity investments in accordance with AASB 9 - We verified that the Group had ownership of the listed investments at balance date; - We verified the closing fair value of the listed investments and fair value movements with reference to readily available market; and - We assessed the adequacy of the Group's disclosures in the financial report relating to its equity investments.

Other Information

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2024, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report, or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of:

- (a) the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001*; and
- (b) the consolidated entity disclosure statement that is true and correct in accordance with the *Corporations Act 2001*, and

for such internal control as the directors determine is necessary to enable the preparation of:

- (a) the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and
- (b) the consolidated entity disclosure statement that is true and correct and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON THE REMUNERATION REPORT

Opinion on the Remuneration Report

We have audited the Remuneration Report included within the Directors' Report for the year ended 30 June 2024.

In our opinion, the Remuneration Report of Gibb River Diamonds Limited for the year ended 30 June 2024 complies with Section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with Section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
