

MACH7 PARTNERS WITH ZEBRA MEDICAL VISION

Melbourne, Australia; 13 November 2017: Mach7 Technologies Limited (**Mach7** or the **Company**) (ASX:M7T) today announced that it has signed a strategic partnership with Zebra Medical Vision (**Zebra-Med**), which is empowering radiologists with its revolutionary Artificial Intelligence (**A.I.**) technology. As previously communicated, the 3rd Generation Mach7 healthcare data services platform “Sage”, supports an ecosystem of advanced applications.

Zebra-Med is a leading imaging analytics company which offers an A.I. engine that can automatically detect various medical findings in imaging scans. The Zebra Radiology Assistant will be seamlessly integrated into the Mach7 platform so that reading Radiologists can access the analytic results from Zebra-Meds algorithms right at the point of care.

Elad Benjamin, Zebra Medical Vision Co-founder and CEO added: “Our partnership will enable Mach7 customers to make the leap into imaging A.I. with an affordable option that is seamlessly integrated with Mach7’s imaging platform. Together, our solution will transform radiologist workflow and transform patient care by enabling A.I. where and when it is needed.”

Mike Jackman, Mach7 CEO said: “We’re thrilled to work with Zebra-Med and include them as part of the Mach7 ecosystem of clinical apps. Our application neutral Sage Healthcare Data Services platform, coupled with Zebra-Med’s A.I. algorithm, will enable efficiencies to maximize radiologist productivity and contribute to overall improved patient care.”

Mach7 will sell to its existing and new customers the Zebra-Med applications as part of the new Sage analytics studio.

About Mach7 Technologies:

Mach7 Technologies (ASX:M7T) develops innovative enterprise imaging IT solutions that create a clear and complete view of the patient to inform diagnosis, reduce care delivery delays and costs, and improve patient outcomes. Mach7’s award-winning enterprise imaging platform provides a vendor neutral foundation for unstructured data consolidation and communication to power interoperability and enables healthcare enterprises to build their best-of-breed clinical ecosystems. Mach7’s sophisticated workflow tools, advanced [clinical viewing](#) and optimized [vendor neutral archiving](#) solutions unlock silos of legacy systems empowering healthcare providers to own, access and share patient data without boundaries.
